2. FOREWORD BY THE MINISTER

Ms Patricia De Lille, MP: Minister of Tourism

The tourism sector is an ever-changing landscape.

Over the years we have seen several economic sectors transformed through innovations, which have brought forth the development of new technologies that influence how we work, where we work and, even more relevant to us as Government, what we work on.

Similarly, we have seen a change in the way tourists engage, consume and share their experiences of tourism products.

As Government we must recognise these developments and spearhead the changes required to ensure that the sector is not only sustainable, but also thrives.

The tourism sector continues to show resilience as we continue to work towards the full recovery to pre-Coronavirus disease 2019, or COVID-19, figures.

In my brief time in this portfolio I have been encouraged to see this resilience manifest itself in the multiple areas of tourism.

In my engagements with the sector, both public and private, the message is the same - we can do more. I echo these sentiments but add that we can do more, together!

As the National Department of Tourism, we continue to work to stimulate domestic tourism through programmes aimed at supporting tourism business recovery after the hard-hitting impact of the pandemic.

Implementation of the various programmes within the Department will continue to be amplified over the coming financial year, as we strive to ensure positive visitor experiences.

As a Department, we will continue with the implementation of the Economic Reconstruction and Recovery Plan (ERRP) as well as the National Tourism Recovery Plan, while working together with the private sector to ensure our visitors to return to South Africa.

Lastly, I must take this opportunity to recognise the leadership provided by the Deputy Minister, Mr Fish Mahlalela, during this period, the oversight provided by the Portfolio and Select Committees of Parliament, the commitment of the Director-General Victor Tharage as well as the staff members of the Department.

A handwritten signature in black ink that reads "P. de Lille".

Ms Patricia De Lille, MP
Minister of Tourism

3. DEPUTY MINISTER STATEMENT

Mr Fish Mahlalela: Deputy Minister of Tourism

During this period under review, we witnessed a strong and remarkable milestone of the tourism sector recovery that gradually imbued in us a sense of hope that the dream of a resilient tourism and travel sector capable of massively contributing to the economic growth and well-being of our people is in the offing.

The Tourism Grading Support Programme (TGSP) was introduced in 2015/16 and offers discounts of 80% or 90% on grading assessment fees for accommodation and meeting venues that apply for star grading by the Tourism Grading Council of South Africa (TGCSA). The application process is integrated into, and forms part of the online grading application process of the TGCSA. The Programme enables establishments to receive feedback on areas that require attention prior to full grading application, thereby minimising the numbers of those that do not make it, or increasing the uptake, especially for emerging small enterprises. In 2022/23, the TGSP which is implemented through the TGCSA, supported a total of 3 738 TGSP applications, representing a combined value of R15 874 587,50 in discounts on grading assessment fees. The Department is currently renegotiating its contract with the TGCSA for the continued

implementation of the TGSP, which will assist in reducing the cost burden on small enterprises and encourage more enterprises to participate in the star grading system.

South Africa has won 10 of the 30 bids submitted by the South African National Convention Bureau (SANCB) team for the 2022/23 financial year. These secured bids will contribute R81,9 million to South Africa's economy between 2022 - 2025 and attract 3 325 international and regional delegates from an investment of R4,7 million in bid submissions through the Bid Support Programme to attract business events linked with the National Government's development priorities.

In the 2022/23 financial year, the SANCB sourced and submitted 95 bids for international business events hosted in South Africa between 2022 and 2029. The Bureau had a target of 93 bid submissions for the 2022/23 financial year. The 95 bids submitted have a combined estimated economic value of R1,2 billion and can potentially attract 49 232 international and regional delegates to South Africa between 2022 and 2029.

Thus far, South Africa has won 40 of the bids submitted for the 2022/23 financial year. These secured business pieces will contribute R338 million to South Africa's economy between 2022 and 2025, and attract 16 505 international and regional delegates. In addition, the SANCB invested R19,2 million in bid submissions through its Bid Support Programme to attract business events linked with the National Government's development priorities.

The secured conferences will also contribute to the regional spread of business events as they will be hosted in Johannesburg, Tshwane, Hammanskraal, Cape Town, Bloemfontein, Durban, Mokgopong, Muldersdrift and Pietermaritzburg.

Responsible tourism is of paramount importance to the tourism sector. In 1996, South Africa was the first country to include "Responsible Tourism" in its National Tourism Policy. The 1996 White Paper on the Development and Promotion of Tourism in South Africa guides the sustainable development of tourism in the country.

As a sector, driving excellence must be a habit. Tourists buy experiences. The safety of destinations and public health measures put in place to combat the spread of COVID-19 and associated pandemics is a consideration. The National Tourism Sector Strategy (NTSS) highlights the importance of delivering memorable experiences for

all tourists, and sustainable benefits for all South Africans. With the need to make a concerted effort to continually increase the levels of hospitality and friendliness, as well as the general standards of service, the recovery of the sector requires a combined effort from all role players.

The Department is well positioned to achieve these objectives through the implementation of the Tourism Service Excellence South African National Standards (SANS: 1197) with a focus on Small Towns and Tourism Product support, the Tourism Norms and Standards for the Safe Operations of Tourism Sector, Responsible Tourism (SANS: 1162) and capacity-building programmes to increase the skills level in the sector as a way to directly and significantly enhance the experience of visitors. The Service Excellence Initiatives were integrated with the Norms and Standards for the Safe Tourism Operations.

The implementation of the Service Excellence Standard commenced in 2012 and has been ongoing since then. Due to the diversity of the standard in nature, it covers various aspects of services. In the previous financial year, the Department has implemented Service Excellence Programme (SANS 1197) incorporating the Tourism Norms and Standards, with a focus on Small Towns and tourism product support.

The Department is currently operating four incubators namely, Emerging Tour Operators for 44 emerging tour operators, Food Services Incubator for 113 incubates, Community-Based Tourism Incubator Pilot which involved eight community-based potential tourism projects and the Tourism Tech Incubator with 20 innovators.

Under the Food Services Incubator, the Department seeks to upskill youth who have been trained in other departmental skills programmes such as Baristas, Chefs and Sommerliers. Those that have qualified to enter the entrepreneurship development programme receiving support through a partnership programme with the Small Enterprise Development Agency (SEDA) Wakhanda Collaboration.

The Department has supported implementation of 30 community-based Tourism Projects. These were in Limpopo (Va Tsonga, Matsila Lodge, Phiphidi Waterfall, The Oaks Lodge, Ngove, Tisane, Nandoni Dam, Tshathogwe Game Farm, Mapate Recreational Social Tourism Facility, Mtititi Game Farm, Royal Khalanga Lodge) Free State (Qwa Qwa Guest House, Vredefort Dome, Monotsha) North West (Manyane Lodge, Lotlamoreng Dam, Sol Plaatjie Museum, Lehurutse Liberation Heritage Museum) Northern Cape (Platfontein Lodge, Kamiesburg, McGregor Museum), KwaZulu-Natal (Muzi Pan, Anton Lembede Museum eThekweni Municipality, Ama Hlubi Cultural Heritage), Eastern Cape (Maluti Hiking Trail, Mthonsi Lodge, Qatywa Lodge, Nyandeni Chalets, Western Thembuland), and Mpumalanga (Numbi Gate).

The Department has continued with implementation of Youth Skills Development Programmes nationwide, leaving a dent on the scourge of unemployment and consequential social strife. The various training programmes being offered focus on interventions to improve visitor experience and are based on industry demand for these skills. They are implemented in partnership with the private sector, and with the objectives to contribute towards poverty alleviation through payment of stipends; placement of learners in tourism and hospitality establishments thereby granting them exposure to job opportunities and income generation. Upon conclusion of these programmes, learners are provided with accredited or recognised certificates and are well positioned to further their studies at Further Education and Training (FET) Colleges.

During the 2022/23 financial year, the Department implemented Youth Skills Development Programmes targeting 2 500 retrenched and unemployed youth between the ages of 18-35 years. The learners were also trained on the norms and standards for safe tourism operations in line with the skills development programmes that they attended.

A total number of 2 517 learners were enrolled in the various skills development programmes. Out of the 2 517 enrolled, about 304 learners dropped out for various reasons whereas 810 graduated from the programmes. Five skills development programmes were delivered during the period under review. These included: Food and Beverage Training, CHEF/Professional Cookery, Food Safety Quality Assurers, Wine Service Training and Hospitality Youth Training (Fast Food Services) Programmes. Of the 810 graduated learners, 450 graduates received permanent employment from the various host employers in the tourism and hospitality sector. An amount of R69 592 734 was spent to deliver the above programmes during the 2022/23 financial year.

The Department introduced the Recognition of Prior Learning (RPL) process in the tourism and hospitality sector to recognise those employees who possess practical experience but do not have formal qualifications in the area of hospitality. For the 2022/23 financial year, the Department enrolled 30 learners from Limpopo Province (LP) in a Chef Training Programme through the RPL process. The Department achieved a 100% completion rate on these 30 learners. The learners have graduated and received a Certificate in Chef at National Qualifications Framework (NQF) Level 5 accredited by the Culture, Arts, Tourism, Hospitality and Sports Sector Education and Training Authority (CATHSSETA) and the Quality Council on Trades Occupations (QCTO). An amount of R780 000 was spent to expose the 30 learners to the Chef RPL Programme.

The Department also targeted the training of 500 Small, Medium and Micro Enterprises (SMMEs) across all Provinces on Norms and Standards for the Safe

Operations. A total number of 571 SMMEs managed to attend the training as planned which exceeded the targeted number of 500 SMMEs.

Training and placement of 2 517 retrenched and unemployed youth on various skills development programmes was conducted in the 2022/23 financial year. This was against the targeted 2 500. The youth were enrolled on the following programmes: Food and Beverage, Professional Cookery, Food Safety Quality Assurers, Wine Service Training and Hospitality Youth Training Programme (Fast Food).

The National Tourism Careers Expo (NTCE) was hosted on 30 September - 2 October 2022 at the Johannesburg Expo Centre, Nasrec. The main aim is to promote tourism as a career, profession and business of choice targeting learners from high schools, Technical and Vocational Education and Training (TVET) colleges, university students, out-of-school youth and unemployed tourism graduates. The 2022 NTCE was attended by 5 283 learners, of which 137 learners who participated, were learners with disabilities. Other key stakeholders who participated at the NTCE are as follows: 688 educators, 1 335 university and TVET college students, 263 unemployed youth and 78 exhibitors.

Increasing the ease of travel to South Africa requires partnerships with relevant departments to ensure improved travel facilitation through implementation of e-visas, tourist safety, airlift capacity and quicker turnaround times in the processing of tour operator licences. It requires collaboration with the Departments of Home Affairs, Transport, and the South African Police Service (SAPS).

The e-visa system has been active in 14 countries since February 2022. Once the online visa system has been stabilised for the 14 countries, the aim is to make it available to a larger number of nationalities. The South African Government has announced the removal of visa requirements for Kenyans travelling to the country for up to 90 days.

