## PROPOSED AMENDMENTS

The Bill to include the following:

1. Safety to rail infrastructure to avoid railway infrastructure vandalism.
2. As a safety measure, the bill to include a control measure wherein trains when passing in the villages must reduce the speed as measure to reduce fatalities.
3. The provision of safety guard fences as a safety measure to the communities in the villages where trains are passing.
4. The Bill must address the issue of excessive vibrations caused by trains as they pass by houses, that are near railway lines.
