Dear Sir / Madam

SUBMISSION ON LIQUOR AMENDMENT BILL (B10-2016).

I hereby wish to make a submission on the above mentioned bill. I stand to second the proposed amendments, but also like to make additions. The wine and spirits board must also be regulated by the minister to ensure it does not have excessive powers. The traditional african beer must also be allowed and provided for in the bill as now we see people who make and sell it for a living arrested and charged because the beer is currently deemed illegal. The powers that will be given to the minister to issue export certificates and make regulations, must be done through an advisory panel of experts to ensure that the minister does not make unconstitutional decisions on regulations and those certificates that will later be nullified by courts. That is my submission.

HOPE YOU WILL FIND THIS TO BE IN ORDER.

YOURS FAITHFULLY

EICORÉ MATIOLA
