4. STAKEHOLDERS INPUT ON THE BILL

- 4.1 Support for compulsory Grade R is on condition that: Grade R is appropriately, and adequately resourced, emphasis play-based learning, and that there is adequate training and wages for practitioners in the grade R sector.
- 4.2 No minister/Government should have the right to decide in which language Parents/Legal Guardians choose to have their children educated. Children have the right to be educated in their mother tongue. The Parents have the right to place them in schools which they think is suitable for the child. This is discriminating against children.
- 4.3 The policies of some school governing bodies (“SGBs”), particularly in terms of admissions and language, have had the effect of excluding learners and perpetuating historical patterns of discrimination. Therefore, policies of schools should be reviewed by the Head of Department (“HoD”), as stipulated in clauses 4 and 5 of the BELA bill.
- 4.4 Schools should not provide sex education, and not under 13 years. Twelve-year-olds cannot decide about abortion or vaccination, this is for 18-year-old children. Parents pay school money and should have a say in language and teachers appointed in schools. Different religions should be allowed to have their own schools, and choose their curriculums.
- 4.5 It is the right of the mother to decide whether she wants an abortion for her child or not, there are many other ways to deal with early childbirth.

- 4.6 How will undocumented children and absolute rural communities fit into the new draconian centralised schooling system. Parents who do not have the means to get their children to school will have to pay huge fines or face jail time.
- 4.7 Criminalization of Homeschooling: Threatening parents with imprisonment for choosing alternative educational options like homeschooling due to various concerns, including bullying, religious beliefs, or curriculum issues, is a severe infringement on parental rights and individual choice.
- 4.8 The public's right to privacy will be breached as parents will not be able to refuse a home visit from the Department of Education, according to Section 51 (3) of Clause 37 and 35. The issue is not that home schools should not be inspected, but rather that there should be regulations in place that govern these inspections such that our constitutional and human rights are respected.
- 4.9 Unrealistic Mergers and Closures: Mandating school closures based on arbitrary student numbers disregards the unique circumstances of smaller schools, potentially disrupting existing educational environments and causing hardship to rural communities.
- 4.10 **Clause 13** should be revised to place an obligation on the MEC, when it is deciding whether to merge one school with another, to ascertain whether there will be adequate school infrastructure to accommodate all the learners in the proposed merger. Further, the MEC should be required to ensure that transportation arrangements are put in place and that any challenges involving school uniforms are addressed before the commencement of the merger.
- 4.11 SGB's that are running schools efficiently, according to their good conscience, in line with their constitutional obligation and ability, should not be treated punitively and hindered in performing their roles through interference by the HoD's. The DBE should rather focus on training and equipping schools that are not performing adequately and provide resources to upgrade schools where necessary.

6. COMMITTEE DELIBERATIONS ON THE BILL

6.1 The Committee deliberated on the following:

6.1.1 Sufficient funding for the effective functioning of compulsory ECD centres.

6.1.2 Concern over the disempowerment of School Governing Bodies (SGB's) in terms of the Language policy and Admission policy.

6.1.3 Sufficient timelines for public hearings to ensure meaningful participation and engagements on the Bill.

6.2 Responses from the department

6.2.1 Before the Bill was submitted to Parliament it had to go through a process of Socio-Economic Impact Assessments (SEIAS), to understand the full cost of the implementation of the Bill, and the impact it will have on the economy. National Treasury approved the cost for the implementation of the bill, upon finalisation of the (SEIAS) process.

6.2.2 The powers of SGBs are not taken away, the concern is that the SGB cannot have the ultimate authority concerning the Language and Admission policies. The amendment in Clause 4 and 5 of the bill seeks for the Governing Body to submit the Admission policy, as well as the Language policy of a public school, and any amendment thereof, to the Head of Department for approval. This is to ensure the Constitutionality of the policies and to eliminate any form of discrimination against any learner.

6.2.3 The timelines for the public hearings will be determined by the provinces.
