ANNUAL PERFORMANCE PLAN 1 APRIL 2023 – 31 MARCH 2024

Foreword by Executive Authority

The 2023/24 Annual Performance Plan of the Competition Tribunal reflects the continued efforts of the dtic Group to align our activities around a common purpose; grounded in efforts to support **Industrialisation** to promote jobs and rising incomes, drive **Transformation** to build an inclusive economy, and build a **Capable State** to ensure improved impact of public policies.

The APP contains an ambitious set of targets aimed at realising the vision of the Competition Tribunal's governing legislation and utilising these regulations to meet their purpose of empowering a larger number of South Africans to contribute towards our shared prosperity. In the year ahead, the Competition Tribunal will play a critical role in creating a fair and prosperous South African economy. While companies face a challenging global economic environment, the work of the Competition Tribunal will help create the conditions for sustained growth that are most needed when times are hardest.

Since the start of the Sixth Administration, the Department of Trade, Industry and Competition and all entities in the dtic Group have begun a process of adopting a revised output-driven planning system – grounded in the objective of combining all our efforts towards creating real impact for South Africans.

In 2023/24, the dtic concluded this process by introducing 45 output targets, to which the Competition Tribunal makes a critical contribution. These include supporting 1 million jobs, mobilising R200 billion in investment, supporting R700 billion in manufacturing exports, and helping Black Industrialists to create 20,000 jobs and R36,8 billion in output. The attached table (Table 1) sets out the 45 outcomes.

While the Competition Tribunal has incorporated many of these objectives into the APP, our next steps will be to further align the work of Competition Tribunal to meet these common objectives through the implementation of its governing legislation. Within one month of tabling this version of the plan, proposed revisions must be submitted to the Executive Authority to better align with the vision of these targets.

Implementation of this plan must take account of the challenging fiscal environment in which government is operating, and as such as I have instructed all entities to undertake a further review of their spending plans for the period of the plan, and to submit a final, revised financial plan within one month of tabling this version of the plan. This plan should aim to reduce unnecessary spending and redirect these resources to better serve our core objectives.

The APP 2022/23 is hereby submitted in accordance with the Revised Framework on Strategic and Annual Performance Plans.

Foreword by Accounting Authority

This Annual Performance Plan (APP) is limited to the 2023/2024 financial year.

In setting the targets in the APP, the Tribunal considered the policy imperatives of government, the National Development Plan (NDP) which aims to reduce poverty and inequality by 2030, and the Economic Reconstruction and Recovery Plan (ERRP) aimed not only at recovering the economy but forging a new economy to address long-term structural deficiencies, and to transform the economy to what is next.

The dtic has cascaded the objectives of the NDP and ERRP into three joint indicators: Industrialisation; Transformation and a Capable State and this APP is also aligned to these joint indicators.

The Tribunal is an independent and impartial adjudicative body whose function is to hear and decide mergers and complaints of anticompetitive conduct under the Competition Act. While it reacts to cases that are brought to it, the Tribunal through its inquisitorial powers can proactively advance the objectives set in the NDP, ERRP and dtic joint indicators within the parameters of its legislative mandate. In 2019, amendments were effected to the Competition Act with the aim of transforming markets to become competitive and inclusive. The amendments strengthen the merger, abuse of dominance and market inquiry provisions in the Competition Act, in order to reduce barriers to entry in markets, address concentration in the economy, and to increase ownership and participation, particularly by SMMEs, and HDIs in the economy. These amendments have led to a re-invigorated interest in public interest issues as jurisprudence around the scope and interpretation of public interest develops with the lens of increasing participation and economic transformation.

The decisions of the Tribunal on competition and public interest issues, seek to provide consumers with lower prices and high-quality products, promote the participation of small businesses and black owned firms in markets, and foster competition to promote innovation, productivity and long-term inclusive growth.

The bedrock of the APP is the five-year (2020-2025) Strategic Plan, the two outcomes of which are: Reliable and Responsive Adjudication (of competition law cases); and Accountable, Sustainable and Transparent Entity.

The APP sets 24 targets, of which 11 targets are on the first strategic outcome, Reliable and Responsive Adjudication, and 13 targets are on the second outcome, Accountable, Transparent and Sustainable Entity. Performance against these targets is monitored and reported quarterly to **the dtic** and National Treasury, and in the Annual Report.

In the next financial year, 2023/2024, we expect that there will be an increase in the demand for the Tribunal's services because of the amendments to the Competition Act. This requires a growth in the Tribunal's resources including capacity in order to strengthen the organisation. In gearing the Tribunal up for this anticipated growth we have embarked on stakeholder engagements and are grateful for their inputs. Our focus in 2023/2024 is to increase capacity in line with the demand for services and increased complexity of cases. To this end, the organisational structure review proposes an increase in capacity of 30 positions (currently there are 27 positions that are filled excluding members). This will be phased in over a three-year period. We anticipate filling in 10 positions in the current financial year (2023/24).

In January 2023, the Tribunal received approval from the National Treasury to retain the accumulated cash surplus of R17.555 million to be used for priorities as identified in the 2022/2023 financial year. The priorities related mainly to increasing staff capacity. The National Treasury requested the Tribunal to ensure that the positions are funded from its baseline budget and that the positions are aligned to the new organisational structure.

To this end, the current Medium Term Expenditure Framework (MTEF) reflects a R200.51 million expenditure budget (including capital) over the three-year-period 2023/2024 to 2025/2026, of which the largest spend (72.71%) is on staff. The Tribunal's R200.51 million revenue budget is comprised of 66.80% of grant funding from **the dtic** and 31.70% from the filling fees administered by the Commission.

Following the organisational structure review, the Tribunal is in the process of being strengthened with a new structure. The estimated additional funding that would be required to fund the new structure is R34.15 million in year one, R37.79 million in year two and R65.69 million in year three, which translates to R137.64 million over the MTEF period (168.64% of the current revenue budget). The estimated costs incorporate both the human capital positions and the additional operational requirements (including office space and equipment) that will arise from the new structure.

With a strengthened Tribunal, we are confident that we will achieve our vision of a vibrant, competitive and inclusive economy.

PART A: OUR MANDATE

1. Legislative Mandate

The Tribunal is an independent and impartial institution with jurisdiction throughout South Africa. It is required to perform its functions without fear, favour or prejudice, subject only to the Constitution, the law, and its legislated mandate.

The Tribunal's purpose is to promote and maintain competition in the Republic in order to:

- a) Promote efficiency, adaptability, and development of the economy.
- b) Provide consumers with competitive prices and product choices.
- c) Promote employment and advance the social and economic welfare of all South Africans.
- d) Expand opportunities for South African participation in world markets and recognise the role of foreign competition in the Republic.
- e) Ensure that small and medium-sized enterprises have an equitable opportunity to participate in the economy.
- f) Promote a greater spread of ownership, in particular to increase the ownership stakes of historically disadvantaged persons; and
- g) Detect and address conditions in the market for any particular goods or services, or any behaviour within such a market, which tends to impede, restrict or distort competition in connection with the supply or acquisition of those goods or services within the Republic.

2. Alignment to Government Policy Outcomes

The National Development Plan (NDP) 2030 was adopted in South Africa in 2012. It sets out the long-term vision for the country and provides a broad strategic framework to guide government choices and actions required to transform the economy and society.

