## Accounting Authority Statement

The past five years marked an exciting period in the operationalization of Freedom Park. After the completion of construction of Freedom Park, 2015-2020 ushered an era of a unique series of events, activities and strategic partnerships in honouring the heroes and heroines as inscribed through the Memorialisation of 8 conflicts that shaped South Africa to what it is today.

Freedom Park is a national Legacy Project whose vision is to be a leading national and international icon of humanity and freedom. The struggle for humanity and freedom will always symbolize the universal connections among South Africans of all backgrounds and all ages. This extent to the African continent and the international community, especially those who played a crucial role during the struggle against Apartheid as a crime for humanity.

In realising the vision, Freedom Park has been home for several countries, strategic stakeholders and individuals as they took the journey of healing, reconciliation, social cohesion and nation building. The Council has benefited from time to time participation of these experiences which had laid foundation in providing strategic direction and oversight to the entity with a full understanding of the operations.

The entity has experienced challenges in relation to regress in annual audit performance whereby the entity obtained a qualified report in 2017/18 financial year but results has improved in the 2018/19 financial year. The entity has also experienced significant challenges in the financing of maintenance and completion of some infrastructure projects. Internal controls were therefore strengthened to improve and sustain the entity's governance, audit and ethical standing. The entity will put policies that strive to eliminate irregular, wasteful and fruitless expenditures. Policies to capacitate the entity with human capital will also be reviewed and applied in compliance to government priorities as were set by the President of the Republic in his State of the Nation Address for the new administration. The Minister's goals will be aligned with the entity's key priorities, especially those of redress, inclusivity and access.

Resource mobilisation will be the focus for the next term in order to grow the visitors' numbers who will consume the Park's products and services as well as to generate

funds. This will not be done in vain, but to intensify redress of the past as visitors are exposed to different

Memorialisation elements of the park as well as engagements through dialogues, seminars etc. Freedom Park will endeavour to lead in the area of Indigenous Knowledge System. This will be enabled by extensive research on culture, history, heritage and spirituality.

## Accounting Officer Statement

Freedom Park is about emancipating the African voices, telling the world who they are, where they come from, where they are and where they would like to be. Reconciliation and nation building represent one of the national government priorities. In emancipating the African voice, Freedom Park has in the past five years contributed to the processes of reconciliation and nation building from a heritage perspective through engagement with conflicted communities, polarized cultural groups by exploration and celebration of cultural diversity.

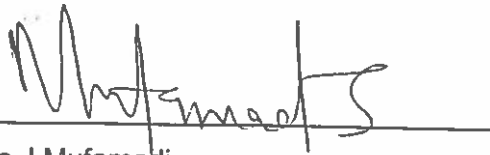

The five-year term 2015/2020 under review has seen the entity achieving a record high performance of 87.5% at the end of the term, as compared to other years since its establishment. To date more than 139 000 names have been inscribed on the Wall of Names, which is the main memorial recognising all eight conflicts that shaped South Africa to what it is to date. The entity has recorded an increase in revenue income since its inception, feet through the gate, especially the learners has also grown. The entity has also seen a steady growth of international visitors. The launch of the restaurant, the gift shop as well as the signing of the MOU with the Centre for the Advancement of Citizenry Participation in International Relations (CACPIR) that culminated in the establishment of The Veterans Voice online radio station operating at Freedom Park, are some of the achievements for the last five years.

The journey travelled so far was challenging, eventful, yet worthwhile and successful. Freedom Park has strived to empower visitors to reflect upon their past, improve their present and build on their future as a united nation.

In the past three (3) years the entity has experienced the toughest time due to reduction of government grants which led into deficits for three consecutive years. However, this was overcome through a financial turnaround strategy. The entity has embarked on a fundraising drive which has yielded few achievements in terms of the National Institute for Humanity and Social Science funding for educational programmes for a year, and donation of a mobile exhibition truck from SAPESI that will assist with the outreach. The next term will see the Freedom Park intensifying strategies, policies and models to attract funding from relevant stakeholders so that the entity can remain relevant and sustainable. The next term offers Freedom an opportunity to align with new developments in the country, especially the 4<sup>th</sup> industrial revolution on technological developments. These

developments will see the entity introducing online bookings, improving virtual tours as well as Customer Relations Management systems aimed at enhancing customer oriented experience. These developments will give an opportunity for structural alignment.

