# **PART A: GENERAL**

## **Foreword by the Minister**

In the context of development it is important to acknowledge the central role that is played by land in the human development, both as a catalyst for economic freedom and for the social stability of a nation. In this 24th year of our democracy, we look back with pride at the many opportunities that we have created for the landless masses of our people to participate in the agricultural economy of the country through our Land Reform and Restitution Programmes.

This is also a time to reflect on the many challenges that we have encountered along the way. In the sphere of land reform, we have experienced the globalization of world economies which resulted in the reduction of small enterprises and the concentration of the economic power in the hands of big agricultural enterprises. In this kind of environment, marginal enterprises have struggled to survive.

The beneficiaries of the Land Reform and Restitution Programmes in general and Communal Property Associations (CPAs) in particular, have not been immune to the changes in the economic environment that brought hardships to many small scale and medium sized agri-business. While the prices of input costs went up significantly, the prices of the produce did not match the upward trend of input costs because of market factors. Many of our beneficiaries cannot afford the luxury of learning through trial and error. The economic environment does not allow for learning mistakes. We have however not relented in the face of these challenges.

No effort is spared to create the necessary environment that will enable our CPAs to participate in the economy of our country. Agriculture has historically been the driver of job creation and food security in the rural areas of our country. Making our CPAs functional as intended will contribute significantly in denting unemployment while also contributing to the GDP growth of the country. Institutional partnerships are necessary to learn from those that have learnt their lessons and succeeded in what they do. We will continue to strengthen the institutions that we have established to support our land reform projects.

Ms Maite Nkoana-Mashabane (MP)  
Minister for Rural Development and Land Reform  
Date:26/09/2018

## **Overview by the Accounting Officer**

While we have made progress with the transfers of land to deal with land hunger amongst the landless, we need to ensure that the vehicles through which we undertake the tasks are suitable for the long-term sustainability of agriculture and our economy. We have reported about the various interventions that we are making as a department in turning around the fortunes of legal entities that were registered for land reform purposes, particularly Communal Property Associations (CPAs).

While the institutions that were established to support land reform, like the Communal Property Associations, District Forums, continue to play a pivotal role in providing support and peer-learning to CPAs, our intervention efforts have equally increased in building the necessary capacity both amongst the departmental officials and CPAs members. A number of capacity building workshops were conducted during the reporting period to ensure that we cultivate a good corporate culture within CPAs.

Substantial resources were utilized to acquire a property portfolio worth billions of rands and it is imperative that the acquired land must not only give the communities emotional satisfaction but must contribute to the economic upliftment of the communities. We have mixed fortunes in this regard. While we have CPAs that are facing internal conflicts and other challenges, we also have those that have been successful in economically uplifting the communities. While the success stories give us comfort, we continue to give attention to CPAs that have challenges.

Matters that require specialist mediation and legal services will continue to be dealt with under the auspices of the Land Rights Management Facility (LRMF).

---

Rendani Sadiki  
Acting Director General: Rural Development and Land Reform  
Date: 19/09/2018

# **Letter of Transmission**

## **ANNUAL REPORT ON THE PERFORMANCE OF COMMUNAL PROPERTY ASSOCIATIONS ESTABLISHED AND REGISTERED IN TERMS OF THE COMMUNAL PROPERTY ASSOCIATIONS ACT, 1996 (ACT 28 OF 1996) FOR THE FINANCIAL YEAR 2017-2018**

I, Rendani Sadiki, in my capacity as the Acting Director General of the Department of Rural Development and Land Reform herewith approve the Communal Property Associations Annual Report for the year 2017/18.

**Ms. R SADIKI**  
**(A) DIRECTOR GENERAL: RURAL DEVELOPMENT AND LAND REFORM**  
Date 2018.09.19

## **Introduction**

In terms of Section 17 of the Communal Property Associations Act, 1996 (Act No. 28 of 1996), the Director General is required to compile a report on the extent to which the objectives of the Communal Property Association Act, 1996 (Act No. 28 of 1996) are being achieved. The Minister is required to table such report in Parliament in every calendar year.