The NDP five-year implementation plan has been developed in order to advance and guide planning that is responsive to the attainment of NDP priorities. It allows for the co-ordination and alignment of priorities across spheres of government. The Tribunal supports the ERRP, 2020, developed by government in response to the COVID-19 pandemic in order to stimulate equitable and inclusive growth in the economy. The Tribunal is also aligned with **the dtic's** three joint indicators which are the implementation plans aligned to the NDP.

These are as follows:

1. **Industrialisation** - opportunities to grow the domestic market through localisation, sector partnerships (Masterplans), Green economy initiatives, investment expansion/promotion, African and Global exports.
2. **Transformation** - opportunities to promote BEE, worker empowerment, addressing economic concentration and SME promotion.
3. **Delivery/Capable State** - initiatives to build entity staff and governance capacity and quick response, participate in the shared services of **the dtic** and undertake internal business process improvements.

The Tribunal's mandate is also aligned with certain of the priority outcomes contained in the NDP. The alignment between the Tribunal's legislated mandate and the NDP outcomes are illustrated in the diagram below. For example, in merger control all decisions taken by a Tribunal panel when adjudicating on matters brought before it must consider, in addition to competition issues (relating to consumer welfare and efficiency), various public interest factors which include the effect of a merger on a particular industrial sector or region, employment, the spread of ownership and the promotion of HDIs, the ability of national industries to compete in international markets and the ability of a SMMEs and HDIs to effectively enter, participate in or expand in a market.

The Tribunal's objectives are set out in the Competition Act. As an adjudicative body it can determine the outcomes of these objectives by aligning its adjudication to meet the objectives of the NDP and **the dtic**.

The Tribunal's performance progress with regards to these joint indicators has been reported quarterly to **the dtic** in the 2022/2023 financial year.

3. Institutional strategies

The Tribunal is a court of first instance for competition matters. Being a quasi-judicial body, it is a creature of statute and deals only with matters that it is ceased with. The Tribunal has jurisdiction over competition matters across all sectors of the economy and adjudicates each case on its merits.

The Tribunal, however, aligns its outcomes with those of the NDP, ERRP, **the dtic** policy imperatives and the three regrouped overarching joint/integrated **dtic** outputs (Industrialisation, Transformation and a Capable State) in the identified sectors, within the confines of its mandate as set out in the Competition Act.

The two outcomes of the Tribunal are set out below and reflect the strategic requirements of the core and secretariat functions of the Tribunal.

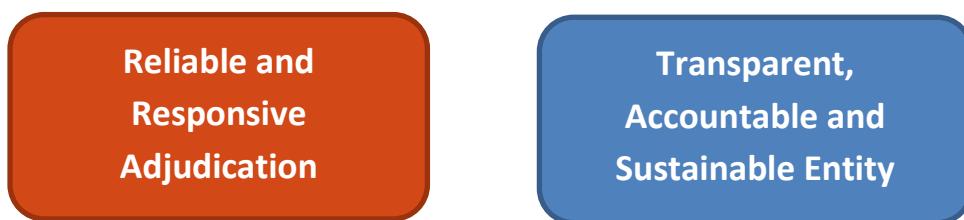

Figure 2 Competition Tribunal Outcomes

The Tribunal has aligned its two strategic outcomes, namely: **Reliable and Responsive Adjudication**; and **Transparent, Accountable and Sustainable Entity**, within the legal mandate of the entity, to government policy outcomes as mentioned above.

4. Recent Court Rulings and their implications

Court judgments continue to influence the Tribunal's operations into the future. The Constitutional Court's emphasis of the competition authorities' obligation to interpret the Competition Act in a manner which upholds the values enshrined in the Bill of Rights of the Constitution of the Republic of South Africa, 1996 in *Competition Commission of South Africa v Mediclinic Southern Africa (Pty) Ltd and Another* means that the Tribunal will continue to apply a transformative, constitutional and context-sensitive approach to its determinations.

The intersection between competition and constitutional law will continue adding to the workflow and complexity of matters considered by the Tribunal.

Another court ruling which is expected to impact on the Tribunal's operations or service delivery obligations is the Constitutional Court's judgment in *Competition Commission of South Africa v Group Five Construction Ltd*. The matter *inter alia* relates to the jurisdiction of the CAC, High Court and the Tribunal to decide a review application brought in terms of the Promotion of Administrative Justice Act 3 of 2000 (PAJA), or the legality principle, against certain decisions taken by the Commission. The Constitutional Court held that in respect of a PAJA or legality review, the CAC has non-exclusive, concurrent jurisdiction with the High Court, to the exclusion of the Tribunal. The Tribunal cannot adjudicate a review based on PAJA or legality. The Constitutional Court's decision will undoubtedly lead to parties framing matters as PAJA or legality reviews. It is likely that parties will engage in forum shopping to avoid appearing before the Tribunal or the CAC. The Tribunal therefore expects that there will be an increase in the number of challenges to its jurisdiction and intends to advocate for legislative amendments in this regard.

PART B: OUR STRATEGIC FOCUS

5. Situational Analysis

5.1. Strategic focus

The Tribunal's core business and therefore its strategic focus is the adjudication of mergers and prohibited practice cases brought before it either by the Commission or directly by aggrieved parties, or in some circumstances by higher courts.

Upon a matter being referred to it, the Tribunal will initiate proceedings to consider the matter in terms of the Competition Act and Rules and may:

- a) authorise a merger, with or without conditions, or prohibit a merger;
- b) adjudicate in relation to any conduct prohibited in terms of the Competition Act by determining whether prohibited conduct has occurred, and if so, impose a remedy provided for in the Competition Act;
- c) hear appeals against decisions of the Commission in market inquiries, and in intermediate and small mergers; and
- d) grant an order for costs.

The Tribunal is required to expeditiously decide on the matters brought before it. All Tribunal hearings are public and written reasons are provided for all decisions and orders of the Tribunal. The Competition Act and Rules prescribe time frames for the issuing of orders and decisions which must be adhered to by the Tribunal.

The Tribunal's decisions have the same legal weight as the judgments of the High Court and may be taken on appeal to the CAC and the Constitutional Court.

The Tribunal is enjoined to retain its independence and impartiality in the exercise of its powers and in carrying out its duties.

The Tribunal members are committed to making high quality decisions, based on the criteria stipulated in the Competition Act. The members are supported in their decision-making by the Tribunal's secretariat that endeavours to provide efficient and effective administrative, research and organisational assistance.

Whilst the adjudicative process remains the main strategic focus, the Tribunal also places emphasis on other key areas of administration namely:

- Governance, risk, audit and compliance,
- Capacity building, and
- Effective financial management and reporting.

In addition, the Tribunal strives to be an accessible institution and to ensure that the public remains informed about the Competition Act and the Tribunal's functions and activities.

All upcoming hearings and decisions of the Tribunal are communicated to the media and all of the Tribunal's decisions can be accessed by the general public from the Tribunal's website or its offices.

5.2. Performance overview

The demand for the services of the Tribunal over the past 22 years has increased significantly. The table below provides details regarding matters heard over the past five years. It is evident that there is considerable fluctuation from year-to-year.

