- (2) Any determination or instruction in terms of this Act must be in writing. 30

Objects of Act

2. The objects of this Act are to—
- (a) provide for the equitable division of revenue raised nationally among the three spheres of government;
- (b) promote better co-ordination between policy, planning, budget preparation and execution processes between and within the different spheres of government; 35
- (c) promote predictability and certainty in respect of all allocations to provinces and municipalities in order that such governments may plan their budgets over a multi-year period; 40
- (d) promote transparency and equity in the resource allocation process; and
- (e) promote accountability by ensuring that all allocations are reflected on the budgets of receiving provinces and municipalities.

CHAPTER 2

EQUITABLE SHARE ALLOCATIONS 45

Equitable division of revenue raised nationally among spheres of government

3. (1) Revenue raised nationally in respect of the financial year must be divided among the national, provincial and local spheres of government for their equitable share allocations as set out in Column A of Schedule 1.
- (2) An envisaged division of revenue anticipated to be raised in respect of the next financial year and the 2009/10 financial year, and which is subject to the provisions of the annual Division of Revenue Act in respect of those financial years, is set out in Column B of Schedule 1. 50

Equitable division of provincial share among provinces

4. (1) Each province's equitable share of the provincial share of revenue raised nationally in respect of the financial year is set out in Column A of Schedule 2.
- (2) An envisaged division for each province of revenue anticipated to be raised nationally in respect of the next financial year and the 2009/10 financial year, and which is subject to the provisions of the annual Division of Revenue Act for those financial years, is set out in Column B of Schedule 2. 5
- (3) Each province's equitable share allocation contemplated in subsection (1) must be transferred to the corporation for public deposits account of the province, in accordance with a payment schedule determined by the National Treasury in terms of section 33. 10

Equitable division of local government share among municipalities

5. (1) Each municipality's share of local government's equitable share of revenue raised nationally in respect of the financial year, is set out in Column A of Schedule 3.
- (2) An envisaged division between municipalities of revenue anticipated to be raised nationally in respect of the next financial year and the 2009/10 financial year, and which is subject to the provisions of the annual Division of Revenue Act for those financial years, is set out in Column B of Schedule 3. 15
- (3) Each municipality's equitable share contemplated in subsection (1) must be transferred to the primary bank account of the municipality in three transfers before the end of July, November and February in the financial year, in accordance with a payment schedule determined by the National Treasury in terms of section 33. 20

Shortfalls and excess revenue

6. (1) If actual revenue raised nationally in respect of the financial year falls short of the anticipated revenue set out in Schedule 1, the national government bears the shortfall. 25
- (2) If actual revenue raised nationally in respect of the financial year exceeds the anticipated revenue set out in Schedule 1, the excess accrues to the national government, subject to subsection (3), to be used to reduce borrowing or pay debt as part of its share of revenue raised nationally, in addition to its share in column A of Schedule 1.
- (3) The national government may appropriate a portion of its equitable share or excess revenue contemplated in subsection (2) to make further allocations in an adjustments budget to— 30
- (a) national departments; or
 - (b) provinces or municipalities, as a conditional or an unconditional allocation.

CHAPTER 3 35

CONDITIONAL ALLOCATIONS TO PROVINCES AND MUNICIPALITIES

Part 1

Conditional allocations

Conditional allocations to provinces

7. (1) Conditional allocations to provinces in respect of the financial year from the national government's share of revenue raised nationally are set out in Column A of the following Schedules: 40
- (a) Schedule 4 specifying allocations to provinces to supplement the funding of programmes or functions funded from provincial budgets; and
 - (b) Schedule 5 specifying specific-purpose allocations to provinces. 45
- (2) An envisaged division of conditional allocations to provinces from the national government's share of revenue anticipated to be raised nationally for the next financial year and the 2009/10 financial year, which is subject to the annual Division of Revenue Act for those years, is set out in Column B of the Schedules referred to in subsection (1).

Conditional allocations to municipalities

8. (1) Conditional allocations to local government in respect of the financial year from the national government's share of revenue raised nationally are set out in Column A of the following Schedules:
- (a) Schedule 4 specifying allocations to municipalities to supplement the funding of functions funded from municipal budgets; and 5
 - (b) Schedule 6 specifying specific-purpose allocations to municipalities; and
 - (c) Schedule 7 specifying allocations-in-kind to municipalities for designated special programmes.
- (2) An envisaged division of conditional allocations to local government from the national government's share of revenue anticipated to be raised nationally for the next financial year and the 2009/10 financial year, which is subject to the annual Division of Revenue Act for those years, is set out in Column B of the Schedules referred to in subsection (1). 10
- (3) The National Treasury must publish the share of each municipality in respect of the local government allocations contemplated in subsections (1) and (2) in the *Gazette* in terms of section 22. 15

Part 2

Duties of accounting authorities and treasuries in respect of Schedule 4, 5, 6 or 7 allocations 20

Duties of transferring national officer in respect of Schedule 4 allocation

9. (1) The transferring national officer of a Schedule 4 allocation is responsible for—
- (a) ensuring that transfers to all provinces and municipalities are made in accordance with the payment schedule approved in terms of section 33, unless allocations are withheld or stopped in terms of section 25 or 26; 25
 - (b) monitoring expenditure and non-financial performance information on programmes funded by an allocation, provided that any monitoring programme or system—
 - (i) is approved by the National Treasury;
 - (ii) does not impose any undue administrative burden on receiving provinces and municipalities beyond the provision of standard management information; 30
 - (iii) is compatible and integrated with and does not duplicate other relevant and related national, provincial and local systems; and
 - (iv) is consistent with sections 11(2) and 23. 35
 - (c) evaluating the performance of programmes funded or partially funded by the allocation and the submission of such evaluations to the National Treasury within four months in respect of a province and six months in respect of a municipality after the end of the financial year.
- (2) Where two or more national departments have responsibilities relating to a Schedule 4 allocation, the transferring national officer must co-ordinate the roles and responsibilities of such national departments and ensure that those roles and responsibilities— 40
- (a) are exercised in a manner that does not duplicate the responsibilities as set out in subsection (1); and 45
 - (b) do not impose any undue administrative burden on provinces or municipalities beyond the provision of standard management information.

Duties of transferring national officer in respect of Schedule 5, 6 or 7 allocation

10. (1) A transferring national officer must—
- (a) not later than 14 days after this Act takes effect certify to the National Treasury that— 50
 - (i) allocation frameworks, including conditions and monitoring provisions, are reasonable and do not impose an undue administrative burden on receiving provincial governments and municipalities beyond the provision of standard management information; 55

- (ii) monitoring provisions are compatible and integrated with and do not duplicate other relevant and related national, provincial and local systems;
 - (iii) in respect of a Schedule 5 allocation, any business plans requested in respect of how allocations will be utilised by a province have been approved prior to the start of the financial year;
 - (iv) in respect of a Schedule 6 allocation, any business plans requested in respect of how allocations will be utilised by a municipality have been approved prior to the start of the municipal financial year;
 - (b) transfer funds only after information required in terms of this Act has been provided to the National Treasury;
 - (c) transfer funds only in accordance with a payment schedule determined in accordance with section 33;
 - (d) deposit funds only into the primary bank account of a province or municipality, or, where appropriate, into the corporation for public deposits account of a province or the bank account designated for transfer of the Gautrain Rapid Rail Link allocation in accordance with section 16; and
 - (e) ensure that all other arrangements or requirements necessary for the transfer of an allocation have been complied with prior to the start of the financial year.
- (2) The transferring national officer must submit all information and documentation referred to in subsection (1) (a) to the National Treasury within 14 days after this Act takes effect.
- (3) A transferring national officer who has not complied with subsection (1) must transfer such allocation as may be instructed by the National Treasury, including as an unconditional allocation.
- (4) Before making the first transfer of any allocation, the transferring national officer must take note of any notice in terms of section 32(1) from the National Treasury outlining the details of the account for each province or municipality.
- (5) Despite anything to the contrary contained in any law, a transferring national officer must in respect of any allocation, as part of the report contemplated in section 40(4)(c) of the Public Finance Management Act, not later than 20 days after the end of each month, and in the format determined by the National Treasury, submit to the National Treasury, information for the month reported on and for the financial year up to the end of that month, on—
- (a) the amount of funds transferred to a province or municipality;
 - (b) the amount of funds withheld or stopped from any province or municipality, the reasons for the withholding or stopping and the steps taken by the transferring national officer and the receiving officer to deal with the matters or causes that necessitated the withholding or stopping of the payment;
 - (c) the actual expenditure incurred by the province or municipality in respect of a Schedule 5 or 6 allocation;
 - (d) the actual expenditure incurred by the transferring national officer in respect of a Schedule 7 allocation; and
 - (e) such other issues as the National Treasury may determine.
- (6) The transferring national officer must evaluate the performance of programmes funded or partially funded by the allocation and submit such evaluations to the National Treasury within four months in respect of a province and six months in respect of a municipality after the end of the financial year.

Duties of receiving officer in respect of Schedule 4 allocation

- 11.** (1) A receiving officer is responsible for—
- (a) complying with the framework for a Schedule 4 allocation as published in terms of section 22; and
 - (b) the manner in which it allocates and spends a Schedule 4 allocation.
- (2) The receiving officer of a municipality must—
- (a) ensure and certify to the National Treasury that the municipality—
 - (i) indicates, or if required, exclusively appropriates each programme funded or partially funded by this allocation in its annual budget; and
 - (ii) makes public, in accordance with the requirements of section 21A of the Municipal Systems Act, the conditions and other information in respect of the allocation to facilitate performance measurement and the use of required inputs and outputs; and

- (b) as part of the report required in terms of section 71 of the Municipal Finance Management Act, report to the National Treasury and the transferring national officer on spending and performance against programmes.
- (3) The receiving officer in a province must—
 - (a) submit, as part of the report required in section 40(4)(c) of the Public Finance Management Act, reports to the relevant provincial treasury on spending and performance against programmes; and 5
 - (b) submit a quarterly performance report within 30 days after the end of each quarter to the transferring national officer.
- (4) The receiving officer must report against programmes funded or partially funded by a Schedule 4 allocation against the relevant framework in its annual financial statements and annual report. 10
- (5) The receiving officer must, within two months after the end of the financial year and where relevant the municipal financial year, evaluate its performance in respect of programmes funded or partially funded by an allocation and submit such evaluation to the transferring national officer. 15

Duties of receiving officer in respect of Schedule 5 or 6 allocation

- 12. (1) The relevant receiving officer must, in respect of an allocation transferred to—
 - (a) a province, as part of the report required in section 40(4)(c) of the Public Finance Management Act, submit a report to the relevant provincial treasury and the transferring national officer; and 20
 - (b) a municipality, as part of the report required in terms of section 71 of the Municipal Finance Management Act, submit a report to the relevant transferring national or provincial officer.
- (2) A report by a province in terms of subsection (1) must set out for that month and for the financial year up to the end of that month— 25
 - (a) the amount received by the province;
 - (b) the amount of funds stopped or withheld from the province;
 - (c) the actual expenditure by the province in respect of a Schedule 5 allocation;
 - (d) the extent of compliance with the conditions of an allocation provided for in a framework and with this Act; 30
 - (e) an explanation for any material problems experienced by the province regarding an allocation which has been received and a summary of the steps taken to deal with such problems; and
 - (f) such other issues and information as the National Treasury may determine. 35
- (3) (a) Subsections (1)(a) and (2) do not apply to the receiving officer of the Gautrain Rapid Rail Link allocation.
 - (b) The receiving officer of the Gautrain Rapid Rail Link allocation must at the end of each quarter submit a report to the transferring national officer, detailing the payment made in that quarter to meet its payment obligation in terms of the public-private partnership agreement entered into by the province in accordance with regulations issued under the Public Finance Management Act. 40
 - (c) Copies of payment certificates issued in terms of the public-private partnership agreement must be submitted together with the reports referred to in paragraph (b).
- (4) A report by a municipality in terms of subsection (1) must set out for that month and for the financial year up to the end of that month— 45
 - (a) the amount of funds stopped or withheld from the municipality;
 - (b) the extent of compliance with the conditions of an allocation provided for in a framework and with this Act;
 - (c) an explanation for any material problems experienced by the municipality regarding an allocation which has been received and a summary of the steps taken to deal with such problems or the effect of such variations; and 50
 - (d) such other issues and information as the National Treasury may determine.
- (5) The receiving officer of the 2010 FIFA World Cup Stadiums Development Grant must in addition to subsection (1)— 55
 - (a) include in the report contemplated in subsection (1) the cash flow projections for the stadium construction or upgrading in the format determined by the transferring national officer; and
 - (b) attach to the report contemplated in subsection (1) copies of payment certificates issued in terms of the construction contract entered into by the 60

municipality in accordance with regulations issued under the Municipal Finance Management Act.

(6) The receiving officer must, within two months after the end of the financial year and where relevant the municipal financial year, evaluate its performance in respect of programmes or functions funded or partially funded by an allocation and submit such evaluation to the transferring national officer. 5

Duties in respect of annual financial statements and annual reports for 2007/08

13. (1) The 2007/08 financial statements of a national department transferring any funds in respect of an allocation set out in Schedule 4, 5, 6 or 7 must, in addition to any requirements in terms of any other applicable law— 10

- (a) indicate the total amount of that allocation transferred to a province or municipality;
- (b) indicate the transfers, if any, that were withheld in respect of each province or municipality;
- (c) indicate any re-allocations by the National Treasury in terms of section 27; 15
- (d) certify that all transfers to a province or municipality were deposited into the primary bank account of a province or municipality, or where appropriate, into the corporation for public deposits account of a province; and
- (e) indicate the funds, if any, utilised for the administration of the allocation by the receiving officer. 20

(2) The 2007/08 annual report of a national department transferring any funds in respect of an allocation set out in Schedule 4, 5, 6 or 7 must, in addition to any requirements in terms of any other applicable law—

- (a) indicate the reasons for the withholding of any transfers to a province or municipality; 25
- (b) indicate to what extent provinces or municipalities were monitored for compliance with the conditions of an allocation provided for in the relevant framework and the provisions of this Act;
- (c) indicate to what extent the allocation achieved its purpose and outputs; and
- (d) indicate any non-compliance with this Act, and the steps taken to deal with such non-compliance. 30

(3) The 2007/08 financial statements of a provincial department receiving an allocation in terms of Schedule 4 or 5, must, in addition to any requirements in terms of any other applicable law—

- (a) indicate the total amount of all allocations received; 35
- (b) indicate the total amount of actual expenditure on all allocations except Schedule 4 allocations; and
- (c) certify that all transfers in terms of this Act to the province were deposited into the primary bank account of the province, or where appropriate, into the corporation for public deposits account of a province. 40

(4) The 2007/08 annual report of a provincial department receiving an allocation in terms of Schedule 4 or 5, must, in addition to any requirements in terms of any other applicable law—

- (a) indicate to what extent the province met the conditions, provided for in the relevant framework of such an allocation, and complied with the provisions of this Act; 45
- (b) indicate the extent to which the objectives and outputs of the allocation were achieved; and
- (c) contain such other information as the National Treasury may determine. 50

(5) The 2007/08 financial statements and annual report of a municipality must be prepared in accordance with the Municipal Finance Management Act.

(6) The National Treasury may determine how transferring departments and receiving municipalities report on local government allocations on a quarterly basis to facilitate the audit of allocations for both the national and municipal financial years.

Part 3**Matters relating to specific Schedule 4 allocations****Infrastructure Grant to Provinces**

14. (1) The Infrastructure Grant to Provinces set out in Schedule 4 supplements the funding of infrastructure programmes funded from provincial budgets to enable provinces to address backlogs in provincial infrastructure. 5

(2) A province must ensure that its provincial departments responsible for education, health and roads—

(a) are responsible for all capital and maintenance budgets and spending for those functions; 10

(b) enter into, implement and manage service delivery agreements with national or provincial departments, national or public entities and any other organs of state, where such departments, entities or other organs of state manage or undertake construction or maintenance on their behalf; and

(c) participate, together with the provincial department responsible for public works in the Infrastructure Delivery Improvement Programme facilitated by the National Treasury, unless the National Treasury exempts any such department from participation. 15

(3) (a) A province, in allocating the Infrastructure Grant to Provinces—

(i) must take into account the capacity of the receiving provincial department to spend and manage infrastructure, based on the extent of any approved roll-overs in the 2006/07 financial year and any projected roll-overs in the 2007/08 financial year; and 20

(ii) may, where a receiving provincial department lacks capacity designate an amount not exceeding four percent of the allocation for acquiring such capacity, to facilitate delivery. 25

(b) The percentage referred to in subsection (3)(a)(ii) must be informed by a capacity plan prepared by the receiving provincial department and approved by the provincial treasury.

Municipal Infrastructure Grant 30

15. (1) The Municipal Infrastructure Grant set out in Schedule 4 supplements the funding of infrastructure programmes funded from municipal budgets to enable municipalities to address backlogs in municipal infrastructure required for the provision of basic services.