The Department of Rural Development and Land Reform has registered 1 566 Communal Property Associations (CPAs) since the inception of the Act. The success of these entities is measured by the level of compliance to the Act, including regulations, and their constitutions.

The ability of the CPAs to function properly with sound governance will enhance their intention to participate in the economy and will subsequently reduce unemployment, increase food security, and improve the living conditions of beneficiaries of land reform programmes. There are high levels of non-compliance with the Act and the CPA constitutions.

# **PART B: PERFORMANCE INFORMATION**

## **2.1 Departmental Performance**

The Department on an annual basis targets a number of communal property Associations to support towards compliance with provisions of the Communal Property Associations Act, Act 28 of 1996.

The support provided to CPAs refers to; facilitate update of the membership list; overseeing the Annual General Meeting; election of Committee Members; amendments to the Constitution of that specific CPA; compilation of Annual Financial Statements; formalisation of land transaction through CPA resolutions and training provided to members of the CPA.

Output	Performance Indicator	Annual Target	Annual Achievement
Communal Property Associations supported towards compliance with the Act	Number of Communal Property Associations supported towards compliance with legislation	256	304
		EC – 46	EC – 49
		FS – 10	FS – 0
		GP – 12	GP – 14
		KZN – 40	KZN – 41
		LP – 40	LP – 48
		MP – 30	MP – 78
		NC – 10	NC – 20
		NW – 40	NW – 37
		WC – 28	WC – 17

## **2.2 Provincial District Forums Performance**

### **2.2.1 Provincial Forums Performance**

The Minister has, after various consultations with the communities, advised the department to establish Communal Property Associations (CPA) District Forums. These forums have been performing certain functions within their abilities such as supporting other CPAs, overseeing elective annual general meetings (AGMs), etc.

#### **Eastern Cape**

The province has had its forums playing a vital role in mobilising individual CPAs to attend CPA Amendment Bill consultations.

#### **Gauteng**

The province has established District Forums however; it reported challenges relating to financial resources and the necessary expertise as a hindrance for it to function effectively.

## **KwaZulu-Natal**

The province has echoed the challenges faced by Gauteng Province in that the Forums lack financial resources to operate optimally.

## **Limpopo**

The District Forums in the Limpopo Province are operating optimally in Waterberg and Vhembe Districts. They function fairly in the Capricorn and Sekhukhune Districts while they are non-functional in the Mopani District. Functional Forums have mainly assisted in coordinating the CPA members for CPA training and in the mediation of disputes.

## **Mpumalanga**

District Forums in Mpumalanga are functioning properly. The department and the District Forums are conducting site visits to establish the status of each CPA. There is collaboration between successful CPAs and struggling CPAs to ensure skills transfer and experience sharing.

## **North West**

The North West Province has established District Forums in the Bojanala, Dr Kenneth Kaunda and Dr Ruth Segomotsi Mompati Districts. These forums are semi-functional. This is due to lack of resources.

## **Northern Cape**

The Northern Cape District Forums are: ZF Mgawu, Pixley ka Seme, Frances Baard, John Taolo Gaetsewe and Namakwa. Lack of financial resources, capacity and the distance between districts and CPAs are challenges that hinder progress.

## **2.2.2 Challenging CPAS**

CPAs are faced with various internal and external challenges. Amongst the common challenges is incomplete verification of restitution claimants, incomplete land transfer processes, lack of operating capital, infighting, unaccountability and non-transparent executive committees, political and business interference.

## **Eastern Cape**

The CPAs that were registered through the Restitution programme experience more challenges than those registered through the Redistribution programme. Challenges faced by these CPAs are mostly because of incomplete verification of beneficiaries and incomplete settlement of land claims. The CPAs that are in communal areas have a challenge with their Traditional Leaders. Common challenges are power struggles between the CPA Committee and the Traditional Leaders. The province has appointed mediators for CPAs experiencing conflicts and the Commission on Restitution of Land Rights is in the process of transferring land and the title deeds to those CPAs without land and title deeds.

