**SALPCB 13**

Good day,

As a language practitioner, I support the passing of the Bill based on the following reasons:

(1) The Bill will assist in bringing dignity and coherence into the profession as it allows ordinary citizens to understand how government and its entities operates.

(2) With reference to 'objects of the Bill'-to register people deemed registrable by the Council. I would like to suggest that there should be an Annexures on minimum registration fees, penalties to be effected and at least list type of offences (if applicable).

Regards,
