Alan Fowle

alan@alanf.co.za

0764106612

Alan is a project implementation specialist, having many years experience as an Architect, Principal Agent & Project Manager responsible for project design, co-ordination and integration of multiple disciplines on major infrastructure projects. Alan was directly involved in academic research in health sector norms, systems and planning, including impact mitigation of HIV & AIDS incidence in Communities since 1983.

Alan spent 4 years as Project Co-ordinator on a European Union funded Community Sustainable Livelihoods Project, engaged deeply in Social Facilitation research and implementation, Precinct & Bioregional Resource Mapping, Community Business Planning, Environmental Impact Mitigation in sensitive environments and Heritage sustainability a component of which was communication design of integrated Web-based data, monitoring & evaluation systems.

Alan spent several years as Planning & Implementation Management & Monitoring Support to District Municipalities & Local Government sectors, training in development of Municipal Integrated Development Plans for Local Government (Netherlands funded programme). Alan has specialised in 'mainstreaming' critical impact issues (Poverty Alleviation, Gender Equity, Water & Disease Mitigation- UNDP programme) into Integrated planning processes to achieve the SDG's