## **Gauteng Province**

Wallmanthal CPA: The challenges relating to this CPA emanate from the manner in which the settlement of the land claims were handled. There was a consolidation of the individual land claims lodged by Wallmanthal CPA members and the community claim of Berlin Mission. Berlin Mission claimants subsequently established their own CPA and were awarded land even though they remained members of Wallmanthal CPA.

The Regional Land Claims Commission (RLCC) is in the process of addressing the problems relating to the awarding of the land.

Kudung CPA: There are factions within this CPA with competing interests. The Provincial Shared Service Centre (PSSC): Gauteng has attempted to regularise the CPA without success. Even the professional mediators appointed to assist this CPA could not resolve the problems. The department's efforts were interdicted through Court Orders initiated by some members of the CPA.

The factions within the CPA were consulted. Following discussions with all parties, it was agreed that the interdict will be rescinded and the CPA will be placed under Administration.

Sheepfold CPA: There are two opposing groups within the CPA. One group insisting that because the church made the application for land and therefore only members belonging to the church should participate as members of the CPA. Several attempts have been made to conduct elections and regularise the CPA by officials of the PSSC.

A panellist has been appointed through the Land Rights Management Facility to regularise the CPA. The regularisation process is ongoing.

## **KwaZulu-Natal**

KwaXolo CPA: The CPA was registered more than five years ago, however the property has not yet been transferred to the CPA. The issue on the ground is that the farm has been put under caretakership by the Regional Land Claims Commission (RLCC); however the same caretakers are the ones that have over the years been vandalising the farm. The beneficiaries are accusing the Executive Committee of benefiting unfairly from the caretaker.

The Office of the Regional Land Claims Commissioner has engaged the services of conveyancers to facilitate the transfer of the properties to the CPA.

Konningsberg CPA: There are labour tenants on the land restored to restitution claimants. The labour tenants do not form part of the CPA beneficiaries even though they were on the properties when the farms were restored. This has caused conflict between these two groups.

The department is facilitating the resolution of the conflict. An agreement was reached, in principle, between the department and the labour tenants that they will register their own legal entity to take ownership of the land that the CPA intends to donate to them.

## **Limpopo**

CPAs like Bakgatla Ba Mocha, Malambawane, Shigalo Wa Mahunguti, Bathlabine, Masha Makopole, Seabi, Songozwi, Serala, are problematic. Mediation services through the department, the District Forums and even through the Land Rights Management Facility (LRMF) could not succeed with these CPAs. The most common problem with CPAs is power struggles. These are mainly between CPA Committees and concerned groups. Most concerned groups are formed by previous committee members who are unwilling to accept the outcome of elections when they loose.

Officials are sometimes caught up in these disputes and they receive threats to their lives. There have been instances where officials were held hostage by factions within CPAs.

The province has embarked on a training programme that will end in September 2018. All CPAs will be trained on compliance and corporate governance matters which are the root causes of conflicts within the CPAs. The training programme is aimed at addressing specific challenges/complaints by concerned groups against CPA Committees. Such challenges relate to Committees' Terms of Office, financial maladministration and reporting.

## **Mpumalanga**

The biggest issue revolves around the verification of members and the consolidated land claims in Restitution projects. The CPAs stop the department from assisting by interdicting intervention processes.

The Commission on Restitution of Land Rights (Commision) is in the process of appointing a mediator to mediate disputes between opposing factions in the Mawulu and Sabaan CPAs.

## **Northern Cape**

Richtersveld CPA – the term of office of the CPA has expired and the department has intervened and appointed election agency which the current CPA does not want to cooperate with. The CPA is in the process of being placed under Administration Maremane (Iron ore) and Babatas CPA (wildlife) (former Lohatla military Base claimants) The Restitution claimants that have opted for financial compensation try to destabilise CPAs by insisting on being included as members of the CPA. Panellists were appointed for both CPAs. The CPAs were referred for administration due the infights that continue to take place and the forensic reports indicating financial maladministration.