## **Part B: Our Strategic Focus**

### **5. Updated Situation Analysis**

#### **5.1. Internal Environment**

Freedom Park is a liberation heritage memorial and symbol of reconciliation - established to create and foster a post-apartheid national consciousness of the common legacy that binds the people of South Africa. The mandate of Freedom Park is to honour those who died in the struggle for freedom and humanity and to foster reconciliation, social cohesion and nation building in the country and also narrates the story of creation dating back 3.6 billion years to emancipate an African Voice. With its unique architectural structure with infusion of African features State of the art technology, Freedom Park has been Voted one of the top ten architecturally outstanding museums in the world.

Freedom Park is improving and maintaining its reputation as an institution which drove programmes of social cohesion, nation building and reconciliation through dialogues, seminars and other related events. The entity established and developed a close working relationship with electronic and print media platforms. Collaborative events with like-minded institutions received positive media coverage from community, regional to national media resulting in a record high advertising value equivalence and immense publicity for the organisation. A 3 Star grading by the Tourism Grading council was maintained over the years. Pretoria News readers voted Freedom Park as a heritage site of choice for consecutive three years. More than 54 Head of States and other dignitaries were hosted since inception. 94.2% of customer satisfaction was recorded on yearly recorded. Freedom Park has been chosen to lead the Liberation Heritage Route project for alternative memorialisation of Liberation struggles.

The past five years heralded a distinct period in the history of South Africa with celebration of 25 years since the constitutional democratic rule in the country, the Centenary celebrations of the liberation stalwarts, the first democratically elected president - Mr Nelson Mandela and Mama Albertina Sisulu, the 40<sup>th</sup> anniversary of the passing on of Professor Mangaliso Robert Sobukwe and Publication of the book entitled "Freedom Park: A place of Emancipation and Meaning"

Over the years, the entity enjoyed the much-needed cooperation of valued organisations and institutions such as the South African Heritage Resource Agency, the National Youth Agency,

the National Heritage Council, the South African National Military Veterans, government departments, the embassies, the Names Verification Committee, traditional leaders, spiritual organisations, tourism agencies and political parties. Freedom Park narrates and exhibits the liberation struggle, through four pillars, one of which is international solidarity. The entity continues to work closely with countries that contributed to the liberation of the country on matters of mutual interest and in line with the objectives of the organisation.

---

Since 2017-2018 financial year Freedom Park reported a consistent deficit, however at the end of 2018/2019, the entity recovered, this being the result of the turnaround strategy implemented. The reported deficit was mainly due to the fact that there has been reduction in grant revenue in the past five years as well as an increase in expenditure due to depreciation, impairment loss and losses on the disposal of assets. The consistent budget cuts also hampered progress in our recovery efforts. The recurrence of financial constraints resulted in a drawback in terms of the maintenance of the organisation - in particular the Park and Museum. Asset management and the replenishing or refurbishing of obsolete technological and general tools has also been a challenge due to financial constraints. The institution has since catapulted and reinvigorated its fund-raising efforts among others, through venue hire.

## **5.2. External Environment**

Freedom Park in collaboration with the City of Tshwane and the Department of Public Works are in discussions on the developments in Salvokop area that will see access to the park attractive. New ways are being explored in terms of signage and positioning the entity and these includes utilisation of digital marketing platforms. A new approach with strategic partnerships is being looked at with an aim of establishing long-term relationships that can yield tangible impacts. Continuous developments and enhancement of product offerings will attract and retain visitors.

The entity can further position itself as the leading Indigenous Knowledge System (IKS) hub, especially with the state of the art Pan African Archives (PAA) infrastructure.

The introduction of a new National Resistance and Liberation Museum threatens the sustainability of Freedom Park. The tightening of Government fiscus has affected all government departments. The entity has over the years lost political support. We are experiencing less visits by Head of States to honour heroes and heroines, especially those who supported South Africa during the Apartheid regime.

With the reduction of government grant, it is becoming difficult to maintain the buildings and other assets. The grant reduction as well as the announcement by government of the termination of performance bonus payments will see hostile relations with labour movements.

