Executive Authority Statement

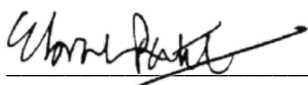

This Annual Performance Plan (APP) of the Broad-Based Black Economic Empowerment Commission (B-BBEE Commission) has been prepared by the management of the Commission for consideration by the Executive Authority and tabling in Parliament. The APPs and Corporate Plans of public entities identify the outputs, output indicators and targets that an entity aims to achieve in the new financial year. The Executive Authority is responsible to ensure the APP and Corporate Plan is aligned with the Strategic Plan, the entity's mandate and government's priorities, and to provide direction on the development and implementation of strategic priorities and policies.

This APP is expected to take forward **the dtic's** work, through greater integration of efforts within the department and our entities, guided by shared, crosscutting outcomes. In this regard, the work of **the dtic** and the entities will be evaluated in relation to three over-arching Outcomes namely **Industrialisation; Transformation; and Capable State**. Further, the scope of the outputs encompasses the identified **dtic's** priorities, which include among others, the work of sector masterplans, initiatives to boost levels of investment and localisation in the economy, expanding trade within the continent, enabling better local economic development, supporting the growth of new industries and building a capable state.

The B-BBEE Commission has been requested to align its APP to **the dtic's** outputs, which are linked to the entity's core business. In this way, the combined efforts will begin to be aligned to the national priorities in a more explicit manner. However, implementation of this plan must consider the challenging government fiscal environment, by reducing unnecessary spending, but not compromising serving core objectives of the entity.

This APP is therefore not about many new objectives but rather on a new way of implementation, with the focus on integration, to enhance the development impact of the work.

I wish to thank the management for the work done and wish them well in executing the APP and aligning their work to government's overall programmes and priorities.

Mr. Ebrahim Patel
Minister of Trade, Industry and Competition
Date: 28 March 2024

Accounting Authority Statement

The B-BBEE Commission has been in operation since 2016 as entity of the Department of Trade, Industry and Competition (**the dtic**) with a mandate stipulated in the B-BBEE Act (as amended) of 2013, wherein the B-BBEE Commission is tasked with promoting adherence with the Act by private and public entities, investigating complaints, providing advice, education and advocacy to advance the objectives of B-BBEE.

The Commission's Annual Performance Plan 2024/25 – 2028/29 outlined herein is conceived having regard to overarching outcomes **the dtic's** seeks to achieve, namely promoting Industrialisation and Transformation of the economy, and strengthening the Capacity of the State, and will align with relevant targets and outputs of the dtic for the period, in particular those related to the common pursuit of transformation by the Commission and **the dtic**.

The year 2023 was the 20 years milestone of the first B-BBEE Act of 2003. Since then, significant advances have been made towards transformation and meaningful economic participation by black people through ownership and management of enterprises, the creation of new black enterprises and their access to markets and procurement opportunities, as advocated in the Act and the country's Constitution. It is obvious the pace and extent of transformation has much further to go, and to align with demographics in which blacks account for over 90% of the population and own not much more than 30% of the economy, as reflected in compliance reports submitted to the B-BBEE Commission, while some recent estimates put black shareholding in top 50 Johannesburg Stock Exchange-listed companies at around 1.2%. The state of transformation, which is connected with the challenges of extreme inequality in South Africa, and unemployment and poverty, remains a top public interest matter and top public discourse subject that the country has to continue confronting and broadening consensus and way forward around, as we project the future trajectory of B-BBEE.

Notwithstanding its challenging mandate, for its part the B-BBEE Commission will continue to discharge the functions the Act assigned to it, without fear or favour, and within the means provided to it.

In the preceding reporting period to date, the B-BBEE Commission's received 40 and registered 33 ownership transactions as required by the B-BBEE Act for deals of R25 million and above, bringing the total of received transactions since inception to 673 and 493 registered ownership transactions, with total value of R637. 315 billion.

72 B-BBEE-related complaints were handled during the same period, bringing the total since the Commission started investigating complaints to 1298 complaints.

The Commission's work attracts much interests from diverse stakeholders, to whom the Commission strives to be responsive and available. In the same preceding reporting period, 12 stakeholder meetings were held, involving among others Ports Regulator of South Africa, Financial Services Conduct Authority, Nedbank,

Sanlam, Kagiso Trust, Black Business Council, Black Management Forum (amongst others), while the Commissioner was a key speaker at several events at the Sanlam Gauge, Nedbank Empowerment Event, Kagiso Trust seminar and was featured in several news media and platforms. The Commission will continue to strengthen its public presence in order to undertake advocacy, awareness and to inform debates on B-BBEE, collaborating with the dtic and other departments and external partners.

In this regard, in the period ahead the Commission intends strengthening thematic approach to advancing implementation of the B-BBEE Act through focusing on aspects of topical of interest for a period, such as Enterprise and Supplier Development, or the use of trusts as B-BEE ownership vehicles, as well as supporting the dtic activities around Black Industrialists and Employee Share Ownership Schemes.

