Petition on behalf of the residents of the Alberton constituency

I hereby tender the attached petition, on behalf of the signatories contained within the petition.

The signatories object to a proposed housing development due to the facts that:

There was no credible public participation

No environmental impact assessment

Wrong zoning

Land is known to be clay an marsh rendering it unsustainable for residential zoning

There is no infrastructure to support that type of density within the area

The residents are committed to finding a solution that will ensure that good affordable housing is placed on the boundaries of this proposed area and that this area that is not suitable for residential dwelling is comprised of light industrial and services that could assist the surrounding communities in jobs and services.

With thanks

Darren Bergman