(2) The Municipal Infrastructure Grant— 35

(a) must be transferred, directly to a category A, B or C municipality that has the powers and functions referred to in section 84 of the Municipal Structures Act to provide municipal infrastructure in respect of those powers and functions; and

(b) may be transferred via the relevant category C municipality to a category B municipality if— 40

(i) the allocation to the category B municipality is less than R2 million; or

(ii) the transferring national officer, in consultation with the National Treasury, identifies the category B municipality as not being able to manage or administer the allocation. 45

(3) Allocations referred to in subsection (2)(b) must be listed as an allocation to the category B municipality in the publications referred to in section 22(1)(a).

(4) A municipality receiving the Municipal Infrastructure Grant must table a three-year capital budget as part of its budget for the 2007/08 financial year in accordance with the Municipal Finance Management Act, unless exempted in terms of that Act. 50

*Part 4**Matters relating to specific Schedule 5 allocations***Gautrain Rapid Rail Link Grant**

16. (1) The transferring national officer of the Gautrain Rapid Link Grant must, in addition to the duties contemplated in sections 12 and 33, take appropriate steps to ensure that transfers are made timely and in a manner that allows the province to meet its payment obligation in terms of the public-private partnership agreement entered into by the province in accordance with regulations issued under the Public Finance Management Act. 5

(2) The transferring national officer must transfer the Gautrain Rapid Rail Link allocation to the bank account designated for transfer in the dedicated banking account configuration established for the transfer of the Gautrain Rapid Rail Link allocation in accordance with a directive issued by the National Treasury under section 10(2)(a) of the Division of Revenue Act, 2006. 10

Integrated Housing and Human Settlement Development Grant: Accreditation of municipalities 15

17. (1) The receiving officer of an Integrated Housing and Human Settlement Development allocation must—

(a) facilitate applications for accreditation in terms of section 10 of the Housing Act, 1997 (Act No. 107 of 1997), and the accreditation framework from all municipalities identified by the transferring national officer in respect of each province; and 20

(b) before 28 November 2007, consider the applications of the municipalities and inform their accounting officers of the granting or refusal of the application for accreditation. 25

(2) (a) A municipality whose accreditation application was refused may lodge an objection to the refusal with the transferring national officer.

(b) The transferring national officer must on receipt of an objection take all necessary steps to facilitate accreditation as soon as possible, but no later than 60 days after the objection was received. 30

(3) Accreditation granted in terms of subsection (1) must be implemented progressively and must at least include—

(a) authority to administer housing programmes, including the administration of all housing subsidy applications; 35

(b) authority to grant subsidies and approve projects, subject to subsection (4), to be funded from uncommitted housing subsidy funds from the 2008/09 financial year; 40

(c) an obligation to comply with the capacity and system requirements prescribed by the provincial accounting officer responsible for housing;

(d) an obligation to provide reports on housing demand and delivery to the provincial accounting officer quarterly or at shorter intervals when requested; and 45

(e) an obligation to provide information on the levying and collection of rental in respect of all municipal owned houses to the provincial accounting officer.

(4) An accredited municipality must, in exercising its authority in terms of subsection (3)(b)— 45

(a) take into account any criteria for the prioritisation of projects as determined by the province;

(b) comply with national housing policies and programmes; and

(c) participate in housing programme forums established by the transferring national department. 50

(5) Accreditation in terms of the Housing Act, 1997 (Act No. 107 of 1997), does not constitute an assignment for the purposes of section 3 of the Financial and Fiscal Commission Act, 1997 (Act No. 99 of 1997), section 35 of the Public Finance Management Act and sections 9 and 10 of the Municipal Systems Act. 55

(6) (a) The receiving officer must in the interest of facilitating the commencement and continued implementation of the housing programme consider advancing a portion of

the allocation for the financial year, on such conditions as it may determine, to a municipality when requested to do so by the municipality.

(b) Where a dispute arises between a receiving officer and a municipality in respect of the need for an advance referred to in paragraph (a), the municipality may request the transferring national officer to mediate the dispute. 5

(c) The transferring national officer must on receipt of a request referred to in paragraph (b) take all necessary steps to resolve the dispute as soon as possible, but no later than 60 days after the request was received.

(d) No advance in terms of paragraph (a) may be made in respect of implementation activities to be undertaken in the next financial year. 10

(7) No allocation referred to in section 31(1)(b)(i) or (ii) made to a municipality as a result of the accreditation of that municipality, may be amended unless the relevant transferring national officer has agreed to the proposed amendment.

Matters relating to specific Schedule 6 allocations 15

2010 FIFA World Cup Stadiums Development Grant

18. (1) The transferring national officer of a 2010 FIFA World Cup Stadiums Development Grant must, in addition to the duties contemplated in section 10, take appropriate steps to ensure that—

(a) spending on stadiums in each World Cup Host City— 20

(i) does not exceed the amounts appropriated for that purpose on municipal budgets; and

(ii) are in accordance with the approved payment schedule;

(b) the Municipal Finance Management Act is adhered to; and

(c) expert technical, engineering and project management support necessary to ensure the construction or upgrading of the relevant stadiums are provided to the World Cup Host Cities. 25

(2) A receiving officer must, in addition to the duties contemplated in section 12—

(a) ensure that the amount budgeted for the construction or upgrading of the relevant stadium and supporting infrastructure takes into account the allocation and indicative allocations for the grant set out in Column B of Schedule 5; 30

(b) ensure that procurement processes, contract specifications and project management activities comply with all requirements set by the transferring national officer; 35

(c) ensure that spending is in accordance with the approved payment schedule; and

(d) in addition to complying with the reporting requirements set out in section 12, provide such information and reports, within the specified timeframes, to the transferring national officer as he or she may request in the performance of the duties provided for in subsection (1). 40

(3) (a) The transferring national officer must, after consultation with receiving officers, not later than 30 days after this Act takes effect submit a monitoring plan to the National Treasury.

(b) The plan must set out the key performance indicators, financial procedures, internal audit processes and monitoring and reporting mechanisms of the national department in order to ensure the effective and efficient construction or upgrading of the relevant stadiums. 45

(4) Any expenditure by a municipality on a relevant stadium that exceeds the allocation and anticipated allocations set out in Schedule 5 must be funded from the municipal budget. 50

(5) In addition to the requirements of the Municipal Finance Management Act, the disposal of the stadium by the municipality prior to the completion of the 2010 FIFA Soccer World Cup event is subject to the approval of the transferring national officer and the National Treasury. 55

(6) (a) The transferring national officer and the receiving officer of a 2010 FIFA World Cup Stadiums Development Grant may enter into an agreement to further clarify the provisions of this Act and the relevant framework and to enhance the implementation of the allocation.

(b) Any provision of an agreement referred to in paragraph (a) that contradicts, conflicts with or purports to amend or negate the provisions of this Act, the relevant framework, any provision of the Public Finance Management Act or any provision of the Municipal Finance Management is invalid.

Part 6

Matters relating to specific Schedule 7 allocations

Intergrated National Electrification Programme Grant

19. (1) (a) The transferring national officer must ensure that Eskom Holdings Limited's implementation of the National Electrification Programme within a municipality is aligned with the Integrated Development Plan, prepared in accordance with the Municipal Systems Act, of that municipality. 10

(b) Eskom Holdings Limited must within 30 days after the end of each month report to the relevant municipality, the transferring national officer and the National Treasury on the amount spent on the implementation of the National Electrification Programme.

Bulk Infrastructure Grant

15

20. The transferring national officer must in implementing the Water Services Regional Bulk Infrastructure Grant ensure that—

- (a) every municipality that may benefit from a specific project or scheme is invited to participate in the feasibility study to be undertaken in respect of the project or scheme, despite the fact that the municipality did not participate in submitting a motivation for that feasibility study; 20
- (b) the feasibility study takes account of the Integrated Development Plans of municipalities, prepared in accordance with the Municipal Systems Act, especially the water services developments plans that form part of the Integrated Development Plan; and 25
- (c) all participating municipalities—
 - (i) agree to and understand the implications of the findings of the feasibility studies; and
 - (ii) enter into an agreement setting out their rights and obligations regarding the construction, ownership and operation of the proposed infrastructure prior to the finalisation of funding arrangements and the commencement of construction. 30

Water Services Operating Subsidy

21. (1) The transferring national officer, subsequent to the signing of a transfer agreement between the transferring national officer and the municipality for the transfer of water services assets, may with the written approval of the National Treasury adjust the Water Services Operating and Transfer Subsidy allocation to a municipality to reflect— 35

- (a) the actual personnel allocation payable to a municipality as a result of the number of staff transferred from the transferring national department to the municipality; and 40
- (b) the actual operating allocation payable to a municipality as informed by the percentage or portion of assets transferred to a municipality in respect of assets shared across municipal boundaries.

(2) Any adjustments contemplated in subsection (1) must, together with an explanatory memorandum, be published by the National Treasury in the *Gazette*, within 120 days after granting approval for an adjustment. 45

Part 7**General matters relating to Schedule 4, 5, 6 or 7 allocations****Publication of allocations and frameworks**

- 22.** (1) The National Treasury must, within 14 days of this Act taking effect, publish in the *Gazette*— 5
- (a) the allocations per municipality for each Schedule 4, 6 or 7 allocation to local government; and
 - (b) the framework for each Schedules 4, 5, 6 and 7 allocation.
- (2) The National Treasury must publish in the *Gazette* any revisions or amendments to the allocations or frameworks published in terms of subsection (1) that is authorised by an adjustment budget. 10
- (3) (a) The National Treasury may at any time, after consultation with or at the written request of a transferring national officer, revise or amend a framework published in terms of subsection (1) or (2) to correct any error or omission.
- (4) An amendment or revision takes effect on publication thereof in the *Gazette*. 15

Frameworks for Schedule 4 allocation

- 23.** (1) The framework for a Schedule 4 allocation must be designed to promote comprehensive reporting on outputs for a programme or function funded or partially funded by the allocation.
- (2) The framework referred to in subsection (1) may— 20
- (a) include a condition requiring the registration of a project with a national department or any other organ of state prior to the financial year or municipal financial year in which the project will be implemented or such later date as may be agreed between the transferring national officer and the receiving officer, provided that such later date may not delay or impede the commencement of that project in the relevant financial year; and 25
 - (b) not include any condition—
 - (i) for a national department or any other organ of state, other than the relevant province or municipality or the National Treasury in respect of a public private partnership, to approve specific projects or budgets; or 30
 - (ii) requiring a report on spending other than the reports required in terms of section 11 or as approved by the National Treasury.

Spending in terms of purpose and subject to conditions

- 24.** (1) Despite anything to the contrary contained in any law, an allocation referred to in Schedule 4, 5, 6 or 7 may only be utilised for the purpose stipulated in the Schedule concerned and in accordance with the framework published in terms of section 22. 35
- (2) A receiving officer may not transfer any Schedule 5 or 6 allocation or a portion of such allocation to any other entity for the performance of a function envisaged in terms of the allocation, unless—
- (a) it is a transfer that is approved in the budget of the receiving province or municipality or a framework published in terms of section 22; 40
 - (b) it is a payment for services rendered or goods received, which services or goods were procured in accordance with the supply chain management policy or procurement policy of the relevant province or municipality and for which adequate documentation for payment has been received; or 45
 - (c) in the case of an advance payment or a transfer not consistent with the budget of the receiving province or municipality—
 - (i) the receiving officer has certified to the National Treasury that the transfer is not an attempt to artificially inflate its spending estimates and that there are good reasons for the advance payment or transfer; and 50
 - (ii) the National Treasury has approved the advance payment or transfer.

Withholding of allocation

- 25.** (1) Subject to subsections (2) and (3), a transferring national officer may withhold the transfer of a Schedule 4, 5, 6 or 7 allocation or any portion of such allocation for a period not exceeding 30 days, if—
- (a) the province or municipality does not comply with the provisions of this Act or conditions to which the allocation, as provided for in the relevant framework, is subject; 5
 - (b) roll-overs of conditional allocations approved by the National Treasury in accordance with section 28 have not been spent; or
 - (c) expenditure on previous transfers during the financial year reflects significant under-spending, for which no satisfactory explanation is given. 10
- (2) Despite subsection (1), the Health Professions Training and Development and National Tertiary Services allocations may not be withheld in terms of this section.
- (3) A transferring national officer must, seven working days or such shorter period as may be approved by the National Treasury prior to withholding an allocation in terms of subsection (1)— 15
- (a) give the relevant receiving officer—
 - (i) written notice of the intention to withhold the allocation; and
 - (ii) an opportunity to submit written representations, within those seven days as to why the allocation should not be withheld; and 20
 - (b) inform the relevant provincial treasury and the National Treasury of its intention to withhold the allocation.
- (4) A notice contemplated in subsection (3) must include the reasons for withholding the allocation and the intended duration of the withholding.
- (5) (a) The National Treasury may when a transferring national officer is withholding an allocation in terms of subsection (1) instruct or approve a request from that transferring national officer to withhold an allocation for a period longer than 30 days, but not exceeding 120 days, if the withholding will— 25
- (i) facilitate compliance with this Act or the conditions to which the allocation is subject; or 30
 - (ii) minimise the risk of under spending.
- (b) A transferring national officer must, when requesting the withholding of an allocation in terms of this subsection, submit proof of its compliance with subsection (3) and any representations received from the receiving officer, to the National Treasury.
- (c) The transferring national officer must again comply with subsection (3) when the National Treasury instructs or approves a request by him or her in terms of paragraph (a). 35

Stopping of allocation

- 26.** (1) Despite section 25, the National Treasury may in its discretion or at the request of a transferring national officer stop the transfer of— 40
- (a) a Schedule 4, 5 or 6 allocation referred to in section 25(1) to a province or municipality on the grounds of persistent and material non-compliance with the provisions of this Act, or a condition to which the allocation, as provided for in the relevant framework, is subject; or
 - (b) a Schedule 4, 5, 6 or 7 allocation referred to in section 25(1) if the National Treasury anticipates that a province or municipality will substantially under spend on that programme or allocation in the financial year. 45
- (2) The National Treasury must when stopping an allocation in terms of this section—
- (a) comply with section 25(3)(a), and in respect of a municipality also with section 38 of the Municipal Finance Management Act; and 50
 - (b) inform the relevant provincial treasury of its intention to stop the allocation.
- (3) Any stopping of an allocation contemplated in subsection (1) must, together with an explanatory memorandum, be published by the National Treasury in the *Gazette*.
- (4) (a) The Minister may, by notice in the *Gazette*, approve that an allocation or any portion of such allocation stopped in terms of subsection (1), be utilised to meet that province's or municipality's outstanding statutory and contractual financial commitments. 55
- (b) The utilisation of funds contemplated in this subsection is a direct charge against the National Revenue Fund.

Re-allocation after stopping of allocation

27. (1) The National Treasury may, where it stops an allocation in terms of section 26, after consultation with the transferring national officer, determine that a portion or the allocation that will not be spent be reallocated to one or more provinces or municipalities on condition that the allocation will be spent in the financial year or the next financial year. 5

(2) The reallocation of a portion or the full allocation on condition that the allocation will be spent in the next financial year referred to in subsection (1), must be deemed to be a roll-over approved by the National Treasury in terms of section 31(2)(a).

Unspent conditional allocations 10

28. (1) Despite the provisions of the Public Finance Management Act or the Municipal Finance Management Act relating to roll-overs, any conditional allocation, excluding the Gautrain Rapid Link allocation, that is not spent at the end of a financial year reverts to the National Revenue Fund, unless the relevant receiving officer can prove to the satisfaction of the National Treasury that the unspent allocation is committed to identifiable projects. 15

(2) Despite subsection (1), the National Treasury may at the request of a transferring national officer, provincial treasury or municipality approve—

- (a) roll-overs from a conditional allocation to the next financial year; and
- (b) spending of a portion of a conditional allocation on activities related to the purpose of that allocation where the province or municipality projects significant unforeseeable and unavoidable over spending on its budget. 20

Allocations to public entities for provision of municipal service or function

29. No public entity, other than Eskom Holdings Limited in respect of funds received from the Department of Minerals and Energy and water boards in respect of funds received from the Department of Water Affairs and Forestry for the implementation of Schedule 7 allocations, may receive funds for the provision of a municipal service or municipal function on behalf of a municipality from a national or provincial organ of state except via the municipality responsible for that service or function, unless the National Treasury approves otherwise in respect of municipalities it deems to have low capacity. 25 30

CHAPTER 4**DUTIES OF CATEGORY C MUNICIPALITIES, PROVINCIAL TREASURIES AND THE NATIONAL TREASURY****Duties relating to Category C municipal budgets** 35

30. (1) (a) In addition to the requirements of the Municipal Finance Management Act, the accounting officer of a category C municipality must, no later than 13 April 2007, submit to the National Treasury and all category B municipalities within that municipality's area of jurisdiction, the budget, as tabled in accordance with section 16 of the Municipal Finance Management Act, for the 2007/08 municipal financial year, and the two following municipal financial years. 40

(b) The budget must indicate all allocations to be transferred to or spent on behalf of each category B municipality within its area of jurisdiction and disclose the criteria for allocating funds between the category B municipalities.