Table 4 Matters heard for the period 2018/19 to 2021/22

Type of case	2018/2019	2019/2020	2020/2021	2021/2022	2022/2023*
Large merger	101	86	66	86	79
Intermediate/small merger reconsideration	4	1	2	1	1
Complaints from the Commission	18	9	4	6	4
Consent order/settlement agreement	45	27	63	30	16
Complaints from third parties	0	0	0	0	1
Interim relief	1	3	1	2	1
Interlocutory/Procedural matters	46	28	16	34	67
Total	215	154	152	159	169

**The figures for the year 2022/2023 reflect matters heard until the end of January 2023*

In the three-year period 2019 to 2021, there was a decrease in the number of matters before the Tribunal. This is attributed mainly to the slow-down in the economy because of COVID-19. However, despite the decrease in the number of matters, the Tribunal's workload has not reduced concomitantly because of the significant increase in the complexity of issues raised in matters for the Tribunal to adjudicate. This is, *inter alia*, due to the new provisions in the Competition Amendment Act, for which there is no precedent, being tested before the Tribunal.

In the 2022 financial year, there has been an increase in the number of matters post-COVID in merger filings and procedural matters which is expected to increase in the future. There is an invigorated interest in public interest issues as parties contest the scope and interpretation of the public interest with the lens of increasing participation and economic transformation. For instance, in an interim relief application, Makarenge Electrical Industries (Pty) Ltd t/a Wilec (Wilec), a private, 100% black-owned firm complained about abuse of dominance by Allbro (Pty) Ltd, an incumbent of over 40 years in the supply of transformer bushings used to transmit electrical power into or out of a transformer. Transformer bushings are a necessary component in the manufacture of transformers, and a transformer cannot fulfil its purpose unless fitted with a transformer bushing. The purpose of a transformer (in which transformer bushings are a component) is to transfer electrical power from one circuit to another without any variation in the frequency. In this matter, the Tribunal granted interim relief, concluding that Wilec had *prima facie* established an abuse of dominance. The Tribunal found a real possibility that Wilec would exit the market which would not only deprive the market of some rivalry, competitive prices and choice in an already concentrated market, but would also deprive the market of the only black-owned firm in the market.

The Tribunal has generally performed well in getting merger cases set down and decided within the statutory timelines. The Tribunal's performance in completing reasons in opposed cases needs improvement and the Tribunal is taking steps to improve the turn-around time periods for issuing reasons for its decisions. These include strengthening case management through the appointment of more senior Case Managers who support Tribunal members and the appointment of additional Tribunal members. Getting the appropriate gearing of the ratio between full-time and part-time members who hear cases is in progress. In this financial year, the Minister has appointed 3 acting part-time members, senior advocates Geoff Budlender (for 12 months commencing January – December 2023), Jerome Wilson and Tembeka Ngcukaitobi, who were each appointed for 6 months commencing in February and April respectively. This will bolster and enhance the Tribunal's capacity as demand for the Tribunal's services continues to grow and the Tribunal develops new jurisprudence under the Competition Amendment Act.

5.3. Policy Environment

On 9 February 2023, the President declared a national state of disaster to respond to the electricity crisis and its effects. This declaration will affect the Tribunal's work in the energy and related markets.

South Africa is a member of the African Continental Free Trade Area (AfCFTA), which started trading on 1 January 2021. The main objectives of AfCFTA are to create a single continental market for goods and services, with free movement of business, persons and investments. Relevant to the Tribunal is that negotiations are underway to draft an AfCFTA Competition Policy. This may affect the Tribunal's work in the future.

i. **Merger Regulation – Structural Remedies**

Through its merger regulation powers the Tribunal considers the impact of mergers and acquisitions on the structure of a particular market.

In its consideration of mergers or acquisitions, the Tribunal initially determines whether the transaction will substantially prevent or lessen competition in the market in which the transaction occurs. If it does, the Tribunal is then required to evaluate whether any efficiency and technology gains arise from the merger. If it is decided that the merger has generated pro-competitive efficiency gains that outweigh the lessening of competition, then the merger may be approved. Despite its determination above, the Tribunal must always consider the impact of the transaction on specified public interest criteria. An anti-competitive merger may be approved if it is found that a positive impact on public interest outweighs the negative impact on competition. Similarly, it is possible to prohibit a merger that does not lessen competition if its impact on the public interest, for example employment, is negative.

The following are the public interest criteria that must be considered:

1. impact on a particular industrial sector or region;
2. employment;
3. the ability of small and medium businesses, or firms owned by historically disadvantaged persons, to effectively enter into, participate in or expand within the market;
4. the ability of national industries to compete in international markets; and

5. the promotion of a greater spread of ownership, in particular to increase the levels of ownership by historically disadvantaged persons and workers in firms in the market.

The recent amendments to the Competition Act have also improved merger provisions to include the assessment of creeping mergers, cross-shareholdings by merging firms and asset ownership by workers.

ii. **Prohibited practices – Behavioural Remedies**

The Tribunal regulates anti-competitive conduct or behaviour by firms in a particular market through its powers to regulate prohibited practices.

The Competition Act prohibits certain practices between firms in a horizontal relationship (that is, competitors) and firms in a vertical relationship (that is, the relationship between a firm and its suppliers, its customers, or both). Dominant firms (as defined by the Competition Act) are also prohibited from engaging in certain practices. While the Competition Act specifies certain *per se* prohibitions in each of these categories, other specified conduct, if found to be anti-competitive, must be weighed against countervailing “technological, efficiency, or other pro-competitive gains” that may arise from the conduct.

The Tribunal anticipates an increase in the number of prohibited practice cases brought to it, as a result of new provisions (buyer power and price discrimination). The Tribunal’s decisions on prohibited practice cases potentially have sector-wide and economy-wide implications and are likely to impact significantly on business behaviour. It is in this area that objectives of competitiveness, black economic empowerment and SMME development are most directly advanced. Restrictive practices are prohibited by the Competition Act precisely to improve the competitiveness of firms, to prevent abuse by dominant firms, to lower barriers to entry and to allow for markets to be contested.

iii. **Exemptions**

A firm may apply to the Commission for exemption from the provisions of Chapter 2 (the provisions that deal with prohibited practices) of the Competition Act. However, persons affected by the Commission’s decisions may appeal those decisions to the Tribunal.

Exemptions may be granted if they contribute to any of the following objectives:

1. Maintenance or promotion of exports;
2. Promotion of the effective entry into, participation in or expansion within the market by small and medium businesses, or firms controlled or owned by historically disadvantaged persons;
3. Change in productive capacity necessary to stop the decline of an industry;
4. The economic development, growth, transformation, or stability of industry designated by the Minister, after consulting the Minister responsible for that industry; or
5. Competitiveness and efficiency gains that promote employment or industrial expansion.

iv. **Interlocutory applications**

The Tribunal also hears interlocutory applications that are necessary or incidental to the performance of its functions in terms of the Competition Act, such as:

- Exception applications: Respondents frequently bring objections to a complaint referral prior to pleading. The objections include *inter alia* those that contend that the complaint referral makes out no cause of action or is vague and embarrassing.
- Discovery applications: Both parties in a case have a duty to discover documents and applications to compel may follow if requests for further particulars have been ignored, there are disputes over relevance, disputes over whether the document exists or claims of legal privilege.
- Confidentiality applications: Parties are entitled to claim documents containing their trade, business or industrial information of economic value which is not generally available or known to others, as confidential. Procedurally, access to information claims are heard in the same manner, and sometimes at the same time as discovery applications;
- Intervention applications: In terms of the Competition Act and Rules, the Tribunal may admit as a participant in merger proceedings, any party who recognises as having material interest in the merger; and
- Points *in limine*: A respondent can bring an objection based on a question of law prior to pleading such as challenges questioning the Tribunal's jurisdiction to adjudicate a matter.