With the aging Information Communication Technology (ICT) infrastructure, there is a possible threat of cyber-crimes in the form of hackings. The infrastructure need to be upgraded to the latest technology and procurement to be aligned to the ICT strategy. The revised ICT strategy aims at addressing the above raised risks and provide mitigations strategies. The implementation of the ICT policies, procedures and processes including framework and standards will enhance the governance environment within ICT, which will align to the corporate governance.

## 6. Explanation of planned performance over the medium term period

a) The contribution of outputs towards achieving the outcomes and impact in the Strategic Plan aligned to the mandate of the institution; as well as the achievement of priorities of women, children and people with disabilities.

Procurement systems and processes will be more focused on achieving the priorities of women, youth and people with disabilities through the spend allocation. Improved turnaround times on procurement for efficient administration, to enhance the reduction of irregular, wasteful and fruitless expenditure. This will require procurement planning and contract management. The maintenance of the unqualified audit outcome will increase the organisational reputation and public confidences on Freedom Park. Plans are in place to realign the organisational structure of the entity with a view to further strengthen administrative, management and financial systems to improve service delivery. Certain functions would be decentralised to expedite decision making and service delivery.

b) Explanation of planned performance in relation to outputs must be discussed within budget programmes, the rationale for the choice of the outcome indicators relevant to the respective outcomes.

The outcome indicator is aligned to the national priorities.

c) Explanation of the outputs contribution to the achievement of the outcomes.

The project aims to improve data quality and integrity in all the departments to ensure that the data is as accurate as possible and enables the entity to plan, monitor and report on the progress.

## 6. Explanation of planned performance over the medium term period

a) The contribution of outputs towards achieving the outcomes and impact in the Strategic Plan aligned to the mandate of the institution; as well as the achievement of priorities of women, children and people with disabilities

A single and key outcome for the Heritage & Knowledge (HK) Department, the main department that carries on its back the core business of Freedom Park (FP) as the agency of the Department of Sports, Arts and Culture (DSAC), is about 'Redress, Inclusivity and Access'. The fulfilment of this outcome contributes variably to the National Development Plan (NDP, Priority 5: 'Social Cohesion and Safe Communities'); White Paper on Arts and Culture ('Extending arts, culture and heritage infrastructure, facilities and resources beyond colonial and apartheid boundaries', 'Providing education, training and skills through formal and informal programmes'); Ruling Party Manifesto ('Building a united and democratic South Africa that is non-racial, non-sexist and prosperous', 'Promoting nation building, social cohesion and celebrating our diversity as a nation',

'Stepping up the fight against racism, sexism, homophobia and other intolerances', 'Building a better Africa and a better World'); State of the Nation Address (SONA, 'Education and skills', 'Social cohesion and safe communities', 'A better Africa and the World'); and some of the Minister's Ten Point Plan (Outcome 14: 'Social cohesion and nation building', 'Focusing on Africa and a global space', 'Resistance and Liberation Heritage Route (RLHR) infrastructure, 'Programmes that provide access to library and archival infrastructure for all, 'Support school curriculum that teaches correct South African history and heritage (RLHR)'. FP's mandate 'honours heroes and heroines of the struggles for freedom and humanity, in order to foster reconciliation, social cohesion and nation building'. Our HK heritage resource, educational and research programmes target the previously disadvantaged women, youth and people with disabilities as part of the fulfilment of the departmental outcome of 'Redress, Inclusivity and Access'.

**b) Explanation of planned performance in relation to outputs must be discussed within budget programmes, the rationale for the choice of the outcome indicators relevant to the respective outcomes.**

On the whole, our HK outcome indicators were carefully crafted with a view to address the departmental outcome of 'Redress, Inclusivity and Access'. The HK department's Heritage Resource Unit outcome indicators deal with acquisition, digitization and processing of archival materials and collections generated by peoples and organizations which were at the forefront of the Pan African struggles for freedom and humanity. We selectively acquire library books that enhance the African and Diasporic storylines of the institution. The names of heroes and heroines that we honour by means of inscription on the Wall of Names and display in the Gallery of Leaders are across the former colonial and apartheid boundaries of race, class, gender and age, and most of the people we honour are those who were previously oppressed and marginalized or would have been excluded. Our temporary exhibitions foreground and celebrate people, organizations, events and stories that shaped our triumph of freedom over subjugation and the victory of democracy over racial discrimination and oppression. In all, the Heritage Resource Unit provides access to heritage resources, knowledge base and infrastructure in the museum, archives and the library to all categories of visitors.