Systems and process improvements were required to ensure efficient licensing of tour operators. This was in order to enable new, and support continuation of existing tour operators' activities which include improved turnaround times in the issuance of tour operator licenses. To this end, an Interim National Public Transport Regulator (NPTR) Committee was appointed in April 2022, and the backlog on issuing of tour operator licenses was cleared. The National Land Transport Information System was being developed and the National Land Transport Bill was being finalised. Furthermore, the NPTR has engaged the Tourism Business Council of South Africa (TBCSA) to create awareness and assist tour operators in finalising their applications.

As part of Pillar 2 of the Tourism Sector Recovery Plan (TSRP), i.e. to re-ignite demand, targeted initiatives and campaigns were implemented to stimulate

domestic demand. These include the following: Sho't Left deal-driven summer campaign, development and approval of the Easter Campaign Plan (for roll-out in the final quarter of the 2022/23 financial year), National Parks Week by SANParks, and Get that Faraway Feeling domestic summer campaign by the Western Cape.

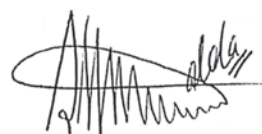

In 2022, domestic tourism activations were done to support geographic spread in less visited provinces as well as off-peak travel. The aim was to educate and create awareness among South Africans about the different tourism products and experiences they can partake in, which are close to where they reside and are affordable, and to educate them about the importance and benefits of travelling domestically. The following activations were undertaken:

- Eastern Cape in the Mbizana area focusing on a group of young people who have tourism businesses and organised groups of hikers to introduce them to overnight hiking trails and the use of homestays as alternative accommodation.
- Free State with youth and community leaders from the Ficksburg area.
- Gauteng with tourism associations and young aspiring tourism business owners from Mogale City, Cullinan, Merafong and West Rand municipalities.
- North West with tourism school going learners from Tsetse village just outside Mahikeng.
- Northern Cape (Petrusville area).

Finally, let me express my sincere and profound appreciation to former Minister Lindiwe Sisulu for her quintessential guidance throughout the whole financial year and also extend my gratitude to Minister Patricia De Lille for her meticulous work in steering this ship forward.

My profound appreciation to the entire workforce of the Department as led by the Director-General for always ensuring equitable, effective and efficient disbursement of government resources accordingly.

We are being called upon to strain every sinew of our collective conscience to attain a dream, that will make tourism sector work for all and such is the injunction that history is imposing upon all of us.

Mr Fish Mahlalela
Deputy Minister of Tourism

4. REPORT OF THE ACCOUNTING OFFICER

Mr Nkhumeleni Victor Tharage: Accounting Officer

4.1 Overview of the Operations of the Department

The Department supports South Africa's constitutional democracy through its plans which support all seven priorities of Government in general within the current Medium Term Strategic Framework, or MTSF (2019-2024) but, specifically the following Priorities: Capable, Ethical and Developmental State (Priority 1); Economic Transformation and Job Creation (Priority 2); and A Better Africa and World (Priority 7).

During the period under review, the Department's plans included the maintenance of a minimum of 40% procurement spend on women-owned businesses. By the end of the reporting period, 37,03% procurement was spent on women-owned businesses, with a 2,97% shortfall. The Departmental expenditure on procurement is inclusive of multi-year contracts which were concluded in the previous financial

years. The Department still had an obligation to see through such contracts. The Technical Indicator Description (TID) also did not exclude expenditure generated from Government institutions, Entities and Transversal Contracts. For the 2023/24 financial year, the TID has been adjusted to exclude expenditure generated from Government institutions, Entities and Transversal Contracts (e.g. the State Information Technology Association (SITA) and National Treasury (NT)). In order to achieve the target on women-owned business, the Department also revised the Supply Chain Management (SCM) Policy in line with the amended Preferential Procurement Policy Framework Act issued in 2022, to allocate a certain percentage to women owned businesses as part of the preferential points.

Payment of invoices within 30 days is prescribed in the Treasury Regulations. The payment of compliant invoices within 30 days ensures that suppliers do not experience financial hardship. It also helps to contribute towards a stable economy. As at 31 March 2023, 93,37% of all compliant invoices received were paid within 30 days, with a shortfall of 6,63% of invoices which were not paid within 30 days.

The Department has entered into a partnership agreement with the Development Bank of Southern Africa (DBSA) in November 2020 to implement and manage the delivery infrastructure projects. These included the maintenance and beautification of Provincial State-owned attractions, which form part of the Presidential Employment Stimulus (PES), and is aligned to the Tourism Sector Recovery Plan (TSRP).

The Department further received an additional amount of R90 million from NT to implement the PES. It was then decided that a portion of the funding would be utilised to supplement the programme implemented by South African National Parks (SANParks) on behalf of the Department.

The SANParks Infrastructure Maintenance Programme was implemented in **19 national parks** ended by 31 March 2023. This programme created 953 temporary jobs in some of the most remote areas of the country, with 345 women and 519 youth employed. Furthermore, 30 Persons with Disabilities (PWDs) were employed. A total of 1 476 Full-Time Equivalent (FTE) jobs were created, with 339 495-person days worked. The project is complete.

The Infrastructure Maintenance Programme was aimed at refurbishing tourism assets, increasing visitor experience, supporting the sustainability of tourism attractions and providing employment opportunities continued to be expanded to include provincial State-owned assets. The maintenance programme continues through implementation in five provinces, namely Mpumalanga (MP), Limpopo (LP), Eastern Cape (EC), Free State (FS) and Western Cape (WC).

In terms of labour relations matters, two disputes were referred to the Labour Court for adjudication, at the insistence of employees. The Department awaits a date for the set down hearing. The Public Service Commission is also currently conducting two investigations into alleged misconduct by officials.

4.2 Overview of the financial results of the Department

Programme Expenditure

The Department has spent a total of 98,9% of its 2022/23 allocation, realising a total underspending of R28,6 million. The bulk of this underspending is explained as follows:

- *Administration (R12,2 million)*: Most of the underspending lies within the Compensation of Employees due to staff turnover and the slow filling of posts.
- *Tourism Research, Policy and International Relations (R9,8 million)*: The bulk of this underspending lies within the Compensation of Employees due to staff turnover and the slow filling of posts. The slight underspending on Goods and Services is mainly due to international meetings being held virtually, resulting in unspent funds linked to travel and subsistence. A further underspending was realised under transfers and subsidies for the United Nations World Tourism Organisation (UNWTO) contributions due to foreign exchange rate fluctuations.
- *Destination Development (R4,9 million)*: The bulk of this underspending lies within the Compensation of Employees due to staff turnover and the slow filling of posts. The slight underspending on Goods and Services is due to unspent funds within travel and subsistence due to the virtual attendance of meetings with stakeholders.
- *Tourism Sector Support Services (R1,6 million)*: The bulk of this underspending lies within the Compensation of Employees due to staff turnover and the slow filling of posts. The slight underspending on Goods and Services is due to unspent funds within travel and subsistence due to the virtual attendance of meetings with stakeholders.

4.2.1 Virements

No virements were submitted for NT's approval.

4.2.2 Rollovers

No request for rollovers was submitted to NT.

4.2.3 Unauthorised Expenditure

The Department did not have any unauthorised expenditure in the reporting period.

4.2.4 Fruitless and Wasteful Expenditure

The fruitless and wasteful expenditure incurred for 2022/23 amounts to R36 thousand. There were 29 new confirmed cases. The main reasons were cancellations/ amendments and no-shows for travel and accommodation services. R22 thousand was recovered and R13 thousand was written off.

4.3 Future Plans of the Department

The Department has planned to conduct tourist safety campaigns. The objective is to enhance tourism safety awareness at key tourism attractions and within the destination. These campaigns will be conducted jointly with provinces and other stakeholders with interest in tourism safety and security, including the South African Police Service (SAPS), South African Tourism (SA Tourism), the Tourism Business Council of South Africa (TBCSA), provinces and municipalities. The initiative is in line with the Tourism Safety Plan which is derived from the Safety Strategy.

Programmes which support the most vulnerable in society, including unemployed youth, as well as Small, Medium and Micro Enterprises (SMMEs) in rural villages and towns will continue to be implemented. These are targeted nationally through our Working for Tourism (WfT) Programme, the incentive programme as well as the skills development programme. Our Enterprise Development and Transformation Programme (EDTP) enables us to implement projects that provide various support packages to SMMEs, drive transformation and ensure the development of emerging operators. These projects include implementation of Business Support and the Development Incubation Programme through the Tourism Technology and Innovation Incubator, Food Service Incubator and the Community-based Tourism Enterprises Incubator. For the 2023/24 financial year, we have planned to establish

two new business incubators, namely, Business Advisory Services focusing on Women in Tourism (WiT) in LP, and the Business Advisory Services focusing on the Homestay Pilot Programme.

The Tourism Incentive Programme (TIP) which we implement, supports greater destination competitiveness, transformation and accelerated tourism and enterprise growth. Through the TIP, we will continue to implement in the 2023/24 financial year, amongst others, the Green Tourism Incentive Programme (GTIP). The GTIP provides financial support to encourage and assist privately-owned tourism enterprises to adopt responsible tourism practices through installing solutions for the sustainable management and usage of electricity and water resources. It is anticipated that the project will not only help reduce pressure on the national electricity grid and scarce water resources, but will also facilitate a reduction in operational costs for enterprises over the long term.

We will continue to participate in the District Development Model (DDM) process. Through our continued participation in this process, we will facilitate the implementation of developed tourism concepts through the DDM *One Plans* for OR Tambo District, eThekweni Metro, Pixley Ka Seme District, and Namakwa District. The project is meant to develop memorable visitor experiences, through implementation of tourism district plans by developing tourism concepts of prioritised initiatives. The project benefits provinces, districts and municipalities, previously disadvantaged people, surrounding communities, tourism businesses and infrastructure.

The Department is already implementing multi-year spatial planning and infrastructure projects that support rural and township economies. These provide support for community-based tourism projects and community museums. It is anticipated that the Programme will continue to contribute to tourism development and ensure that tourism benefits accrue to communities, especially those around key attractions and sites in rural areas.

The TSRP, approved by Cabinet on 21 March 2021, was initiated as a response to the Coronavirus disease 2019 (COVID-19) pandemic, and to facilitate the recovery of the sector. It contains 10 strategic interventions which are currently being implemented to protect and rejuvenate supply, re-ignite demand and strengthen enabling capability for long-term sustainability. To further drive this recovery, a key component of the TSRP which we will continue to focus on is the implementation of the norms and standards for safe operations of the tourism sector. These provide uniformity in view of the sector's approach to safety post the declaration of the national state of disaster. The objective is to rebuild traveller confidence in the safety of Destination South Africa.

4.4 Public Private Partnerships

The Department has no public private partnerships registered with NT.

4.5 Discontinued Activities

None.

