## PRESENTATION TO THE DEPARTMENT OF PUBLIC WORKS & INFRASTRUCTURE PARLIAMENTARY PORTFOLIO COMMITTEE

Annual Report 2020-2021

3 November 2021

#### **Annual Report Presentation Overview**

- Annual Report Minister's Overview.
- Mandate.
- Agrément South Africa Act's requirements.
- Alignment to National Development Plan(NDP), National Growth Path (NGP) and Medium-Term Strategic Framework(MTSF).
- Alignment to NDPWI Strategic Outcomes & Government's 7 priorities.
- ASA's Board.
- Vision, Mission & Values.
- External Audit Report.
- Financial Performance.

#### **Annual Report Minister's Overview**

The 4th Agrément South Africa (ASA) Annual Report for the 2020/21 financial year provides an insight into its outlook, non-financial performance, financial performance and human resources information.

Despite unfavourable economic conditions due to the COVID-19 pandemic, ASA managed to contribute almost 25% of its current expenditure budget towards Solidarity Funds.

ASA continues to grow the organisation, improve its operational efficiencies, and support the objectives of the Department of Public Works and Infrastructure. The Board exercised its oversight role to ensure the organisation achieved its mandate.

ASA's core mandate is the technical assessment and issuing of approval certificates for non-standardised construction related products and systems for which there are no South African national standards.

#### **ASA Mandate**

In terms of the Act the objects of ASA are to:

- Provide assurance to specifiers and users of the fitness-for-purpose of non-standardised construction related products or systems;
- Support and promote the process of integrated socio-economic development in the Republic as it relates to the construction industry;
- Support and promote the introduction and use of certified nonstandardised construction related products or systems in the local or international market;
- Support policy-makers in minimising the risk associated with the use of a non-standardised construction related product or system; and
- ➤ Be an impartial and internationally acknowledged South African center for the assessment and confirmation of fitness-for-purpose of non standardised construction related products or systems.

#### **Agrément South Africa Act's requirements**

- Make rules, determine processes, procedures, and forms as it relates to issuing, amendment, suspension, reinstatement, withdrawal, or renewal of an ASA Certificate;
- Issue a certificate on prescribed form, if it is satisfied that a nonstandardized Construction related product or system is fit-forpurpose, subject to the payment of the required fees;
- Monitor such certificates and manage the renewal of all certificates; and
- Establish and maintain a public register of the applications rejected and certificates issued, amended, suspended, reinstated, withdrawn and renewed.

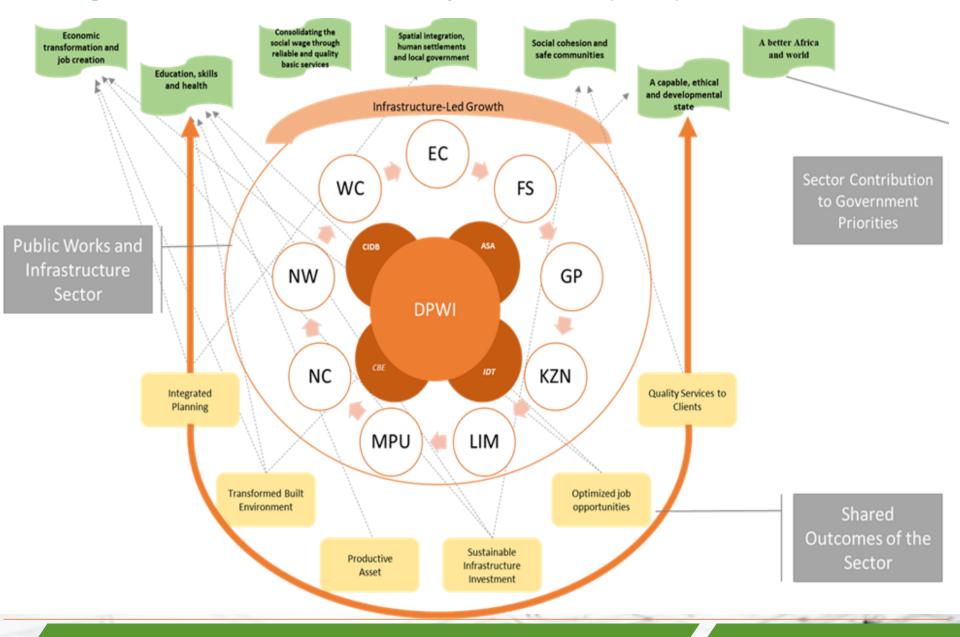

#### Alignment to National Development Plan (NDP), NGP and MTSF

President Cyril Ramaphosa announced seven priorities that will fast track South Africa's path to prosperity. The President stated the seven priorities as:

