FOREWORD BY THE MINISTER OF INTERNATIONAL RELATIONS AND COOPERATION

The African Renaissance and International Cooperation Fund (ARF) continued to be a valuable instrument in the pursuit of the National Development Plan and Vision 2030. The ARF is committed to promoting South Africa's national interests and values, the African Renaissance and the creation of a better world for all. The Sixth Administration identified seven priorities, which are contained in the Medium Term Strategic Framework. The foreign policy is an extension of national priorities.

Through the ARF, we will continue with our commitment to the promotion of democracy and good governance with a view to enhance public participation and accountability. These are important elements for socio-economic development and integration as well as achieving continental prosperity and aspiration of the African Union's (AU) Agenda 2063. In this regard, the sustained and credible holding of free, fair and just elections with full public participation throughout the continent will enable us to achieve this objective. We will continue to provide technical support for elections to realise this aspiration.

The African continent, like other parts of the world, continue to experience an increase in natural disasters. Clearly, erratic weather patterns which are largely the result of climate change effects require our urgent attention. Through the ARF, South Africa is counted among those who strive to restore human dignity and bring relief to people in distress as and when humanitarian situations arise. Through humanitarian aid, South Africa left footprints in most parts of the African continent and world at large by saving lives, alleviating suffering and maintaining human dignity following conflict, shocks and natural disasters. We will focus on sustainable food production, utilising new technologies and weather-resistant farming methods to further enhance food security on the continent.

The Executive Authority will continue to provide strategic direction on the implementation of the priorities that emerge during the 2022 – 2023 period.

Minister of International Relations and Cooperation
Executive Authority

FOREWORD BY THE ACTING DIRECTOR-GENERAL OF THE DEPARTMENT OF INTERNATIONAL RELATIONS AND COOPERATION

The Revised Strategic Plan for the 2020 – 2025 and the Annual Performance Plan (APP) for the 2022 – 2023 of the African Renaissance and International Cooperation Fund (ARF) provide details of the fund's immediate and long-term objectives. In order to give effect to these important objectives, the APP contains a specific and measurable set of targets.

It is crucial for the ARF to continue complying with the Public Finance Management Act (PFMA), 1999 and other laws that govern the management of public funds in South Africa. Of importance, the ARF should continue to adhere to the established framework for disbursing funds and ensuring compliance with accounting and monitoring mechanisms. Regular monitoring of ARF projects is key in ensuring that projects are implemented within approved budget and completed within planned timeframes.

Due to fiscal constraints, we will have fewer projects for the 2022/23 financial year. We will, however, ensure that with limited resources we have, we maximise the impact of our contribution to a better African continent and world at large.

Ambassador NN Losi

Acting Director-General of the Department of
International Relations and Cooperation
Accounting Officer
Date: 27 January 2022

OFFICIAL SIGN-OFF

I hereby certified that this Strategic Plan:

- was developed by the management of the African Renaissance and International Cooperation Fund (ARF) under the guidance of Dr GNM Pandor
- takes into account all the relevant policies, legislation and other mandates for which the ARF is responsible
- accurately reflects the impact, outcomes and outputs, which the ARF will endeavour to achieve over the period 2022 to 2023.

Executive Authority Minister Dr GNM Pandor		15 March 2022

PART A: OUR MANDATE

1. Constitutional mandate

The Constitution of the Republic of South Africa, 1996 is the supreme law of the Republic and all laws or conduct inconsistent with it is invalid. The President is ultimately responsible for South Africa's foreign policy and it is the President's prerogative to appoint heads of South Africa's diplomatic missions, receive foreign heads of diplomatic missions, conduct inter-state relations and enter into international agreements.

The Minister of International Relations and Cooperation (Minister), in accordance with her Cabinet portfolio responsibilities, is entrusted with the formulation, promotion and execution of South Africa's foreign policy. The Minister assumes overall responsibility for all aspects of South Africa's international relations in consultation with the President. In practice, the Minister consults the Cabinet and individual Cabinet ministers on aspects of importance, as well as on cross-cutting issues that have a bearing on the programmes of other ministries and departments.

Oversight and accountability in the formulation and conduct of South Africa's foreign policy are vested in the Parliamentary Portfolio Committee on International Relations and Cooperation.

2. Legislative and policy mandates

The African Renaissance and International Cooperation Fund Act, 2000 (Act 51 of 2000): The Act establishes an African Renaissance and International Cooperation Fund (ARF) to enhance cooperation between the Republic and other countries, in particular African countries, through the promotion of democracy, good governance, the prevention and resolution of conflict, socio-economic development and integration, humanitarian assistance and human resource development.

The African Renaissance and International Cooperation Act, Act 2000 should be amended to provide for the name change of the ARF to the South African Development Partnership Fund and for the designation of a Head, as an Accounting Authority, who will be responsible, together with the Secretariat, for the administration of the fund. The fund will remain an entity listed in terms of the Public Finance Management Act, 1999 (Act 1 of 1999).