The CPAs (Boichoko African farmers & Dirisanang small farmers) are alleged to have sold the land and the department is assisting the CPA to reverse the sale and the matters are both in Court.

## **North West**

CPAs that have resources are held back by infighting and this results in the collapse of governance. Amongst problematic CPAs are: Bakgatla ba Kgafela, Dikgatlong, Mamerotse, Magokgwane and Barolong boo Seitshiro.

The department intends to regularize the affairs of Bakgatla Ba Kgafela CPA. These efforts are hampered by court processes.

Dikgatlong & Mamerotse CPAs were recommended for administration. The process of placing these CPAs under judicial administration is underway.

Magokgwane CPA: The CPA is ready to hold elections for the new committee and it is in the process of appointing an independent electoral agent.

Barolong Boo Seitshiro CPA is under administration and the administrator has earmarked holding of election as the last phase of her role and handover the project to an elected committee.

### 2.2.3 Successes

The department, through its policies and legislation, is endeavouring to make CPAs compliant and operate within the scope of the law. The success of a CPA is measured through its level of compliance and the way in which its members derive benefit from their ownership of land.

Prov.	Name of CPA	Reasons for success
EC	Fayi Amatshezi Delindlala	There is production taking place on their farms however they still need support in order to be empowered to ensure that they are compliant with the Act and they implement what is in their constitutions.
GP	Inghalo	The youth of the CPA have been entrusted by their elders to run the affairs of the CPA. The CPA has taken the initiative to obtain mentorship privately from others within the livestock industry and have some small-scale livestock farming operation on the farm. The CPA would benefit from further assistance from the state for development funding and expertise to grow their business.
KZN	Amandla Emvelo	The CPAs have come a long way in maintaining consistent production on the farm and maintained relations of mentorship without any assistance from the department. The NTE Company (PTY)Ltd (NTE) is assisting in the forestry production and they have created employment opportunities on the farm for the beneficiaries. All of this has not happened without conflict in the community, but these have been relatively handled and not affecting production. They were able to secure funding from Independent Development Corporation (IDC) which they are paying off without fail.
LP	Bela bela Makuleke Mamahlola Makuleke	The CPAs have income generating activities and are doing well in terms of business; however there are minor compliance issues in terms of governance.
MP	Mawewe Mashobotho	The land is in full production. The community is producing sugarcane. Bursaries have been created for the beneficiaries. Beneficiaries are employed by the CPA. Dividends are paid annually. Compliance with the CPA Act, reports and Annual Financial Statements are submitted. Strategic partners were engaged by the new executive committee and the farm is in production. It yielded a profit for the first time after many years. Site visits have been conducted to confirm the production. The community members have each been given a one hectare plot on the farm for their use and the Department of Agriculture provided tractors and seeds.
NW	Barokolgadi Welgeval	These two CPAs own properties that are cited in the well-known attraction sites like the Pilanesburg, Madlikwe and Borakalalo game reserves. Associations have seen benefits which have accrued to their members. Although their success in managing the affairs of their associations is significant, more still need to be done to commercialise the businesses, especially through public and private initiatives.

## 2.3. Judicial Administration

CPAs are placed under administration after provision of support and other administrative interventions to assist such a CPA to comply with the legislation and constitution have failed. Only three of the nine provinces have CPAs placed under administration.

Province	CPA Name	Date the CPA placed under administration and duration of administration	What lead to Administration?	When is the administration period lapsing?
North West	Barolong Boo Ratlou Ba Ga Seitshiro	2015	Maladministration and conflicts	Upon holding of election, and reports being finalised. All these processes are earmarked to be concluded by end of August 2018.
Mpumalanga	Moloto	16 November 2016	Conflicts, unaccountability and maladministration	The administration order will exist for six months after the appointment of the administrator. (Term has been extended until 31 December 2018)
Northern Cape	Khomani San	25 April 2014. The duration was meant for 3 years	Financial maladministration	Once a 3-year plan has been submitted to court. The plan was concluded in April 2018, and department is awaiting feedback from the attorneys of the community before submitting to court.