5.4. Impact of recent amendments to the Competition Act

The Tribunal has already started to see some effect of the July 2019 competition law amendments on its workload, with an increase in the complexity of cases and demand for the Tribunal's services. The expanded merger control considerations, both regarding the competition and public interest aspects of merger control, have expanded the ambit of issues for merger consideration and led to longer hearings.

One of the biggest impacts of the amendments is expected to be in that area of market inquiries. In the medium to long term, the Tribunal anticipates increased activity arising from the Commission's market inquiries, particularly as the Commission's Report on its Online Intermediation Platforms Market Inquiry is expected to be published in the first quarter of 2023 in terms of section 78 of the Competition Act.

Section 43F(1) of the Competition Act, makes provision for a person who is materially and adversely affected by the Commission's determination arising from a market inquiry, to appeal against that determination to the Tribunal. Significantly, the Tribunal will have to hear appeals against the Commission's determinations and decide on appropriate remedies including, where appropriate, divestiture subject to section 60 of the Competition Act. In this regard, the Tribunal has embarked on formulating regulations which prescribe the procedure for hearing appeals from the Commission's determinations, which must be published the Minister.

5.5. Public policy and participation

The general approach of the Tribunal is to encourage participation of interested parties in its proceedings. This allows for less powerful parties to have access to justice and articulate their interests and maximizes the information available to the Tribunal. In the cases to date the Tribunal has had representation from competitors, customers, franchisees, trade unions, industry associations, government department/entities and non-government organisations (NGO's).

The Competition Act also allows for the Minister of Trade, Industry and Competition to make representations on public interest grounds in merger transactions. The amendments grant the Minister the right to appeal the Tribunal's decisions where previously the Minister's right was limited to review.

5.6. Stakeholder Profile

Numerous stakeholders may be impacted by the Competition Act. The Tribunal encourages and maintains effective relationships with key stakeholders with the aim of promoting consumer welfare of all South Africans.

The Tribunal's external stakeholders may be categorised as follows:

- a) Stakeholders with whom the Tribunal has direct contact in the course of fulfilling its functions. These include:
 - The Commission which refers and prosecutes cases before the Tribunal.
 - Complainants, respondents, interested third parties, expert witnesses and their legal representatives who participate in or have a direct interest in a case before the Tribunal. These may be local or international businesses, trade unions, consumers, legal firms, or any other affected individual or organization.
- b) Stakeholders with whom the Tribunal may not be in direct contact but who are affected by the Tribunal's decisions. These include consumers, competitors, customers, and suppliers of firms directly affected by Tribunal decisions.
- c) Sector-specific regulators who enjoy concurrent jurisdiction with the competition authorities, such as the Independent Communications Authority of South Africa (ICASA).
- d) Stakeholders to whom the Tribunal is accountable with respect to its functions. These include **the dtic**, Parliament, the Minister, National Treasury and the Auditor-General (AG).
- e) Stakeholders who act as reputational agents in providing policy and peer feedback on the standard and quality of work in the Tribunal. These include the media/journalists/editors, the financial press, academics, the judiciary, other competition agencies, the Organisation for Economic Co-operation and Development (OECD), the World Trade Organisation (WTO), Southern African Development Community (SADC), the International Competition Network (ICN) and others.
- f) Government stakeholders that the Tribunal may interact with, for example other government departments, state-owned entities, the Reserve Bank, and Parliament.

The business model below illustrates the Tribunal's stakeholders and processes that characterise these relationships.