(2) A category C municipality must strive to ensure that it does not duplicate a function currently performed by a category B municipality, and transfer funds for infrastructure development, including funds that will replace the levies referred to in section 93(6) of the Municipal Structures Act, or the provision of services to the relevant category B municipalities, taking into account any indicative allocations for such municipalities as determined or published in the *Gazette* by the National Treasury, and may only retain and spend funds directly if— 45 50

- (a) the category C municipality retained a power or function in terms of the Municipal Structures Act;

- (b) a category B municipality in the opinion of the category C municipality has weak capacity, and the national department responsible for local government and National Treasury concur with that opinion; and
- (c) the Municipal Infrastructure Grant allocation to the category B municipality is transferred to the category C municipality in terms of section 36. 5

(3) A category C municipality must before implementing any capital project for water, electricity, roads or any other municipal service consult the category B municipalities within whose area of jurisdiction the project will be implemented on the project, and agree on which municipality is responsible for operational costs and collection of user fees. 10

(4) A municipality must ensure that any allocation made to it in terms of this Act, or by a province or another municipality, that is not reflected in its budget as tabled in accordance with section 16 of the Municipal Finance Management Act, is reflected in its budget to be approved in accordance with section 24 of the Municipal Finance Management Act. 15

Duties of provincial treasuries

31. (1) The provincial treasury must reflect Schedule 5 allocations separately in the province's appropriation Bill or a schedule to its appropriation Bill.

(2) (a) The provincial treasury must on the same day that its budget is tabled in the provincial legislature or a later date approved by the National Treasury, but not later than 14 April 2007, publish the following in the *Gazette*: 20

- (i) the indicative allocation per municipality for every allocation made by the province to municipalities, including Schedule 5 allocations transferred to municipalities and other allocations from the province's own funds;
- (ii) the envisaged division of the allocation contemplated in subparagraph (i) in respect of each municipality, for the next financial year and the 2009/10 financial year; and 25
- (iii) the conditions and other information in respect of the allocations referred to in paragraphs (a) and (b) to facilitate performance measurement and the use of required inputs and outputs. 30

(b) The allocations referred to in paragraph (a) must be deemed to be final allocations if the legislature passes the appropriation Bill without any amendments.

(c) In the event that the legislature amends the appropriation Bill the accounting officer of the provincial treasury must publish amended allocations in the *Gazette* within 14 days of legislature passing the appropriation Bill. 35

(3) (a) Despite anything to the contrary contained in any law, a provincial treasury may, in accordance with a framework determined by the National Treasury, make allocations to municipalities that were not published in terms of subsections (1) or (2).

(b) The allocations referred to in paragraph (a) must be published in the province's budget documents that are submitted with an adjustment appropriation Bill to its legislature. 40

(c) The provisions of subsection (2), with the necessary changes, apply in respect of allocations referred to in paragraph (b).

(4) Where a function for which a province receives a Schedule 5 allocation is assigned to a municipality during a financial year and the province has not appropriated funds to that municipality for the performance of that function, the province must transfer the allocation to the municipality in terms of section 226(3) of the Constitution of the Republic of South Africa, 1996, as a direct charge against that province's Revenue Fund and must inform the National Treasury of the transfer. 45

(5) (a) A provincial treasury must, as part of its consolidated monthly report in terms of section 32 of the Public Finance Management Act, in the format determined by the National Treasury, report on— 50

- (i) actual transfers received by the province from national departments;
- (ii) actual expenditure on such allocations, excluding Schedule 4 allocations, up to the end of that month; and 55
- (iii) actual transfers made by the province to municipalities, and actual expenditure by municipalities on such allocations.

(b) The report contemplated in paragraph (a) must include reports for each quarter, and be in the format and include the information as may be determined by the National Treasury. 60

Duties of National Treasury

32. (1) The National Treasury must within 14 days of this Act taking effect submit a notice to all transferring national officers, containing the details of the bank accounts of each province and municipality.

(2) The National Treasury must, together with the monthly report contemplated in section 32(2) of the Public Finance Management Act, publish a report on actual transfers of all allocations listed in the Schedules referred to in sections 7 and 8 or made in terms of section 37. 5

CHAPTER 5

MATTERS RELATING TO ALL ALLOCATIONS

10

Payment schedule

33. (1) (a) The National Treasury determines the payment schedule for the transfer of a province's equitable share allocation, after consultation with the head of the department in the provincial treasury.

(b) In determining the payment schedule the National Treasury must take account of the monthly spending commitments of provinces, and seek to minimise risk and debt servicing costs for national and provincial government. 15

(c) Despite paragraph (a), the National Treasury may for cash management purposes relating to the corporation for public deposits account, or when an intervention in terms of section 100 of the Constitution of the Republic of South Africa, 1996, is taking place, on such conditions as it may determine, advance funds to a province in respect of its equitable share or a portion of it, which have not yet fallen due for transfer in accordance with the payment schedule. 20

(d) Any advances in terms of paragraph (c) must be set-off against transfers to the province, which would otherwise become due in terms of that payment schedule. 25

(2) (a) The National Treasury determines the payment schedule for the transfer of a municipality's equitable share allocation, after consultation with the accounting officer of the national department responsible for local government.

(b) Despite paragraph (a), when an intervention in terms of section 139 of the Constitution of the Republic of South Africa, 1996, is taking place in a municipality, the National Treasury may after consultation with the accounting officer of the national department responsible for local government, on such conditions as it may determine, approve a request or direct that the equitable share contemplated in subsection (1), or a portion of it, be— 30

(i) advanced to a municipality in terms of a financial recovery plan prepared in terms of section 141 of the Municipal Finance Management Act, in respect of any portion which has not yet fallen due for transfer; and 35

(ii) transferred to a municipality via the province in terms of section 226(3) of the Constitution of the Republic of South Africa, 1996, if the municipality is unable or unwilling to implement its financial recovery plan imposed in terms of section 141 of the Municipal Finance Management Act. 40

(c) Any advances in terms of paragraph (b) must be set-off against transfers to the municipality, which would otherwise become due in terms of the applicable payment schedule.

(3) (a) The National Treasury must approve the payment schedules for Schedules 4, 5 and 6 allocations. 45

(b) The transferring national officer of a Schedule 4, 5 or 6 allocation must submit a payment schedule to the National Treasury for approval before 13 April 2007.

(c) Prior to the submission of a payment schedule in terms of paragraph (b) the transferring national officer must— 50

(i) in relation to a Schedule 4 allocation, consult the relevant receiving officer;

(ii) in relation to the Gautrain Rapid Rail Link allocation, ensure that the payment schedule—

(aa) is consistent with the projected dates for payments to the private party in terms of the public-private partnership agreement entered into by the relevant province in accordance with regulations issued under the Public Finance Management Act; and 55

(bb) reflects the portion of any payments due under the agreement referred to in subparagraph (aa) payable from the allocation; and

(iii) in relation to a Schedule 5 or 6 allocation, consult the relevant province or municipality.

(4) The transferring national officer of a Schedule 4, 5 or 8 allocation must provide the receiving officer with a copy of the approved payment schedule prior to making the first transfer in accordance therewith. 5

Amendment of payment schedule

34. (1) Subject to subsection (2), a transferring national officer of a Schedule 4, 5 or 6 allocation must within three days of the withholding or stopping of an allocation in terms of section 25 or 26, amend a payment schedule as a result of the withholding or stopping of an allocation in terms of this Act. 10

(2) The National Treasury may, in the interest of better debt and cash-flow management or to deal with financial mismanagement or slow spending amend any payment schedule for an allocation listed in Schedule 2, 3, 4, 5 or 6 on notification to— 15

(a) the head of a provincial treasury, in the case of a provincial allocation; and

(b) the accounting officer of the national department responsible for local government, in the case of a local government allocation.

(3) A payment schedule amended in terms of subsection (1) or (2) must take account of the monthly spending commitments of provinces or municipalities, the revenue at the disposal of provinces or municipalities and the minimisation of risk and debt servicing costs for all three spheres of government. 20

(4) An amendment of a payment schedule in terms of subsection (2) prevails over any amendment made in terms of subsection (1).

(5) The transferring national officer must immediately inform the receiving officer of any amendment to a payment schedule in accordance with subsections (1) or (2). 25

Transfers to low capacity municipalities

35. The national accounting officer responsible for local government, in respect of a category B municipality classified as a low capacity municipality by that accounting officer and the National Treasury, may with the concurrence of the National Treasury, 30 determine that an allocation in terms of this Act or portion of such an allocation be transferred to the category C municipality, within whose area of jurisdiction the category B municipality is located, or to the relevant province, for the purposes of the proper administration of the allocation.

Transfers made in error

35

36. (1) Despite anything to the contrary contained in any law, the transfer of an allocation to a province, municipality or public entity in error is regarded as not legally due to that province, municipality or public entity, as the case may be.

(2) A transfer contemplated in subsection (1), must be recovered, without delay, by the responsible transferring national officer. 40

(3) Despite subsection (2), the National Treasury may instruct that the recovery contemplated in subsection (2) be effected by set-off against future transfers to the province, municipality or public entity, which would otherwise become due in accordance with a payment schedule.

Allocations not listed in Schedules

45

37. (1) An allocation not listed in the Schedules referred to in sections 7 and 8 may only be made in terms of section 6(3).

(2) The National Treasury must publish the allocations and frameworks for such allocations in the *Gazette*, prior to the transfer of any funds to a province or municipality.

Allocations in emergency situations

50

38. (1) Despite anything to the contrary contained in this Act or any other law, to defray expenditure of an exceptional nature which cannot, without serious prejudice to the public interest, be postponed to a future appropriation of funds—

- (a) the Minister may, in accordance with section 16 of the Public Finance Management Act and subject to conditions, make an allocation to a province or municipality from the National Revenue Fund; and
- (b) the MEC for Finance in a province may, in accordance with section 25 of the Public Finance Management Act and subject to conditions, make an allocation to a municipality from the Provincial Fund. 5

(2) The relevant treasury must publish any allocation and the conditions subject to which the allocations were made, if any, in the *Gazette*.

Implementation of changes to power or function of municipality

39. Despite anything to the contrary contained in any law, the effective date of any changes to the powers and functions of a municipality effected in terms of section 84(3) or 85 of the Municipal Structures Act that impacts on the allocations made under this Act take effect at the commencement of the Division of Revenue Act for the next financial year only. 10

Preparations for next financial year and 2008/09 municipal financial year 15

40. (1) (a) The receiving officer of an Infrastructure Grant to Provinces must, by 31 July 2007, submit detailed infrastructure plans in a format determined by the National Treasury, to the provincial treasury.

(b) The infrastructure plans must indicate the prioritised projects to be funded from the allocations for the next financial year and the 2009/10 financial year as set out in column B of Schedule 4. 20

(c) The provincial treasury must—

- (i) review the infrastructure plans of all receiving officers and submit the integrated plans to the National Treasury by 31 August 2007, together with the provincial budget submission; 25
- (ii) ensure that the infrastructure budgets of the receiving departments include allocation for project design and initiation of procurement for projects to be implemented in 2009/10, and that infrastructure budgets are aligned with cash flow requirements of the planned projects in a given year; and
- (iii) ensure that the infrastructure budgets of the receiving departments make adequate provision for operations and maintenance associated with newly constructed or upgraded infrastructure. 30

(2) (a) The transferring national officer of a conditional allocation must, by 9 November 2007 submit to the National Treasury for approval—

- (i) the provisional allocations to each province or municipality in respect of new conditional allocations to be made in the next financial year; 35
- (ii) any amendments to the envisaged allocations for each province or municipality set out in column B of the Schedules in respect of existing conditional allocations; and
- (iii) the draft frameworks for the allocations referred to in subparagraphs (i) and (ii) in the format to be determined by the National Treasury. 40

(b) Any proposed amendment or adjustment of the allocation criteria of an existing conditional allocation from the financial year to the next financial year must be agreed with the National Treasury prior to the submission of the allocations and draft frameworks referred to in paragraph (a)(ii) and (iii). 45

(c) (i) The final allocations referred to in paragraph (a)(i) and (ii) must be submitted to the National Treasury by 7 December 2007 for presentation to the Budget Council and Cabinet.

(ii) If the transferring national officer fails to submit the allocations referred to in subparagraph (i) by 7 December 2007, the National Treasury may make recommendations on appropriate allocations, taking into consideration the envisaged allocations for the next financial year, to the Budget Council and Cabinet. 50

(3) The National Treasury may, in preparation for the next financial year, instruct departments and municipalities to submit to it such plans and information for any conditional allocation as it may determine at specified times prior to the start of the next financial year. 55

Expenditure prior to commencement of Division of Revenue Act, 2008

41. Despite sections 3(2), 7(2) and 8(2), if the annual Division of Revenue Act for the next financial year has not commenced before or on 1 April 2008, the National Treasury may, determine that an amount not exceeding 45 per cent of the total amount of each allocation made in terms of sections 3(1), 7(1) and 8(1) be transferred to the relevant province or municipality as a direct charge against the National Revenue Fund. 5

CHAPTER 6

GENERAL

Allocations by public entities to provinces or municipalities

42. The accounting officer of a provincial department or municipality that receives funds from a public entity as a grant, sponsorship or donation, must disclose in its financial statements, the purpose and amount of each such grant, sponsorship or donation received. 10

Liability for costs incurred in violation of principles of co-operative governance and intergovernmental relations 15

43. (1) An organ of state involved in an intergovernmental dispute regarding any provision of this Act or any division of revenue matter or allocation must, before approaching a court to resolve such dispute, make every effort to settle the dispute with the other organ of state concerned, including exhausting all mechanisms provided for the settlement of disputes in relevant legislation. 20

(2) In the event that a dispute is referred back by a court in accordance with section 41(4) of the Constitution of the Republic of South Africa, 1996, due to the court not being satisfied that the organ of state approaching the court has complied with subsection (1), the expenditure incurred by that organ of state in approaching the court must be regarded as fruitless and wasteful. 25

(3) The amount of any such fruitless and wasteful expenditure must, in terms of a prescribed procedure, be recovered without delay from the person who caused the organ of state not to comply with the requirements of subsection (1).

Unauthorised and irregular expenditure

44. (1) The following transfers constitute unauthorised expenditure in terms of the Public Finance Management Act and the Municipal Finance Management Act, as the case may be, where relevant: 30

- (a) A transfer prohibited in terms of section 24(2) of this Act; or
- (b) a transfer by a transferring national officer to a bank account of a province or municipality that is not the primary bank account, or, in respect of provinces, a corporation for public deposits account. 35

(2) Any transfer made or spending of an allocation in contravention of this Act constitutes irregular expenditure in terms of the Public Finance Management Act and the Municipal Finance Management Act.

Financial misconduct 40

45. (1) Despite anything to the contrary contained in any law, any serious or persistent non-compliance with a provision of this Act constitutes financial misconduct.

(2) Section 84 of the Public Finance Management Act and section 171(4) of the Municipal Finance Management Act apply in respect of financial misconduct in terms of subsection (1). 45

Delegations and assignments

46. (1) The Minister may, in writing, delegate any of the powers entrusted to the National Treasury in terms of this Act and assign any of the duties imposed on the National Treasury in terms of this Act, to an official of the National Treasury.

- (2) A delegation or assignment in terms of subsection (1) to an official of the National Treasury—
- (a) is subject to any limitations or conditions that the Minister may impose;
 - (b) may authorise that official to subdelegate, in writing, the delegated power or assigned duty to another National Treasury official; and 5
 - (c) does not divest the National Treasury of the responsibility concerning the exercise of the delegated power or the performance of the assigned duty.
- (3) The Minister may confirm, vary or revoke any decision taken by an official as a result of a delegation, subject to any rights that may have vested as a consequence of the decision. 10

Exemptions

- 47.** (1) The National Treasury may, on written application by a transferring national or provincial officer, exempt such officer in writing from complying with a provision of this Act.
- (2) Any exemption granted in terms of subsection (1) must set out the period and conditions, if any, to which it is subject and must be published in the *Gazette*. 15

Regulations

- 48.** The Minister may, by notice in the *Gazette*, make regulations regarding—
- (a) anything which must or may be prescribed in terms of this Act; and
 - (b) any ancillary or incidental administrative or procedural matter that it is necessary to prescribe for the proper implementation or administration of this Act. 20

Repeal of laws

- 49.** (1) Subject to subsection (2), the Division of Revenue Act, 2006 (Act No. 2 of 2006), is hereby repealed. 25
- (2) The repeal of the Division of Revenue Act, 2006, does not affect any duty or obligation set out in that Act, the execution of which is still outstanding.

