The Review of the White Paper

It is important that a review process is transparent and evidence based. Thus a collaborative/ integrated approach for the review of the implementation of the White Paper is proposed that will encourage the participation of stakeholders. The review will include the external review and self review processes. Researchers with experience in Corrections will be invited to participate in the external review process. Both teams (external and internal reviewers) will evaluate some aspect of the implementation of the White Paper and the data will be used to answer the main evaluation questions.

The Department will establish a credible review team which will consist of external and internal researchers. The review team will be responsible for identifying the scope and designing the review. They will also be responsible for the final analysis of data, drawing conclusions and identification of priorities.

Main tasks to be performed

The review process will be divided into three stages

Step 1: Development of key questions for the review and development of indicators and research instruments

Step 2: Establish the scope of the review

Step 3: Gathering of raw data using questionnaires and interviews to determine what is happening. The focus will be on staff, offenders and relevant stakeholders (NGO's and Cluster partners).

Step 4: Analysis of data and summarizing findings

Step 5: Presentation of findings

The following are the time frames for the proposed review and they will be finalized in consultation with external stakeholders.

Time frame

| Activities | Due Date | |
|--------------------------------------|----------------------|-----|
| Appointment of a review team | May 2013 | |
| Development of terms of reference | June 2013 | .,. |
| Development of data collection tools | June 2013 | |
| Data collection | July and August 2013 | |
| Data analysis | September 2013 | |
| Report writing | October 2013 | |
| Submission of report | November 2013 | |