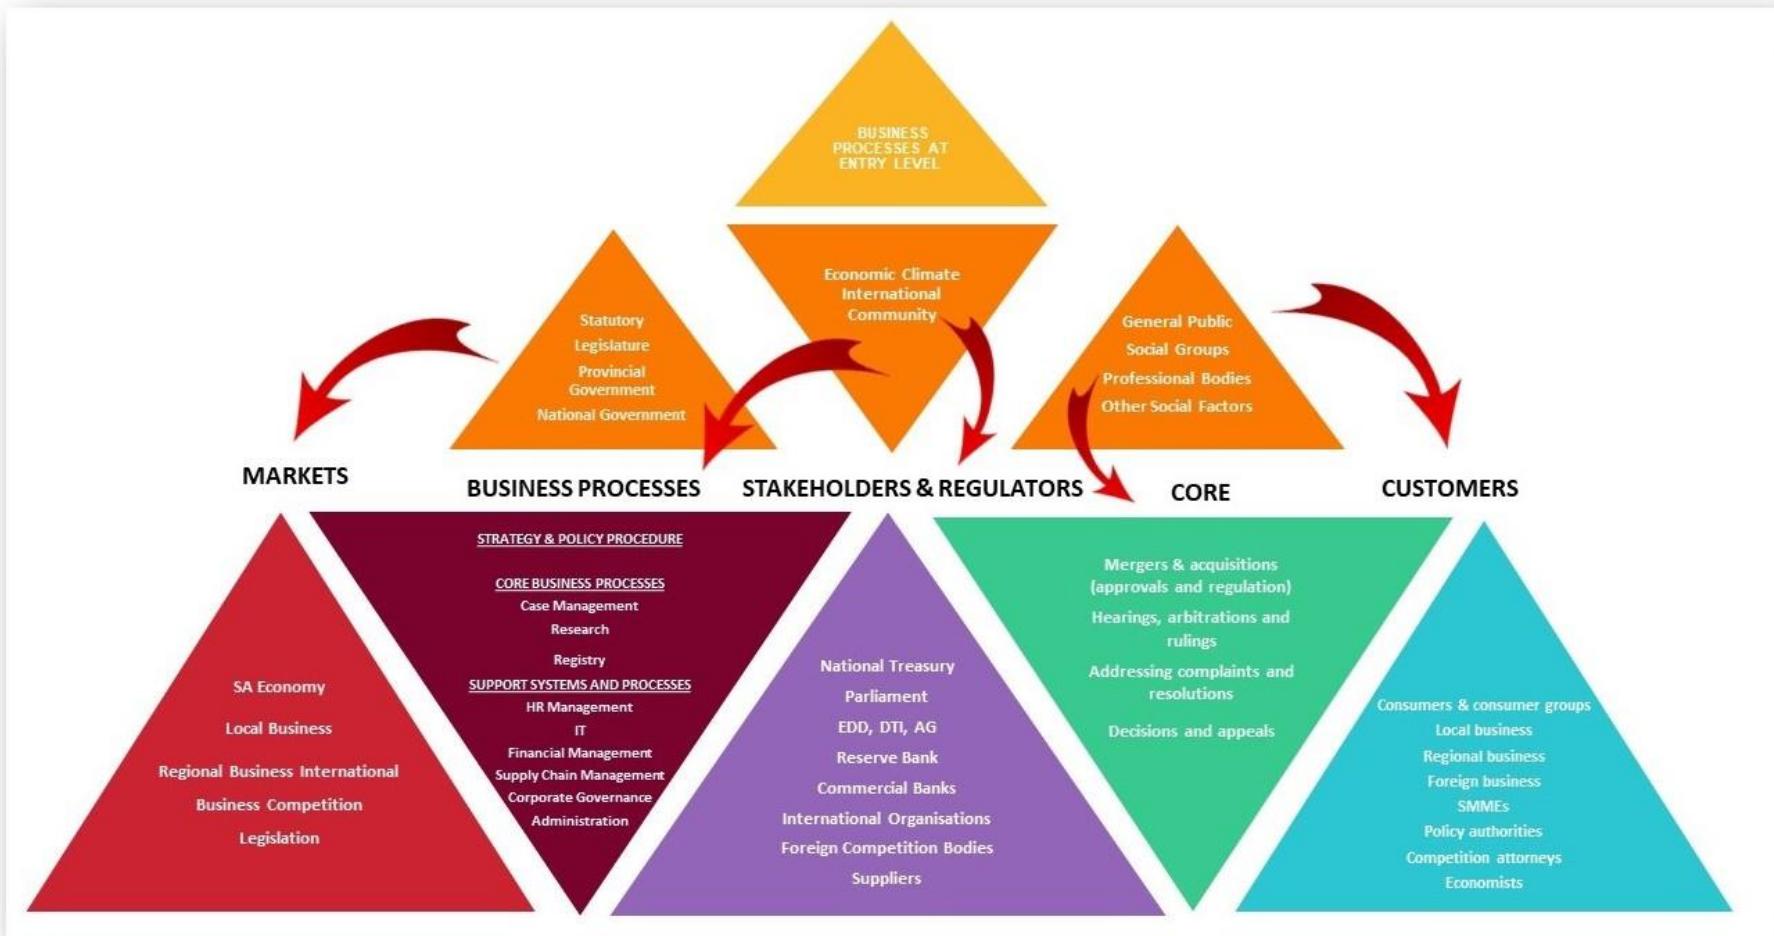

Figure 3 Tribunal's stakeholders and processes that characterise the Tribunal's relationships with stakeholders

5.7. Strategic Planning Process

The strategic planning process calendar which includes meetings, strategic sessions and consultations that were held with regard to the development of a strategic plan and annual performance plan aligned to the recently approved framework and guidelines for strategic planning issued by the Department of Planning, Monitoring and Evaluation (DPME), are detailed in the table below:

Table 5 Strategic planning process calendar

6. External environmental analysis

Table 5 provides a broad overview of all the external factors considered that may impact on the Tribunal's ability to deliver on its mandate and/or stated outcomes. Both national and international factors were considered and a PESTEL analysis was used to identify these.

Table 6 PESTEL Analysis for the Tribunal

6. Internal environmental analysis

Two main potential factors affect the Tribunal's ability to deliver on its mandate. The first potential factor is timeous decisions and consistency in the decisions made by the Tribunal and is depicted in the problem tree attached as Annexure A to the Strategic Plan 2020-2025. The Tribunal has identified possible interventions and solutions for delays and inconsistent decision-making (depicted in Annexure B to the Strategic Plan).

The second potential factor relates to inadequate resources (depicted in the problem tree attached as Annexure C to the Strategic Plan of 2020-2025. The interventions and solutions to address and resolve this factor is reflected in the solution tree in Annexure D to the Strategic Plan. The meetings and workshops held with regards to the strategic planning process are detailed in paragraph 5.7 above.

i. **Return to the office**

While the Covid pandemic was devastating in its human cost and cost to business, it led to the Tribunal implementing several efficiency related measures, such as remote working and “livestreaming” of Tribunal hearings.

The Tribunal has learned many lessons from the hybrid work model implemented in 2022 whereby some cases continued to be heard virtually. With effect from the beginning of 2023, the Tribunal has fully returned to office. However, some cases will continue to be heard virtually and “livestreaming” of virtual hearings is planned. In this regard an assessment of which cases to hear virtually versus physically is currently being determined and will be adjusted from time to time. Furthermore, during the lockdown period it became apparent that there are activities of the Tribunal that could be efficiently performed remotely. Benefits of returning to the office include improvements in staff development, team building and cohesion across the organisation. Due to security concerns relating to the area in which the Tribunal’s offices are located and the high cost of living and to soften the costs for staff associated with returning to the office, the Tribunal will implement measures including making a pool car available to transport staff to and from the Gautrain station.

ii. **Energy Challenges**

Given the current electricity challenge (loadshedding), as a result of being back in the office, the Tribunal is by and large benefiting from the power and back-up plans on **the dtic**’s campus. The Tribunal is investigating making invertors available to be used on a rotational basis for staff who need to work outside of office hours or at home, when required.

iii. **Tribunal Members**

The Competition Act specifies that Tribunal members should collectively represent a broad section of the South African population. The duties and responsibilities of the Tribunal are of national significance and therefore its members must have a high level of technical skill and experience, specifically in competition law and economics. The Tribunal members are required to take decisions of major commercial, economic and public interest consequences, and it is therefore necessary (and stipulated in the Competition Act) that they should have qualifications and experience in law, economics, commerce, industry or public affairs.

The Chairperson of the Tribunal is responsible for managing the caseload and assigns each matter referred to the Tribunal to a panel. The adjudicative panels of the Tribunal that decide individual matters comprise three Tribunal members of which at least one member of the panel must be a person who has legal training and experience. The panel may consist of any combination of full-time and part-time members.

The Tribunal members are appointed by the President of South Africa, on recommendation of the Minister for a five-year term of office. The President may re-appoint a member of the Tribunal at the expiry of that member's term of office, but no person may be appointed to the office of the Chairperson of the Tribunal for more than two consecutive five-year terms.

The amended Competition Act makes provision for an increased number of Tribunal members from 11 to 15 members (including the Chairperson) in anticipation of the increased workload. The amended Competition Act also gives the Minister the power to appoint acting part-time members and, in this regard, there are currently five acting part-time members appointed by the Minister. Ms Shai'sta Goga and Prof. Liberty Mncube were appointed with effect from 1 January 2022 and reappointed with effect from 1 January 2023, and advocates Geoff Budlender SC, Jerome Wilson SC, and Tembeka Ngcukaitobi SC, were appointed with effect from January, February, and April 2023 respectively. On 1 February 2023. Prof Liberty Mncube was appointed as the Deputy Chairperson and Prof Imraan Valodia re-appointed as a part-time member. As of 10 March 2023, the Tribunal's complement of members is 11 out of 15. Five of the Tribunal's members are lawyers and the other six are economists. Only three members are full-time (including the Chairperson), four are part-time members and the other four are acting part-time members.

The appointment of the acting part-time members has assisted in alleviating the workload and improved the Tribunal's efficiencies. There however, remains a need for more members to be appointed on a full-time basis. This is because of the day-to-day management of cases prior to a hearing which is extensive from case to case. Further, cases of a longer duration (one week and more) are difficult to conduct with part-time members due to their other commitments arising from their full-time employment. The Tribunal anticipates that matters of a longer duration that were on hold during the lockdown will become active. In order to increase the efficiency of the Tribunal, the optimal gearing ratio between full-time members and part-time members requires review. The current ratio of full-time to part-time members is two to five.

Tribunal member vacancies impact on the efficiency of the adjudicative process and have caused delays in certain turnaround times, particularly with regard to the issuing of reasons

for decisions. This will be further exacerbated by the predicted increased complexity of cases as a result of the recent amendments to the Competition Act for which there is no precedent. Inadequate capacity and financial sustainability are identified, amongst others, as the top strategic risks of the Tribunal. In this regard, steps to increase capacity have been taken through the organisational structure review process. Regarding funding, the Tribunal requested retention of a surplus of R17.555 million to be used for priorities relating mainly to increasing staff capacity. The Tribunal received approval from the National Treasury to retain the accumulated cash surplus in January 2023.