Short title and commencement

- 50.** This Act is called the Division of Revenue Act, 2007, and takes effect on 1 April 2007 or the date of publication thereof by the President in the *Gazette*, whichever is the later date. 30

MEMORANDUM ON THE OBJECTS OF THE DIVISION OF REVENUE BILL, 2007

BACKGROUND

1. Section 214(1) of the Constitution of the Republic of South Africa, 1996, requires that an Act of Parliament must provide for—
 - 1.1 the equitable division of revenue raised nationally among the national, provincial and local spheres of government;
 - 1.2 the determination of each province's equitable share of the provincial share of that revenue; and
 - 1.3 any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and for any conditions on which those allocations may be made.
2. Section 10 of the Intergovernmental Fiscal Relations Act, 1997 (Act No. 97 of 1997) (the Act), requires the Minister of Finance to introduce a Division of Revenue Bill in the National Assembly when the annual budget is introduced. The Bill must relate to the financial year to which that budget relates.
3. The Bill is introduced in compliance with the requirements of the Constitution and the Act as set out in paragraphs 1 and 2 above.
4. The allocations contemplated in section 214(1) of the Constitution of the Republic of South Africa, 1996, are set out in seven schedules to the Bill, namely—
 - 4.1 Schedule 1, which sets out the respective shares of anticipated revenue raised nationally in respect of the national, provincial and local spheres of government;
 - 4.2 Schedule 2, which sets out the respective shares of each province;
 - 4.3 Schedule 3, which sets out the respective shares of each municipality;
 - 4.4 Schedule 4, which sets out allocations to provinces and municipalities to supplement the funding of programmes funded from provincial and municipal budgets;
 - 4.5 Schedule 5, which sets out specific-purpose allocations to identified provincial departments;
 - 4.6 Schedule 6, which sets out specific-purpose allocations to local government; and
 - 4.7 Schedule 7, which sets out allocations-in-kind to municipalities for designated special programmes.

SUMMARY OF BILL

5. The following is a brief summary of the Bill:
- Section 1** contains the relevant definitions;
- Section 2** sets out the object of this Bill, which is essentially the promotion of co-operative governance in intergovernmental budgeting;
- Section 3** provides for the equitable division of anticipated revenue raised nationally among the national, provincial and local spheres of government in Schedule 1;
- Section 4** provides for each province's equitable share, which is set out in Schedule 2;
- Section 5** provides for local government's equitable share of revenue and the determination of each municipality's share of that revenue;
- Section 6** determines what must happen if actual revenue raised falls short or is in excess of anticipated revenue for the financial year;
- Section 7** provides for conditional allocations to provinces;
- Section 8** provides for conditional allocations to municipalities;
- Sections 9 to 10** provides for the duties of a transferring national officer in respect of schedule 4, 5, 6 or 7 allocations;
- Sections 11 to 12** provides for the duties of a receiving officer in respect of schedule 4, 5 or 6 allocations;
- Section 13** provides for the duties in respect of annual financial statements and annual reports for 2007/08;
- Section 14** provides for the infrastructure grant to provinces;
- Section 15** provide for the municipal infrastructure grant;
- Section 16** provides for the Gautrain Rapid Rail Link Grant;

- Section 17** provides for the Integrated Housing and Human Settlement and Development Grant and the accreditation of municipalities;

ORGANISATIONS AND INSTITUTIONS CONSULTED

6. The following institutions were consulted on the Bill—
- The Finance and Fiscal Commission;
 - The South African Local Government Association; and
 - National and provincial departments.

FINANCIAL IMPLICATIONS TO THE STATE

7. This memorandum outlines the proposed division of revenue between the three spheres of government and financial implications to government are limited to the total transfers to provinces and local government approved by Cabinet.

CONSTITUTIONAL IMPLICATIONS

8. This Bill gives effect to section 214 of the Constitution of the Republic of South Africa, 1996.

PARLIAMENTARY PROCEDURE

9. The State Law Advisers and the National Treasury are of the opinion that this Bill must be dealt with in accordance with the procedure prescribed by section 76(1) of the Constitution of the Republic of South Africa, 1996, since it provides for legislation envisaged in Chapter 13 of the Constitution and it includes provisions affecting the financial interests of the provincial sphere of government as contemplated in section 76(4)(b) of the Constitution.

10. The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.

**EXPLANATORY MEMORANDUM
TO THE DIVISION OF REVENUE**

(“Annexure E” of Budget Review)

Explanatory memorandum to the division of revenue

Background

Section 214(1) of the Constitution of South Africa requires that every year a Division of Revenue Act determine the equitable division of nationally raised revenue between the three spheres of government. The Intergovernmental Fiscal Relations Act (1997) prescribes the process for determining the equitable sharing and allocation of revenue raised nationally. Sections 9 and 10(4) of the act set out the consultation process to be followed with the Financial and Fiscal Commission (FFC), including the process of considering recommendations made with regard to the equitable division of nationally raised revenue.

This explanatory memorandum to the 2007 Division of Revenue Bill fulfils the requirement set out in section 10(5) of the Intergovernmental Fiscal Relations Act that requires the Division of Revenue Bill to be accompanied by an explanatory memorandum detailing how the bill takes account of the matters listed in section 214(2) (a) to (j) of the Constitution, government's response to the recommendations of the FFC, and any assumptions and formulae used in arriving at the respective divisions among provinces and municipalities. This explanatory memorandum contains five parts:

- Part 1 describes the division of resources between the three spheres of government.
- Part 2 sets out how the FFC's recommendations on the 2007 division of revenue have been taken into account.
- Part 3 explains the formula and criteria for the division of the provincial equitable share and for conditional grants to provinces.
- Part 4 sets out the formula and criteria for the division of the local government equitable share and conditional grants between municipalities.
- Part 5 summarises issues that will form part of subsequent reviews of provincial and local government fiscal frameworks.

This memorandum should be read with the Division of Revenue Bill. The Division of Revenue Bill and its underlying allocations are the culmination of extensive consultation processes between the three spheres of government. The Budget Council deliberated on the matters discussed in this memorandum at its 23 to 25 August 2006 Lekgotla and at several other meetings held during the year. The approach to local government allocations was discussed with organised local government at several technical meetings with the South African Local Government Association (SALGA), culminating in a meeting of the Budget Forum (Budget Council plus SALGA) on 5 October 2006. An extended Cabinet meeting, involving cabinet ministers, premiers of provinces and the chairperson of SALGA was held on 18 October 2006, and agreed on the final budget priorities and the division of revenue over the next three years.

Part 1: The 2007 division of revenue

The 2007 division of revenue seeks to strengthen the ability of provinces and municipalities to provide social and municipal basic services and perform the functions allocated to them, and provide for their developmental and other needs and is in line with section 214(2)(a to j) of the Constitution. Excluding debt service costs and the contingency reserve, the total to be shared between the three spheres amounts to R478 billion, R533,2 billion and R586,4 billion over each of the MTEF years. These allocations take into account government's spending priorities, the revenue-raising capacity and functional responsibilities of each sphere, and inputs from various intergovernmental forums and the recommendations of the FFC. Further, the design of the equitable share formulae for both provincial and local governments are such that these spheres have desirable, stable and predictable revenue shares, and economic and fiscal disparities are addressed. Section 6 of the Division of Revenue Bill also ensures that the provincial and local governments are protected against any shocks should revenue shortfalls from nationally raised revenue arise.

Government's policy priorities for the 2007 MTEF

The 2007 budget framework gives greater attention to economic growth and people-centred development through strategic economic investment, progressive realisation of basic social rights, and by improving public sector governance and service delivery. Improving the quality of public services has been a consistent theme of government's development and transformation agenda over the years. Following more than a decade of comprehensive transformation of policy and public service organisation, the pace of service delivery is gaining momentum. Access to services such as housing, electricity, water and sanitation, education and health, of which the largest beneficiaries are the poor, has improved considerably. While progress has been made, social and developmental challenges remain to be addressed. Investment in people needs to be accelerated, education, health and social development services improved, crime prevention strengthened, and, employment creation and community development efforts reinforced. Government's policy priorities and spending proposals are informed by these challenges. To achieve these objectives the following form the core areas that the 2007 Budget will be supporting and these are in line with section 214(2)(a to j) of the Constitution:

- *Accelerated infrastructure investment:* Economic infrastructure for a more rapidly growing economy includes power generation capacity, rehabilitation and expansion of road and rail transport networks, infrastructure for the 2010 FIFA World Cup, improved water resource management and modernisation of communications.
- *Skills development for economic growth:* Skills development is important in ensuring sustained economic growth and development. A core priority for the period ahead is to strengthen education and improve performance of the labour market. Investing in people and ensuring that skills development complements employment creation are critical platforms on which to build future prosperity.
- *Sustainable livelihoods, urban development and planning:* Housing delivery and the rollout of basic services needs to be accelerated, together with municipal capacity building and investment by both the public and the private sectors in improving the quality of life in poor neighbourhoods.
- *Industrial development, economic transformation and employment creation:* Industrial development and employment creation will be boosted over the period ahead through investment in economic infrastructure in targeted sectors and targeted research and technology investment. Small business development and more effective economic regulation are aimed in part at bridging the divide between the formal and informal sectors.
- *Social security, targeted welfare services and health:* Alongside an expanded income security net, shared growth must also involve targeted welfare services and stronger partnerships with non-

governmental welfare organisations. Addressing the impact of HIV and Aids, care of child-headed households and appropriate management of children in conflict with the law were among the social service priorities for 2006 and are further consolidated in the 2007 Budget. Investments in health are targeted at improving the remuneration packages of certain categories of health professionals and providing for the further recruitment of health professionals.

- *Support for justice, crime prevention and policing:* The 2007 Budget reinforces attempts targeted at reducing crime, improving the performance of courts and security services and improving safety on our roads remain key priorities for the years ahead.
- *Matters of national interest:* South Africa continues to extend and deepen its diplomatic presence on the African continent and participation in various international forums. Defence modernisation and military skills development are prioritised for the 2007 Budget in line with South Africa's current and potential involvement in international affairs.
- *Strengthening service delivery capacity:* Improving the quality of public service delivery in national, provincial and local government remains a central goal of public policy. Public administration reform is strongly focused on building local government capacity and improving training activities across the public service.
- *International relations, peace and security:* South Africa's international engagements are organised around the consolidation of the development agenda for Africa; cooperation between developing nations; improved global governance; and strengthening bilateral relations. South Africa has taken its place as non-permanent member of the United Nations Security Council for a two-year period.

Table E.1 shows how the additional allocations are apportioned to the different priority areas across the three spheres of government.

The 2007 *Budget Review* sets out in detail how the constitutional issues and government's priorities are taken into account in the 2007 division of revenue. It focuses on the economic and fiscal policy considerations, revenue issues, debt and financing considerations, and expenditure plan of government. Aspects of national, provincial and local government financing are discussed in some detail in Chapters 7 and 8. For this reason, this memorandum should be read with the 2007 *Budget Review*.

Part 2: Response to the recommendations of the FFC

Section 214 of the Constitution and Section 9 of the Intergovernmental Fiscal Relations Act (Act 97 of 1997) require the FFC to make recommendations in April every year, or soon after, on the division of revenue for the coming budget. The FFC complied with this obligation by tabling its submission entitled *Submission for the Division of Revenue 2007/08* to Parliament in May 2006. The FFC also submitted a supplementary and detailed publication of research supporting this year's recommendations. In December 2006, the FFC made a supplementary submission entitled *Financial and Fiscal Commission Supplementary Submission for the Division of Revenue 2007/08 – the Fiscal Implications of the Re-demarcation of Provincial Boundaries*, which covers proposals on how to manage the impact of the re-demarcation on provincial and municipal finances in the year ahead.

This part of the explanatory memorandum complies with the Constitution and section 10 of the Intergovernmental Fiscal Relations Act by setting out how government has taken into account the FFC's recommendations when determining the division of revenue for the 2007 MTEF. The FFC proposals, although covering a broad range of issues, are divided into three main parts. The first part deals mainly with the review of conditional grants in the intergovernmental relations system; the second part reviews the equitable sharing of nationally raised revenue; the third part reviews the Western Cape fuel levy, assesses the proposals to replace RSC and JSB levies, comments on the development component of the local government equitable share formula, and looks at the impact of re-demarcation on provincial and municipal finances.

Review of the conditional grants in the intergovernmental fiscal relations system

General recommendations on conditional grants

FFC general proposals on conditional grants

The FFC reiterates its previous recommendations that conditional grants should be used solely to address problems of spill-over benefits and to deal with the funding of national priority programmes that still need to be institutionalised in provincial or municipal budgets. In the latter case, according to the commission, these conditional grants should be phased into the equitable share once the programmes are institutionalised by provinces and municipalities.

The commission reiterates that national government departments should clearly define norms and standards for delivery in areas of concurrent responsibility, and should monitor the performance of provinces to ensure that the minimum requirements for the use of conditional grants are met.

Government response

National government agrees with the commission on its general recommendations and many of the grants currently in the system meet these requirements. In cases where grants are introduced to cement national priorities in sub-national governments, these are phased out once the intended objective is achieved. The *Further Education and Training (FET) college recapitalisation*, *food relief* and *integrated social development grants* are examples of grants that are temporary and are phased or to be phased into the provincial equitable share.

Government agrees that norms and standards be in place for the delivery of services funded through conditional grants. In addition, for the 2007 Budget, clear measurable outputs and outcome indicators are included for each conditional grant in the frameworks. It is envisaged that these would improve monitoring and evaluation.

Specific recommendations on conditional grants to provinces

FFC proposal on the HIV and Aids grant

The FFC recommends that the *HIV and Aids grant* administered by the Department of Health remain a conditional grant to ensure that sufficient focus and resources continue to be channelled to dealing with the pandemic. This is in line with the commission's previous view that funding for all HIV and Aids programmes must be done through the conditional grant mechanism.

Government response

Government agrees that the *HIV and Aids grant* should continue as a conditional grant and not be phased into the equitable share at this stage. Government is of the view that if certain aspects of the programme are fully entrenched in provinces, consideration could be given to phase these into the equitable share. For example, the prevention of mother-to-child transmission programme is now widely rolled out and should form part of the normal responsibility of provincial health departments and could be phased into the equitable share. Government continues to prioritise programmes that aim to mitigate the impact of HIV and Aids on citizens. Further, in line with the FFC's recommendation, government will step up its HIV and Aids programme by R1,7 billion over the next three years. By 2009/10 spending on the *HIV and Aids grant* will be R2,7 billion per year.

FFC proposal on the hospital revitalisation grant

The FFC proposes that the *hospital revitalisation grant* be incorporated into the *provincial infrastructure grant* as there is a strong convergence of purpose between the two infrastructure conditional grants, and this may improve the efficacy of the *hospital revitalisation grant*. According to the commission, the stricter conditions attached to the *hospital revitalisation grant* are the main reason for poor spending and by merging it with the *provincial infrastructure grant*, which is a Schedule 4 grant with less stringent conditions, spending would be enhanced.

Government response

While the view that grant flows to provinces be streamlined has appeal, government is of the opinion that it may remain prudent to maintain separate funding streams for selected specific purpose grants in the immediate to medium term. However, taking into account the purpose and structure of the two

grants, national government will examine the funding model for hospital construction in the period ahead.

FFC proposal on the land care and comprehensive agriculture support grants

The FFC recommends that the *land care* and the *comprehensive agricultural support programme (CASP)* grants be merged into a single Schedule 4 grant as their objectives overlap. The commission believes that the merger would reduce the administrative burden and improve the efficiency of spending on the grants.

Government response

Government does not support this recommendation as it is of the view that the two grants have different objectives. The *CASP* targets agricultural extension services to beneficiaries of the land reform programme, while the *land care* programme seeks to promote the sustainable use and management of natural resources.

FFC proposal on the national school nutrition grant

The FFC proposes that the conditions to the *national school nutrition grant* that relate to the development and approval of business plans must be refined to take into account the minimum time spent on the process of developing and approving plans, and the delays in the submission of plans and excessive non-compliance by provinces. Further, consideration should be given to relax the stringent conditions, especially for those grants that seek to ensure adherence to national norms and standards, which can allow for some level of decision space, innovation and creativity in spending.

Government response

A baseline study on the financing and administration of the national school nutrition programme is being finalised by the national Department of Education. The matters raised by the FFC are being considered as part of this study.

FFC proposal on the HIV and Aids life skills education programme grant

The FFC proposes that the grant should continue to be conditional with a clear focus on enrolment as opposed to the current allocation mechanism that uses the education component of the provincial equitable share formula.

Government response

Government is of the opinion that a long-term view needs to be adopted in deciding the allocation mechanism of this grant. HIV and Aids life skills education should become part of the education system over the medium term, with provincial education departments assuming full responsibility for this. In that case consideration would be given to phasing the grant into the provincial equitable share. Keeping the current allocation criteria would minimise distortions in provincial allocations when such phasing is considered.

Specific recommendations on conditional grants to local government

FFC proposal on the municipal infrastructure grant

The FFC recommends that the municipal infrastructure grant go beyond funding the B (Basic residential infrastructure), P (Public municipal service) and E (Social institutions and micro-

enterprise) components in the formula. The formula should include operational and maintenance costs.

Government response

Government does not support this recommendation as it is incumbent upon each municipality to make provision for operations and maintenance in their budgets according to the provisions of section 17 (2) of the Municipal Finance Management Act (2003) (MFMA). Municipalities have a substantial revenue base and should fund the operation and maintenance of municipal infrastructure from their own resources. The current grant is a mechanism used to assist municipalities to roll out infrastructure to enable them to extend free basic services to qualifying households.