4.6 New or Proposed Activities

The following are new activities:

- As part of the development of Monitoring and Evaluation Reports on tourism projects and initiatives, the condition of all State-owned tourist attractions will be assessed with the aim of making recommendations on their maintenance and upgrading in order to improve their quality to attract more tourists. Maintenance is needed to mitigate the effects of ageing and offset the loss in asset value associated with State-owned tourist attractions. When the Department knows and understands the condition of state-owned tourist attractions, it can take an informed decision and apply correct strategies to improve in order to attract more tourists to these.
- Evaluation of the Tourism Grading Council of South Africa (TGCSA) Accommodation Grading Programme to determine if it is making any impact on accommodation performance in terms of the quality of service provided and facilitating their expanded utilisation. The evaluation will assess the perceived impacts of the TGCSA accommodation rating system on accommodation establishments', service quality improvement and performance changes in South Africa. This will help the Department to propose the introduction of more service standards to enhance the experience of tourists and encourage them to spend more nights. Data collection for the evaluation of the TGCSA Accommodation Grading Programme is the project element that would be costly. However, overall the entire project will not be more than R1 million.
- Evaluation of the Departmental Incubation Approach. The provision of non-financial support to tourism enterprises will be reviewed through the evaluation of the Incubation Approach. The incubation methodology that has been adopted by the Department of Tourism since 2016 will be assessed with the aim of identifying its weaknesses and strengths. The process will end with a reviewed Incubation Approach that will ensure that tourism enterprises are supported to grow and to remain sustainable and independent of the Incubator Programme. This will ensure that the proper approach is adopted to strengthen capacity of tourism enterprises. The project is estimated to cost R500 000. The review of the Incubation Approach

will ensure that an Incubator for the tourism sector is established with a proper governance structure to incubate tourism enterprises in South Africa.

- Township and rural tourism will be supported using a minimum of one event in one township and one event in a rural area. This is part of destination enhancement efforts. This will be mainly for planning support for the piloting of the use of events and festivals to expand township and rural tourism. The pilot phase if intended to assist with establishing a long-term strategic events portfolio for progressive implementation over the Medium Term Expenditure Framework (MTEF). Events serve as key catalysts and stimulators of economic development to unlock domestic tourism potential, improve tourism precincts and address geographic spread and seasonality; particularly in townships and rural spaces.
- Establishment of the following new business incubators, namely Business Advisory Services focusing on WiT in LP, and Business Advisory Services focusing on the Homestay Pilot Programme. Both incubators focus mainly on women in the tourism sector and hence will be used to assess tourism as a tool for the promotion of gender equality and women's empowerment, using gender analysis and gender training to tackle inequality and gender-based discrimination in the tourism industry. The projects are estimated to cost R6 million.
- Auditing of Tourism Incubators across the country. The project is implemented to determine the viability, innovation and needs of the tourism incubators. The project is estimated at R500 000. It will cover the development and implementation of Project Plan to audit Tourism Incubation Programmes across the country.
- Review of the Domestic Tourism Strategy 2023/24 will be undertaken and will be aligned to the TSRP Strategic Pillar: Re-Ignite Demand in order to stimulate domestic demand through targeted initiatives and campaigns. Globally countries rely on domestic tourism to reduce poverty, improve infrastructure, generate employment and thus drive economic growth overall. In South Africa, prior to the COVID-19 Pandemic we had an over-reliance on inbound tourism. Domestic tourism was the first to rebound and it is imperative that we sustain its positive contribution to the recovery of the sector. The project is estimated to cost R1,5 million.

4.7 Supply Chain Management

The Department received no unsolicited bids in the 2022/23 financial year.

In order to avoid irregular expenditure related to SCM, the Department has a Bid Specification Committee, a Bid Evaluation Committee, and a Bid Adjudication Committee to manage and conclude the administration of bids. The said committees have been capacitated to deal with the functions assigned to them.

The Department of Public Service and Administration (DPSA) website and Personal and Salary System (PERSAL) are being used to assist in verifying if State employees are doing business with the State. Furthermore, as part of the Combined Assurance Model, certain activities in the SCM environment are now elevated to the Head of SCM for sign-off to ensure compliance.

4.8 Gifts and Donations Received in kind from Non-Related Parties

The Department received a sponsorship from Seeza Tourism Growth Network for three officials to attend the International Federation for Information Technology and Travel and Tourism (IFITT) ENTER 23 conference. The Department did not receive any other gifts or donations in kind from non-related parties in 2022/23.

4.9 Exemptions and Deviations Received from National Treasury

There were no deviations or exemptions requested or received other than those SCM procurement deviations which are covered in Part E of the report.

4.10 Events after the Reporting Date

There were no adjusting or non-adjusting events after the reporting date.

4.11 Other

None.

4.12 Acknowledgements and Appreciation

An increase in the economic contribution of tourism is driven by an increase in domestic and foreign tourist arrivals as well as an increase in tourist spend. The Department with its partners must create an environment conducive to this increase by ensuring a quality and diverse tourism offering, as well as developing

sector capacity. To this end, I wish to appreciate the role and contribution of all of our stakeholders in the entire tourism value chain towards making the tourism environment conducive for all.

We will always be grateful for the relationship and engagement with our Portfolio Committees planning for tourism development and growth, implementation of plans, and reporting on those plans.

The role of the Minister and Deputy Minister with regard to helping us to focus on the right things which make impact is greatly appreciated. It is through focusing on key projects that our Department makes its contribution towards the Government commitment to creating a better life for all.

Everything we do as a Department depends on the willingness and commitment of our staff to ensure that we plan properly, execute well and report accurately. For that we are truly appreciative.

4.13 Conclusion

This 2022/23 Annual Report discloses our achievement and challenges during the period under review.

7. LEGISLATIVE AND OTHER MANDATES

7.1 Constitutional Mandate

Part A of Schedule 4 of the Constitution of the Republic of South Africa, 1996, lists tourism as a functional area of concurrent national and provincial legislative competence.

7.2 Legislative Mandate

The Tourism Act (Act No. 3 of 2014), aims to promote the practice of responsible tourism for the benefit of the Republic and for the enjoyment of all its residents and foreign visitors; provide for the effective domestic and international marketing of South Africa as a tourist destination; promote quality tourism products and services; promote growth in and development of the tourism sector, and enhance cooperation and coordination between all spheres of Government in developing and managing tourism.

7.3 Policy mandate

- The National Development Plan (NDP) is the 2030 vision for the country. It envisions rising employment, productivity, and incomes as a way to ensure a long-term solution to achieve a reduction in inequality, an improvement in living standards and ensuring a dignified existence for all South Africans. The NDP recognises tourism as one of the main drivers of employment and economic growth.
- The Re-imagined Industrial Strategy identifies tourism as one of the seven national priority sectors.
- The National Tourism Sector Strategy (NTSS) provides a blueprint for the tourism sector in the pursuit of growth targets contained in the New Growth Path.
- The White Paper on the Development and Promotion of Tourism in South Africa, 1996, provides a framework and guidelines for tourism development and promotion in South Africa.
- TSRP sets out interventions to ignite the recovery of the tourism sector, and to place it on path to long-term sustainability whilst contributing to the implementation of the Economic Reconstruction and Recovery Plan (ERRP).

PART B

PERFORMANCE INFORMATION

1. AUDITOR-GENERAL'S REPORT: PRE-DETERMINED OBJECTIVES

The Auditor-General of South Africa (AGSA) currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against pre-determined objectives is included in the report to management, with material findings being reported under the Pre-determined Objectives heading in the Report on other legal and regulatory requirements section of the auditor's report.

Refer to page 118 of the Report of the Auditor-General, published as Part F: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1 Service Delivery Environment

2.1.1 Global Tourism Performance

2.1.1.1 Total contribution to Gross Domestic Product (GDP) and Employment

There have been significant improvements in 2020 and 2021 on tourism's contribution to both global GDP and employment. However, these have not yet returned to 2019 levels.

According to the World Travel and Tourism Council (WTTC) figures released in 2022, the total contribution of the travel and tourism sector to the global economy was about US\$4 774,5 billion in 2020 (5,3% of global GDP), which went up to US\$5 812,3 billion in 2021 (6,1% of global GDP). In 2019, the global GDP was 9 629, 7 billion; which was 10,3% of total global GDP.

Globally, the total contribution of the travel and tourism sector to employment was about 271,275,000 jobs (8,6% of total employment) in 2020, increasing to 289,492,000 jobs in 2021 (9,0% of total employment). The travel and tourism sector's total

contribution to employment increased by 6,7% in 2021 compared to 2020. The 2021 total global employment recovery is slowly reaching 2019 total global employment figure, which was 333,287,000 jobs (10,3% of total global employment).

2.1.1.2 Global Tourist Arrivals

According to global tourist arrivals trends for 2021-22 period as reported by the UNWTO, there was a total of 917 million global tourist arrivals recorded in 2022, which was an increase of 101,6% compared to 2021 (455 million global tourist arrivals); and equivalent to 63% of global tourist arrivals in 2019 (1465 million). All regions had an increase in international tourist arrivals in 2022 compared to 2021, with Asia and the Pacific region leading with an increase of 241,0% global tourist arrivals. Significant increase in global tourists' arrivals was recorded for 2021 and 2022. It has however also been below 2019 levels.

2.1.2 Tourism Performance in South Africa

2.1.2.1 Direct contribution to GDP and Employment

Statistics South Africa (Stats SA) indicate that direct contribution of tourism to the GDP decreased from R208 316 million in 2019 to R123 616 million in 2020 which was a decrease of 40,7%. The percentage contribution to GDP also went down from 3,7% in 2019 to 2,2% in 2020. There has been a decrease in direct tourism contribution, and percentage contribution to GDP in 2020 compared to 2019.

The tourism sector directly employed 459 533 persons in 2020 which was a decrease of 41,1% or 320 563 employees compared with 2019. The tourism share of total employment decreased from 4,8% in 2019 to 3,1% in 2020. During 2020, 1 out of 32 employees in South Africa were working within the tourism sector. Even though the contribution of tourism to GDP was lower compared to other industries during 2020, the sector employed more people compared to the mining industry during the same year. Direct employment by the tourism sector, as well as the total share of employment has decreased in 2020 compared to 2019. This was despite the tourism sector employing more people in 2020 compared to the mining industry.

2.1.2.2 Total (direct and indirect) Contribution to GDP and Employment

According to World Travel and Tourism Council estimates, the total (direct and indirect) contribution of tourism to GDP decreased from R405,2 billion in 2019 (6.4% of total GDP) to R180,0 billion in 2020 (3.1% of total GDP). Then it grew to R195,2 billion in 2021 (3.2% of total GDP), which was an increase of 8.4%. In terms of employment, the travel and tourism sector contributed about 1 081 500 jobs in 2021, which is 71,5% of employment in 2019 (1 513 300 jobs; 9.3% of total employment). This was an increase of 1,9% (7,3% to total employment) compared to 1 061 400 jobs in 2020 (7,0% to the country's total employment). Fluctuations in total contribution to GDP and employment.