In this APP, we have budgeted for the filling of three full-time member vacancies, including the Deputy Chairperson. The Tribunal has also budgeted for residual processes emanating from the Tribunal's organisational review process completed in the previous financial year and is now in the implementation phase. **Annexure B** provides a detailed list of current serving Tribunal members and their respective qualifications.

iv. **Tribunal Secretariat**

The Tribunal's secretariat provides administrative and operational support within the Tribunal. The Tribunal undertook an organisational structure review process conducted by an external service provider in 2022/23. The current staff establishment provides for 35 positions of which 27 are filled leaving seven vacant positions. The new structure provides for 59 positions in total. The Tribunal intends to fill these positions in a phased-in manner over a period the MTEF period. In the current financial year, the Tribunal has prioritised 10 positions:

The Tribunal organogram provides for the following five divisions:

- Office of the Chief Operating Officer
- Finance
- Case Management
- Registry
- Corporate Services

The Chairperson of the Tribunal is the Accounting Authority and therefore has operational involvement in the day-to-day management of the Tribunal which is consistent with her powers in terms of the Competition Act. Certain responsibilities have been delegated to the Chief Operating Officer and Divisional Heads. The Chairperson retains ultimate accountability in terms of the PFMA.

The organogram in [Annexure A](#) illustrates the current structure of the organisation following the organisational structure review process. The one of the two vacant full-time member positions on the organisational structure has been temporarily filled with an acting part-time member with effect from 1 January 2022.

[Annexure C](#) details the names and positions held by the Tribunal's employees and provides some statistics pertaining to the profile of the secretariat.

v. [Personnel](#)

The Tribunal is committed to transformation, especially achieving employment equity at the workplace. The Tribunal values diversity and adheres to the constitutional principles of equality and non-discrimination in all its policies, procedures and activities. These principles are adhered to with respect to the recruitment and selection of staff and human resource development.

As can be seen in the organisational structure attached as [Annexure A](#), the Tribunal has a fairly flat structure, with limited hierarchy of positions to which professional staff can aspire. However, some mechanisms have been developed in order to ensure the retention of skilled staff and to provide some career progression albeit limited. In Registry, for example, it is possible for someone to enter the Tribunal as a Registry Clerk and eventually progress to Registry Administrator or Registrar. In the Case Management Division personnel can enter as Case Managers and progress to a Principal level over a period of three to five years.

Of the five abovementioned Divisions, the Case Management Division, from an adjudicative perspective, is the most important. Case Management is a dynamic process where procedures and processes need to be continuously updated in line with new developments and best practice.

Case Managers have either a legal or an economics background. It is important that adequate legal as well as economic expertise and experience exists in this division. The Head of Case Management is a crucial position within the Division which sets the tone and gives strategic direction to the activities of the Division. The Head of Case Management's responsibility is to oversee *inter alia* the training, mentoring and guidance of the Case Managers, as well as ensuring efficiency, consistency, and quality management in the Division. The Head of Case Management allocates each matter to one or more Case Managers, depending on the nature and complexity of the case. Priority is given to cases where there are potential significant

effects on the economy or public interest. Case allocation methods and procedures are continually reviewed to ensure efficiency and staff development.

In general, Case Managers spend on average three to four years in the Tribunal and as their marketability increases, they are attracted by higher salaries and growth opportunities in the legal profession, academia, and economic consultancies. The Tribunal is aware of this trend and as such, is continually exploring retention mechanisms.

Finding experienced staff members in the highly specialised field of competition law and economics remains a challenge since the private sector tends to offer more attractive salaries than what the Tribunal can afford. However, the opportunities presented by being able to work closely with Tribunal members and gain valuable knowledge and experience from a regulatory perspective, assist in attracting staff members of a high quality to the Tribunal.

vi. Internship

The Tribunal is a small organisation and is therefore limited in its ability to offer a substantial number of internships. Despite this, the Tribunal has been able to provide an opportunity for two interns via its graduate internship programme in the Case Management division. The interns in this programme will spend on average a year at the Tribunal. The contracts of the two interns who were appointed for an original period of 12 months each, commencing 1 January – December 2022 have been extended until end of December 2023 in order to assist in alleviating current capacity constraints. The Tribunal uses the internship programme to provide short-term employment opportunities to unemployed youth which exposes them to valuable work experience.

vii. Capacity Development

The Tribunal is committed to capacity building and development. Proactive steps are taken to train and develop staff given the significant skills gap in the country. This is consistent with maximizing the human resource potential of all employees, which is necessary to ensure efficiency and performance excellence.

Training includes in-house and on-the-job training with respect to the case management system and is undertaken so as to provide assistance to staff with the development of experience and skills in the area of competition law and economics. Other areas include fraud prevention awareness, and IT security and risk management training.

External training service providers are utilized for specialized training courses. Furthermore, exposure to international best practice in competition law and policy is facilitated through attendance at international conferences/workshops, staff exchange programmes and visits by international experts.

Tribunal members need to keep abreast of extensive international case law in the field, legal and economic analysis and international best practice to be able to perform their duties optimally.

The Tribunal facilitates this process by identifying the training needs of the Tribunal members and continues to facilitate the attendance of Tribunal members at international conferences. These would include the ICN, the leading network of about 140 competition authorities worldwide of which the Tribunal is a member, the Annual Fordham Antitrust conference, the International Bar Association and the OECD Competition Committee meetings, as well as an annual seminar of the Association of Competition Economists and AfCFTA.

Since 2006 the Tribunal has been an observer member of the Competition Committee of the OECD, a body at the international cutting edge of new developments in competition law and policy. Attendance of the OECD depends on the availability of budget. Full-time Tribunal members will, as far as possible, remain active virtually via video conferencing in international bodies such as the ICN. These meetings provide the Tribunal's members with a forum to review their work and to keep abreast with aspects of competition, economics and law given the focus on increased competition law in the region.

FINAL MTEF SUBMISSION

i. Financial requirements and resources

The Tribunal's expenditure requirements (inclusive of capital expenditure) over the Medium-Term Expenditure Framework (2023/2024 – 2025/2026) is estimated to be **R200.51m**. The Tribunal has budgeted to fund this from the three revenue sources:

- National Treasury and **the dtic** approved grant funding of **R133.94m**;
- Expected filing fee revenue of **R63.57m**; and
- Interest on cash holdings of **R3.00m**.

In recent years the grant allocated has grown at a rate based mainly on inflation as opposed to changes in the Tribunal's operational requirements and in line with the 2019 amendments to the Competition Act.

Following the organisational structure review, the Tribunal is in the process of being strengthened with a new structure. The estimated additional funding that would be required to fund the new structure is R34.15 million in year one, R37.79 million in year two and R65.69 million in year three, which translates to R137.64 million over the MTEF period (168.64% of the current revenue budget). The estimated costs incorporate both the human capital positions and the additional operational requirements (including office space and equipment) that will arise from the new structure.

ii. Filing fees

In terms of a Memorandum of Understanding between the Commission and the Tribunal, the Tribunal receives 30% of all fees filed with the Commission for large mergers and 5% of the fees filed for intermediate merger considerations.

Filing fees have enjoyed an average of 7% long-term compound annual growth rate (1999-2019). Filing fees dropped significantly by 25% in 2020/21 due to the impact of the COVID-19 pandemic. They increased by 23% from 2020/21 to 2021/22 due to the increase in merger activity following the impact of the COVID-19 pandemic. The pandemic had created uncertainty in predicting the estimates for future filing fees therefore the filing fees budgeted over the MTEF period is based on the actual filing fees received as at 31 March 2022.

