Business Company - V-Partek Company (PTY) LTD

ENTERPRISE NAME EAO FETANA

Registration Number - 99861561 2023 / 004555 / 07

Tax Number - 99861561 81

I think you as Portfolio Committee on finance you should minimize giving out money instead of you should give out equipment to minimize the cost. Most of the business are no longer performing because they misused their funds.

Please don't give out equipment and you don't make sure are working properly and producing accordingly. Please address the problem of the people who are giving and are registered (or not) and assist where it is applicable. The problem of only giving the big companies and its going very bad. Since we've been applying for funds nothing is promising only huge companies are getting funds. At EAO Fetana we only need material to work on to create more jobs. But we are stuck because of shortage of equipments. We are busy with plumbing, welding, carpentry, collins spawicko by caskets and where is March state stock. And please state police that are owning jobs.

Regards,

Written submission to be addressed to: msimuku@ecleg.gov.za