2.1.2.3 Tourist Arrivals to South Africa: 2019-2023 to Date

According to Stats SA, the total tourist arrivals for 2022 were almost at 55,7% of arrivals recorded during 2019, pre-COVID 19 period (10,228,593). Total tourist arrivals went up by 152.6% in 2022 compared to 2021, which was a growth from a total of 2,255,699 tourist arrivals recorded during 2021 to 5,698,062 tourist arrivals in 2022. Total tourist arrivals from the overseas market increased by 284.0% (+1,072,867) in 2022; with highest positive growth (1223.8%) recorded in Australasia, followed by Europe (314.6%), North America (232.6%), Middle East (223.1%), Central and South America (188.4%) and Asia (170.0%). Steady growth in tourist arrivals in 2021 and 2022, but still below the 2019 levels.

Latest tourist arrival figures available are for March 2023 period. Total tourist arrivals went up by 102.5% (+1,074,253) for the period January-March 2023 compared the same period in 2022. Total tourist arrivals from the overseas market increased by 112.1% (+300,068) during January-March 2023, with Australasia (244.3%) recording the highest increase followed by North America (135.5%), Central & South America (134.7%), Middle East (122.6%), Asia (121.5%) and Europe (100.7%). Latest figures show steady increase (January to March 2023).

2.1.3 Global Air Traffic and South Africa

The recovery in global air traffic continues post COVID-19 pandemic. Airlines are demonstrating resilience despite the challenging post COVID-19 environment. In

South Africa, Airports Company South Africa (ACSA) network of airports recovered by 72% in the 2022/23 financial year, compared to the previous financial year. The observation by ACSA is that capacity constraints within the domestic market have resulted in a flat recovery trajectory for the domestic market overall.

Meanwhile the resurgence of South African Airways (SAA) particularly with the resumption of regional routes such as Johannesburg-Windhoek, continues to influence the recovery of the regional market segment. According to ACSA, the international market segment has been consistently growing. New routes and route expansions were identified as the biggest contributor to international market recovery, with Cape Town International Airport (CTIA) being the largest beneficiary of additional international capacity. Airlines that contributed immensely to the recovery of international market segment included airlines such as Air Belgium, Condor, United Airlines, Qatar, Emirates and SAA. As a result, an upward recovery trajectory has been observed by ACSA, with March 2023 seeing a 78% recovery relative to pre-COVID-19.

ACSA airports account for 95% of South Africa's total airlift capacity and 99,9% of all international airlift capacity. Furthermore, ACSA's three main international airports (i.e. OR Tambo International Airport (ORTIA), CTIA, and King Shaka International Airport (KSIA) collectively account for 85% of all air passenger traffic in South Africa, with ORTIA accounting for the majority of traffic within ACSA's network of airports (49% of the network departing passenger traffic), whilst CTIA continues to boast a high recovery rate (with an overall 80% recovery in departing passengers).

2.1.4 Foreign Airlines currently operating in South Africa

Most international airlines resumed their services into ACSA's network in the 2022/2023 financial year. ORTIA has the highest share of foreign airlines that currently operate to the airport, with 38 foreign airlines operating to ORTIA, compared to 14 in CTIA and 3 in KSIA.

2.1.5 2023 Survey Results on the Support Needed by Tourism Enterprises

Number of factors are still negatively affecting the operations of tourism businesses in various ways in South Africa. These factors include load shedding, increase

in fuel prices, labour disputes, service delivery protests and natural disasters like floods. As a result of these challenges, some of the tourism enterprises are finding it difficult to operate profitably. They might need some assistance to survive. The Department has published an online survey in February 2023 to assess the support that tourism enterprises need during the difficult economic environment. About 1 022 tourism enterprises participated in the online survey. These included businesses which had applied for financial assistance through the Tourism Relief Fund (TRF) during the COVID-19 Pandemic.

The findings from the survey revealed that indeed, tourism enterprises are finding it difficult to operate profitably and some might close down in future if not supported. The survey results also showed that, out of 1022 businesses that responded, the majority (83,9%; 857) were mainly micro businesses, followed by small businesses (13,2%; 135), medium sized businesses (1,4%; 14) and one large business.

Most tourism enterprises indicated the need for financial assistance to install solar systems as a main priority; followed by support required by tourism enterprises to expand their businesses, and the third most important need being support for market access to showcase their businesses at trade fairs.

The Department is already providing some support to install solar systems through the Green Tourism Incentive Programme (GTIP). Also, the Department is providing market access support to tourism enterprises to attend trade fairs both nationally and internationally. Perhaps there is a need for the Department to relook at how these programmes are implemented to ensure that those enterprises that need the support most, are reached and engaged. Moreover, through strengthening of SA Tourism's marketing efforts, marketing of tourism businesses at trade shows locally, regionally and internationally can be realised.

2.1.6 Services Delivered Directly to the Public

During the period under review, one programme was implemented to establish a centralised database of Tourist Guides. This was in order to enable the management of tourist guides at both national and provincial levels. This is required in terms of the Tourism Act No 3 of 2014. The Act provides that the National Register is responsible for, amongst others, maintaining a central database of tourist guides

registered by the Provincial Registrars. Tourist guiding in South Africa is a registered profession governed by national legislation and prescripts. Any person in South Africa wishing to become a tourist guide must undergo training as part of a formal qualification registered by the South African Qualifications Authority (SAQA). Upon being deemed competent, such persons will receive a certificate issued by the Culture, Arts, Tourism Hospitality and Sports Sector Education and Training Authority (CATHSSETA), or institutions of higher learning. Such persons must then apply to the relevant Provincial Registrars to be registered in order to operate legally. The intention is to enforce minimum standards by restricting the profession to those who are competent and licensed.

Effective communication is vital to the Department. It helps to promote efficiency and productivity. Our Communication Strategy is a dynamic instrument through which the Department plans, coordinates, implements and monitors internal and external communication. This is done to improve relationships, performance, image and enhance service delivery. Our strategy facilitates collaboration with sectoral and institutional role players to ensure advancement of the tourism mandate. For the period under review, the Department has implemented 100% of the targets in the Communication Strategy and Implementation Plan. The outreach efforts enabled the Department to create a platform to showcase departmental programmes and initiatives, and contributed to the tourism sector recovery and sustainability. A variety of accessible communication channels were utilised to promote community engagement, as well as community empowerment through community media and allocating a portion of our advertising budget to community radio stations.

2.2 Service Delivery Improvement Plan

The Department has developed and approved the Service Delivery Improvement Plan (SDIP) on 31 March 2022. The approved SDIP 2022-2024 identified the following three prioritised services:

- 1) Developing the central database system (facilitation of tourist guides appeals).
- 2) Develop tourism skills.
- 3) Provision of tourism information (provision of effective and efficient communication service on tourism departmental programmes and projects).

The tables below highlight the service delivery plan and the achievements to date.

The Department has developed electronic complaints systems whereby complaints, suggestions and complements are received. This information is compiled and sent to relevant managers for attention and thereafter, reports are compiled and submitted.

2.3 Organisational Environment

The Department considers good governance and accountability as top priorities in implementation of its plans. Some of the instruments used to achieve good governance and accountability included the implementation of a Combined Assurance Model for Performance Information Procedure. The model helps to strengthen the integrity of the organisational performance information system, integrity of organisational performance information, as well as records management discipline.

Development and implementation of an Audit Action Plan has helped the Department to address the audit findings, and to strengthen the controls further. The controls are designed to enable management to fulfil its responsibilities of maintaining an adequate internal control system. The system provides assurance that the organisational business and operations are conducted in an orderly and efficient manner; that policies are adhered to, that assets are safeguarded against loss and unauthorised use, and that transactions are executed in the interest of the public. Where the inherent risks in administration materialise, the Department continues to ensure implementation of corrective measures.

In order to contribute towards the expansion of the government spend on women, youth and PWDs through preferential procurement, the Department sought to maintain a minimum of 40% procurement spend on women-owned businesses. By the end of the reporting period, 37,03% of procurement was spent on women-owned businesses, with a 2,97% shortfall. In order to achieve the target on women-owned business, the Department has revised the SCM Policy in line with the amended Preferential Procurement Policy Framework (PPPPFA) issued in 2022, to allocate a certain percentage to women-owned businesses as part of the preferential points. The Department will continue to implement targeted procurement wherein only suppliers from the Central Supplier Database that are at least 40% women owned, are sourced.

National Treasury Regulations prescribes that supplier invoices should be paid within 30 days. This helps to ensure that suppliers do not have financial hardship. By the end of the reporting period, the Department was able to ensure that 93,37% of all compliant invoices received were paid within 30 days, resulting in 6,63%

shortfall. To this end, a diagnostic assessment was undertaken on the payment of invoices as a way of improving performance on the target of 100% invoices paid within 30 days which revealed internal control deficiencies. The Department has commenced with the implementation of various strategic measures towards improving the level of compliance.

2.4 Key Policy Developments and Legislative Changes

The Department of Tourism had undertaken the review of the Tourism White Paper of 1996. The review was meant to provide an opportunity for the tourism sector to reflect on the overarching tourism policy framework which was adopted in 1996. It was also meant to provide an opportunity to align the tourism policy with latest global policy trends, latest government economic policies and plans and respond to technological developments that affected various sectors of the economy including tourism. It is anticipated that the reviewed policy framework (New Tourism White Paper) will guide the tourism sector to the next phase of tourism development in the country.

3. ACHIEVEMENT OF INSTITUTIONAL IMPACTS AND OUTCOMES

The Department pursues two strategic outcomes in support of the Government's Medium-Term Strategic Framework (MTSF) 2019-2024. These are, Outcome 1: Achieve good corporate and cooperative governance, and Outcome 2: Increase the tourism sector's contribution to inclusive economic growth. The plans of the Department support all seven priorities of Government in general but, specifically the following: Priority 1: Capable, Ethical and Developmental State; Priority 2: Economic Transformation and Job Creation; and Priority 7: A Better Africa and World.

Priority 1: Capable, Ethical and Developmental State

Good governance and accountability remain top priorities of the Department to ensure that the 6th Administration objectives in relation to a Capable, Ethical and Developmental State are met. In this regard, the Department has implemented a proper procurement system in accordance with principles of fairness, equitability,

transparency, competitiveness and cost-effectiveness. Deviations from normal procurement of goods and service are explained and approved by the appropriate authority. These are integral to the Department's aim of conducting its business in a manner that continues to create public confidence in the State. They help to provide for excellent systems for the management of public resources, which are useful for ridding the system of any inefficiency and enabling oversight by institutions of the State in the interest of the public.

Priority 2: Economic Transformation and Job Creation

The Department, in its policy development, regulatory, destination management and tourism operations support role, designs and implements programmes that respond to MTSF 2019-2024 Priority 2 (Economic Transformation and Job Creation). Through this role, it ensures a quality and diverse tourism offering as well as the development of sector capacity.

