

Good Day,

I am a member of the Activate Change Drivers Network.

As per request, I have comments on the NYDA Amendment Bill (B13-2022).

The first is in section 6a there is a typing error. It should be Public Finance Management Act not Pubic Finance Management Act.

The second is to request that the term of office be reduced to 2 years, where after reporting on what has been done it can be decided or voted for members to stay on a second term. If a member is in office for 3 years, there is one year they will not be required to report on and its unfair to put that on the new member.

Other than that I think the amendments are very good. Now it must just be implemented effectively.