Funding of projects will be done on the basis of concurrence between the Minister of International Relations and Cooperation and the Minister of Finance.

3. Institutional policies and strategies over the five-year planning period

The following are strategic areas for the fund over the five-year planning period:

- enhance cooperation between the Republic of South Africa and other countries, in particular African countries
- promote democracy and good governance
- prevention and resolution of conflicts
- socio-economic development and integration
- humanitarian assistance
- human resource development.

4. Relevant court rulings

PART B: OUR STRATEGIC FOCUS

5. Vision

The vision of the African Renaissance and International Cooperation Fund (ARF) is a democratic, non-racial, non-sexist, conflict-free, developmental African continent.

6. Mission

The ARF is committed to promoting South Africa's national interests and values, the African Renaissance and the creation of a better world for all.

7. Values

The ARF will ensure that the following key values are adhered to:

- ownership of the process: the recipient country must own the process of determining the immediate, medium- and long-term actions that will address the issues contained in its project proposal
- an understanding of the political, economic and security considerations of the recipient country must be achieved
- a needs assessment should be conducted with direct involvement and ownership of the process by the country concerned
- integrated planning and coordination are critical in ensuring that South Africa's efforts are in line with the development needs of the identified country

In order to ensure that funding through the ARF is effective, the ARF will adopt the values of the Paris and Rome declarations on aid effectiveness and the Accra Agenda for Action. The Paris Declaration (2005) is a practical, action-oriented roadmap to improve the quality of aid and its impact on development. It gives a series of specific implementation measures and establishes a monitoring system to assess progress and ensure that donors and recipients hold each other accountable for their commitments.

8. Situational analysis

The ARF remains committed to pursuing the six objectives articulated in its Act. Over the past five years, the fund has responded to demands necessitated by both socio-economic trends and political imperatives. For example, due to climate change, sub-Saharan Africa experienced unprecedented hazards, including cyclones, resulting in devastating floods and drought. During the past five years, ARF allocations went to humanitarian assistance-related support; and direct bilateral cooperation with other countries, in particular African countries. The ARF continued to consolidate its contribution to democracy and good governance, conflict resolution as well as capacity-building through diplomatic channels.

Official development assistance is experiencing a downward trend as evidenced by figures released by the Organisation for Economic Cooperation and Development through its Development Assistance Committee (OECD DAC). In South Africa, there have also been downward trends in fiscal allocations to various government departments, including the Department of International Relations and Cooperation (DIRCO) and the ARF. As a result, for the next five years, the ARF has to be smarter and prioritise its allocations in order to maximise the impact of its interventions on the African continent, given the huge demands on its resources. It is a fact that globalisation is having a huge negative impact on African countries' markets and economies, resulting in a decline in economic growth and social economic development.

8.1 External environment analysis

South Africa's foreign policy vision is to achieve an African continent that is peaceful, democratic, non-racial, non-sexist, united and prosperous, and which contributes to a world that is just and equitable. South Africa pursues this policy vision, guided by the African values of Ubuntu and the central goal to eradicate the triple challenge of inequality, poverty and unemployment. Hence, South Africa's outlined priorities for its term, among them, furthering peace and security, the economic empowerment of women and deepening economic integration, had to be immediately and dramatically reoriented to deal with the Coronavirus pandemic.

The Sixth Administration identified seven priorities, which are contained in the Medium Term Strategic Framework. As foreign policy is an extension of national priorities, the ARF will contribute to the seventh priority of "A Better Africa and World" through "enhancing cooperation between the Republic and other countries, in particular African countries, through the promotion of democracy, good governance, the prevention and resolution of conflict, socio-economic development and integration, humanitarian assistance and human resource development".

8.2 Internal environment analysis

An advisory committee has been established to make recommendations to the Minister of International Relations and Cooperation and the Minister of Finance on the disbursement of funds through loans or other financial assistance. The Advisory Committee consists of the following members:

- (a) the Director-General (DG) or the delegate of the DG
- (b) three officers of DIRCO appointed by the Minister
- (c) two officers of National Treasury appointed by the Minister of Finance.

The DG is the Accounting Officer of the ARF in terms of the Public Finance Management Act, 1999. The DG has established a secretariat consisting of officers to assist with the disbursement of funds and monitoring and administration of projects relating to the fund. The ARF utilises DIRCO's systems and processes, which have brought their own challenges in terms of project implementation. The ARF has received an unqualified audit opinion without findings for the past three financial years in succession.

The ARF utilises DIRCO's fully functional assurance units such as Risk Management and Internal Audit. These units are supported by the Risk Management Committee and Audit Committee, both chaired by independent (external) chairpersons.

The ARF allocations and pledges are guided by both socio-economic and political imperatives in line with South Africa's foreign policy objectives.

ARF budget allocations over the Medium Term Expenditure Framework total R156.2 million. The ARF will implement the 2020 – 2025 Strategic Plan in a constrained fiscal environment with significant reductions in annual allocations. The fund will be more strategic in how it allocates its resources for each of its strategic objectives annually, in order to realise maximum impact.