The Department aids economic development through implementation programmes including Tourism Incentive Programme (TIP), Investment Coordination, Skills Development Programme and Enterprise Development Programme. It also participates in public employment programmes including the Expanded Public Works Programme (EPWP) which has skills as well as infrastructure development components.

The activities carried out through the EPWP in the tourism sector are aimed at enhancing and developing tourism infrastructure through labour-intensive methods targeted at young people, women, unemployed people, PWDs and SMMEs.

The Department funded and SANParks implemented the Infrastructure Maintenance Programme in 19 national parks. This programme commenced in 2019 and ended on 31 March 2023. The programme created 953 temporary jobs in some of the most remote areas of the country, with 345 women, 519 youth and 30 PWDs employed through the programme. A total of 1 476 FTE jobs were created and 339 495-person days worked. In total 116 SMMEs were employed in the maintenance programme for the Kruger National Park. This programme created decent work and training opportunities for participants from 129 communities and villages adjacent to the 19 national parks.

Maintenance of provincial State-owned attractions is implemented by the DBSA. The infrastructure maintenance programme is aimed at refurbishing tourism assets, enhancing visitor experience, supporting the sustainability of tourism attractions and providing employment opportunities. A total of 25 maintenance projects is currently under construction in the five provinces: MP, LP, EC, FS and WC.

The Department implemented the Enterprise Development and Transformation Programme (EDTP). This programme is implemented to provide developmental support to tourism enterprises and develop a pipeline of emerging operators in the tourism sector. Under the Incubation Programme, the Department currently operates four incubators: Emerging Tour Operators for 44 emerging tour operators, the Food Services Incubator for 113 incubates, the Community-Based Tourism Incubator Pilot that involved eight community-based potential tourism projects and the Tourism Tech Incubator with 20 innovators.

During the 2022/2023 financial year, the Department implemented Youth Skills Development Programmes targeting 2500 retrenched and unemployed youth aged 18-35 years. The learners were also trained on the norms and standards for safe tourism operations in line with the skills development programmes which they attended. A total number of 2 517 of learners were enrolled in the various skills development programmes. Out of the 2 517 enrolled, about 304 learners dropped out for various reasons, while 810 graduated from the programmes. Five skills development programmes were delivered during the period under review. These included: Food and Beverage Training, Chef/Professional Cookery, Food Safety Quality Assurers, Wine Service Training and Hospitality Youth Training (Fast Food Services) Programmes.

Of the 810 graduated learners, 450 graduates received permanent employment from the various host employers in the tourism and hospitality sector.

Further, the Department introduced the Recognition of Prior Learning (RPL) process in the tourism and hospitality sector to recognise those employees who possess practical experience but do not have formal qualifications in the area of hospitality. As part of the delivery of this project, the Department enrolled 30 learners from LP in a Chef Training Programme. The Department achieved a 100% completion rate on these 30 learners. The learners have graduated and received a Certificate in Chef at

National Qualifications Framework (NQF) Level 5, accredited by CATHSSETA and the Quality Council on Trades Occupations (QCTO).

The Department also targeted training of 500 SMMEs across all Provinces on Norms and Standards for safe tourism operations. A total number of 598 SMMEs managed to attend the training, as planned which exceeded the targeted number of 500 SMMEs.

Priority 7: A Better Africa and World

Increase in the economic contribution of tourism is driven by an increase in domestic and foreign tourist arrivals as well as an increase in tourist spend. The Department with its partners must create an environment conducive to this increase by ensuring a quality and diverse tourism offering as well as developing sector capacity.

Under this priority, the Department monitors the brand strength, international tourist spend and growth in international tourist arrivals.

According to UNWTO, the global tourist arrivals trends for 2021-22 period as reported was a total of 917 million global tourist arrivals recorded in 2022, which was an increase of 101,6% compared to 2021 (455 million global tourist arrivals); and equivalent to 63% of global tourist arrivals in 2019 (1 465 million). All regions had

an increase in international tourist arrivals in 2022 compared to 2021, with Asia and the Pacific region leading with an increase of 241,0% in global tourist arrivals. A significant increase in global tourist arrivals was recorded for 2021 and 2022. It has, however, still been below 2019 levels.

Stats SA records that the total tourist arrivals for 2022 were almost at 55,7% of arrivals recorded during the 2019, pre-COVID 19 period (10,228,593). Total tourist arrivals went up by 152.6% in 2022 compared to 2021, which was a growth from a total of 2,255,699 tourist arrivals recorded during 2021 to 5,698,062 tourist arrivals in 2022. Total tourist arrivals from the overseas market increased by 284.0% (+1,072,867) in 2022; with highest positive growth (1223.8%) recorded in Australasia, followed by Europe (314.6%), North America (232.6%), Middle East (223.1%), Central and South America (188.4%) and Asia (170.0%). Steady growth in tourist arrivals in 2021 and 2022, but still below the 2019 levels.

Latest tourist arrival figures available are for the March 2023 period. Total tourist arrivals went up by 102.5% (+1,074,253) for the period January-March 2023 compared the same period in 2022. Total tourist arrivals from the overseas market increased by 112.1% (+300,068) during January-March 2023, with Australasia (244.3%) recording the highest increase followed by North America (135.5%), Central & South America (134.7%), Middle East (122.6%), Asia (121.5%) and Europe (100.7%). Latest figures show steady increase (January to March 2023).

Narrative of Highlights

The Department implemented various initiatives to contribute towards the professionalisation of the public service including attracting and retaining a capable workforce. The vacancy rate improved from 11,2% in 2020/21 (2 years prior to 31 March 2023) to 7,9% by 31 March 2023. The Department has successfully implemented various mechanisms to facilitate and manage bulk recruitment processes despite human resource capacity challenges.

The Department has set the target on the employment of PWDs' representation at 3% which is 1% higher than the national target of 2% and has as at 31 March 2023 achieved 4,5% representation. The Disability Management Forum (DMF) is functional and has implemented various interventions to promote and enhance a diverse environment which is gender- and disability-sensitive and responsive.

The outreach efforts enabled the programme to create a platform to showcase departmental programmes and initiatives, and contributed to the sector's recovery and sustainability. By utilising a variety of accessible communication channels, we have continued to promote community engagement, empowerment by utilising community media and allocating a portion of our advertising budget to community radio stations. The Department has communicated and interacted with technologically proficient citizens through digital media platforms and has maintained a positive social media presence. The call centre, accessible on 0860 TOURISM, has also been effective at providing general tourism information and receiving complaints from the public seeking immediate assistance.

The Department has contributed significantly to the Government's economic transformation agenda targeting 30% of the goods and services procurement towards SMMEs, and 40% towards women-owned businesses. The Department in 2022/2023 achieved 54,76% expenditure on procurement from SMMEs, exceeding the 30% target. The Department achieved the target of an unqualified audit and has successfully implemented the Audit Action Plan on matters raised by AGSA.

Narrative of Highlights

Africa and Middle East:

- The Joint Tourism Technical Committee was launched with Malawi on 2-3 August 2022.
- The Joint Tourism Technical Committee was launched with Democratic Republic of Congo (DRC) on 14-15 December 2022.
- The Memorandum of Understanding (MoU) on tourism cooperation was signed with Uganda on 27 February 2023.
- The visit to Beitbridge Border Post on a simulation visit in compliance with the Bi-National Commission decision of 7 March 2019 was undertaken jointly with the Zimbabwean counterparts on 2 March 2023.

Multilateral Relations and Cooperation:

- The Republic of South Africa (RSA) participated in the UNWTO Executive Council Meetings held on 7 June 2022 in Jeddah, Saudi Arabia and 24 November 2022 in Marrakesh, Morocco.
- The RSA participated in the G20 Tourism Ministers Meeting held on 26 September 2022 in Bali, Indonesia.

An evaluation of one project, namely, the Impact of the Resource Efficiency Programme on the beneficiaries that included tourism enterprises and learners, was undertaken. Seventy-four learners and 60 tourism enterprises (host employers) participated in the evaluation. Amongst the findings from the evaluation, the study revealed that some enterprises benefited from the programme by generating savings emanating from their investment in energy efficient technology.

The development and implementation of key Knowledge Systems namely; the Integrated Tourism Knowledge System, Tourism Skills and Employment Portal and Sentiments Analysis System, were prioritised in the financial year 2022/23. In an effort to integrate all tourism knowledge systems together, the Tourism Skills and Employment Portal and the Tourism Sentiments Analysis System were developed as part of the Integrated Tourism Knowledge System of the Department. The core benefits of undertaking this system integration exercise include among others, the following:

- Increasing the value provided by enterprise systems to external clients and internal staff.
- Providing a central digital gateway for knowledge services.
- Improving data services due to an integrated and interoperable system layout, resulting in better data analysis and improved organisational performance.

Changes to Planned Targets

The target of STR was erroneously captured as *2021/2022 STR finalised and published* on the Annual Performance Plan (APP) tabled in March 2022 instead of *2020/21 STR finalised and published*. However, an addendum rectifying the financial year to be 2020/21 was approved on 31 October 2022.

PART C

GOVERNANCE

1. INTRODUCTION

Commitment by the Department to maintain the highest standards of governance is fundamental and contributes towards good governance. The Department through its governance processes provide assurance to stakeholders and contribute towards effective, efficient and economic use of financial and other resources.

2. RISK MANAGEMENT

The Department has for the period under review, maintained an effective, efficient, and transparent system of risk management and internal control as required in terms of the Section 38 (a) (i) of the Public Finance Management Act, 1999. The Department had a duly constituted Risk Management Committee (RMC) chaired by an independent person which provided oversight to ensure effective risk management within the Department. The Audit Committee independently monitored the effectiveness of the RMC. The Audit Committee through review, oversight on quarterly risk management reports provided assurance on the effectiveness of risk management measures within the Department.

The implementation of the risk management is part of the departmental strategic planning processes. Top Management facilitated strategic risk assessment while programmes undertook operational risk assessment, fraud risk assessment and information communication risk assessment. Department adequately implemented a Risk Management Strategy which includes monthly review of risk registers, and the identification of emerging and materialised risks. Various strategic interventions were implemented inclusive of the appointment of Risk Champions in programmes and the adoption of risk management is a standing agenda item in all programme meetings.

The Department through the Directorate: Risk and Integrity Management has contributed towards an effective risk management system by convening awareness sessions, sharing articles online and regular engagements with members of SMS.

3. FRAUD AND CORRUPTION

The Department has committed to a zero tolerance by adopting effective and efficient Anti-fraud and Anti-corruption systems. The Fraud Prevention Strategy,

Fraud Prevention Policy, Information Security and Vetting Policies, were implemented to prevent incidents of fraud and corruption. Ethics Awareness was prioritised as an effective deterrent to incidents of fraud. The Department created awareness on the National Anti-Corruption Hotline (0800 701 701, toll free) as part of a strategic initiatives towards confidential disclosure on all incidents of fraud and corruption.