Similarly, one HK Education Unit's outcome indicator is intended to publish materials that support the offering of a variety of quality assured education programmes that provide decolonized, informal and non-formal education on the history of resistance, liberation and heritage (RLH) as a complementary and corrective measure to the existing gaps in the Basic and Higher Education curriculums. The holding of the heritage

education event is intended to have a similar effect. Other two outcome indicators of conducting storytelling festival and publishing a collection of stories seek to emancipate the previously distorted and silenced African voice as part of redress. All these Education Unit outcome indicators preferentially target the youth and people with disabilities.

Likewise, the Research & Development Unit's outcome indicators address the HK departmental outcome of 'Redress, Inclusivity and Access'. The outcome indicator on research undertakings on the heroes and heroines of the struggles for freedom and humanity and the holding of workshops to verify, validate and approve such data contributes substantially to the honouring of such stalwarts by means of engraving their names on the Wall of Names and displaying them in the Gallery of Leaders regardless of their race, class, gender and age divisions. Such research undertakings and memorialization of the heroes and heroines straddle national, continental and international divides, and thereby contribute to reconciliation, social cohesion, nation and continent building. Key to another outcome indicator on research papers is the production of new and decolonized body of knowledge on African resistance, liberation, heritage and spirituality (RLH) to redress distortions of the past. The outcome indicator on seminars, conferences and public lectures, with their carefully chosen topics and themes, is intended to advance the emancipation of the previously suppressed African voice. The other two outcome indicators on dialogues and interfaith programmes include women and the youth as active participants in the shaping of our history, heritage, spirituality and IKS. The two outcome indicators therefore contribute to the burgeoning body of oral history that was despised in the past, and foster reconciliation, social cohesion and the building of a democratic society.

**c) Explanation of the outputs contribution to the achievement of the outcomes.**

The availability of the budget to fund the roll-out of the HK programmes that constitute the core business of the entity is one of the main enablers towards achievement of the 5YR targets. The biggest chunk of the budget should be allocated to the HK department's core business programmes rather than to the supporting departments, as well as the operational and maintenance requirements. Such adequate budget allocation should also cater for the completion of deferred infrastructural projects such as the Gallery of Leaders for the Research & Development Unit; completion of Senthaga and Green Room, as well as the introduction of the Sign Language for the Education Unit; Digitization, installation of Braille Facility and introduction of the Electronic Records Management system for the Heritage Resource Unit of the HK Department. Active national, continental

and international partnerships initiated and maintained by the HK Department are key to the realization of the outcome of 'Redress, Inclusivity and Access' and its related indicators and targets. The core business programmes of the HK department can effectively rolled-out with the involvement of a variety of national, continental and international bodies and organizations, as well as cooperation with the Southern African Development Community (SADC) countries and the African Union, as in the RLH project.

The identified impact to be achieved by the HK Department is 'Social Cohesion'. The key HK Department's outcome that facilitates the achievement of such impact is 'Redress, Inclusivity and Access'. As already explained above, the HK Department has carefully crafted outcome indicators, outputs and targets of the Heritage Resource Unit, Education Unit and the Research & Development Unit – the three key units that comprises the department, for the realisation of the impact.

**6. Explanation of planned performance over the medium term period**

- a) **The contribution of outputs towards achieving the outcomes and impact in the Strategic Plan aligned to the mandate of the institution; as well as the achievement of priorities of women, children and people with disabilities**

Public Participation programme will focus on increasing demands of Freedom Parks products and services in the next medium term period. This will be done through various interventions to support the envisaged outcome. Positioning of Freedom Park as a historical and heritage destination becomes a key factor. Positioning will be done to various target markets inclusive of activities targeting youth and women in honouring heroes and heroines of the 8 struggles memorialised by the Freedom Park. These interventions will help portray and celebrate the role played by youth and women in the 8 conflicts depicted on Freedom Park’s Wall of Names. In addition, school children will be targeted to expose them to the South African history untold so as to encourage emancipation of African Voice in their journey to decolonise education as is the new struggle emerging.