Review of health conditional grants

FFC proposal on the national tertiary service grant

With regard to the *national tertiary service grant* the FFC recommends that:

- An allocation framework based on approved policy norms and standards, underpinned by an explicit service plan, be introduced. This allocation framework should ensure that funds flow in accordance with the calculated full cost of norms and standards and per achievements of these.
- Norms and standards should be specified for functions such as casualty and outpatient services, theatres, beds by level of care and resource requirements – on the basis of health care per staff ratio and non-staff cost. According to the proposal these indicators can be reported by hospital and activity, and further used to incorporate planned upgrading or downgrading of any service in the area.
- Government develop a national service plan that includes level 1 services for hospitals as a matter of urgency.
- The Department of Health establish a chief directorate (or unit) dedicated to the provision of ongoing technical assistance to support the framework for administering the grant.
- The redistribution of services should be achieved through separate capital allocations, either conditional or appropriated at a provincial level.
- The grant should be retained as a conditional grant, given that the allocation criteria will be based on the set norms and standards and would also reduce the spill-over effects associated with downgrading of referral services by provincial services.

Government response

The existing methodology of the grant is based on actual service delivery trends and benchmark unit costs. Allocations on the grant have been reviewed twice based on updated performance data. Government agrees that the future approach to the grant should incorporate shifts towards a proposed future delivery dispensation for tertiary services. In this regard the Modernisation of Tertiary Services Report prepared by the national Department of Health provides a useful mechanism to do exactly this. This will require translation of the broader modernisation of tertiary services model into more detailed and specific strategic and implementation plans at both national and provincial levels to allow for the development of a financing framework. Government agrees that the recommendations of the tertiary services report need to be institutionalised; and norms, standards and resource requirements developed to inform a funding model linked to practical operational and strategic plans. In general, norms and standards for these tertiary services are strongly supported, provided they are developed within an affordability framework and adaptable to local conditions.

Government agrees that tertiary services be funded through a conditional grant and supports the idea that the allocation framework be based on agreed policy norms and standards underpinned by an explicit service plan. However, government is of the view that the development of norms and standards, a service delivery plan and allocation framework for tertiary services should be within an affordability framework and are adaptable to local conditions.

Generally, government agrees that national departments administering conditional grants must have the requisite capacity to administer such grants. Further, such capacity should be extended to the receiving department. Given the huge task of coordinating tertiary hospital services, a dedicated section that is adequately resourced would be useful. The Department of Health has a unit that administers this grant. The level at which this unit is established remains the discretion of the responsible accounting officer. Therefore, the national Department of Health will consider this recommendation within that context.

Redistribution of services needs to be achieved through changing both recurrent and capital allocations. At present the *hospital revitalisation grant* and the *provincial infrastructure grant* are important sources of capital financing and are separate funding streams outside the *national tertiary service grant*. Greater attention needs to be given to the capital implications of implementing the modernisation programme. This will require greater coordination of the *hospital revitalisation* and *national tertiary service grant grants*.

FFC proposal on the health professions training and development grant

With regard to the *health professions training and development grant* the FFC recommends that:

- The organisational structure of the national Department of Health should be adjusted to include a unit with sufficient technical capacity to coordinate and manage this grant, and that a standing committee comprising all role players in the teaching and training of health professionals be established for joint decision-making on policy targets, input requirements and the flow of funding.
- Measurable policy targets be set as gazetted minimum norms and standards for any sphere of government and/or institution receiving earmarked funding for training health professionals.
- The policy framework underpinning the training of health professionals should be determined nationally and the allocations flowing through the Department of Health should be made a conditional grant, while those flowing through the Department of Education should form an earmarked subsidy to tertiary education institutions.
- All institutions receiving funding from national government for the purpose of achieving legislated national norms and standards should be subjected to an annual external audit.
- The grant be converted to a specific purpose grant with the allocation by province based on target enrolment by the type of health professional and all institutions receiving funding from this grant should be subjected to an annual external audit.
- The allocations in respect of pathology students making use of the national laboratory service be incorporated into the *health professions training and development grant*.

Government response

Government agrees that the organisational structure of the national Department of Health should be adjusted to include a unit of sufficient technical capacity to administer the grant and to manage policy issues relating to health science education and its funding. The development, management and funding of quantitative training plans for each health profession, with joint agreement between the health and education sectors, is an extremely complex task and requires strong dedicated skills. Further, government agrees that a standing committee is required especially between the health and

education sectors to coordinate the training of health professionals. This will be essential to provide stronger leadership and direction, as well as agreed quantitative plans for training health professionals.

Government agrees that measurable policy targets should be set for any sphere of government and/or institution receiving earmarked funding for the training of health professionals. The new framework should link funding to specific supply-side human resource planning and targets. The human resource planning and costing model developed by the FFC provides a useful tool for informing a future funding model. Government supports proposals that seek to link funding to an explicit process of quantitative planning for health human resources with clear production targets. However the gazetting of minimum norms and standards may not be the most appropriate way of doing this and the role for norms and standards in this area needs to be defined more clearly.

Government agrees that the policy framework underpinning the training of health professionals should be determined nationally and that part of the funding for training health professionals should be via the higher education funding stream and, to some extent, via the *health professions training and development grant* for the present. However, government would favourably consider a purchaser-provider split in which higher education institutions purchase clinical teaching services from the province. Government is of the view that such an arrangement may strengthen accountability, reporting, planning and performance.

While government supports the idea that this grant should be subjected to an external audit, such an audit would be difficult because it is not possible to split the costs associated with teaching within these institutions in a meaningful way. Government supports the reform of the grant and linking it to clear teaching output targets. Once this reform has been achieved, an audit against the agreed targets, norms and standards will become possible.

While government supports the argument put forward to make this grant a Schedule 5 grant, it is of the opinion that it would be difficult to effect such a conversion, because the large majority of costs incurred in training are incurred through shared resources, in which teaching and service are inextricably linked. For example, teaching of medical students is largely performed by medical specialists who perform service, and it is not possible to separate these costs in the financial accounting system in the kind of way that a Schedule 5 grant would require. Given that the grant is currently not a Schedule 5 grant, and that further work needs to be done on developing the policy and targets for the grant, the recommendation for annual audits needs to be considered in future.

FFC proposal on the national housing allocation formula

The FFC recommends that:

- The housing subsidy formula should, as much as possible, use variables that take account of provincial disabilities and peculiarities, as this will, to a large extent, eliminate bias. Factors like traditional housing, delivery capacity and development potential should be taken into account.
- The housing subsidy formula should recognise variation in regional cost, such as building and land cost difference between provinces.
- The delivery of housing should not result in communities being forced to live in areas where there is neither supporting infrastructure nor economic or livelihood potential. Funding for houses should also contribute to the attainment of sustainable rural development, and the formula should take into account rural housing needs when backlogs are calculated.
- Monitoring of compliance to minimum quality standards should be enhanced to ensure that rapid delivery of housing targets does not result in compromised or poor-quality housing that will result in additional costs in future, with negative implications for eradicating backlogs.

Government response

Housing statistics suggest that housing shortages are predominantly urban. In finalising its allocations, government continues to ensure that funds are channelled to areas where there is greater demand. This is done without any prejudice to provinces that are predominantly rural. This is evident in the sharp growth in allocations to these provinces.

Government does not support the recommendation that delivery capacity should be used as a criteria in the housing formula because it would have unintended consequences for equity.

Government does not support the recommendation that the housing formula should recognise variation in regional cost. It would be difficult to accurately determine such variation, given that there are variations between and within provinces, and the need to keep the formula simple. Government agrees that the housing programme should ensure sustainable communities with access to social and economic infrastructure that would contribute to improved livelihoods. In this regard, provincial governments are encouraged, through their integrated planning processes, to ensure that the entire necessary social and economic infrastructure is in place when large housing projects are completed. In the 2006 Budget, the *neighbourhood development partnership grant* was introduced to ensure that there is economic integration into low-income housing settlements.

Government agrees that compliance with minimum norms and standards should be enhanced to ensure quality delivery. In this regard, the National Home Builders Registration Council warranty scheme is extended to low-cost housing to protect beneficiaries from substandard construction. Further, government recognises that municipalities need to execute their inspectorate responsibilities in terms of housing in general, and low-cost housing in particular.

FFC proposal on incorporating social welfare into the provincial equitable share

The FFC recommends that:

- A social development component based on population, population in poverty and institutional capacity, should be incorporated into the provincial equitable share formula.
- The funding for social welfare services should take into account the need to maximise the spread of both welfare delivery institutions and human resources.

Government response

Government agrees that the equitable share formula should include a component that captures the demand for social welfare services. The equitable share formula is to be reviewed in the period ahead and the FFC's proposal will be considered as part of the review. The formula currently has a poverty component that is based on the proportion of the population deemed to be poor.

The review of provincial own-revenue trends

On provincial own revenue, the FFC does not make specific recommendations. It notes the progress with the implementation of the Provincial Tax Regulation Process Act in some provinces. The FFC further notes that its previous recommendations with respect to the structures and systems relating to the collection of provincial own revenues are being implemented.

The Western Cape fuel levy

The FFC includes as an annexure, recommendations regarding the Western Cape fuel levy. In approving the fuel levy, national government took into account all the proposals put forward by the commission. National government will be tabling enabling legislation for the introduction of the levy during 2007.

FFC recommendation on the basic services component of the local government equitable share formula

The FFC recommends that government revise the estimated cost of basic services (R130) per poor household per month as it is not sufficiently close to the true cost of providing basic services across a range of municipalities. The commission proposes that government consider raising the estimated cost to R175. This would help ensure that grant allocations are directed towards enhancing the ability of poor municipalities to carry out their constitutional mandate. Within a revenue-neutral scenario, this estimate allocates more basic services grants to Category A and B municipalities by only R22 million.

In the longer term, the efficiency of the local government equitable share formula in addressing its stated principles and objectives will be enhanced if a comprehensive review and assessment of the cost of providing basic services is urgently undertaken. An extensive exercise of this nature must take into account the crucial differences in the demographic composition, as well as the regional and geographical disparities, that affect the quality and quantity of service delivery.

Government response

Government acknowledges the need to review the costs of providing basic services for water, sanitation, electricity and refuse removal from time to time.

In deriving the equitable share of municipalities, the components are scaled upwards in order for the model to match the baseline amount of what becomes available to the local government sphere in the vertical split of nationally raised revenue, plus what is available through the revenue-raising capacity correction. Each year, since the inception of the new formula, this rescaling has had the result of increasing the subsidy for basic services, as the share of the local government sphere increases and as municipalities raise more of their own revenue. The result of this rescaling is such that the actual subsidy for basic services becomes much higher than the R130 per poor household per month.

Furthermore, the equitable share model makes provision for a full subsidy for basic services to households that have access to basic services, as well as a partial subsidy for those without access. Another characteristic of the model is that it recognises the powers and functions of municipalities and, where the local municipality does not have a specific power to perform a certain function, that part of its allocation is passed on to the district municipality performing the function. Therefore, it is not uncommon to find that a rural municipality has a relatively low number of households with access to a particular service and at the same time does not have the power to perform a certain function. Notwithstanding this, the allocation of the subsidy to the district municipality does not mean that the ultimate beneficiary, the poor household, is not reached.

A review of the local government fiscal framework is currently underway and includes a study on the cost of providing a basket of essential public services to the poor. It is important to note that although the outcome of this review could lead to the realignment of the level of support given to municipalities, it will remain a subsidy that is determined in the context of affordability and after making trade-offs with other national priorities in the normal budget process.

FFC proposal on the development component of the local government equitable share formula

The FFC proposes that the development component not be incorporated in the local government equitable share formula as it will not result in an overall increase in the local government equitable share but will result in the realignment of the relative shares within the same envelope. The FFC is of the view that the developmental needs of local governments should be better accounted for by designing a formula that fully accounts for the full expenditure needs of local government. This will require:

- Recognition that for municipalities to fully engage in stimulating local economic development, they need not provide only for basic services, but additional services covering a wide array of public services such as all-weather roads, street lights, environmental health care, public transport, housing, etc.
- Designing a process of “costing out” a full array of local services to ensure that the basic services and the development needs of municipalities are taken into account in the formula, and together account for the full expenditure needs of local government.

Government response

Government is exploring options to include the development component in the local government equitable share. The decision in this regard will be communicated with the tabling of the 2008 Budget. Government also notes the FFC’s comments that the development needs of local governments would be better accounted for by designing a formula that fully accounts for the full expenditure needs of local government. Government would welcome specific proposals from the FFC as to how this could be achieved, bearing in mind that local government has substantial revenue-raising powers, and that some of the services are self-funding.

FFC proposal on the use of the grant as a replacement for the RSC levy

The FFC supports the proposal (as implemented in the 2006 Division of Revenue) to use a grant as a replacement of the RSC/JSB levy as a transitional measure to ensure that municipalities that were benefiting from the RSC/JSB levy are not prejudiced as a result of their abolishment.

The FFC proposes that any long-term replacement revenue instrument for RSC levies should take the following into account:

- Proposals should be viewed as part of the broader exercise of assigning revenue sources to local government. Hence the proposals to replace RSC/JSB levies should be understood in a broader context, where replacement options are not just limited to already constitutionally assigned revenue sources but are also opened up to other completely new sources.
- The objectives that the replacement is supposed to meet must be clearly defined.
- There is a need for wider discussion about the overall objectives of local government revenue and expenditure assignments and how these are expected to be aligned with the new proposals. Such an approach will ensure that the choice between decentralising and centralising revenue sources is an informed one, guided by the clear assignment of expenditure responsibility and the degree to which South Africa wishes to entrench the fiscal autonomy of sub-national governments. In effect, this means that the replacement of RSC/JSB levies should be viewed as an opportunity for aligning the local government fiscal framework with the assignment of powers and functions.

Government response

Government acknowledges that the most appropriate sources of revenue to replace RSC/JSB levies should be explored and not be limited to the already constitutionally assigned revenue sources. Replacement options, as listed in the discussion document, as well as any others identified through the consultation process, will be evaluated in terms of the intergovernmental fiscal and taxation framework as well as the fiscal framework for local government to ensure that any replacement option(s) have limited negative economic impact, provide adequate revenue at acceptable rates and are easy to administer. Although options that enhance local government fiscal autonomy are preferred, any replacement option will need to comply with the municipal fiscal powers and functions framework as prescribed in section 229 of the Constitution.

Government agrees that although the purpose of the RSC/JSB levies system, when introduced, was to address the infrastructure backlogs in the historically disadvantaged areas of the country, municipalities have increasingly used RSC levies for general operating expenditure. Any replacement option(s) will most probably be allocated to municipalities as a general revenue source – in other words, no predetermined conditions will be set.

Government agrees that the replacement of RSC/JSB levies provides an opportunity for improving the alignment between the services (functional) and fiscal division between municipalities. A review is underway to improve this alignment.

FFC proposal on the fiscal implications of the re-demarcation of provincial boundaries

The FFC supports the view that both the provincial and local government equitable share formulae should be updated to take into account changes, including the revised census data from Statistics South Africa (Stats SA), resulting from the re-demarcated boundaries for municipalities and provinces.

The FFC proposes that:

- Any additional costs faced by provinces and municipalities that cannot be met through the revised equitable share allocations be funded through a once-off allocation from national government. Such an allocation may be justified on the basis that in principle the formulae are designed so that funds follow need determined by the demographic composition in provinces and municipalities. However, currently the formulae do not fund the administrative costs associated with the prioritisation and the choice of norms and standards for the delivery of basic services.
- That any changes to the boundaries of provinces and municipalities be aligned with the financial year(s) system applicable for provincial and municipal authorities. This will allow for the required fiscal changes to be phased in and reduce the fiscal burden related to dealing with fiscal implications that might arise out of the re-determination of boundaries.

Government response

The provincial and local government equitable share formulae have been realigned to the revised boundaries. The revisions to the local government equitable share formula have been effected with the tabling of the 2006 Budget, while the changes to the provincial equitable shares are implemented in the 2007 Budget.

No additional allocations were made to the local government sphere to address any additional costs to municipalities that may have arisen through the demarcation. Government agreed that provinces prepare their 2007 budgets based on the realigned provincial equitable shares. The implementation of these budgets will be closely monitored to inform any adjustments that may be required. Early assessments of provincial budgets suggest that provinces have succeeded in realigning their budgets to the revised boundaries and any pressures that may arise may be minimal. Furthermore, provinces may be able to absorb any additional costs that arise through the demarcation.

Government agrees that any changes to the boundaries of provinces and municipalities must be aligned with the financial year system of provinces and municipalities.

Part 3: Provincial allocations

Sections 214 and 227 of the Constitution require that an equitable share of nationally raised revenue be allocated to the provincial sphere of government to enable the provinces to provide basic services and perform the other functions allocated to them.