The RMC provided oversight over the implementation of Fraud Prevention Plans and Anti-Corruption measures. The Department, through Directorate: Risk and Integrity Management, created awareness on various Anti-Fraud and Anti-Corruption measures e.g. preventative and detective systems.

Allegations of fraud and corruption were also reported anonymously to Management and the Directorate: Risk and Integrity Management. Where allegations of fraud and or corruption are reported to the Department, depending on the veracity of allegations, investigations through internal and external investigations were instituted. The outcome of the investigations (inclusive of findings and recommendations) are considered and approved by the Accounting Officer.

4. MINIMISING CONFLICT OF INTEREST

The Department implemented the Public Service Regulations, 2016 and the directive on disclosure of financial interest for all designated groups by SMS. Designated employees submitted financial disclosures through the e-Disclosure System, which were quality assured by the Ethics Officers and processed to the Public Service Commission.

As part of entrenching an ethical culture and minimising conflict of interest, employees were required to obtain approval prior to engaging in remunerative work outside employment. Applications were submitted to the Directorate: Risk and Integrity Management evaluation prior to processing to the delegated authority for approval. The Department facilitated approval and implementation of the Gift Policy to manage gifts and minimise potential conflict of interest.

The RMC provided quarterly oversight on the implementation of remunerative work, financial disclosure and the administration of the Gifts Policy. The Directorate: Risk and Integrity Management created ethical awareness through encouraging online training, convening sessions and circulating articles.

5. CODE OF CONDUCT

The conduct of employees in the Department is regulated through the Public Service Code of Conduct. The Department inducted newly appointed employees to the Code of Conduct and offered continuous awareness for existing employees as part of entrenching an ethical culture and excellent conduct. Awareness on the Code of Conduct implemented through the circulation of online articles.

The Department practises demonstrated commitment to uphold the highest standard of professionalism, promoted ethical behaviour and excellent conduct which inspired employees to act with integrity. Non-compliance with both departmental values and the Code of Conduct is deemed an act of misconduct and corrective measures implemented through the Public Service Disciplinary Code of Conduct.

6. HEALTH SAFETY AND ENVIRONMENTAL ISSUES

Section 8 of the Occupational Health and Safety (OHS) Act, (Act No. 85 of 1993) mandates the Department to provide and maintain as far as is reasonably practical a working environment that is safe and without risk to the health of employees. The Department has implemented the OHS Policy, and conducted the following assessments to identify possible hazards and unsafe working environment:

- Noise Assessment.
- Ergonomics Assessment.
- Illumination Assessment.
- Hazardous Biological Agent Assessment.
- Air Quality and Ventilation Assessment.

The outcome of the various assessment was approved and the Department commenced with the implementation of findings through the action plans. OHS representatives were appointed and membership of the OHS Committee was renewed. The newly established Committee provided oversight on Departmental OHS measures.

7. PORTFOLIO COMMITTEES

This section details meeting dates and matters raised by the Portfolio Committee on Tourism and the Select Committee on Trade and Industry, Economic Development, Small Business Development, Tourism, Employment and Labour and how the Department addressed them.

The Portfolio Committee on Tourism (in the National Assembly) and Select Committee on Trade and Industry, Economic Development, Small Business Development, Tourism, Employment and Labour (in the National Council of Provinces) were respectively established in terms of Sections 55 and 69 of Chapter 4 of the Constitution. Their primary role is to oversee the actions of Government, to assure Parliament of such an oversight role and to provide assurance that Government is able to provide services to all citizens.

7.1 PORTFOLIO COMMITTEE ON TOURISM (NATIONAL ASSEMBLY)

7.1.1 Oversight Visit by the Portfolio Committee to LP (Mopani and Vhembe District) 19-21 April 2022

The Committee conducted oversight at Ngove Lodge near Giyani and the Phiphidi Waterfalls near Thohoyandou and recommended that the Department should attend to the following:

- Strengthen planning, monitoring and evaluation of projects by Project Managers.
- Prioritise request by the Ngove community to incorporate a Cultural Village as part of the Ngove project.
- Ensure alignment of expenditure to project progress on all infrastructure projects.

7.1.2 Briefing by the Department on the APP for 2022/23 financial year on 3 May 2022

None.

9. PRIOR MODIFICATIONS TO AUDIT REPORTS

No prior modifications were done to audit reports.

10. INTERNAL CONTROL UNIT

The Internal Control Unit is responsible for facilitating the audit, managing the irregular, fruitless and wasteful expenditure register of the Department. The Unit is further responsible for maintaining the Office of the Chief Financial Officer policy register to ensure that all policies are in line with the latest practice notes.

During the period under review, a comprehensive Audit Action Plan was developed to address 2021/22 Audit findings. Progress was monitored on a weekly basis by the Internal Control Unit. The Director-General took the initiative to facilitate weekly Internal Audit Steering Committee meetings.

Based on the outcome of the 2021/22 Audit, 66 Actions were developed as part of the Audit Response in the Audit Action Plan. In all, 57 Actions (86%) were fully implemented and nine are in progress (14%) as at the end of the financial year.

During the financial year, the Sub-Directorate: Internal Control finalised 36 fruitless and wasteful expenditure cases.

During the year, no new instances of irregular expenditure were identified.

11. INTERNAL AUDIT AND AUDIT COMMITTEES

The Internal Audit Unit provides assurance and consulting services. It conducts its affairs in terms of an approved Internal Audit Charter. The unit follows a risk-based audit approach, in terms of which the Department's Risk Strategy and the Internal Audit Unit's assessment of risks are the drivers of internal audit activities and the approved internal audit plan. The internal audit plan was formally adopted and approved by the Audit Committee.

Below are audits performed by the Internal Audit Unit during the 2022/23 financial year:

- Pre-determined objectives.
- ICT Governance.
- Review of Risk Management.
- Review of Annual Report 2021/22.
- ICT General Controls.
- ICT Assets Management.
- Procurement – Quotation.
- Follow-up on AGSA Management Report.
- Follow-up: Accounts Management.
- Follow-up: EPWP Infrastructure Assets Management.
- Follow-up: COVID-19 Compliance – OHS.
- Review of Financial Statements.
- Review of Tourism Relief Fund.
- Tourist Guide Relief Fund.
- Security Contract.
- Tourism Monitors Programme.
- Cook-off event in Tembisa.

Progress on the implementation of the plan was monitored and reported on at each Audit Committee meeting.

The primary purpose of the Audit Committee is to assist the Department in fulfilling its oversight responsibilities, and to ensure that the Department has and maintains effective, efficient and transparent systems of financial, risk management, governance and internal control by:

- (i) Supporting management in respect of financial reporting and a system of internal control.
- (ii) Enhancing business ethics and trust in the Department.
- (iii) Ensuring and enhancing the independence of internal audit activity.
- (iv) Ensuring that risks facing the Department are identified, and that appropriate procedures are implemented to manage and minimise risks.
- (v) Ensuring the proper functioning of the audit process.
- (vi) Monitoring compliance with laws, regulations and codes of conduct.

12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the financial year ending 31 March 2023.

Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 38 (1) (a) (ii) of the Public Finance Management Act and Treasury Regulation 3.113. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein, except that we have not reviewed changes in accounting policies and practices.

The Effectiveness of Internal Control

The Department's system of internal control is designed to provide reasonable assurance, inter alia, that assets are safeguarded and that liabilities and working capital are efficiently managed. Based on the approved annual internal audit plan setting out the scope, control objectives and risks for the period covered, various reports were submitted by the internal auditors.

The results of the internal and external audits indicated that controls have been operating as intended in certain areas, while in others, attention should be given to strengthening, improving and monitoring the controls. Where control weaknesses and other matters were reported, the Audit Committee considered management's responses to address the matters and to facilitate corrective actions, improvements and monitoring of the controls and procedures. Implementation of such corrective actions is monitored through the implementation of an issue tracking report and the follow-up review reports submitted to the committee on a regular basis.

Our review of the findings of the Internal Audit work, which was based on the risk assessments conducted in the Department, revealed certain weaknesses, which were then raised with the Department.

The following internal audit work was completed during the year under review:

- Pre-determined objectives;
- ICT Governance;
- Review of Risk Management;
- Review of the draft Annual Report 2021/2022;
- ICT General Controls;
- ICT Assets Management;
- Procurement - Quotations;
- Follow-up on AGSA Management Report;
- Follow-up: Accounts Management;
- Follow-up: EPWP Infrastructure Assets Management.
- Follow-up: COVID 19 Compliance - OHS;
- Review of Financial Statements;
- Review of Tourism Relief Fund;
- Tourist Guide Relief Fund;
- Security Contract;
- Tourism Monitors Programme; and
- Cook-off event in Tembisa.

The Audit Committee advised the Department that strong steps be taken by Management to strengthen the oversight function and their control environment.

In-Year Management and Monthly / Quarterly Report

The Department has reported monthly and quarterly to National Treasury as is required by the PFMA.

Internal Audit

The Internal Audit Unit conducted its affairs in terms of an approved Internal Audit Charter, which is reviewed on an annual basis. The Internal Audit Unit followed a risk-based audit approach, whereby the Department's Risk Strategy and the Internal Audit Unit's assessment of the risks drivers were taken into account.

The Internal Audit Plan was formally adopted and approved by the Audit Committee. Progress on the execution of the plan was monitored and reported on at each Audit Committee meeting.

The Audit Committee is therefore satisfied that the internal audit function (in-house) is operating effectively and that it has addressed the risks pertinent to the department in its Audit Plan.

Risk Strategy

The Department has a risk management strategy in place and actively monitors and takes appropriate action against the risks identified as per the risk register.

Evaluation of Financial Statements

The Audit Committee has reviewed the annual financial statements prepared by the Department.

Auditor-General's Report

We have reviewed the department's implementation plan for audit issues raised in the previous year and are satisfied that the matters have been adequately resolved.

The Audit Committee concurs and accepts the conclusions of the Auditor-General South-Africa (AGSA) on the Annual Financial Statements and is of the opinion that the Audited Annual Financial Statements be accepted and read together with the report of the AGSA.

Mr Roy Mnisi

Chairperson of the Audit Committee

Department of Tourism

Date: 07 August 2023

13. B-BBEE COMPLIANCE PERFORMANCE INFORMATION

The following table has been completed in accordance with the compliance to the B-BBEE requirements of the B-BBEE Act of 2013 and as determined by the Department of Trade, Industry and Competition.