- b) **Explanation of planned performance in relation to outputs must be discussed within budget programmes, the rationale for the choice of the outcome indicators relevant to the respective outcomes.**

The programme will also for the first time introduce a massive public awareness campaigns through establishments of signature events that will attract various target markets to visit Freedom Park and utilise its products and services. These events will be in the form of public lectures, music concerts assisted by massive social media and other marketing campaigns such as production and filming of documentaries from the heritage and knowledge material existing at Freedom Park. Outreach initiatives will include online debates to accommodate the digitally advanced target market, school debates to compliment school tours and youth and community engagements on issues of social cohesion, nation building and

reconciliation. Several ambassadorial initiatives to engage young patriots in instilling the pride of the national identity will be established in collaboration with the Departments of Sports, Arts and Culture and Basic Education. Media ambassadorial programme will target the already established media and communication forums to assist in marketing Freedom Park.

**c) Explanation of the outputs contribution to the achievement of the outcomes.**

Three outputs were thought through in an effort to achieve the outcome of increased demands for products and services. These outputs will position Freedom Park as a heritage and historical destination for the South African, African and international tourists from all walks of life. The positioning will be done through intensified public awareness initiatives as mentioned above as well as collaborations with like-minded institutions to advance the notions of culture, heritage, history, spirituality as foregrounded by indigenous knowledge systems, as advocated by Freedom Park.

### Explanation of the contribution of resources towards achievement of outputs

Over the medium term, Freedom Park plans to focus on building awareness about heritage, and developing, promoting and protecting heritage for current and future generations. It aims to achieve this through efforts such as name inscription and finalization of gallery of leaders, which honours those who dedicated their lives to South Africa's liberation struggle, particularly its unsung heroes and heroines. Freedom Park will continue focusing on collecting, preserving and providing and promoting access to, and awareness of, South Africa's national heritage by hosting exhibitions and also positioning Freedom Park.

Freedom Park is funded mainly by the grant received from Department of Sports, Arts and Culture, the grant is expected to grow by 4% over the MTEF. The remainder revenue will be earned through entrance fees, donor assistance, sponsorships, rental income and interest on investments with the average annual decrease of 8%. The main expenditure will be the maintenance of the infrastructure and the compensation of employees both with annual growth of 5% over the MTEF.

The Department of Sports, Arts and Culture has conditionally approved the reprioritisation of the infrastructure allocation of R 40 million for 2020/21, which will be used to address repairs and maintenance within the Park, outlined on the Conditional assessment. Major infrastructure project include the finalisation of the Gallery of Leaders and the overhaul of the Ventilation systems. The prioritization of women and youth-owned construction companies will receive a further boost

## Annexure D: Materiality Framework

### Background

This document was developed to give effect to the May 2002 amendment to the Treasury Regulations, whereby the following new requirement was set for public entities:

*“For purposes of material [sections 55(2) of the Public Finance Management Act (PFMA)] and significant [section 54(2) of the PFMA], the accounting authority must develop and agree a framework of acceptable levels of materiality and significance with the relevant executive authority.”*

[Section 28.3.1]

Public entities are required to include the Materiality and Significance Framework in the Strategic Plan to be submitted to its Executive Authority. [TR 30.1.3]

No definitions for the concepts “material” and “significant” are included in either the PFMA or in the Treasury Regulations. Accordingly, in compiling this framework the Park has sought guidance from, inter-alia SAAS 320.03 (published by the South African Institute of Chartered Accountants), which defines materiality as follows:

*“Information is material if its omission or misstatement could influence the economic decisions of users taken on the basis of the financial statements. Materiality depends on the size of the item or error judged in the particular circumstances of its omission or misstatement. Thus, materiality provides a threshold or cut-off point, rather than being a primary qualitative characteristic which information must have if it is to be useful.”*

Further guidance was drawn from SAAS 320.17 for a public sector perspective: The following SAAS guidance is pertinent to the Park:

*“In an audit of financial statements in the public sector, the auditor’s assessment of materiality may be influenced by the public accountability of the audited entity, and the sensitivity of the entity’s accounts, activities and functions regarding matters of public interest.”*

The reference to “economic” decisions (SAAS 320.03 above) is therefore, assessed as not being conclusive or wholly appropriate to a public entity such as the Freedom Park.

Further, materiality can be based on a number of financial indicators. Detailed below is an indicative table of financial indicators of the type that is widely accepted in the accounting profession as basis for calculating materiality.