The 2007 Budget provides for total additional provincial spending of R6,2 billion in 2007/08 and R11,5 billion in 2008/09 over the forward estimates published in the 2006 *Budget Review*, and an increase of R21,5 billion to the newly created 2009/10 baseline allocation. The provincial equitable share baselines are revised upwards by R24,6 billion and conditional grants are increased by R14,6 billion over the next three years. National transfers to provinces increase from R177,9 billion in 2006/07 to R202,8 billion in 2007/08. Over the three-year period provincial transfers are projected to grow at an average annual rate of 12,7 per cent to R254,4 billion in 2009/10.

Provincial equitable share

The bulk of the provincial share of nationally raised revenue is allocated to provinces mainly through the equitable share grant. At 81,5 per cent of total provincial revenue and 84,5 per cent of national transfers, the equitable share constitutes the main source of revenue for meeting provincial expenditure responsibilities. The equitable share is budgeted to increase from R150,8 billion in 2006/07 to R171,3 billion in 2007/08, R193,5 billion in 2008/09 and R215,8 billion in 2009/10. The increase represents a real growth rate of 7,6 per cent per annum over the MTEF.

The equitable share formula

An objective redistributive formula is used to divide the equitable share among provinces. The formula is reviewed and updated with new data annually. For the 2007 MTEF, the formula is mainly affected by the re-benchmarking of the General Household Surveys (GHS), the re-demarcation of provincial boundaries to eradicate cross-boundary municipalities, and the use of latest available information.

The re-benchmarking of the General Household Surveys

Using mortality data from administration records of the Department of Home Affairs, and with the benefit of a more sophisticated demographic model, Stats SA adjusted population growth rates and absolute population figures for provinces in the 2004 mid-term population estimates. These were factored in the GHS for that year and subsequent periods. To ensure that population figures for the period prior to 2004 are consistent and comparable to those from 2004 onwards, they have had to be re-benchmarked. This ensures that the growth rates for the entire period bear relation to one another. Specifically, the population model was updated with the latest available mortality data. The benchmarks for all such previous surveys have been adjusted accordingly. This has resulted in revisions of population statistics of all provinces, which affects the equitable share formula and provincial equitable share allocations. These changes are captured in table E.7.

Table E.7 Comparing Census 1996, Census 2001 and Stats SA adjusted mid-year estimates

When the provincial equitable shares for the 2006 MTEF were finalised, the re-benchmarked 2002 and 2003 GHS population estimates were not available. The allocations were based on overstated and understated population figures for provinces. This had an impact on the 2007 equitable shares before the formula was updated for the revised provincial boundaries. The re-benchmarking affects the basic, health and poverty components of the formula, which in turn affect total provincial equitable shares. The three components combined account for 33 per cent of the total equitable share formula. When the revised population figures are included, the weighted equitable shares of provinces are revised as per table E.8.

Table E.8 Changes in weighted shares to provinces resulting from demarcation

Table E.8 also shows that there will be an impact on the allocations of all provinces before taking account of changes that arise due to demarcation. For example, the Western Cape and the Free State, although not directly affected by the demarcation, will have their equitable shares adjusted.

The re-demarcation of provincial boundaries

From 1 March 2006, provincial boundaries were redrawn to eradicate cross-boundary municipalities. However, the impact of the new boundaries on provincial allocations and budgets was deferred to the 2007 Budget. Table E.9 shows the population shifts between provinces as a result of the revised provincial boundaries. The population of the Northern Cape increases by 21,9 per cent while there is a sharp decline in North West (15 per cent) and moderate declines in Limpopo (4,5 per cent) and Eastern Cape (2,8 per cent).

The demarcation affects the education, health, basic, poverty and economic activity components, as the supporting data needs to be realigned to the new provincial boundaries. The updates to the different components are covered in the discussion under each of the components.

Policy change impact on the formula

To smooth the impact of new data updates to the provincial equitable share formula in previous years, government agreed to use moving averages. For the 2007 MTEF, government agreed that the use of moving averages in the formula be discontinued because it:

- Distorts the demographic shifts in provinces. The historical information tends to delay the shifts in allocations resulting from population shifts.
- Introduces a further lag in the formula as historic information forms a greater determinant in the formula. For example, the 2005 GHS will only account for 20 per cent of the output where its data is used, and the demographic shifts there are markedly different from the 2002 GHS.
- Proves difficult to rework historical information with the highest levels of confidence.

Summary of the structure of the formula

The formula (Table E.10) consists of six components which capture the relative demand for services between provinces and take into account specific provincial circumstances. The components of the formula are neither indicative budgets nor guidelines as to how much should be spent on those functions. Rather, the education and health components are weighted broadly in line with expenditure patterns to provide an indication of relative need. Provincial executive councils have discretion regarding the determination of departmental allocations for each function, taking into account the priorities that underpin the division of revenue. For the 2007 Budget, the distribution of the weights by component remains unchanged as set out below:

- An *education share* (51 per cent) based on the size of the school-age population (ages 5-17) and the number of learners (Grade R to 12) enrolled in public ordinary schools
- A *health share* (26 per cent) based on the proportion of the population with and without access to medical aid
- A *basic share* (14 per cent) derived from each province's share of the national population
- An *institutional component* (5 per cent) divided equally between the provinces
- A *poverty component* (3 per cent) reinforcing the redistributive bias of the formula

- An economic output component (1 per cent) based on GDP by region (GDP-R) data.

The phasing-in of the formula

For the 2007 Budget, government agreed not to phase in the impact of the updates effected to the formula. This is mainly due to the fact that there is a structural shift in the expenditure of affected provinces that should be accompanied by the requisite revenue shifts. Table E.11 shows the revised weighted provincial equitable shares for the period 2006/07 to 2009/10.

Education component

The education component is intended to enable provinces to fund school education, which accounts for about 80 per cent of provincial education spending. The formula uses school-age population (5 to 17 years) based on Census 2001 and actual enrolment drawn from the 2006 Snap Survey to reflect the relative demand for education, with each element assigned a weight of 50 per cent. Table E.12 shows the impact of the revised provincial boundaries on the data sets that support the component.

The education component is assigned a weight of 51 per cent of the equitable share formula. This weight is derived from average provincial spending on education in total provincial spending for the past three years, excluding conditional grants. Table E.13 shows the weighted target shares for the 2007 MTEF after updating the education component for new and realigned data.

Health component

The health component is assigned a weight of 26 per cent of the equitable share formula. This weight is derived from average provincial spending on health in total provincial spending for the past three years, excluding conditional grants. The health component addresses the need for provinces to deliver health care. As all citizens are eligible for health services, the provincial shares of the total population form the basis for the health share. Within the health component, people without medical aid are assigned a weight four times that of those with medical aid, on the grounds that the former group is likely to use public health care more. The proportions of the population with and without medical aid are taken from the 2005 GHS. Table E.14 shows the impact of the revised weighted shares of the health component.

Poverty component

The poverty component provides for redistribution within the formula and is assigned a weight of 3 per cent. The poor population is defined as income earners who fall in quintiles 1 and 2 based on the 2000 Income and Expenditure Survey (IES). Each province's share is then expressed as the percentage of the "poor" population residing in that province, where the population figure is drawn from the 2006 mid-year estimates. Stats SA indicated that it would be difficult to realign the 2000 IES to the new provincial boundaries given the methodology, sample size and reporting domain these samples. For the 2007 MTEF the component is partially realigned to the revised provincial boundaries with the 2006 mid-year population estimates. Table E.15 shows the impact of the revised weighted shares of the poverty component.

Economic activity component

The economic activity component is a proxy for provincial tax capacity and is assigned a weight of 1 per cent. For the 2007 MTEF, 2004 GDP-R data is used. The component is not aligned to the revised provincial boundaries as Stats SA indicated that it would be difficult to adjust GDP-R data with high levels of confidence. Table E.16 shows the impact of the revised weighted shares of the economic activity component.

Institutional component

The institutional component recognises that some costs associated with running a provincial government, and providing services, are not directly related to the size of a province's population. It is therefore distributed equally between provinces. It constitutes 5 per cent of the total equitable share, of which each province receives 11,1 per cent.

Basic component

The basic component (Table E.17) is derived from each province's share of the total population of the country and is assigned a weight of 14 per cent. For the 2007 MTEF population data is drawn from the 2006 mid-year estimates. Table E.17 shows the impact of the revised weighted shares of the basic component.

Conditional grants to provinces

There are two types of provincial conditional grants, classified as Schedule 4 and 5 grants. Governance arrangements for the two types differ, as Schedule 4 grants are more general grants that supplement various programmes also funded by provinces, such as infrastructure and central hospitals. Transfer and spending accountability arrangements differ, as more than one national or provincial department may be responsible for different outputs expected from the grant, so accountability is broader and more comprehensive, and related to entire programmes rather than specific projects. Schedule 5 grants are specific conditional grants, with specific responsibilities for both the transferring and receiving provincial accounting officers.

Changes to conditional grant framework

Minor changes are effected to the provincial fiscal framework for the 2007 MTEF. The *national community library services grant* to be administered by the Department of Arts and Culture is introduced to step up and consolidate library services at provincial level. The *FET colleges recapitalisation grant* administered by the Department of Education is phased into the provincial equitable share from 1 April 2009, and the *Alexandra renewal programme* is phased out from 1 April 2007.

Table E.18 shows the proposed revisions to conditional grants. These revisions of R2,7 billion, R5,1 billion and R6,9 billion (R14,6 billion over the next three years) bring the conditional grant baselines to R31,5 billion in 2007/08, R35,8 billion in 2008/09 and R38,7 billion in 2009/10.

Table E.19 provides a summary of conditional grants by sector and province for 2007/08. More detailed information, including the framework and formula for each grant, is provided in Appendix E1 of the 2007 Division of Revenue Bill. The frameworks provide the conditions for each grant, the outputs expected, the allocation criteria used for dividing the grant between provinces, the audit outcome in 2005/06 and any other material issues to be addressed. Table E.19 presents a summary of all the conditional grants listed in Schedules 4 and 5 of the bill for the 2007 MTEF.

Agriculture grants

The *comprehensive agriculture support programme* is allocated R1,3 billion over the next three years to promote and facilitate agricultural development to farmers benefiting from the land reform programme. The programme seeks to provide management, capacity building and business development support to emerging farmers. In addition, the programme aims to further expand farm infrastructure for dipping, fencing, and the rehabilitation of irrigation schemes.

The *land care programme* is allocated R147,1 million over the next three years. This programme promotes sustainable use and management of natural resources by encouraging and empowering communities to take responsibility for the management of resources to support food security and job creation through increased productivity. Other objectives of this grant relate to taking care of resources such as water, soil and land.

Education grants

The Department of Education administers the *national school nutrition programme*, *HIV and Aids (life skills) programme* and *FET recapitalisation grants*, which make up 6,1 per cent of total conditional grant spending.

The *national school nutrition programme* seeks to improve nutrition of poor school children, enhance active learning capacity and improve attendance in schools. The programme targets about 16 000 schools in poor communities at which about 5,5 million learners will be fed for approximately 156 school days per year. The programme is allocated R1,2 billion in 2007/08, R1,2 billion in 2008/09, and R1,3 billion in 2009/10. A baseline study on how the programme is to evolve over the medium to long term is under way.

The *HIV and Aids (life skills) programme grant* provides for life skills training, sexuality and HIV and Aids education in primary and secondary schools. The grant is allocated R157,7 million in 2007/08, R167,9 million in 2008/09, and R177,4 million in 2009/10. The programme is now fully integrated into the school system, with learner and teacher support material provided for grades 1 to 9.

The *FET recapitalisation grant* funds the recapitalisation of 50 FET colleges to improve their capacity in contributing to skills development and training. In addition to skills development, the grant also contributes to upgrading of physical infrastructure for the colleges and acquisition of equipment. The grant is allocated R595 million in 2007/08 and R795 million in 2008/09 and is phased into the equitable share by 2009/10.

Health grants

The health sector accounts for the bigger share (35,9 per cent) of the total provincial conditional grants. The sector accounts for at least five conditional grants with a total allocation of over R11 billion annually.

The *national tertiary services grant* aims to provide strategic funding to enable provinces to plan, modernise, and transform the tertiary hospital service delivery platform in line with national policy objectives. The grant operates in 27 hospitals across the nine provinces, concentrated in urban Gauteng and Western Cape. Consequently, the Western Cape and Gauteng receive 61,9 per cent in 2007/08 of the grant as they provide the largest proportion of these high-level, sophisticated services for the benefit of the health sector countrywide.

The baselines for the *national tertiary services grant* are revised upwards by R100 million in 2007/08, R400 million in 2008/09, and R530 million in 2009/10 to fund radiology and oncology equipment. The additional funds will strengthen cancer services and medical and radiology equipment. The grant grows to R5,3 billion in 2007/08, R5,9 billion in 2008/09 and R6,3 billion in 2009/10.

The *health professions training and development grant* funds the costs associated with the training of health professionals, development and recruitment of medical specialists. It enables the shifting of teaching activities from central to regional and district hospitals. It is allocated R1,6 billion in 2007/08, R1,7 billion in 2008/09 and R1,8 billion in 2009/10.

The *comprehensive HIV and Aids grant* enables the health sector to develop a specific response to HIV and Aids. The grant supports, in addition to HIV and Aids prevention programmes, specific interventions that include voluntary counselling and testing, prevention of mother-to-child transmission, post-exposure prophylaxis and home-based care. The grant is revised upwards by R300 million in 2007/08, R500 million in 2008/09 and R850 million in 2009/10 to extend coverage of the programme. The grant is allocated R1,9 billion, R2,2 billion and R2,7 billion over the MTEF ending 2009/10.

The *hospital revitalisation grant* plays a key role in transforming and modernising infrastructure and equipment in hospitals. It funds the upgrading and replacement of hospital infrastructure and focuses primarily on projects in which an entire hospital is upgraded. The grant also includes a component aimed at improving systems for medical equipment, and supports management development initiatives, including personnel, procurement delegations and financial management capacity. The grant is allocated an additional R1 billion over the next three years. The additional allocations in the first two years will address tender shortfalls and faster-than-anticipated progress on the 26 hospitals currently on-site, whereas the additions in the outer year will allow additional hospitals to enter the programme. The grant grows to R1,9 billion in 2007/08, R2,3 billion in 2008/09 and R2,6 billion in 2009/10.

The transitional *forensic pathology services grant* assists with the transfer of medico-legal mortuaries from the South African Police Service to the health sector and to provide comprehensive forensic pathology services for the criminal justice system. The allocation rises to R551,4 million in 2007/08 before declining to R466,9 million in 2008/09 and R421,7 in 2009/10.

Housing grants

The *integrated housing and human settlement development grant* facilitates the establishment of habitable, stable and sustainable human settlements in which all citizens have access to selected social and economic amenities. The programme targets eradication or formalisation of informal settlements on a phased basis by 2014. The baselines for this grant are revised upwards by R300 million in 2007/08, R1,1 billion in 2008/09, and R1,3 billion in 2009/10. Taking into account these revisions, government plans to spend R29,6 billion over the medium term on low-cost housing. Spending on the *housing subsidy programme* is set to reach R11,5 billion by 2009/10.

National Treasury grants

The *provincial infrastructure grant* augments provincial funding to accelerate construction, maintenance and rehabilitation of new and existing infrastructure in education, roads, health and agriculture, and also contributes to rural development. The grant also focuses on the application of labour-intensive methods in delivery in order to maximise job creation and skill development.

In line with government's commitment to sustain social and economic infrastructure investment in provinces, R4,3 billion is added to the *provincial infrastructure grant*, bringing its allocation over the next three years to R21 billion. The bulk of the additional allocation will strengthen the expanded public works programme in roads, boosting employment and skills acquisition. The grant is allocated R6,2 billion in 2007/08, R6,8 billion in 2008/09 and R8,0 billion in 2009/10.

Arts and culture grants

Community library services are important for building well-informed communities as they give direct access to information and knowledge that contribute to education and self-empowerment. This new grant provides R984 million to transform urban and rural community library infrastructure facilities and services.

Sports and recreation grants

An additional allocation of R312 million to the mass sport and recreation participation programme is targeted at developing grassroots club structures to foster mass participation in sports and recreation, leaving a legacy beyond 2010. The grant is allocated R194 million in 2007/08, R290 million in 2008/09 and R402,3 million in 2009/10 to promote mass participation by historically disadvantaged communities in a selected number of development sporting activities.

Transport grant

The Department of Transport is allocated R3,0 billion in 2007/08, R3,3 billion in 2008/09 and R2,5 billion in 2009/10 as a contribution to the construction of the Gautrain Rapid Rail Link.

Part 4: Local government fiscal framework and allocations

Government continues to explore efficient options for financing local government. The ultimate goal is to ensure that each municipality has a sufficient resource base to execute its constitutional mandate. The local government equitable share was reviewed in 2004 with the revised formula fully implemented in 2007/08. Currently, the local government fiscal framework is reviewed to, among other things, ensure greater alignment between powers and functions, and resource generation and allocation. In exercising their revenue powers, it is important that municipalities do so in a manner that does not impact materially on national macroeconomic policy imperatives, such as inflation targeting.

