Dear sir/madam

SUBMISSION ON REFUGEES AMENDMENT BILL [B12B - 2016].
I hereby wish to submit to the above mentioned bill. The bill must be amended to fully regulate foreign nationals entering or staying in our country. Currently when government finds illegal foreigners in the country and deal with them, NGOs take the government to court and win cases against the government due to the current bill. This then make it difficult for the government to regulate foreigners in the country and leading to crimes committed by illegal immigrants not being resolved as they are undocumented and unknown. currently across the world, it is only in south Africa where foreigners are not fully regulated to an extend that they can even stage a protest march. Even during apartheid when struggle activists where in other countries they were not let loose like the way our country is letting loose of foreigners. currently we have foreigners operating informal trade -

- in our country without licences or paying tax. we also have foreigners operating as hawkers. I therefore submit that the bill must be amended to render these activities by foreign nationals illegal. The bill must also allow for the arrest and prosecution and subsequent deportation of foreign nationals engaged in these activities.

HOPE YOU WILL FIND THIS TO BE IN ORDER.

YOURS FAITHFULLY

EICORT Matlala
