ADDITIONAL RECOMMENDATIONS -

1. CoGTA must conduct a thorough study on whether the way in which we allocate money between between spheres of government has had a negative or positive impact on improving service delivery by municipalities.
2. Engagement between the National Treasury, SALGA and COGTA to reconsider services which municipalities must insource and ensure that we get the value for money.
3. COGTA must engage Eskom together with Public Enterprise and Treasury to consider old debt of indigent and pensioners that must be scrapped by municipalities immediately.
4. The Committee must engage COGTA to get a report on the use of EPWP workers by municipalities that are used to replace previously permanently employed people

These are key recommendations I have - we must still object even with recommendations.