<b>General Basis used in accounting profession</b>	<b>Acceptable Percentage Range</b>	<b>FP Applicability</b>
Gross Revenue	0.25 – 1%	Applicable; being Grants received and interest income
Gross Surplus	1 – 2%	Applicable; being excess of grants over operating and capital expenditure.
Net Surplus	2.5 – 10%	Applicable; being construction funding not applied during financial year.
Equity	2 – 5%	Not Applicable
Total assets	0.25 – 2%	Applicable; being construction cost (plus capitalised research and development cost and office infrastructure.)

### **Broad Framework for Freedom Park**

FP will be dealing with this framework under two main categories, being quantitative and qualitative aspects.

#### **Quantitative aspects**

##### **Materiality level**

The Park assesses the level of a material loss as being R262 910; being 0.25% of gross budgeted expenditure (R105 164 000) for all transactions reflected in the statement of financial performance.

The Park assesses the level of a material loss as being R1 741 232; being 0.25% of the carrying value of the 2018/19 non-current assets (R696 493 159) for all balances reflected in the statement of financial position.

## **Motivation**

Different levels of materiality have been set for classes of transactions and balances. This is due to the fact that FP has a relatively limited operational budget supporting a large capital base. It is therefore essential to identify and set different materiality levels for transactions and balances as the risk related to each will differ.

---

## **Factors considered**

In determining the said materiality value as ¼% of gross expenditure (operating cost plus capital expenditure), FP took into account factors that include:

### **Nature of FP's business.**

**Revenue:** Funding for the Park primarily comprise grants received from the Department of Sports, Arts and Culture; together with interest earned on investments in deposit accounts.

**Expenditure:** Given the nature of FP to be an entity mandated to construct and maintain physical structures and house intellectual property, preference is given to gross expenditure as basis of defining the level of materiality for transactions.

**Non-Current Assets:** As the carrying value of infrastructure and other property, plant and equipment far exceeds that of the amount of transactions and other balances, preference is given to non-current assets as basis of defining the level of materiality for balances.

### **Statutory requirements applicable to FP.**

- FP is a project funded by the Department of Sports, Arts and Culture; approval for its formation having been obtained in terms of sec 38(1) (m) of the PFMA.
- The Park has been listed as a PFMA Schedule 3A public entity.
- The Council of the Park is required to execute the mandate in accordance with Section 3(1) of the Cultural Institutions Act 1998.

The Park accordingly elects to give preference to a lower level of materiality (i.e. closer to the lower level of the acceptable percentage range) due to it being so closely governed by various acts and the public accountability responsibility it has to stakeholders.

### **The control and inherent risks associated with FP**

---

In assessing the control risk of FP concluded that a materiality level of 0.25% of expenditure and non-current assets is appropriate and prudent. This assessment is based on the fact that a sound control environment is being maintained. In this regard cognisance was given to amongst other matters:

- Proper and appropriate governance structures have been established that include a Council, CEO, CFO position, and the position of a Company Secretary.
- An audit committee that closely monitors the control environment of FP was established;
- The function of internal audit is outsourced to a firm of professional internal auditors; and
- A three-year Internal Audit Coverage Plan, based on annual risk assessments being performed. This is annually reviewed and agreed by the audit committee.

### **FP General Approach to Qualitative Aspects**

Materiality is not confined to the size of the entity and the elements of its financial statements.

The Park recognises that misstatements that are large either individually or in the aggregate may affect a “reasonable” user’s judgement. Further, misstatements may also be material on qualitative grounds. These qualitative grounds include amongst other:

- New ventures that FP may enter into.
- Unusual transactions entered into that are not of a repetitive nature and are disclosed purely due to the nature thereof due to knowledge thereof affecting the decision making of the user of the financial statements.
- Transactions entered into that could result in reputational risk to FP.
- Any fraudulent or dishonest behaviour of an officer or staff of FP.

- Any infringement of the Park agreed performance levels.
- Procedures/processes required by legislation or regulation (e.g. PFMA and the Treasury Regulations).
- Unauthorised, irregular or fruitless and wasteful expenditure.
- Items of a non-financial nature, which would impact on the continued operation and deliverables of the Park.

The Park further expands on these aspects under Annexure A, to this document.

The policy contained in this framework will be appropriately presented in the Annual Report of the Park as required.