Section 53(3) of the PFMA, requires a public entity which must submit a budget in terms of section 53(1) of the PFMA, not to budget for a deficit and not to accumulate surpluses unless the prior written approval of the National Treasury has been obtained. National Treasury has approved the retention of cash surpluses accumulated as of 31 March 2022 of R17.55 million. The summary of the MTEF submission is reflected in the table below:

Table 7 Summary of the Budget estimates over the MTEF period

CATEGORY	2022/2023	MTEF PERIOD

Annexure D provides a graphical representation of the historic funding and expenditure pertaining to the Tribunal's activities. Annexure E reflects the Statement of Financial Performance over the MTEF period included in the ENE submitted in July 2022. Annexure F contains a summarized version of the Tribunal's budgetary requirements over the three-year planning period (from 2023/2024 to the 2025/2026 budget). Annexure G provides the details of the 2023/2024 budget.

iii. Budgeting

The Tribunal adopts a zero-based budgeting approach for two reasons. Firstly approximately 25% of its revenue is variable whereas up to 95% of its costs are fixed, and secondly, although only 5% of its costs are variable, these costs are driven by caseload which is outside of the Tribunal's control.

The main reason for the underspending over a five-year period is due to the vacancies of full-time Tribunal members. The Tribunal will continue budgeting for these positions in anticipation of filling the vacancies.

Table 8 Expenditure against budget for the period 2017/18 to 2022/23

Year	Actual expenditure incl. of capital expenditure	Budget expenditure incl. of capital	% Budget spent	% Budget underspent/ overspent

PART C: MEASURING OUR PERFORMANCE

8. Institutional Programme Performance Information

The Tribunal is aiming to achieve 23 outputs aligned over the 2022/2023 financial year.

8.1. Outcomes, Outputs, Performance Indicators and Targets

In this section we identify the outputs that will assist the Tribunal to achieve its stated outcomes in each of the Tribunal's focus areas, namely Reliable and Responsive Adjudication; and Transparent, Accountable and Sustainable Entity. Indicators to measure the performance/achievement of the outputs against agreed targets are given. Where applicable annual targets are cascaded down to quarterly targets. If the target is applicable in 2023/2024 or was applicable in prior years, performance against these targets is reflected in the matrix. If the indicator is new but there is existing information regarding the prior performance against the indicator, it is also reflected in the matrix (even if it is not an audited outcome).

8.1.1. Adjudication

Adjudication represents the core business of the Tribunal. The Competition Act provides for the Tribunal to regulate two broad areas of competition, mergers and acquisitions on the one hand and prohibited practices on the other.

Outcomes, outputs, indicators and targets for this focus area are indicated in matrix format in the tables that follow. These have been aligned with **the dtic's** joint/integrated outcomes of Delivery/Capable State, Industrialisation and Economic Transformation within the ambit of the Competition Act, which in turn align with the NDP and ERRP.

8.1.2. Communication

The purpose of this focus area within the Tribunal is to provide a focussed process to create and enhance awareness of the work of the Tribunal. The outcomes, outputs, indicators and targets are detailed in matrix format in Table 10 below.

8.1.7. Transformation, human capacity development and training

The purpose of the transformation, human capacity development and training function/focus area is to ensure that the Tribunal effectively leverages employee skills by recruiting, retaining and development of high-quality performing people in terms of the Employment Equity plan, in line with **the dtic's** joint/integrated outputs of a Transparent, Accountable and Sustainable Tribunal. The outcome/output/indicators/targets associated with this function/focus area are illustrated in matrix format in table 14 below.

8.2. Explanation of planned performance over the medium-term period

The two outcomes identified in the Strategic Plan enable the Tribunal to operate within its mandate as a credible institution within the public sector and pursue its commitment to keep the public informed. Eight outputs have been identified that will enable the Tribunal to achieve these two outcomes. In turn we have identified 24 indicators linked to these outputs that are measured quarterly and annually.

The scorecards reflected under paragraph 8.1 above reflect the specific outcomes, the outputs aligned to each outcome, output indicators and targets assigned for the three-year period. Where possible it also reflects performance in the prior periods and the estimated performance for 2022/2023.

The targets set by the Tribunal against the outcomes and outputs related to the adjudicative process in particular are generally constant over the three-year period as the Tribunal is a service organisation providing a constant level of service to its clients.

Targets have been set at less than 100% as non-performance is not always attributable to the Tribunal but sometimes due to the request of the parties who may have valid reasons for the delays. In addition, the complexity of matters may result in delays in the issuing of reasons. In attaining the outcomes and the output indicators the Tribunal identified, a number of strategic interventions will be implemented over the MTEF period.

To achieve “**Responsive and Reliable Adjudication**” the following interventions may be implemented:

- Compile regular case updates on significant developments within the Competition Act;
- Conduct bi-weekly case management meetings;
- Maintain a process whereby Case Managers check files regularly;
- Continuous development and improvement of a practice whereby Case Managers play a stronger oversight role in the whole case management process;
- Conduct regular training sessions; and
- Improve the case management system for ease of search and reporting functionality.

The Tribunal aims to be a “**Transparent, Accountable and Sustainable Entity**” and in order to achieve that the following interventions may be implemented:

- Review effectiveness of communication with various stakeholders;

- Establish mechanisms or processes for knowledge transfer;
- Review and enhance the employee performance management system;
- Conduct a skills and competency audit that informs the training and capacity development plan;
- Development, adherence and regular reporting against an annual institutional procurement plan;
- Periodic institutional benchmarking against similar institutions or professions;
- Conduct quarterly performance review workshops before finalising and submitting the quarterly reports;
- Review and update the employee and Tribunal member induction process;
- Investigate and conclude a financial model for the Tribunal with **the dtic** and National Treasury;
- Development and implement a competency evaluation framework;
- Implement skills development and HR retention strategy and plan; and
- Conduct an internal climate survey.

9. Financial considerations and the 2023/2024 budget

9.1. Expenditure Estimates

A final detailed one-year budget for the **2023/2024** year is included in [Annexure G](#).

As stated in the Strategic Plan, the Tribunal is an adjudicative body and hence is reactive in terms of the cases brought before it. It is therefore not possible to accurately predict the number of cases to be heard annually. This means that budgeting accurately becomes difficult as many of the line items are based on an estimated number of cases to be heard in that year. The net result is that variances in actual expenditure, as opposed to budgeted expenditure, do arise.

In drafting the 2023/2024 final budget, the Tribunal has considered the main assumptions listed below. The Tribunal's budget is an operational budget and is not programme or project driven. 69% of the budget is allocated to personnel expenses (excluding fees payable to part-time Tribunal members).

The main assumptions made in drafting the 2023/2024 budget are as follows:

- i) The budgets included in the ENE were drawn based on the average consumer price index (CPI) of 4%;

- ii) The leasing fee payable to **the dtic** is in line with the 2022/2023 actual costs;
- iii) The Personnel budget includes costs for the full structure prior to the organisational review process. There is a need for more capacity and the outcome of the organisational review will result in higher personnel budget for the year.
- iv) Further capacity in the Case Management division to be secured through the use of approved surplus funds;
- v) Cost of living increase for all Tribunal staff has been based on the average CPI;
- vi) Part-time member expenditure is based on a daily rate of R9 000.00 + CPI for 7 part-time members for hearing days (actual and preparation days) and retainer costs equivalent to 10 days per member, annually.

Table 15 below illustrates the Tribunal's budget allocation across the various expenditure categories for both the current and the next financial year.