The current focus of the review is to assess the impact and implementation of the new property rates legislation, the alignment between the functional and fiscal division of powers and functions between Category B (local) and Category C (district) municipalities, and other related matters that affect the local government fiscal framework, such as the restructuring of the electricity distribution industry.

All national transfers to municipalities are published to enable them to plan fully for their coming 2007/08 budgets, and to promote better accountability by ensuring that all national allocations are included in municipal budgets. The allocations are published for both the national and municipal financial years. The allocation in terms of the national financial year serves as the legal appropriation requirement for national and provincial transferring departments. The allocations in terms of the municipal financial year facilitate proper reconciliation for audit purposes.

National transfers to local government

National allocations to local government (Table E.3) grow from a revised allocation of R27,1 billion in 2006/07 to R34,3 billion in 2007/08, R41,8 billion in 2008/09 and R45,6 billion by 2009/10. Table E.3 indicates that the share of nationally raised revenue for local government rises from 6,5 per cent in 2006/07 to 7,7 per cent in 2009/10.

The local government equitable share

The equitable share allocation to the local sphere of government takes account of the fiscal capacity, fiscal efficiency, developmental needs, extent of poverty and backlogs in municipalities, to the extent

that such information is available. Table E.20 shows that the equitable share increases from R18,1 billion in 2006/07 to R20,7 billion in 2007/08 and is budgeted to grow to R29,4 billion in 2009/10.

2. Includes phasing out of poverty relief grants and Urban Transport Fund.

3. Reflects local government's share of the division of revenue.

Equitable share formula

The structure and components of the formula are summarised in the text box below:

<p>Structure of the local government equitable share formula</p> <p>$Grant = BS + D + I - R \pm C$</p> <p><i>where</i></p> <p>BS is the basic services component</p> <p>D is the development component</p> <p>I is the institutional support component</p> <p>R is the Revenue Raising Capacity Correction and</p> <p>C is a correction and stabilisation factor.</p>

The basic services component

Municipalities are expected to provide water, sanitation, electricity, refuse removal and other basic services. The purpose of the *basic services component* is to enable municipalities to provide basic services and free basic services to poor households. For each of the subsidised basic services there are two levels of support: a full subsidy for those households that actually receive services from the municipality, and a partial subsidy for unserved households, currently set at a third of the cost of the subsidy to serviced households.

The characteristics of the basic services component are:

- Supporting only poor households earning less than R800 per month.
- Distinguishing between poor households provided with services and those provided with lesser or no services.
- Recognising water reticulation, sanitation, refuse removal and electricity reticulation as the core services.
- Providing for environmental health care services to all households, not only poor ones.

<p>The Basic Services Component</p> <p>$BS = [Water\ Subsidy\ 1 * Poor\ with\ Water + Water\ Subsidy\ 2 * Poor\ without\ Water] +$ $[Sanitation\ Subsidy\ 1 * Poor\ with\ Sanitation + Sanitation\ Subsidy\ 2 * Poor\ without\ Sanitation] +$ $[Refuse\ Subsidy\ 1 * Poor\ with\ Refuse + Refuse\ Subsidy\ 2 * Poor\ without\ Refuse] +$ $[Electricity\ Subsidy\ 1 * Poor\ with\ Electricity + Electricity\ Subsidy\ 2 * Poor\ without\ Electricity] +$ $[Environmental\ Healthcare\ Subsidy * Total\ number\ of\ households]$</p>

The institutional support component

The *institutional support component* is particularly important for poor municipalities, which often are unable to raise sufficient revenue to fund the basic costs of administration and governance. Such funding gaps make it impossible for poor municipalities to provide basic services to all their residents, clients and businesses. The component supplements the funding of a municipality for

administrative and governance costs, but does not fully fund the entire administration and governance cost of a municipality; this remains the primary responsibility of each municipality.

The institutional component

There are two elements to the institutional component: administrative capacity and local electoral accountability – the grant therefore is as follows:

$$I = \text{Base allocation} + [\text{Admin support} * \text{Population}] + [\text{Council support} * \text{Number of Seats}]$$

Where the values used in the formula are:

$$I = R350\ 000 + [R1 * \text{population}] + [R36\ 000 * \text{councillors}]$$

The “base allocation” is an amount that will go to every municipal structure (except for a district management area). The second term of this formula recognises that costs go up with population. The third term is a contribution to the cost of maintaining councillors for the legislative and oversight role. The number of “seats” that will be recognised for purposes of the formula is determined by the Minister of Provincial and Local Government.

The development component

This component has been set at zero since the inception of the current formula and will remain inactive until a suitable factor can be found that adequately captures the developmental needs of local government.

The revenue-raising capacity correction

This mechanism raises additional resources to fund the cost of basic services and administrative infrastructure. The basic approach is to use the relationship between demonstrated revenue-raising capacity among municipalities that report information and objective municipal information from Stats SA to proxy revenue-raising capacity for all municipalities. The revenue that should be available to a municipality then is converted to a “correction” by imposing a “tax” rate of 5 per cent. In the case of the *RSC levy replacement grant* the correction is based on the actual grant to each municipality.

Stabilising constraint

With the publication of three-year budget allocations, a guarantee mechanism is applied to the indicative outer-year baseline amounts with the aim of ensuring that municipalities are given what they were “promised” in the previous MTEF round of allocations, as far as this is possible. An additional constraint is to ensure that allocations are not negative due to the revenue-raising correction. The 2007 MTEF provides guarantees of 100 per cent and 90 per cent on the allocations for the first two years of the MTEF cycle, respectively.

Other considerations in applying the formula

The formula as outlined above has to be modified to account of intricacies in the allocation process. In particular, powers and functions must be taken into account, and the overall budget must balance.

a) Powers and functions

The local government system has a number of asymmetries, not only between different categories of municipalities, but also within the same category of municipalities. Firstly, there is the broad division of the sphere into Category A, B and C municipalities. Secondly, the division of powers

and functions between Category B and C municipalities differs – and this is also true between the different Category B municipalities within the same Category C district. In order to deal with these differences the model has to ensure that the allocations made in terms of the “basic services” component have to go to the municipality that actually performs the function.

b) Balancing allocations

The “horizontal division” of allocations made between municipalities depends on the size of the overall allocation that is made to the local government sphere, normally determined through a separate consultative process to determine the equitable share of nationally raised revenue for each of the three spheres of government (i.e. the “vertical division”). Since there is no guarantee that allocations made in terms of the vertical division add up precisely to the amount allocated to the local government equitable share, such allocations need to be adjusted to fit within the constraints outlined above.

Rescaling of the BS, D and I components

The simplest way of making the system balance is to rescale the BS, D and I components to the available budget, hence the formula actually becomes:

$$\text{Grant} = \text{Adjustment Factor} * (\text{BS} + \text{D} + \text{I}) - \text{R} \pm \text{C}$$

This adjustment factor is calculated so as to ensure that the system balances.

To deal with the constraints, municipalities are divided into two groups: those municipalities that require a “top-up” in order to meet the stabilising constraints and those that do not. The total size of the top-up is calculated and this is deducted from those that do not require a top-up amount in proportion to the “surplus”.

Measurement issues

The integrity of the data is as important as the set of equations in determining whether the allocations meet the constitutional requirement of equity. Measurement itself is a dynamic issue – new data sets become available, while existing data series might be discontinued. Thus, the allocation process is subject to regular changes and innovation.

a) Poverty

The baseline information for the measurement of poverty comes from Census 2001. The “income” method is used to estimate poverty at a municipal level as it allows for a cross-tabulation of poverty against servicing levels.

b) Servicing levels

A key ingredient in the current formula is the subsidy received by poor households for various services delivered to them. The subsidy amounts have been updated in the current formula, using a more recent study by the Department of Provincial and Local Government. The service costs remain at R130 per month for a serviced household and R45 per month for an unserved household (see Table E.21 below). In addition, all households receive approximately R12 a year towards the provision of environmental health care services.

Table E.21 Service costs

Service costs per month Rand	1998 Estimates	Serviced households	Unserviced households¹
Electricity	36,0	40,0	15,0
Water	20,0	30,0	10,0
Refuse	20,0	30,0	10,0
Sanitation	10,0	30,0	10,0
Total	86,0	130,0	45,0

1. One third of serviced households (2004 DPLG study).

c) Revenue-raising capacity

Information on revenue collected (by source) is only available from each municipality, and even where a municipality is able to provide such information, it must be comparable between municipalities so as not to expose the formula to data manipulation. The lack of such information requires the use of alternative research. For the new formula an imputation process using municipal revenue data and census information was undertaken. This process has the advantage that it leads to measures of revenue-raising capacity that are highly correlated with actual revenues raised; and municipalities cannot manipulate it in order to influence their equitable share allocations.

Phasing-in of the new formula

The formula was being phased in over the last two financial years and takes full effect in 2007/08.

The water service operating subsidy

The *water service operating subsidy* is a transitional operational grant closely related to the local government equitable share and, in principle, should be part of the *equitable share grant*. It is an indirect grant, used to fund 318 water schemes in municipalities through the water trading account on the vote of the Department of Water Affairs and Forestry. The department administered a number of these schemes in poor areas prior to 1994. The operating grant (direct and indirect) amounts to R1,0 billion in 2007/08, R1,1 billion in 2008/09 and R855 million in 2009/10.

The department is in the process of finalising the transferring of the schemes. All funds on this programme will subsequently be transferred directly to municipalities in terms of the provisions of the transfer agreements. The transfer of water schemes involves the transfer of both assets and staff, and the resulting operating costs of salaries and free basic services. The 318 schemes employ 7 482 staff and supply water to 54 municipalities. So far 43 agreements have been signed, and 1 841 staff have been transferred, along with 232 schemes with a total asset value of approximately R4,6 billion.

The operating and transfer subsidy will be treated as a grant-in-kind until the effective date of transfer. Thereafter, it will be treated as a conditional grant up to 2008/09 and subsequently phased into the equitable share. The operating subsidy will cover staff-related costs and direct operating and maintenance costs, while provision is also made for the refurbishment of infrastructure. The allocation per municipality will be according to the operational budget for each scheme and the funding requirements identified and agreed in the transfer agreement. Clear performance targets will be set with the assistance of the Department of Provincial and Local Government and SALGA to complete the process.

Conditional grants to local government

Conditional grants are used to incorporate national priorities in municipal budgets; promote national norms and standards; address backlogs and regional disparities in municipal infrastructure; and effect transition by supporting municipal capacity building and restructuring. Total conditional grants to municipalities, including the water operating subsidy, increase from R9,0 billion in 2006/07 to R13,6 billion in 2007/08, R18,1 billion in 2008/09 and R16,2 billion in 2009/10.

Below is a summary of all the conditional grants to municipalities listed in Schedules 4, 6, 6A and 7 of the 2007 Division of Revenue Bill.

Infrastructure conditional grants to local government

National transfers for infrastructure amount to R12,7 billion, R17,3 billion and R15,1 billion for each of the 2007 MTEF years. The *municipal infrastructure, public transport infrastructure, national electrification programme, water services regional bulk infrastructure, water and sanitation to schools and clinics, electrification of schools and clinics* and *2010 FIFA World Cup stadiums development grants* are the infrastructure transfers to local government.

Additional to the existing transfers to local government for municipal infrastructure, public transport infrastructure and the national electrification programmes, new grants were introduced for water services regional bulk infrastructure, stadium development, water and sanitation services to schools and clinics and the electrification of schools and clinics.

Municipal infrastructure grant

The largest infrastructure transfers – R7,5 billion, R8,1 billion and R9,1 billion over the MTEF years – are through the *municipal infrastructure grant* (MIG), which supports government's objective of expanding the delivery of basic services to poor households and alleviating poverty. The grant also seeks to stimulate local economic development and job creation over the medium term. Municipalities are required to dedicate a portion of their capital budgets to labour-based infrastructure methods to meet the objectives of the expanded public works programme. This grant is listed on Schedule 4 of the Division of Revenue Bill, as it supplements municipal allocations for infrastructure. For this reason, the role of national departments in relation to this grant is limited to enforcing compliance, with the conditions set out in its framework, and monitoring performance by receiving municipalities. Its conditions are more flexible, designed to support the capital budgets of municipalities, and to facilitate integrated development planning.

The role of national and provincial government is to support and monitor policy outcomes of municipal infrastructure investments. Crucially, the policy reform around infrastructure grants will bring the grant system in line with the general direction and path of the intergovernmental system, which is focused on improving the capacity, efficiency, effectiveness, sustainability and accountability of the local government sphere, and making integrated development plans the primary mechanisms for intergovernmental coordination.

The MIG formula comprises of a vertical and horizontal division. The vertical division allocates resources to sectors or other priority areas; the horizontal division is determined based on a formula that takes account of poverty, backlogs, and municipal powers and functions. There are five main components of the formula, as demonstrated in the box below.

MIG_(F) = B + P + E + N + M
B Basic residential infrastructure (new and rehabilitation of existing ones) Proportional allocations for water supply and sanitation, electricity, roads and 'other' (Street lighting and solid waste removal)
P Public municipal service infrastructure (new and rehabilitation of existing ones)
E Allocation for social institutions and micro-enterprises infrastructure
N Allocation to all nodal municipalities
M Negative or positive allocation related to past performance of each municipality relative to grant conditions

Over the 2007 MTEF, R24,7 billion is available for the MIG programme. The ring-fenced allocation for the eradication of bucket sanitation system is phased into the local government equitable share in 2008/09 as the programme will be completed by that time. The 2007 MTEF also makes provision for bulk infrastructure. The incorporation of the electricity programme (which includes both municipal and Eskom programmes) into the MIG is, however, deferred until the completion of the restructuring of the electricity distribution industry. This requires a rescaling of the weights of the B component to its original split. The rescaling and weighted shares per sector are illustrated in Table E.22.

The public transport infrastructure and systems grant

The *public transport infrastructure grant* is administered by the Department of Transport. The grant provides for planning, establishment, construction and improvement of new and existing public transport infrastructure and systems. It is allocated R1,2 billion in 2007/08, R3,2 billion in 2008/09 and R2,3 billion in 2009/10.

The neighbourhood development partnership grant

The *neighbourhood development partnership grant* provides municipalities with technical assistance to develop appropriate project proposals for property developments in townships and new residential neighbourhoods. The grant will be administered by the National Treasury and is allocated R500 million in 2007/08, R1,5 billion in 2008/09 and R1,7 billion in 2009/10.

The national electrification programme

In line with its objectives to eradicate the electricity backlogs, particularly to poor households, government plans to spend R6 billion over the next three years on its national electrification programme. Of this R2,2 billion will be spent by municipalities directly and R3,8 billion by Eskom on behalf of municipalities.

The water services regional bulk infrastructure grant

This grant supplements the financing of the social component of regional bulk water and sanitation infrastructure and is allocated R300 million in 2007/08, R450 million in 2008/09 and R650 million in 2009/10.

The water services to schools and clinics grant

This grant has been created to eliminate the backlog in access to water and sanitation services at schools and clinics. An amount of R665 million is available over the MTEF cycle for ensuring access for all identified clinics and schools by 2008/09 and 2009/10 respectively.

The national electrification of schools and clinics grant

The grant provides funding to the amount of R285 million over the next three years for connecting 6 928 schools and 411 clinics with electricity by 2009/10.

The 2010 FIFA World Cup stadiums development grant

The purpose of the grant is to provide funding for the design and construction of new stadiums and the upgrading of existing ones in 2010 FIFA World Cup host cities. Funds of R2,7 billion in 2007/08, R3,8 billion in 2008/09 and R1,3 billion in 2009/10 are allocated for this grant.

Capacity-building grants

The *capacity-building grants* were set up to assist municipalities in building management, planning, technical, budgeting and financial management skills. These grants are R749 million 2007/08, and reduced to R400 million in 2008/09 and R400 million in 2009/10. The *restructuring grant* is phased into the equitable share in 2008/09.

The *financial management grant* under the National Treasury vote funds the modernisation of financial management, including building in-house municipal capacity to implement multi-year budgeting, linking integrated development plans to budgets, producing quality and timely in-year and annual reports, and generally supporting municipalities in the implementation of the MFMA. Allocations over the MTEF amount to R495,2 million.

The *restructuring grant* under the National Treasury vote is a demand-driven grant and is aimed at funding municipal restructuring initiatives of a financial, institutional and developmental nature that are locally designed and supported. Only large municipalities are eligible for this grant. The grant has been capped at R350 million and is phased into the local government equitable share in 2008/09.

The *municipal systems improvement grant* under the vote of the Department of Provincial and Local Government focuses on stabilising municipal and governance systems, planning and implementation management support centres, reviewing integrated development plans and implementing the Municipal Systems Act (2000). The grant is allocated R200 million a year over the next three years.

Part 5: Future work on sub-national fiscal frameworks

Refinement of the local government fiscal framework

Various reforms have been made to the local government fiscal system, such as the reforms to the local government equitable share and infrastructure grant formulas. Further refinements will be made to the local government fiscal framework to enhance the ability of municipalities to perform their developmental and service delivery responsibilities. Some of the key issues that will form part of the further reform and refinement of the local government fiscal framework are discussed in more detail below.