Has the Department / Public Entity applied any relevant Code of Good Practice (B-BBEE Certificate Levels 1 – 8) with regards to the following:		
Criteria	Response Yes / No	Discussion
Determining qualification criteria for the issuing of licences, concessions or other authorisations in respect of economic activity in terms of any law?	Yes	The concession guideline is currently being developed for the tourism sector.
Developing and implementing a preferential procurement policy?	Yes	To contribute to Government's economic transformation agenda, the Procurement Policy of the Department uses B-BBEE as a lever. There is a minimum of a 40% procurement target spend from businesses owned by women. There is also a 30% procurement target set for buying goods and services from SMMEs.
Determining qualification criteria for the sale of SOEs?	No	N/A
Developing criteria for entering into partnerships with the private sector?	No	Partnerships criteria not yet developed. The gazetted Tourism B-BBEE Sector Code should be used.
Determining criteria for the awarding of incentives, grants and investment schemes in support of B-BBEE?	Yes	Inputs were made for applying the targets set under the gazetted Tourism B-BBEE Sector Code on the Tourism Equity Fund.

The background of the entire page is an abstract design featuring a solid orange field. Overlaid on this are several layers of wavy, organic shapes in shades of light orange and white. These shapes are layered to create a 3D, paper-cut effect, with some shapes appearing to float above others. The overall composition is dynamic and modern.

PART D

HUMAN RESOURCE MANAGEMENT

1. INTRODUCTION

The Department is committed to its professionalisation, which is critical in building the capacity of the State. The Department implements strategic human resource management through the application of sound human resource practices. The Departmental MTEF HR Plan supports the requirements of the Public Service Act, 1994 as amended and the Public Service Regulations, 2016. The implementation of the Departmental Human Resource Plan seeks to ensure that the Department has the correct number of employees with the required skills in the correct positions. The Department has facilitated the implementation of all functional areas:

- Organisational Development and Change Management
- Human Resource Practices and Administration
- Human Resource Utilisation and Development
- Human Resource Planning and Information System
- Employee Health and Wellness
- Employee and Labour Relations

2. OVERVIEW OF HUMAN RESOURCES

As at 31 March 2023, the Departmental post establishment was at 521 with 480 positions filled and 51 positions vacant translating to a 7,9% vacancy rate. 2022/2023 was the first year where a vacancy rate below 10% was achieved. The Department

implemented a reprioritisation system for positions based on available funds resulting from terminations of other positions. The Department has consistently performed above 4% on employment of PWDs which is 2% above the national target.

In all, 40 employees were appointed to the Department while 31 employees exited the Department. There were 10 resignations at 32,2%, five transfers out of the Department at 16,1%, five retirements at 16,1% and two terminations on account of death at 6,4%.

Following the outcome of performance moderations, employees who performed outstandingly were afforded pay progressions in accordance with policy guidelines. The Department also initiated a Service Excellence Programme during the reporting period, which awards employees for exemplary implementation of the Batho Pele Principles.

The Department enforced the implementation and execution of OHS Risk Assessment to establish the level of occupational risk in the facility (Tourism House) and the following key areas were assessed per Section 8 of the OHS Act:

- Ergonomics.
- Air quality and ventilation.
- Hazardous biological agents.
- Illumination and lamps.
- Noise.

Department of Tourism – Vote 38

REPORT OF THE AUDITOR-GENERAL

for the year ended 31 March 2023

REPORT OF THE AUDITOR-GENERAL TO PARLIAMENT ON VOTE NO. 38: NATIONAL DEPARTMENT OF TOURISM

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the National Department of Tourism set out on pages 126 to 199, which comprise the appropriation statement, statement of financial position as at 31 March 2023, statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the National Department of Tourism as at 31 March 2023, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standard (MCS) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA) and the Division of Revenue Act 5 of 2022 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the Department in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South

Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

National Treasury Instruction No. 4 of 2022/2023: PFMA Compliance and Reporting Framework

7. On 23 December 2022 National Treasury issued Instruction Note No. 4: PFMA Compliance and Reporting Framework of 2022-23 in terms of section 76(1)(b), (e) and (f), 2(e) and (4)(a) and (c) of the PFMA, which came into effect on 3 January 2023. The PFMA Compliance and Reporting Framework also addresses the disclosure of unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure. Among the effects of this framework is that irregular and fruitless and wasteful expenditure incurred in previous financial years and not addressed is no longer disclosed in the disclosure notes of the annual financial statements, only the current year and prior year figures are disclosed in note 22 to the financial statements. The movements in respect of irregular expenditure and fruitless and wasteful expenditure are no longer disclosed in the notes to the annual financial statements of National Department of Tourism. The disclosure of these movements (e.g. condoned, recoverable, removed, written off, under assessment, under determination and under investigation) are now required to be included as part of other information in the annual report of the auditees. I do not express an opinion on the disclosure of irregular expenditure and fruitless and wasteful expenditure in the annual report.

REPORT OF THE AUDITOR-GENERAL

for the year ended 31 March 2023

Unaudited supplementary information

8. The supplementary information set out in pages 200 to 213 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

Responsibilities of the accounting officer for the financial statements

9. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS and the requirements of the PFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
10. In preparing the financial statements, the accounting officer is responsible for assessing the Department's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the Department or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

11. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

12. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

13. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for selected programmes presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
14. I selected the following programmes presented in the annual performance report for the year ended 31 March 2023 for auditing. I selected programmes that measure the Department's performance on its primary mandated functions and that are of significant national, community or public interest.

Programme	Page numbers	Purpose
Destination Development	43 - 47	Facilitate and coordinate tourism destination development
Tourism Sector Support Services	49 - 58	Enhance transformation, increase skill levels and support the development of the sector to ensure that South Africa is a competitive tourism destination

15. I evaluated the reported performance information for the selected programmes against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the Department's planning and delivery on its mandate and objectives.

Department of Tourism • ANNUAL REPORT 2022/23

16. I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the Department's mandate and the achievement of its planned objectives.
 - the indicators are well defined and verifiable to ensure that they are easy to understand and apply consistently and that I can confirm the methods and processes to be used for measuring achievements.
 - the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
 - the indicators and targets reported on in the annual performance report are the same as what was committed to in the approved initial or revised planning documents.
 - the reported performance information is presented in the annual performance report in the prescribed manner.
 - there is adequate supporting evidence for the achievements reported and for the reasons provided for any over- or underachievement of targets.
17. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion.
18. I did not identify any material findings on the reported performance information of selected programmes.

Other matter

19. I draw attention to the matter below.

Achievement of planned targets

20. The annual performance report includes information on reported achievements against planned targets and provides explanations for over- and under-achievements.

Report on compliance with legislation

21. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the Department's compliance with legislation.
22. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
23. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the Department, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
24. The material finding on compliance with the selected legislative requirements, presented per compliance theme, is as follows:

Procurement and contract management

25. Some of the quotations were awarded by an implementing agent to suppliers whose tax matters had not been declared by the South African Revenue Service to be in order, as required by Treasury Regulation 16A9.1(d).

Other information in the annual report

26. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and those selected programmes presented in

REPORT OF THE AUDITOR-GENERAL

for the year ended 31 March 2023

the annual performance report that have been specifically reported on in this auditor's report.

27. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation, do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
28. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
29. If, based on the work I have performed, I conclude that there is a material misstatement in this other information, I am required to report that fact.
30. I have nothing to report in this regard.

Internal control deficiencies

31. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.

32. The matter reported below is limited to the significant internal control deficiencies that resulted in the material finding on compliance with legislation included in this report.

33. Senior management did not establish and implement sufficient procedures to review or monitor compliance with supply chain management prescripts and internal controls when procuring goods and services through an implementing agent.

Department of Tourism – Vote 38

ANNEXURE TO THE AUDITOR'S REPORT

for the year ended 31 March 2023

The annexure includes the following:

- The auditor-general's responsibility for the audit.
- The selected legislative requirements for compliance testing.

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the Department's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- Conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Department to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a Department to cease operating as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

TOTAL	1 404 910	1 395 094	9 816	1%

Explanation of variance

The bulk of the underspending lies within the Compensation of Employees due to staff turnover and the slow filling of posts. The slight underspending on Goods and Services is due to international meetings being held virtually, resulting in unspent funds linked to travel and subsistence. A further underspending was realised under transfers and subsidies for the United Nations World Tourism Organisation (UNWTO) contributions due to foreign exchange rate fluctuations.

ACCOUNTING POLICIES

for the year ended 31 March 2023

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the Department's primary and secondary information.

The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation.

Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the Division of Revenue Act.

1. Basis of preparation

The financial statements have been prepared in accordance with the Modified Cash Standard.

2. Going concern

The financial statements have been prepared on a going concern basis.

3. Presentation currency

Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the Department.

4. Rounding

Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).

5. Foreign currency translation

Cash flows arising from foreign currency transactions are translated into South African Rands using the spot exchange rates prevailing at the date of payment / receipt.

6. Comparative information

6.1 Prior period comparative information

Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.

6.2 Current year comparison with budget

A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.

7. Revenue

7.1 Appropriated funds

Appropriated funds comprise of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation).

Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms

Department of Tourism – Vote 38

ACCOUNTING POLICIES

for the year ended 31 March 2023

of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective.

The net amount of any appropriated funds due to / from the relevant revenue fund at the reporting date is recognised as a payable / receivable in the statement of financial position.

7.2 Departmental revenue

Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise.

Departmental revenue is measured at the cash amount received.

In-kind donations received are recorded in the notes to the financial statements on the date of receipt and are measured at fair value.

Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.

7.3 Accrued departmental revenue

Accruals in respect of departmental revenue (excluding tax revenue) are recorded in the notes to the financial statements when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the Department; and
- the amount of revenue can be measured reliably.

The accrued revenue is measured at the fair value of the consideration receivable. Accrued tax revenue (and related interest and / penalties) is measured at amounts receivable from collecting agents.

Write-offs are made according to the Department's debt write-off policy.

8. Expenditure

8.1 Compensation of employees

8.1.1 Salaries and wages

Salaries and wages are recognised in the statement of financial performance on the date of payment.

8.1.2 Social contributions

Social contributions made by the Department in respect of current employees are recognised in the statement of financial performance on the date of payment.

Social contributions made by the Department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.

8.2 Other expenditure

Other expenditure (such as goods and services, transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.

Donations made in kind are recorded in the notes to the financial statements on the date of transfer and are measured at cost or fair value.

8.3 Accruals and payables not recognised

Accruals and payables not recognised are recorded in the notes to the financial statements at cost or fair value at the reporting date.

8.4 Leases

8.4.1 Operating leases

Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment. Operating lease payments received are recognised as departmental revenue.

The operating lease commitments are recorded in the notes to the financial statements.

8.4.2 Finance leases

Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment. Finance lease payments received are recognised as departmental revenue.

The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions.

Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:

- cost, being the fair value of the asset; or
- the sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.

9. Aid Assistance

9.1 Aid assistance received

Aid assistance received in cash is recognised in the statement of financial performance when received. In-kind aid assistance is recorded in the notes to the financial statements on the date of receipt and is measured at fair value.

CARA Funds are recognised when receivables and measured at the amounts receivable.

Aid assistance not spent for the intended purpose and any unutilised funds from aid assistance that are required to be refunded to the donor are recognised as a payable in the statement of financial position.