## 2.4 Legislative Mandates

The Communal Property Associations Act, 1996 (Act No. 28 of 1996) requires the Director-General of the department to annually submit a Communal Property Associations (CPA) report to the Minister. The requirement is set out in Section 17 of the Act. The Minister must table the report in Parliament. The report reflects the extent to which the objectives of this Act are being achieved. This gives the department the opportunity to get a holistic view of what is happening in CPAs and to take steps and address any challenges identified.

The CPA Amendment Bill is currently undergoing Parliamentary consultation. Upon completion of the consultation, it is envisaged that the Amendment Bill will address the challenges identified during the implementation of the Act. Amongst others, the Bill makes provision for the creation of a CPA Office and the appointment of the CPA Registrar and deputies which will enable efficient oversight over the CPAs.

## 2.5 Recapitalisation And Development

This programme and its functions has been relocated to the Department of Agriculture, Forestry and Fisheries (DAFF) as that department was best positioned to implement and has the ability within its programmes to provide sustainable support towards agricultural projects. Part of qualifying criteria for a CPA is that it must comply with legislation and its constitution and have sound governance structures and principles in place. It further requires a CPA to develop a sound business plan. The following CPAs have been assisted through Recapitalisation in the financial year 2017/18.

Province	CPA Name	Members	Extend of land	Program	RECAP Amount	Type of Production	Community Impact
EC	Luthando	12	19.4866	1HH/1H	R2 403 702	Crop and Livestock	Job opportunities created - as a result 10 casual labourers employed to assist in planting of vegetable and shed renovation. The department partnered with SEDA to offer training. The nine existing beneficiaries were trained on business management
LP	Kranspoort	130	1542.8568	Restitution	R3 729 659.19	Vegetables	The recapped projects are profitable. It should be noted that funding has just been effected recently in the 2017-2018 financial year. Members in the funded CPAs are benefitting in terms of employment and should in the long run benefit in dividends.
	Koka Matlou	250	2596.1933	Restitution	R2 165 737 .50	Goat Production	
	Lebelo	367	759.2785	Restitution	R1 270 719.95	Beef Production	
	Kwa-Huba	305	1120.08	Restitution	R1 754 007.00	Game Breeding	
	De Hoop	349	678.2176	Restitution	R1 705 000.00	Vegetables	
	Mavhungeni	192	561.388	Restitution	R2 086 464.19	Vegetables and orchards	
	Tshathogwe	346	3285.5224	Restitution	R1 317 275.22	Vegetables	
NW	Tlhabanyane	18	1026.07	Restitution	R3 000 000	Crop production	
	Batshweneng	300	889.2751	Restitution	R12 846 270	Crop production	

## 2.6 Communal Property Associations Strategy

The department has acquired land to meet the needs of communities through various programmes. The department has registered CPAs for purposes of holding land, for the benefit of community members.

There is emerging consensus that Communal Property Associations (CPAs), as land administration entities, and in many instances, as a vehicle for business ventures, have tended to fail in performing their basic functions, largely because they are riddled with internal governance deficits and conflict among members. Such conflict undermines the land rights of members and constrains the effective utilisation of land by beneficiaries who also face hostile markets. The Department of Rural Development and Land Reform (DRDLR) has not yet succeeded to adequately oversee and support CPAs to ensure their effective functioning.

As part of interventions, the department is developing a strategy to assist CPAs. This strategy is intended to improve monitoring, application of intervention mechanisms and provide support in an integrated manner to enhance the sustainability of CPAs, based on good corporate governance.

## Development of CPA Information Management System

In order to adhere to the requirements of the Communal Property Associations Act, 1996 (Act No. 28 of 1996), the department is developing a CPA module as part of an already existing in house web based system called Land Administration Web.

The Land Administration Web (LAW) was developed for the DRDLR as a web-based system accessible via the DRDLR intranet and the internet since 2007.

