Congratulations on evolving so constructively and so masterfully the mandate of the SAI of South Africa, the Auditor-General! It is high time for accountability and consequences to become an integral part of public service audit outcomes. This can only bode exceptionally well for our young democracy. This development is a welcome ray of light in an otherwise rather bleak current reality of my beloved South Africa. It will no doubt in time address the ordinary citizen's perception/ complaint that The AGSA has no teeth. The solution is smart, elegant and highly progressive. Thank You! Please continue to keep up the good work and fight the good fight.

Sincerely

Laura L Bez - Tshwane, Gauteng.
