FREE STATE TOTALS			165					
Grand totals			827	81% operational				

Comments:
Utilization appears to be mostly driven by the magistrates (especially Regional Courts as the Magistrate's allocate cases to courts)
Planning is being done for Pretoria Magistrates Court to demonstrate their methodology to courts that are not currently on board
Offices where reports has been made that the system is not correctly placed (through lessons learned) are being considered for effective shifting of the equipment
ISM engaged in the assemsnet of the functionality of systems to be operational.