The ARF will be able to achieve its mandate through DIRCO's diplomatic missions.

9.3 Explanation of planned performance over the five-year planning period

(a) Promotion of democracy and good governance as it aligns with Aspiration 3 of Agenda 2063

South Africa's participation in the SADC Electoral Observation Missions (SEOMs) demonstrates its commitment to free, fair and credible elections and further encourages democratic practices and good governance in the region. Participation in the SEOMs further contributes towards the creation of institutional frameworks and a climate conducive for the holding of credible elections.

The ARF will provide technical assistance to identified countries that will hold elections within the five-year period. Technical assistance is provided in partnership with the Independent Electoral Commission of South Africa (IEC) as the implementing agent.

South Africa is committed to building strong institutions and consolidating democratic gains. The support will be provided through South African institutions.

(b) Prevention and resolution of conflicts as it aligns with Aspiration 4 of Agenda 2063

Noting that 2020 marked the apex of the African Union (AU) flagship programme, "Silencing the Guns", South Africa continues to support mediation and conflict resolution efforts. South Africa must lead continental efforts aimed at resolving conflicts in South Sudan, Libya, Somalia and the Sahel region and the remaining conflict in parts of the eastern Democratic Republic of Congo.

(c) Support to socio-economic development and integration as it aligns with Aspiration 1 of Agenda 2063

South Africa will continue to play its part to foster integration on the continent and support the incoming Chair and the organisation in its efforts to meet the aspirations of the AU's Agenda 2063. To realise this vision, the ARF will implement projects that will improve the socio-economic conditions of citizens. The funding of projects that will fast-track the operationalisation of the AfCFTA will realise a shared prosperity for Africa. The AfCFTA will accelerate progress towards continental unity and integration for sustained growth, trade, exchange of goods, services and free movement of people and fast-track economic integration.

(d) Provision of humanitarian assistance

On the international humanitarian front, South Africa has played a leading role in influencing and shaping the global humanitarian system. Furthermore, South Africa has, through its humanitarian diplomacy, demonstrated its humanitarian face to the world by assisting countries afflicted by humanitarian crises, occasioned by natural disasters and conflict within the continent and beyond.

(e) Human resource development as it aligns with Aspiration 6 of Agenda 2063

Another focus will be on the economic empowerment of women, which we will continue to champion even beyond the term of South Africa's Chairship and throughout the Decade of African Women's Financial and Economic Inclusion to 2030. This will be done through capacity-building to strengthen institutions and build an Africa whose development is reliant on the potential of African people.

(f) Cooperation between the Republic and other countries, in particular African countries

Partnerships will be critical in the delivery of projects, considering the current fiscal constraints. The ARF will partner with likeminded partners to share costs and bring additional skill sets that will improve implementation of projects.

(g) Effective management of resources through sound administration and good governance

All projects are evaluated by the ARF Advisory Committee and must comply with concurrence by the Minister of Finance and monitoring of project implementation as per the project plan.

GLOSSARY OF TERMINOLOGY

Agenda 2063

Agenda 2063: The Africa We Want is Africa's blueprint and master plan for transforming Africa into the global powerhouse of the future. It is the continent's strategic framework that aims to deliver on its goal of inclusive and sustainable development and is a concrete manifestation of the Pan-African drive for unity, self-determination, freedom, progress and collective prosperity pursued under Pan-Africanism and the African Renaissance. The genesis of Agenda 2063 was the realisation by African leaders that there was a need to refocus and reprioritise Africa's agenda from the struggle against apartheid and the attainment of political independence for the continent, which was the focus of the Organisation of African Unity, the precursor of the African Union, and instead to prioritise inclusive social and economic development, continental and regional integration, democratic governance and peace and security, among other issues, aimed at repositioning Africa to becoming a dominant player in the global arena.

Agenda 2063 seeks to deliver on a set of seven aspirations:

- Aspiration 1: A prosperous Africa based on inclusive growth and sustainable development
- Aspiration 2: An integrated continent, politically united and based on the ideals of Pan-Africanism and the vision of Africa's Renaissance
- Aspiration 3: An Africa of good governance, democracy, respect for human rights, justice and the rule of law
- Aspiration 4: A peaceful and secure Africa
- Aspiration 5: An Africa with a strong cultural identity, common heritage, shared values and ethics
- Aspiration 6: An Africa, whose development is people-driven, relying on the potential of African people, especially its women and youth, and caring for children.
- Aspiration 7: Africa as a strong, united, resilient and influential global player and partner.

African Continental Free Trade Area (AfCFTA)

The establishment of the AfCFTA, which entered into force on 30 May 2019, is a key priority of Africa's Agenda 2063 and a flagship project for the continent. The AfCFTA is the world's largest single market of over 1.2 billion consumers, stimulating intra-Africa trade and investment, and growing gross domestic product to US\$3.4 trillion.