Interim and longer-term arrangements to replace funding from RSC/JSB levies

The Regional Services Council (RSC) levies (referred to as Joint Services Board levies in KwaZulu-Natal) were introduced in 1985 and 1990 respectively to fund the provision of basic services and accrued to metropolitan (Category A) and district (Category C) municipalities.

The Minister of Finance announced in the 2005 Budget speech the phasing out of RSC and JSB levies with effect from 1 July 2006. The Small Business Tax Amnesty and Amendment of Taxation Laws Act, 2006 revoked the power of district and metropolitan municipalities to impose RSC and JSB levies from 1 July 2006. Legislative provision is made for municipalities to continue to collect any RSC and JSB levies that became due on or before 30 June 2006 (for a stipulated period).

The importance of maintaining existing levels of revenue in order for municipalities to meet their expenditure obligations was however acknowledged in the 2005 *Medium Term Budget Policy Statement*. National government will compensate municipalities for lost revenue within the national budget framework, while exploring permanent replacement options. For the 2007 Budget,

R27 billion (R8 billion in 2007/08, R9 billion in 2008/09 and R10 billion for 2009/10) has been made available as part of the local government share to replace RSC and JSB levies as an interim funding measure. Actual RSC levies collected as obtained from financial statements for the 2005/06 financial year were used to determine allocations for the 2007 Budget (allocations to metropolitan municipalities were adjusted to take into account the VAT zero-rating of property tax from 1 July 2006). Similar to RSC levies, the replacement grant should be prioritised towards basic services and infrastructure development in under-serviced communities.

Various medium- to long-term options to replace RSC and JSB levies were proposed in a discussion document that was received by the National Treasury. Replacement options, as listed in the discussion document, as well as any others identified through the consultation process, will be evaluated in terms of the intergovernmental fiscal and taxation framework as well as the fiscal framework for local government so as to ensure that any replacement option(s) have limited negative economic impact, provide adequate revenue at acceptable rates and are easy to administer. Although options that enhance local government fiscal autonomy are preferred, any replacement option will need to comply with the municipal fiscal powers and functions framework as prescribed in section 229 of the Constitution.

The intention is to announce long-term options to replace RSC and JSB levies as part of the 2008 (or possibly 2009) Budget.

Legislation dealing with the regulation of municipal fiscal powers and functions

Section 229(1)(a) of the Constitution empowers municipalities to impose municipal surcharges on fees for services provided by them or on their behalf. Municipalities may in terms of section 229(1)(b) also, if authorised by national legislation, impose other taxes, levies and duties (“taxes”) appropriate to local government or to the category of local government into which that municipality falls, but excluding an income tax, a value-added tax, general sales tax and customs duties. Section 229(2) subjects these powers to regulation by national legislation and policy.

The draft Municipal Fiscal Powers and Functions Bill will be resubmitted to Cabinet for approval to publish for public comment. The draft bill will primarily deal with the following:

- Permanently abolishing RSC and JSB levies from 1 July 2006
- Prescribing the process for authorisation and regulation of a municipal tax
- Setting out norms and standards for municipal surcharges.

Restructuring of the water and electricity distribution industries

Reform of the water and electricity distribution industries has been driven by the need to address their fragmentation, which could have led to a number of problems – including the inability of small municipalities to achieve economies of scale, skills and specialisation.

The following key principles should underpin any sector restructuring process:

- Restructuring must be in accordance with the Constitution
- The financial state of municipalities now performing the function(s) must not be adversely affected
- Aggregate personnel costs must not increase in a way that undermines the objective of one public service
- No additional funds or taxes to fund restructuring (fiscus and/or local government) may be introduced without the approval of Cabinet.

The electricity distribution industry (EDI) restructuring process has commenced, while the restructuring of the water industry is still in the planning stages.

In October 2006, government agreed that six wall-to-wall regional electricity distributors (REDs) be established as public entities. Eskom will become a shareholder in the respective REDs for a transitional period and will reduce its shareholding over a period of time. Government is developing a road map to move into the new industry structure. EDI restructuring legislation will be introduced in 2007 as the legislative instrument for the formation of the REDs.

The Electricity Regulation Amendment Bill dealing with the regulation of the electricity reticulation function (municipal responsibility) will complement the planned legislation to deal with municipal fiscal powers and functions.

Implementation of the Local Government Municipal Property Rates Act

Although the Municipal Property Rates Act took effect from 2 July 2005, the new property rating and valuation system will only take effect when a council has adopted its rates policy and has prepared the first valuation roll in terms of the act (municipalities are required to bring their valuation records up to date within four years of the effective date of the legislation). The act also requires that a rate levied on newly rateable property must be phased-in over a period of three financial years. It extends property rates to public service infrastructure and state properties. Only a limited number of municipalities have introduced new valuation rolls in terms of the act (most municipalities are targeting 1 July 2007 or 1 July 2008 as the earliest date for introducing new valuation rolls).

The first set of regulations in terms of the Municipal Property Rates Act focusing on administrative issues was gazetted for public comment in 2006. It is the intention to publish the second (final) set of regulations focusing on financial issues for public comments in 2007.

Alignment between the functional and fiscal division of powers and functions between Category B (local) and Category C (district) municipalities

National legislation in terms of sections 155 and 229 of the Constitution may regulate how fiscal powers and functions are to be divided or shared between Category B and C municipalities. At present, property taxes are allocated to Category A and B municipalities. Property tax is allocated to Category B municipalities on the basis that they are responsible for functions such as water, sanitation, electricity and refuse removal. Due to an asymmetric division of powers and functions between Category B and C municipalities, certain Category C municipalities will be responsible for the water function, but the Category B municipalities will still have all the property tax. Similarly, although certain Category C municipalities have no major functions to perform, they may have access to RSC levies (or subsequent funding sources to replace RSC levies).

Joint work is currently being undertaken by National Treasury and the Department of Provincial and Local Government to improve the alignment between the functional and fiscal division of powers and functions between Category B and C municipalities.

The Division of Revenue Bill, attendant documentation (schedules indicating division and grant frameworks), and background materials are available on the National Treasury website: www.treasury.gov.za.

APPENDIX E1:
FRAMEWORKS FOR CONDITIONAL
GRANTS TO PROVINCES

Appendix E1: Frameworks for Conditional Grants to Provinces

Detailed frameworks on Schedules 4 and 5 grants to provinces

Introduction

This appendix provides a brief description of the framework for the grants set out in Schedules 4 and 5 of the 2007 Division of Revenue Bill. The following are key areas considered for each grant:

- Purpose and measurable objectives of the grant
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between provinces or municipalities
- Rationale for funding through a conditional grant
- Monitoring mechanisms
- Past performance
- The projected life of the grant
- 2007 MTEF allocation
- The payment schedule
- Responsibility of national transferring department
- Grant review process
- Review of business plans for 2008/09

The attached frameworks are not part of the Division of Revenue Bill, but are published in order to provide more information on each grant to Parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the 2007 Division of Revenue Bill is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2007/08 will report against the Division of Revenue Act and its schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

The implementation of the aforementioned process will be phased in and be fully operational by 2007/08 • Provincial departmental strategic plans for 2007/08 and over the MTEF period to clearly indicate measurable objectives and performance targets as agreed with the national department
Allocation criteria	<ul style="list-style-type: none"> • A formula, which is consistent with the principles and provisions contained in Section 214 of the Constitution, has been applied in Housing for provincial allocations. Provincial allocations are currently made according to a formula determined by MINMEC and approved by Cabinet. The formula recognises the following factors:

Integrated Housing and Human Settlement Development Grant (IHAHSD)	
	<ul style="list-style-type: none"> - The needs of each province as measured by the housing backlog. Backlog is a function of people who are homeless, staying in inadequate housing or conditions, and is assigned a weight of 50 per cent - A poverty indicator as measured by the number of households earning less than R3 500 in each province and is weighted 30 percent - A population indicator, weighted at 20 per cent, as measured by each province's share of total population as per the 2001 census date with effect from the 2005/06 financial year • The formula provides for weighting in order of the priority of the elements as defined below- <ul style="list-style-type: none"> - A=HN (50 per cent) +HH (30 per cent) +P (20 per cent), where <ul style="list-style-type: none"> -A = Allocation -HN = Housing Need -HH = Households earning less than R3 500 per month (affordability indicator) -P = Population - Housing need used in the formula is defined on a weighted formula that takes into account the following: <ul style="list-style-type: none"> -HN = HL (1.25) + SE (1.2)+SBY ((1.0)+ TC (1.0) +FR (0.5) where -HN = Housing Need -HL = Homeless People -SE = Shacks Elsewhere -SBY = Shacks in backyards -TC = Tents and Caravans -FR =Flat/room on shared property • Should additional funding be made available in the budgetary process and approved by the Houses of Parliament to a province for a specific purpose to address a national priority project and or any disaster situation caused by non-human action then such funds will not be subject to the approved formula reflected above • Additionally, consideration has been given to adjusting the existing allocation which has been approved by Housing MINMEC. The mainstream, statistical part of the new formula, forming 80% of the proposed 80/20 split, concentrates on housing needs, weighted at 90%, and developmental potential which is weighted 10%. The need component is broken down into three major areas, namely inadequate housing (70%), poverty (10%) and population (20%). These three areas are then broken down into sub-components. Inadequate housing comprises of shack in backyard (90%), shack not in backyard (30%), traditional dwellings (30%) and labour tenants on farms (20%). Poverty comprise households earning R0 to R1500 (80%) and households earning R1 500 to R3 500 a month. Developmental potential has two sub-components, namely economic growth potential (50%) and net migration (50%) • The non- empirical element comprising the 20% of the split is still subject to further consultation and negotiation between official housing sector structures with the National Treasury • In view of the impact on certain provinces where their allocation could be significantly reduced when the revised formula is applied, it is deemed necessary to soften the impact of the decrease by phasing in the new formula with effect from the 2008/09 financial year, where after the formula will be applied as intended
Reason not incorporated in equitable share	<ul style="list-style-type: none"> • The provision of housing to the poor is a national priority • The housing development is viewed as an initiative through which projects and programmes can be funded that are in support of the housing investment being made in an effort to create viable communities living in sustainable integrated human settlements
Monitoring mechanisms	<ul style="list-style-type: none"> • The National Department of Housing installed a transversal computerized subsidy management system (HSS) in all Provincial Housing Departments for the administration of the subsidy scheme and to allow the national department to monitor progress and expenditure • Monitoring in terms of the provisions of DORA and the approved Monitoring Guidelines • Visits to Provinces, interaction by the housing sector Chief Financial Officers and Heads of Housing and MINMEC meetings

Purpose	<ul style="list-style-type: none"> • Help accelerate construction, maintenance, upgrading and rehabilitation of new and existing infrastructure in education, roads, health and agriculture • Focus on the application of labour intensive methods in the construction and maintenance of road infrastructure in order to maximise job creation and skills development as encapsulated in the EPWP guidelines • Gradually increase the labour-intensity of certain specific types of projects over the next five years for meaningful contribution to the EPWP • Enhance capacity to deliver infrastructure
Measurable outputs	<ul style="list-style-type: none"> • Number of schools, health and roads constructed and maintained using EPWP guidelines • Number of job opportunities created and the average length of employment for labour intensive projects • Number of persons participating in the training programs under the expanded public works programme • Km of access roads constructed and maintained as part of the EPWP
Conditions	<ul style="list-style-type: none"> • Submission of detailed infrastructure plans for 2007 Budget by 13 April 2007 for departments that are targeted by the grant. These plans must comply with the prescribed format, including EPWP requirements. The flow of the first instalment depends on the submission and approval of infrastructure plans and submission of fourth quarter report for the 2006/07 financial year • 2007/08 allocations should take into account the conditions for additional allocations that were made for roads in the framework for the grant in 2006 MTEF. The Roads departments are expected to prioritise rehabilitation of strategic secondary road network, (mainly class 2 roads), and identified freight corridors executing the projects labour intensively in accordance with EPWP tender and design guidelines • Additional R3 003 million has been made available to increase spending on road infrastructure construction and maintenance with particular focus on access roads in order to scale up EPWP in roads. These funds are intended to increase the existing allocation earmarked for EPWP. The infrastructure plans must indicate how these additional funds will be used to increase the scale of the EPWP and these plans must be adhered to • Submission of draft infrastructure plans, which include organisational support plan for 2008/09, in the prescribed format, including EPWP requirements, by 31 August 2007, or any other date as determined by National Treasury. Plans with final list of projects must be submitted to implementing agents by 30 November 2007. Final plans to be tabled together with strategic and annual performance plans • Client departments must prepare Infrastructure Plans in accordance with template 2T01, Infrastructure Programme Management Plans in accordance with template 2T06 and enter into service delivery agreements with their implementing agents, including the provincial Department of Public Works • Implementing agents including the provincial Department of Public Works must prepare Infrastructure Programme Implementation Plans in accordance with template 3T01 • Submission of quarterly reports on physical progress with implementation of infrastructure projects in addition to in-year expenditure monitoring reports. Reported information should cover the full infrastructure budget in the province, not only the grant allocation. Reports should also indicate progress in terms of expenditure, jobs created, and training with EPWP designated projects • The flow of the 2nd, 3rd and 4th instalment will be conditional upon submission and approval of signed-off quarterly reports • All infrastructure suitable for labour-intensive construction as identified using the EPWP Guidelines must be implemented in compliance with the conditions specified in these guidelines
Allocation criteria	<ul style="list-style-type: none"> • The formula to allocate the grant takes account of percentage share of equitable share allocation and the infrastructure backlogs. In the 2007 MTEF, the realigned provincial equitable share formula is used as a proxy to shift the allocations in line with the revised provincial boundaries • The grant allocation formula has been adjusted to take account of the difference between the 2007 MTEF weighted shares of the equitable share formula and the 2006 target shares of the formula, this then used to adjust the current shares of the provincial infrastructure grant • The provincial infrastructure formula is realigned to the new provincial boundaries. Given the structure of the formula and the data used, it proves rather difficult to realign all components to the revised boundaries, that is, roads and backlogs components cannot be updated as the data used cannot be realigned to the revised provincial boundaries

Infrastructure Grant to Provinces

APPENDIX E2:
FRAMEWORKS FOR CONDITIONAL
GRANTS TO MUNICIPALITIES

Appendix E2: Frameworks for Conditional Grants to Municipalities

Detailed frameworks on Schedules 4, 6, and 7 grants to municipalities

Introduction

This appendix provides a brief description for each grant in Schedules 4, 6 and 7 of the 2007 Division of Revenue Bill. The following are key areas considered for each grant:

- Purpose and measurable objectives of the grant
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between municipalities
- Rationale for funding through a conditional grant
- Monitoring mechanisms
- Past performance
- The projected life of the grant
- 2007 MTEF allocation
- The payment schedule
- Responsibility of national transferring department
- Process for approval of 2008 MTEF allocations

The attached frameworks are not part of the Division of Revenue Bill, but are published in order to provide more information on each grant to Parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the 2007 Division of Revenue Bill is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2007/08 will report against the Division of Revenue Act and its schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

Purpose	<ul style="list-style-type: none"> To develop regional bulk infrastructure for water supply to supplement water treatment works at resource development and link such water resource development with the local bulk and local distribution networks on a regional basis cutting across several local municipal boundaries. In the case of sanitation to supplement regional bulk collection as well as regional waste water treatment works
Measurable Outputs	<ul style="list-style-type: none"> Number of project plans finalised for several regional bulk projects Number of funding arrangements in place for the funding of the social component of projects, and implementation started on a number of regional bulk networks, mostly in rural areas Number of projects completed Number of people or households being served due to a new regional bulk system
Conditions	<ul style="list-style-type: none"> The emphasis is only on the social component of regional bulk water and sanitation services A clear perspective on the user profile must be provided (social and economic) The need for a bulk solution must be confirmed and accepted Proposed project must be implementation ready. All preparatory work must be completed and approved Financing plan with associated/co-funding options and agreements must be in place No duplication of funding will be allowed (e.g. MIG) Ownership and commitment for sustainable management must be proven Priority in terms of national and sector objectives must be motivated Due to the uniqueness and individuality of each case, nominated proposal will be assessed on merit and associated motivation – no blanket allocation to be made In the case of internal bulk, all funding requests must be preceded and accompanied by an acceptable asset management plan All projects must be aligned with and referenced to the IDP (and WSDP). Such alignment will be confirmed by the feasibility studies and checked by the project assessment panel
Allocation criteria	<ul style="list-style-type: none"> Allocations are made on a project basis and must take into account the conditions listed above
Reason not incorporated in equitable share	<ul style="list-style-type: none"> This is a specific capital grant with objectives and criteria different from that of the equitable share Regional bulk projects will be closely linked to water resource development which is a national competency
Monitoring system	<ul style="list-style-type: none"> Quarterly reports Annual report Quarterly visits to projects
Past performance	<ul style="list-style-type: none"> New grant introduced in 2007/08
Projected life	<ul style="list-style-type: none"> There is a huge backlog for regional bulk infrastructure and further studies will indicate the full extent of the need. At this stage it is estimated to continue beyond 10 years depending on future financing levels