With the addition of a CPA module, the DRDLR will be able to manage the registration, maintenance, searches, deregistration and reporting on CPA information and generate maps for all CPAs.

The CPA module functionality on LAW will comprise the following:

Electronic capturing and updating of CPA information, e.g EXCO member details.

Registration of CPAs and allocation of system-generated unique numbers.

Electronic generation CPA registration certificates.

Uploading of relevant documentation against individual CPAs.

CPAs will be linked to one or more properties, incl. land ownership history.

System-generated reports that can be exported to Excel.

/CPA properties will be shown on map via GIS viewer.

Different rights will be assigned to different users, e.g. viewing, capturing and editing.

Certain information will be auto-populated from LAW, e.g. core property data.

## 2.7 Stakeholder Involvement

### Vumelana Advisory Fund Governance Award

Vumelana is a non-profit organisation that helps communities in the Land Reform Programme to develop their land. It funds advisory services to structure commercially viable partnerships between communities and investors that create jobs, income and skills. Vumelana demonstrates the value of markets and partnerships as a means of increasing access to land that can be used productively, improving land tenure, and providing linkages to finance, skills and networks needed to make effective use of land. This encourages a more inclusive agenda for land reform. The low level of governance and administrative capacity in Communal Property Associations (CPAs) is a result of limited resources and the absence of incentives (or sanctions) for

compliance with legislative and other requirements. The effective governance of these bodies poses a number of issues for communities who are often first-time land owners and who often have to resolve various complex problems. Vumelana set itself a challenge to make an impact in this area, realising the immense contribution that can be made by well-functioning CPAs in advancing the objectives of land reform.

In 2014, Vumelana launched the Vumelana Governance Award. The award aims to reward and encourage good governance practices by Communal Property Associations and Trusts that have benefitted from the Land Reform Programme and are registered under the Communal Property Associations Act, 1996 (Act No. 28 of 1996) and the Trust Property Control Act, 1988 (Act No. 57 of 1988). Communal Property Associations and Trusts that demonstrate a high degree of cohesion, transparency and accountability to their members through, *inter alia*, sound financial management and reporting systems, are rewarded with cash prizes.

This is designed to incentivise Communal Property Associations and Trusts to maintain systems and standards that seek to protect the interests of the members, govern its affairs properly, and administer community assets effectively and in the interests of its members.

Since being launched in 2014, a total of R1.2 million of prize money has been awarded to seven communities.

The following CPAs have won Vumelana Governance Award since 2014:

The Bela-Bela CPA from Limpopo has won the 2016 Vumelana Governance Award, in the category for Established Communal Property Institutions (operational for more than 10 years).

The Bela-Bela CPA has sound governance practices in place that guides the CPA leadership in governing their affairs properly and administering community assets effectively and in the interest of its members.

The CPA's constitution guides their governance and operations (supported by a business plan) and it also addresses issues such as communicating with its members, member dispute resolution and member benefit distribution. The CPA has also been successful in forging relationships and partnerships with various partners and stakeholders and received enormous support from these parties over time. Their willingness to be guided and learn from the partnerships they have established added to their success.

The Jabulani Agri-Village CPA from Mpumalanga won the category for Emerging Communal Property Institutions (operational for less than 10 years) in the 2016 Vumelana Governance Award.

The adjudicators awarded Jabulani AgriVillage CPA for the manner in which the CPA is run and its demonstration of outstanding levels of compliance in the management of communal assets, extensive training, good governance and good knowledge of governance with an impressive appreciation of accountability.

The CPA has a constitution that guides the governance of its operations. All the members serving on the Executive Committee received comprehensive training in governance related issues. The adjudicators were impressed with the transparent manner in which the organisation managed its finances, and the availability of an experienced bookkeeper and administrator on a full-time basis.

## **The Marobala-O-Itsose CPA won 2nd place in the 2015 Vumelana Governance Award.**

The Marobala CPA is membership driven, and its operations are based on the principles of democracy, transparency and accountability, and it achieved exceptional growth in that the leadership managed to turn the governance performance around within a very short time frame.