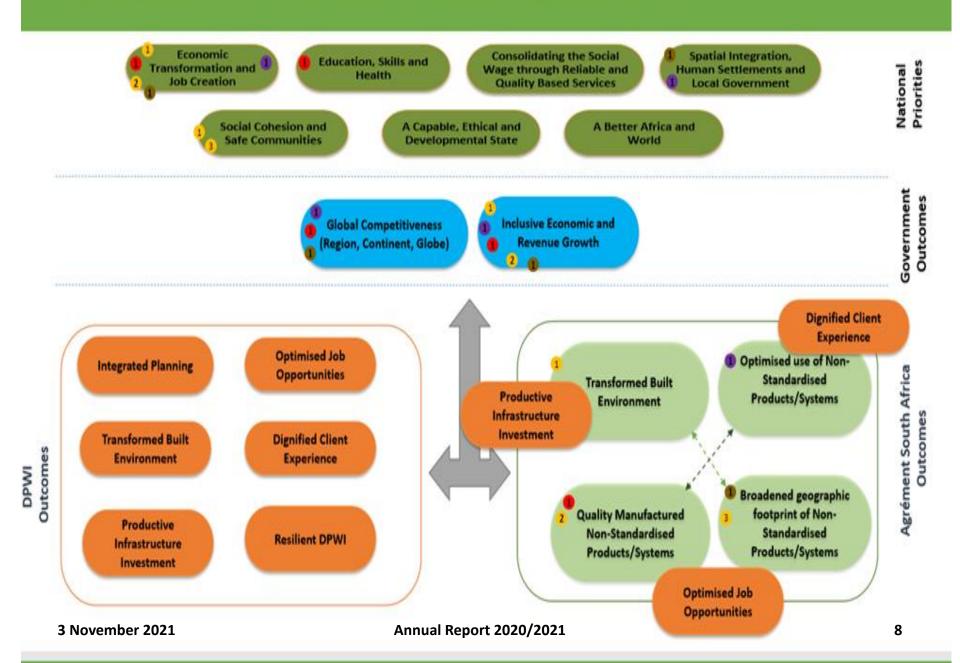

- Economic transformation and job creation;
- Education, skills and health;
- Consolidating the social wage through reliable and quality basic services;
- Spatial integration, human settlements and local government;
- Social cohesion and safe communities;
- A capable, ethical and developmental state; and
- A better Africa and World.

Agrément South Africa (ASA) fully supports these priorities and believes the fit-for-purpose certificates awarded by the organisation will contribute towards economic development and thereby indirectly supporting the seven priorities.

### Alignment to National Development Plan (NDP), NGP and MTSF

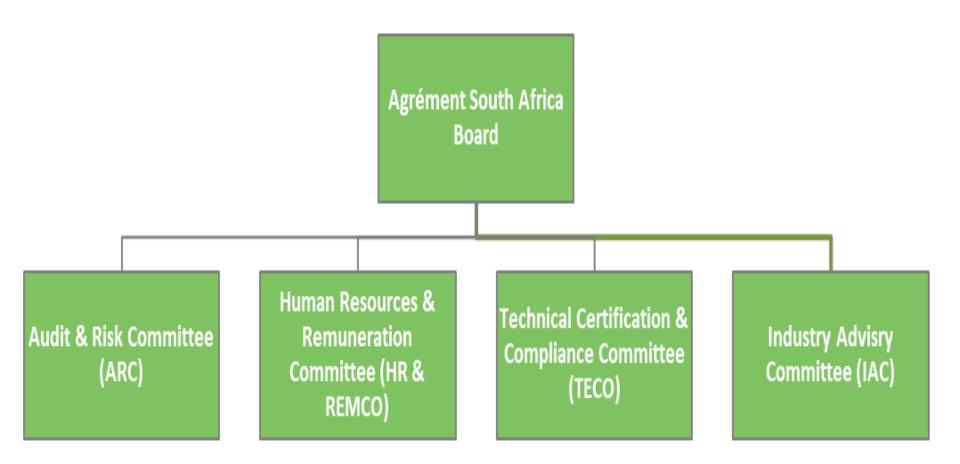

## Agrément South Africa Alignment to NDPWI's Outcomes and 7 Priorities

## Agrément South Africa Strategy Map

#### **ASA's Board**

### **ASA's Vision, Mission and Values**

#### Vision

 To be a centre of excellence for nonstandardised construction products and systems.

#### Mission

 To enhance ASA's position as the internationally acknowledged South African centre of excellence for technical assessment, certification, quality assurance and research and developmentactivities to ensure fitness-forpurpose of nonstandardised construction related products and systems.