9.2 Aid assistance paid

Aid assistance paid is recognised in the statement of financial performance on the date of payment. Aid assistance payments made prior to the receipt of funds are recognised as a receivable in the statement of financial position.

10. Cash and cash equivalents

Cash and cash equivalents are stated at cost in the statement of financial position. Bank overdrafts are shown separately on the face of the statement of financial position as a current liability.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

11. Prepayments and advances

Prepayments and advances are recognised in the statement of financial position when the Department receives or disburses the cash.

Prepayments and advances are initially and subsequently measured at cost.

Prepayments and advances are expensed when there is a contractual obligation between the Department and the service providers. Details for such prepayments and advances are recorded in the notes to the financial statements.

ACCOUNTING POLICIES

for the year ended 31 March 2023

12. Loans and receivables

Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the Department's write-off policy.

13. Investments

Investments are recognised in the statement of financial position at cost.

14. Financial assets

14.1 Financial assets (not covered elsewhere)

A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

At the reporting date, a Department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.

14.2 Impairment of financial assets

Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements.

15. Payables

Payables recognised in the statement of financial position are recognised at cost.

16. Capital Assets

16.1 Immovable capital assets

Immovable assets reflected in the asset register of the Department are recorded in the notes to the financial statements at cost or fair value where the cost cannot be determined reliably. Immovable assets acquired in a non-exchange transaction are recorded at fair value at the date of acquisition. Immovable assets are subsequently carried in the asset register at cost and are not currently subject to depreciation or impairment.

Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.

Additional information on immovable assets not reflected in the assets register is provided in the notes to financial statements.

16.2 Movable capital assets

Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.

Where the cost of movable capital assets cannot be determined reliably, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1.

All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.

Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment.

Department of Tourism – Vote 38

ACCOUNTING POLICIES

for the year ended 31 March 2023

Subsequent expenditure that is of a capital nature forms part of the cost of the existing asset when ready for use.

16.3 Intangible assets

Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition.

Internally generated intangible assets are recorded in the notes to the financial statements when the Department commences the development phase of the project.

Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.

Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment.

Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.

16.4 Project Costs: Work-in-progress

Expenditure of a capital nature is initially recognised in the statement of financial performance at cost when paid.

Amounts paid towards capital projects are separated from the amounts recognised and accumulated in work-in-progress until the underlying asset is ready for use. Once ready for use, the total accumulated payments are recorded in an asset register. Subsequent payments to complete the project are added to the capital asset in the asset register.

Where the Department is not the custodian of the completed project asset, the asset is transferred to the custodian subsequent to completion.

17. Provisions and Contingents

17.1 Provisions

Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

17.2 Contingent liabilities

Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.

17.3 Contingent assets

Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Department.

17.4 Capital Commitments

Capital commitments are recorded at cost in the notes to the financial statements.

Department of Tourism – Vote 38

ACCOUNTING POLICIES

for the year ended 31 March 2023

18. Unauthorised expenditure

Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.

Unauthorised expenditure is recognised in the statement of changes in net assets until such time as the expenditure is either:

- approved by Parliament or the Provincial Legislature with funding and the related funds are received; or
- approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or
- transferred to receivables for recovery.

Unauthorised expenditure recorded in the notes to the financial statements comprise of:

- unauthorised expenditure that was under assessment in the previous financial year;
- unauthorised expenditure relating to previous financial year and identified in the current year; and
- unauthorised expenditure incurred in the current year.

19. Fruitless and wasteful expenditure

Fruitless and wasteful expenditure receivables are recognised in the statement of financial position when recoverable. The receivable is measured at the amount that is expected to be recovered and is de-recognised when settled or subsequently written-off as irrecoverable.

Fruitless and wasteful expenditure is recorded in the notes to the financial statements when and at amounts confirmed, and comprises of:

- fruitless and wasteful expenditure that was under assessment in the previous financial year;
- fruitless and wasteful expenditure relating to previous financial year and identified in the current year; and
- fruitless and wasteful expenditure incurred in the current year.

20. Irregular expenditure

Losses emanating from irregular expenditure are recognised as a receivable in the statement of financial position when recoverable. The receivable is measured at the amount that is expected to be recovered and is de-recognised when settled or subsequently written-off as irrecoverable.

Irregular expenditure is recorded in the notes to the financial statements when and at amounts confirmed and comprises of:

- irregular expenditure that was under assessment in the previous financial year;
- irregular expenditure relating to previous financial year and identified in the current year; and
- irregular expenditure incurred in the current year.

21. Changes in accounting estimates and errors

Changes in accounting estimates are applied prospectively in accordance with MCS requirements.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the Department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Department of Tourism – Vote 38

ACCOUNTING POLICIES

for the year ended 31 March 2023

22. Events after the reporting date

Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.

23. Principal-Agent arrangements

The Department is party to a principal-agent arrangement for Tourism Incentive Programme projects. In terms of the arrangement the Department is the principal and is responsible for the appointment of an Implementing Agent.

All related revenues, expenditures, assets and liabilities have been recognised or recorded in terms of the relevant policies listed herein. Additional disclosures have been provided in the notes to the financial statements where appropriate.

24. Departures from the MCS requirements

Management has concluded that the financial statements present fairly the Department's primary and secondary information and the Department complied with the Standard.

25. Capitalisation reserve

The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National Revenue Fund when the underlying asset is disposed and the related funds are received.

26. Recoverable revenue

Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.

27. Related party transactions

Related party transactions within the Minister's portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length.

The number of individuals and the full compensation of key management personnel is recorded in the notes to the financial statements.

28. Inventories (Effective from date determined in a Treasury Instruction)

At the date of acquisition, inventories are recognised at cost in the statement of financial performance.

Where inventories are acquired as part of a non-exchange transaction, the inventories are measured at fair value as at the date of acquisition.

Inventories are subsequently measured at the lower of cost and net realisable value or where intended for distribution (or consumed in the production of goods for distribution) at no or a nominal charge, the lower of cost and current replacement value.

The cost of inventories is assigned by using the weighted average cost basis.

Department of Tourism – Vote 38

ACCOUNTING POLICIES

for the year ended 31 March 2023

29. Public-Private Partnerships

Public Private Partnerships are accounted for based on the nature and or the substance of the partnership. The transaction is accounted for in accordance with the relevant accounting policies.

A summary of the significant terms of the PPP agreement, the parties to the agreement, and the date of commencement thereof together with the description and nature of the concession fees received, the unitary fees paid, rights and obligations of the Department are recorded in the notes to the financial statements.

30. Key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Department. The Special Advisor to the Executing Authority is not part of the key management personnel as he/she should refrain from interfering in the administration and management of the Department. The number of individuals and their full compensation is recorded in the notes to the financial statements.

31. Employee benefits

The value of each major class of employee benefit obligation (accruals, payables not recognised and provisions) is recorded in the Employee benefits note.

Accruals and payables not recognised for employee benefits are measured at cost or fair value at the reporting date.

The provision for employee benefits is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

32. Transfers of functions

Transfers of functions are accounted for by the acquirer by recognising or recording assets acquired and liabilities assumed at their carrying amounts at the date of transfer.

Transfers of functions are accounted for by the transferor by derecognising or removing assets and liabilities at their carrying amounts at the date of transfer.

33. Mergers

Mergers are accounted for by the combined Department by recognising or recording assets acquired and liabilities assumed at their carrying amounts at the date of the merger.

Mergers are accounted for by the combining Departments by derecognising or removing assets and liabilities at their carrying amounts at the date of the merger.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

for the year ended 31 March 2023

Note:

- *Advertising* costs increased by 27% (R1,4 million). This is due firstly to increased expenditure in recruitment advertising as the Department embarked on filling vacant posts. Secondly, there was an increase in spending on Marketing and Promotional items as the Department increased activities on stakeholder engagements as COVID-19 restrictions were lifted.
- *Minor assets* expenditure increased by 171% (R865 thousand). The Department embarked on replacing office furniture (mainly chairs) that had become unserviceable due to normal “wear and tear”.
- *Communication* costs increased by 43% (R10,4 million). The Department continued providing data and airtime to staff as virtual meetings and engagements became a norm post-COVID-19.
- Expenditure on *contractors* increased by 62% (R5,6 million). This is attributable to an increase in payments for security services for the guarding of EPWP infrastructure and maintenance projects as these projects increased.
- *Agency and support / outsourced services* increased by 39% (R31 million). The increase is due to an increase in the payment of stipends to EPWP projects/workers. EPWP skills/training/infrastructure projects continued to increase in 2022/23 as Covid-19 restrictions were lifted.
- *Property payments* decreased by 81% (R98,9 million). EPWP maintenance projects received additional once-off funding through the PES job creation programme in 2021/22, which caused the expenditure in 2021/22 to be much higher than in 2022/23.
- *Travel and subsistence* expenditure increased by 107% (R31,9 million). As COVID-19 restrictions were lifted further, officials travelled more in 2022/23.
- *Venues and Facilities* expenditure increased 57% (R2,4 million). As COVID-19 restrictions were lifted further, more face-to-face meetings and events took place in 2022/23.

Minor Capital Assets under investigation

	Number	Value
Included in the above total of the minor capital assets per the asset register are assets that are under investigation:		
Machinery and equipment	143	-

Note:

143 minor assets are under investigation. These are assets that were identified during the physical asset verification. Some of these assets were recorded as disposed in prior years, and others cannot be traced back to the Asset Register. The investigation into these assets was not concluded at the time of finalising the financial statements. The value could also not be determined.

Projects	Agent	2022/23	2021/2022
		R'000	R'000

Tourism Transformation Fund (TTF)	National Empowerment Fund (NEF)	-	-
Green Tourism Incentive Programme (GTIP)	Industrial Development Corporation (IDC)	-	-
TOTAL		-	-

Note:

The relationship with the three entities listed is regulated by contracts/MOAs between the Department and the entities. In terms of the contracts, the entities (agents) act on behalf of the Department to manage incentive programmes/funds that benefit third parties. The agents receive a fee for managing the programme on behalf of the Department. The agents account for money transferred into the fund, which is held in dedicated bank accounts. Should the fund cease to exist, all unused funds are payable back to the Department. The Department is involved in directing the activities of the agents/funds through the Project Steering Committees that are in place, which provide policy direction and management oversight over the projects/funds. The Agents are expected to provide reports to the Department at least quarterly on the progress of the projects.

There were no changes to the terms of the agreements with the agents during the reporting period.

The significant risks associated with the Principal-Agent arrangement are:

- The Agent reneges on the contractual obligations that may result in a new agent being appointed at a significant cost to the Department.
- Non-performance by agent.

These risks are mitigated through standard contractual provisions for breach of contract. Furthermore, there is continuous reporting and monitoring through the Project Steering Committee.

The primary benefit of using the agents to implement the TIP programmes is that we leverage their institutional capacity and expertise, which the Department does not have, to implement these programmes.