Ten years after the adoption of the first constitution, it was amended through an inclusive and transparent process during 2014 to address the shortcomings identified during this period. This new constitution was unanimously adopted by a quorate community General Meeting and was formally acknowledged by the DRDLR. The CPA holds regular AGMs, which is well documented, and has well-developed benefit distribution principles where it invests in various initiatives to improve the livelihoods of its members.

## **The winner of the 2014 Vumelana Governance Award is the Moletele CPA.**

The governance of the CPA rests on four pillars: effective communication with members, effective use and protection of the members' assets, sound administration and statutory compliance.

The CPA's success in governing its affairs lies in teamwork, good planning and good communication. The leadership is motivated and confident.

The CPA has a well-maintained office with systems that are being maintained within the spirit of diligence and accountability.

## **The Makuleke CPA was awarded 2nd place in the 2014 Vumelana Governance Award.**

The governance of the CPA rests on the adoption of and adherence to a constitution that governs all the affairs of the CPA, well developed policies, good and consistent communication to its members through Annual General Meetings, consultative forum meetings and quarterly meetings, and well-developed benefit distribution principles where it invests in various initiatives to improve the livelihoods of its members.

## **The Barokologadi CPA won 3rd place in the 2014 Vumelana Governance Award.**

The CPA's Executive Committee is well-organised and has strong ties to and a good working relationship with the traditional authority whilst still maintaining its own identity. Their motto means "Push to Win" and illustrates their commitment towards goal achievement and success.

The following CPA projects were supported by Vumelana:

Nwandlamhari CPA and the MalaMala Tourism project

Vumelana's support to the Nwandlamhari involved multiple phases. Phase I resulted in the Nwandlamhari CPA gaining access to the existing tourism facilities as well as the well-established MalaMala Game Reserve marketing, and management operations. Phase II assisted the CPA to address the suspensive conditions included in the Phase I Framework Agreement, develop a draft development plan for the Charleston Camp Development and ensured that the Framework Agreement is successfully implemented.

Vumelana also supported the CPA to develop its capacity to manage and administer the property under its control for the benefit of its members. This included the establishment of a company and establishing principles and systems of good governance and sound financial management and reporting.

## **Moletelle CPA and the South-East Cluster Agri-Project**

The Moletelle CPA asked Vumelana for support to find an investor to develop the farms.

Four potential investment partners were identified who were already active in fruit farming and keen to expand their operations. After running a competitive bidding process which set out the desired benefits for the CPA, including rental payments, equity sharing options and employment and wages, an agreement was entered into between the CPA and a neighbouring farmer. This was based on planting 115 hectares of new orchards, repairs to the bulk water supply, the replacement of irrigation infrastructure, fixed investment of more than R10 million and annual operating costs of R7 million per annum.

Vumelana also supported the Moletelle CPA in structuring an agreement with a private tourism operator to develop a tourist lodge in the Thornybush Nature Reserve.

Vumelana also provided CPI support to the Moletelle CPA to assist them with improving on governance, setting up appropriate institutional structures and develop policies.

## **Barokologadi CPA and the Madikwe Game Reserve project**

Vumelana supported the Barokologadi CPA to finalise agreements with a private tourism operator. This resulted in a 4,000 ha piece of land adjacent to the Madikwe Game Reserve being incorporated into the reserve and development. Vumelana also provided CPI support to the CPA to improve its governance and organisational capacity.

## **Mamahlola CPA and the Mmamahlola Farms Agri project**

Vumelana appointed advisors to facilitate an investor mobilisation and deal structuring process on behalf of the Mamahlola CPA and the Mmamahlola Farms. This resulted in a lease agreement between the CPA and a commercial farmer for replanting and development of 370 hectares of orchards to produce fruit for export including soft citrus, avocado and macadamia as well as the related renovation and improvement of farm infrastructure and acquisition of all required movable assets.