#### **Values**

- ASA's values are aligned with the values espoused in the Constitution. The core values that underpin the culture of ASA are:
- People striving to attain full potential in support of science.
- Reputation enhancing relevance, integrity, quality and delivery.
- Ingenuity realising the full intellect of our people in creating solutions.
- Diversity —embracing an environment that respects the individual and multicultural heritage.
- Enthusiasm working together to achieve impact through passion, drive and agility.

# Independent Auditor's Audit opinion

The audit of the annual financial statements and non-financial performance information was completed on 30 July 2021

ASA achieved unqualified audit opinion with emphasis of the matters on financial statements, supply chain management and non-financial performance information on technical services.

## Performance information

#### Strategic outcome-oriented goals:

- ➤ To promote South African Government's objective of economic development, good governance and raising living standards and prosperity of all population.
- ➤ To promote introduction of innovative nonstandardised construction related products and system for which there are no South African National Standards.

# During the period under review, Agrément South Africa indirectly contributed towards the followings:

- Supporting government objectives of socioeconomic development;
- Good governance and raising standards of living and prosperity in South Africa;
- Encouraging and facilitating the use of innovative and non-standardised construction related products and systems; and
- Providing for certification schemes.

## Planned Annual Targets versus Actual Achievements

During the period under review, Agrément South Africa achieved as follows:

- Purpose of the sub-programme: Programme comprises the core service delivery functions of ASA. It includes three sub-programmes:
- Products / Systems Certification: The purpose of the programme is to promote the
  introduction and use of innovative and non-standardised construction related products
  and systems through technical assessment of fitness-for-purpose and subsequent
  certification.
- Quality Audits: The purpose of the programme is to ensure that good-quality materials
  and satisfactory standards of design, manufacture and where appropriate, erection,
  installation or application of all ASA's certificate holders and licensees' systems or products
  are consistently maintained within defined ASA parameters.
- **Research and Development:** The purpose of the programme is to encourage and support business activities of ASA, in partnership with other sector stakeholders, in relation to non-standardised construction related products and systems.

Strategic Outcome-oriented Goal 1: Optimised use of Non-Standardised construction related products and systems. Strategic Objective 2: To implement Eco Label Scheme to enable ASA to extend the range of services offered.

		Output Indicators	Planned annual targets 2020/2021	Actual achievement 2020/2021	Deviation from planned target to Actual Achievement	Reasons for all deviations
Optimised use of Non-Standardised construction related Products and Systems.	Implementation of Eco Label Scheme.	Number of Eco Label Scheme specification approved by the Board.	2 Eco Label Scheme specifications approved by the Board.	2 Eco Label Scheme specification approved by the Board.	No deviation to planned target.	Not applicable

Outcome	Outputs	Output Indicators	Planned annual targets	Actual achievement	Deviation from planned	Reasons for all deviations
			2020/2021	2020/2021	target to Actual	
					Achievement	
					2020/2021	
Optimised use of Non- Standardised construction related Products and Systems.	Agrément certification projects managed and finalised within timeframes.		82% of projects approved as per the project timeframes.	Q1: 0% (0/0) approved within timeframes.  Q2: 33 % (1 out of 3) approved within timeframes.  Q3: 20% (1 out of 5).approved within timeframes	Target not achieved.	Q1: The declaration of state of national disaster and national lockdown prohibited construction activities thus no Agrément certification projects could be undertaken.  3 of the 3 certificates due in Q2 were submitted to TECO of August and September 2020 (Eco WallChem paint was approved, Water Wheelbarrow and Duratech were not approved).
				Q4: 50% (2 out 4) approved within timeframes.		(Envirolite BS and The Adaptable Toilet System that were due in Q1, and Hydraform BS that was due in Q3).  4 of the 5 certificates due in Q3 were submitted to TECO of 04 December 2020 an approve, however only 1 of the 4 was approved within project timeframes. 1 overdue certificate and 3 administrative amendments were also approved.  A request was made, on 13 October 2020, for a TECO meeting of 13 November 2020, but TECO members were unavailable. All in One White Paint would have met target date, had TECO of 13 November 2020 materialised.  3 of the 4 certificates due in Q4 were submitted to TECO of 19 March 2021 and 2 were approved. 1 certificate due in Q1 of 2021/2022 was also approved. 1 overdue certificate was also approved. 1 re-instatement was approved.

## **Conclusion**

- Agrément South Africa continues to contribute towards the National imperatives and global Sustainability by undertaking technical assessments of innovative construction products.
- Agrément South Africa provides technical assessment of system performance.
- Facilitates the safe introduction of innovative construction products.
- Facilitates the global acceptance of innovative products or systems.
- Provides independent and authoritative technical assurance of fitness for purpose.

## Thank you