Table 16 Percentage budget allocation across category expenditure for 2021/22 and 2022/23 financial years

68.57% of the Tribunal's 2023/2024 budget will be spent on personnel expenses which includes full time member costs. If fees paid to the part-time Tribunal members are included in this category, this increases to **73.04%**.

“Shared service fee” refers to the payments made to the Commission for shared services (in terms of a Memorandum of Understanding), accounting for **1.29%** of the budget.

Costs associated with audits (internal, external audit fees and audit committee expenses) account for **3.31%** of the budget while administrative expenses account for **1.30%** of the budgeted expenditure.

Table 16 below illustrates the Tribunal’s total anticipated expenditure as a result of the organisational review and the additional funding that would be required to fund the revised organisational structure

9.2 Relating Expenditure Estimates to Outcomes and Outputs

The Tribunal, being an adjudicative body that responds to matters brought before it, is not project or programme driven and for this reason the budget is primarily an operational/administrative budget.

The Tribunal’s strategic outcomes and associated outputs relate primarily to its mandate and core business but also include strategic outcomes and outputs related to oversight and financial management.

Table 17 below indicates the allocation of the annual budget across the two outcomes. The Tribunal has managed to allocate **74.59%** of the annual budget across the two outcomes.

Table 17 Budget allocation by outcome

Outcome	Budget	% of budget
Responsive and reliable adjudication	31,717	50.29%
Accountable, transparent and sustainable entity	15,328	24.30%
Total	47,045	74.59%

The remaining **25.41%** of the budget is distributed as follows:

- Administrative costs: 24.04%
- Capital expenditure: 0.79%
- Appeal Court costs: 0.58%

9.3. Reconciling targets with the budget and MTEF

As indicated above the Tribunal has allocated 74.59% of its budget against the stated strategic outcomes. In addition, the budget is further divided by output with linkages to the six identified focus areas as illustrated in table 18 below.

Table 18 Budget allocation by focus areas, output and outcome

FOCUS AREA	OUTPUTS	BUDGET
Responsive and Reliable Adjudication	Effective and timeous issuing of orders and reasons	19,672,182
	Effective case management procedures to ensure hearings are set down within legislated timeframes	12,045,000
Communication	Effective communication and information sharing	1,363,600
Business Process, Governance, Financial Management, Human Resources	Effective record management	4,225,953
	Sound governance	4,526,522
	Effective financial management	3,615,932
	Capacity development, retention and training	2,094,000
Other expenses	Administration (incl. depreciation)	15,165,000
	Capital Expenditure	477,134
	Competition Appeal Court	364,805
	TOTAL BUDGET	63,070,000

At present, the adjudication and case management costs include the total salaries of the full-time Tribunal members and all Case Managers/researchers and registry staff despite the fact that they may perform functions that are not specifically case related.

The Tribunal's electronic case management system (CMS), currently in operation, enables it to extract data related to the cost of hearings and thereby determine, to some extent, the ratio between case and non-case related work. Over time, the Tribunal will investigate this issue further in order to arrive at a more accurate costing of the Tribunal's core business. The Tribunal will, on a quarterly basis, report on progress with regards to the achievement of targets and costs to the dtic , National Treasury and to other stakeholders.

9.4. The Competition Appeal Court

The Competition Act set up a triad of institutions (the Commission, the Tribunal and the CAC) with exclusive jurisdiction over competition matters (specifically, chapters 2 and 3 of the Competition Act).

The CAC is a specialised division of the High Court comprising at least 3 Judges, each of whom must be a Judge of the High Court. The CAC may review or consider an appeal arising from any Tribunal decision.

CAC Judges are appointed by the President, on the advice of the Judicial Services Commission. The tenure of office, remuneration and terms and conditions of service of a Judge of the High Court is not affected by his/her appointment to the CAC. The Registrar of the Tribunal (and CAC) liaises with the Judicial Services Commission over the appointment of CAC Judges and is responsible for the training function of the Judges. The Tribunal secretariat provides the registry function for the CAC and the registrar of the Tribunal acts as the Registrar of the CAC.

At present the Tribunal includes the CAC as a line item in its budget and is responsible for the financing of administrative aspects of the CAC, excluding for personnel expenses. As is the case with the Tribunal, it is difficult to predict the number of appeals that may be lodged against Tribunal decisions and as a result budgeting becomes difficult and variances do occur. All expenditure associated with training or overseas travel has been reduced as some CAC hearings will take place online. The budget is therefore R 364,805.

PART D: TECHNICAL INDICATOR DESCRIPTORS (TID)

10 Technical Indicator descriptors by focus area

10.1 Adjudication

Outcome	Responsive and Reliable Adjudication
1. Indicator Title	Percentage of mergers scheduled down for a hearing or pre-hearing within 10 business days of filing.
Definition	This performance indicator measures the efficiency of the Tribunal in scheduling a pre-hearing date or hearing date for mergers within the stipulated timeframe.
Source of data	<ul style="list-style-type: none">➤ Merger referral documents received by the Tribunal.➤ Request for consideration received by the Tribunal.➤ Set down notices issued by the Tribunal.➤ Any correspondence and notices received and issued between the Tribunal, the Commission and parties.➤ CMS reports.➤ Qlikview reports (reporting tool placed on top of CMS) that reflect turnaround times.➤ Hearing calendar.➤ Transcriptions.
Method of Calculation/ Assessment	<p>The method of calculation is a percentage calculated as follows:</p> <p>Percentage of mergers set down for the beginning of a hearing or a pre-hearing within 10 business days of the filing of a merger referral = $(a/b) \times 100$,</p> <p>where</p> <p>a = total number of mergers set down for the beginning of a hearing or pre-hearing within 10 business days</p> <p>b = total number of mergers set down.</p> <p>In terms of the Rules of the Tribunal, the time period for scheduling a prehearing may be extended for a period of 10 business days by the Chairperson, and a further extension may be granted subject to agreement with the parties. In those cases where such an extension has been granted, the extended period will be used in the calculation.</p>

Outcome	Responsive and Reliable Adjudication
Means of Verification	<ul style="list-style-type: none"> ➤ Workflows built into CMS either prevents further updating or alerts the user if case data is missing. ➤ The Registry Administrator extracts monthly reports from Qlikview and maintains a file that contains source documents. ➤ Data reflected on Qlikview (originally captured on CMS) and source document reviewed to verify data against source document and ensure accuracy. ➤ Registry Administrator will contact official required to input missing data or make corrections on CMS. ➤ Errors and corrections that affect prior period reporting are communicated to Registrar/COO via email. ➤ File reviewed by Registrar on a monthly basis and signed off as proof of review. ➤ Registry Administrator completes the performance information report quarterly using Qlikview reports as the basis for data collection. <p>Same process as above followed annually thus providing further opportunity to review monthly information and quarterly reports.</p> <ul style="list-style-type: none"> ➤ Performance Information reports are reviewed and verified by Registrar and COO and signed off by Registrar as proof of review.
Assumptions	<ul style="list-style-type: none"> ➤ The Tribunal has the financial resources and the capacity to perform its adjudicative function. ➤ There will be no substantial changes to the Tribunal's mandate or the Competition Act that will impact on stipulated timeframes and targets. ➤ Tribunal has aligned to the dtic's joint/integrated outputs relating to delivery/capable State, industrialisation and transformation in consideration of competition and public interest issues in mergers. ➤ That the Tribunal maintains systems, processes and procedures that facilitate the target being achieved. ➤ That parties and counsel are available.
