**MEMORANDUM ON THE OBJECTS OF THE NATIONAL  
ENVIRONMENT LAWS AMENDMENT BILL, 2007**

**1. OBJECTS**

The objects of this Bill are the following:

- (a) To have the Atmospheric Pollution Prevention Act, 1965 (Act No. 45 of 1965) (“APPA”), regarded as a specific environmental management Act for the purposes of the enforcement of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (“NEMA”), and other specific environmental management Acts;
- (b) to amend the Environment Conservation Act, 1989 (Act No. 73 of 1989) (“ECA”), to rectify certain incorrect references to provisions in the Act;
- (c) to add APPA, ECA and the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004) (“NEM: AQA”), to the list of Acts which environmental management inspectors (“EMIs”) are mandated to enforce;
- (d) to provide for EMIs to be peace officers as contemplated in the Criminal Procedure Act, 1977 (Act No. 51 of 1977);
- (e) to provide for the imposition of a penalty for the offence of failing to comply with a compliance notice in terms of section 31N of NEMA; and
- (f) to substitute a Schedule to NEM: AQA.

1.1 APPA regarded a specific environmental management Act (Clause 1)

Clause 1 is an interim measure. It seeks to have the APPA regarded as being a specific environmental management Act. APPA deals to a certain extent with similar matters contained in the National Environmental Management: Air Quality Act, 2004. The latter Act is not yet of full force and effect. In terms of the proposed clause it will lapse when section 60 of NEM: AQA, which repeals APPA, takes effect.

1.2 Amending ECA to rectify certain incorrect references (Clause 2)

The Environment Conservation Amendment Act, 2003 (Act No. 50 of 2003), *inter alia*, substituted section 20 of ECA to provide for the transfer of the administration of waste disposal sites from the Department of Water Affairs and Forestry to the Department of Environmental Affairs and Tourism. However, section 29(4) of ECA (which sets out criminal offences in terms of the Act) was not updated to reflect the correct cross-references to the subsections of the new section 20. The proposed amendment seeks to rectify this.

1.3 Including national pollution and waste legislation in the mandates of environmental management inspectors (Clause 3)

The National Environmental Management Amendment Act, 2003 (Act No. 46 of 2003), empowers the Minister or MECs to designate officials in national, provincial and local government as EMIs. The function of an EMI is to monitor and enforce compliance with a law for which he or she has been designated. In order to carry out this function, EMIs have been accorded a range of statutory powers, including inspection, investigation, enforcement and administrative powers.

There are currently only three pieces of legislation that EMIs may enforce: NEMA, the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004), and the National Environmental Management: Protected Areas Act, 2004 (Act No. 57 of 2004). The current mandate of EMIs therefore covers “green” issues (biodiversity and protected areas) and environmental impact assessments, but excludes “brown” issues such as pollution and waste. This is due to the fact that the national legislation regulating pollution and waste matters, particularly NEM: AQA, is not yet fully in effect, and the national Waste Bill still has to be tabled in Parliament. Until these two pieces of new legislation are fully in effect, it is crucial that EMIs are given the mandate to enforce and monitor compliance with ECA and APPA (until the latter two Acts are repealed), and compliance with those provisions of NEM: AQA that are already in effect.

It is therefore proposed that ECA, APPA and NEM: AQA be included in the definition of “specific environmental management Act” in NEMA. The proposed amendment also promotes a consistent approach to enforcement of environmental legislation.

#### 1.4 Clarifying the status of environmental management inspectors as peace officers (Clause 4)

Section 31H(5) of NEMA, as proposed in clause 4, seeks to clarify the status of EMIs as peace officers when exercising certain of their powers. Apart from powers of inspection, investigation and enforcement given to EMIs by Chapter 7 of NEMA, an EMI has, in terms of section 31H(5) of NEMA, “all the powers assigned in terms of Chapters 2, 5, 7 and 8 of the Criminal Procedure Act, 1977 (Act No. 51 of 1977) (CPA), to a police official who is not a commissioned officer”. Although provisions of Chapters 2, 5, 7 and 8 of the CPA relate to police officials, some provisions in those Chapters refer to powers of “peace officers”. Currently, NEMA does not expressly provide for an EMI’s status as a peace officer when exercising powers under the CPA. Due to concern that this may cause interpretation difficulties, it is proposed that section 31H(5) of NEMA should be substituted to reflect that EMIs must be regarded as peace officers.

#### 1.5 Penalty for failing to comply with a compliance notice (Clause 5)

The Amendment Bill provides for the imposition of a penalty in the event that a person is found guilty of the offence of failing to comply with a compliance notice in terms of section 31N of NEMA. Currently, NEMA states that a person who fails to comply with a compliance notice commits an offence, but it does not provide for an accompanying penalty (either in the form of a fine or imprisonment) in the event of a conviction of this offence by a court of law. In order to set a meaningful standard for maximum penalties that is consistent with other national environmental quality and protection offences, the proposed maximum penalty for non-compliance with a compliance notice is equivalent to the maximum penalty currently prescribed in section 24F(4) of NEMA, namely a fine not exceeding R5 million or imprisonment for a period not exceeding 10 years.

#### 1.6 Substituting Schedule 1 in NEM: AQA (Clause 6)

In terms of Schedule 1 to NEM: AQA the definition of “specific environmental management Act” was inserted in NEMA. Because of the proposed changes mentioned in paragraph 1.3 above, the insertion becomes obsolete and can be deleted. The proposed substitution of Schedule 1, contained in clause 6, seeks to achieve that purpose.

## **2. PERSONS OR BODIES CONSULTED**

The following persons and institutions have been consulted on the contents of this Bill:

- All provincial environment departments through Environment MINMEC;
- other national departments represented on the Committee for Environmental Coordination.

The Minister of Safety and Security has been advised of the contents of the Bill and has responded in a letter stating that, in principle, the South African Police Service approves of the proposed status of environmental management inspectors as peace officers.

## **3. FINANCIAL IMPLICATIONS FOR STATE**

None.

## **4. PARLIAMENTARY PROCEDURE**

4.1 The State Law Advisers and the Department of Environmental Affairs and Tourism are of the opinion that this Bill must be dealt with in accordance with the procedure established by section 76 of the Constitution of the Republic of South Africa, 1996, since it falls within a functional area listed in Schedule 4 to the Constitution, namely “Environment”.

4.2 The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
