

NEGOTIATING MANDATE

To : Hon China Dodovu
Chairperson of the Select Committee on
Cooperative Governance and Traditional Affairs,
Water and Sanitation and Human Settlement

Name of Bill : Municipal Independent Municipal Demarcations
Authority Bill

Number of Bill : B 14 B-2022

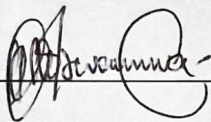

Date of Deliberation: 06 March 2024

Vote of the Legislature: The North West Provincial Legislature votes in
favour of the Bill with the proposed amendment

Proposed Amendment

1. Clause 26: Determination and redetermination of municipal boundary. This clause is silent regarding the criteria used for determination and redetermination of a municipal boundary, save to say it only outlines the dominant authority that the Board has in making such determination and redetermination. It is therefore proposed that the following clause 5 must be added.

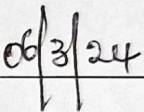

(5) The Board in carrying its function of determination and redetermination of municipal Boundaries must consider access by communities to service delivery institutions and the existing wards and impact of such determination or redetermination.