# **PART C: CPA STATUS PER PROVINCE**

# Eastern Cape

There are still a high number of CPAs that are non-complying and few complying CPAs. The province is experiencing lack of capacity to improve the engagement levels and support towards CPAs. The entities require constant monitoring and support to achieve good governance level. Although some CPA matters are referred to the Land Rights Management Facility (LRMF) for regularisation, a lot of work still needs to be done to turn the situation around.

The Free State reflects a high non-compliance level. There is a decrease in the number of complying CPAs. The challenge is due to lack of capacity to support CPAs and failure by CPAs to apply their constitutions and the legislation.

# Gauteng

KwaZulu-Natal has the highest number of complying and supported CPAs in the country. Despite this, a huge number of CPAs remain unattended to due to lack of capacity. The province has a substantial number of traditional leaders as members of CPAs and this result in conflict between CPA members and traditional leaders.

# Limpopo

Limpopo reflects the majority of its CPAs as not complying with legislation. The challenge is similar to the rest of the provinces. Lack of capacity to match the existing number of CPAs registered in the province. The Land Rights Management Facility (LRMF) and the available capacity can only engage with very few CPAs. CPAs require continuous support to fully comply.

# Mpumalanga

Mpumalanga is the second province with a large number of non-complying CPAs. The cause of these CPAs not complying with their constitutions and CPA Act is due to infighting, factions emanating within CPAs and political interference. Despite these challenges, the department has supported a large number of CPAs through training.

The province has a high number of non-complying CPAs. There has been an improvement in the number of CPAs that have been supported towards compliance from the previous financial year. Non-compliance of these CPAs is mostly due to factions within CPAs, roles and responsibilities of the CPA and Traditional Council not specified in the CPAs' constitution and certain members holding the CPA at ransom because of financial benefits as most of these CPAs have mines operating on the land.

## North West

The North West province has experienced a high number of non-complying CPAs, though the department has supported a substantial number of CPAs. Some of the reasons for non-compliance of CPAs in the North West Province are due to conflict of interest between the CPAs and the Traditional Councils. The existence of mines on CPA land creates infighting among CPA members due to financial benefits received by a few members only.

## Western Cape

Western Cape has notably the least number of registered CPAs. The majority are compliant and were supported towards compliance. The province lacks capacity to support all CPAs. Failure to implement constitutions and the Act contribute mainly to the poor governance of CPAs.

## Compliance Trends

There has been a significant drop in the number of complying CPAs, however the department has provided support to more CPAs. It is anticipated that the increased number of CPAs that were supported towards compliance will lead to more compliant CPAs in the Financial Year 2018/19.

Province	2009-10	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18

# **PART D:**

# **HUMAN RESOURCE MANAGEMENT**

## Human Resource Capacity

There is a dire need of capacity within the department to assist in providing internal support to Communal Property Associations and to turnaround these entities towards good governance and compliance with the legislation. The department is currently experiencing shortage of capacity to an extent of relying heavily on the support provided by the Land Rights Management Facility (LRMF) panel. The current human capacity consists of 83 personnel nationally which deal with over 1 566 CPAs nationwide, including other tenure related matters.

Province	Chief Director	Director	Deputy Directors	Project Coordinators	Senior Project Officers	Project Officers	Legal Officer	Secretary/ Other	Total Staff

## **Conclusion**

Central to the success of the Land Reform and Restitution programme is functional, viable, sustainable and accountable legal entities that contribute to the economic upliftment of their members. Unemployment is a major challenge facing the country and its people. Any step towards the reduction of unemployment brings relief to the poor masses of the people. It is of paramount importance for the CPAs to effectively play the role as catalysts of economic upliftment, food security and reduction of poverty. The endeavours of the department in facilitating the provision of support and the turnaround of fortunes for the CPA is intended to make it functional and viable entities that fulfill the dreams and aspirations of its members. The department will continue with the efforts to help CPAs and their members to unleash their economic potential. The strategy that was referred to this report is intended to guide that process.