Once again, I thank the Minister for trusting us to fulfil such important responsibility on behalf of the government and the country, and I thank the executives and staff of the B-BBEE Commission for ensuring we do not disappoint, and for being committed and diligent in your service to the country.

Mr. Tshediso Matona

Commissioner

PART A: Strategic View

1. Update to Relevant Legislative and Policy Mandate

Established in terms of the B-BBEE Act (2013), the Commission is tasked with ensuring compliance with the Act.

Specifically, the B-BBEE Act stipulates the following functions for the Commission:

- Providing advocacy, education and awareness services in order to promote B-BBEE implementation and adherence to the B-BBEE Act;
- Investigating and monitoring implementation of investigation recommendations and Alternative Dispute Resolutions (ADR);
- Assessing registered Major B-BBEE Transactions which are within the threshold of R25 million and above and maintaining of register a thereof;
- Analysing Compliance reports submitted to the B-BBEE Commission by organs of state, Sectorial Education and Training Authorities (SETAs) and Johannesburg Stock Exchange (JSE)-listed entities and maintaining of a database;
- Providing Clarifications and Advisory Opinions on B-BBEE related matters; and
- Researching and reporting on relevant topics related to B-BBEE to support policy development and practice.

The Commission also supports the Minister of Trade, Industry and Competition and **the dtic** on matters pertaining to B-BBEE.

Key legislative changes

It is ten years since the current B-BBEE Act 46 of 2013 was passed by the National Assembly and signed into law by the President on 27 January 2014, thereby providing the legal mandate of the B-BBEE Commission. **the dtic** has commenced a process to review the Act to update its provisions and address gaps, based on the last decade's experience and the Commission is part of the task team established for this purpose.

2. Update to Institutional Policies and Strategies

The objectives the Commission are as follows:

- Improved regulatory environment, which promotes economic growth;
- Overall integration of government policies with B-BBEE Act; and
- Promotion of fair opportunities for all citizens.

3. Update to Relevant Court Rulings

The Commission considers the rulings and decisions of the High Courts on a regular basis. The likely impact of these decisions is considered when crafting our strategic plans. In this regard, below is a cited in summary a relevant recent court decision and ruling against the Minister of Tourism and Others v Afriforum NPC and Another [2023] ZACC 7:

- In September 2022, the Supreme Court of Appeal (SCA) ruled against the Department of Tourism to the effect that the Department ought not to have applied B-BBEE as part of criteria for its Covid-19 relief fund, as the latter's main premise was the Disaster Management Act, and consequently rules the measure unlawful. The Department of Tourism is appealing the judgment at the Constitutional Court. Afriforum and Solidarity opposed the application on the basis, among others, that the matter is moot and, in any event, there are no reasonable prospects of success. The Minister submitted that the Constitutional Court had jurisdiction because part of the dispute is whether she was obliged to include the B-BBEE level status among the criteria to be used to select SMMEs to benefit from the Fund. Since the decision that is challenged is a decision, which the Minister says she took to advance transformation in the tourism industry, it is a decision that raises constitutional issues. On 8 February 2023, the Constitutional Court dismissed the leave to appeal application and concluded that, the matter was moot and there were no sound reasons for it to, nevertheless, entertain the matter, particularly given the fact that its workload had increased significantly since the 17th Constitutional Amendment. It held that it would rather deal with the issues of the powers of the Minister to include the B-BBEE selection criteria in the next new matter that will raise such issue.

PART B: Our Strategic Focus

4. Update on Situational Analysis

4.1 Internal Environment Analysis

The B-BBEE Commission strategic focus areas are derived from its mandate as spelled out in Section 13F of the Act, and Section 13E provides for how the B-BBEE Commission will be financed.

PART C: Measuring Our Performance

5. Preamble

The approach of the B-BBEE Commission to contributing to **the dtic's** outputs and targets is based on the regulatory character of the Commission's outputs in terms of its functions pertaining compliance, investigations, enforcement, advocacy, advisory; and education and awareness, as specified in the Act, working with **the dtic**, the whole of government, the private sector and society, to further the objectives of the B-BBEE Act, key among which are:

- (a) promoting economic transformation in order to enable meaningful participation of black people in the mainstream economy;
- (b) achieving substantial change in the racial composition of ownership and management structures and in the skilled occupations of existing and new enterprises;
- (c) increasing the extent to which communities, workers, cooperatives and other collective enterprises own and manage existing and new enterprises and increasing their access to economic activities, infrastructure and skills training;
- (d) increasing the extent to which black women own and manage existing and new enterprises, and increasing their access to economic activities, infrastructure and skills training.

The Commission's outputs more directly support **the dtic's** transformation outputs and targets, while also contributing to B-BBEE-related matters arising in **the dtic's** work on industrialisation and investment promotion, among others.

Effective discharge of the Commission's functions supports effective implementation of B-BBEE and transformation in the country, with specific focus on matters related to ownership and management; enterprise and supplier development; skills development, and socio-economic development.
