3. FOREWORD BY THE MINISTER

General Bheki Cele

Minister of the Police (MP)

The Independent Police Investigative Directorate (IPID) is underpinned by its mission to serve the people of South Africa with diligence and impartiality. I am pleased to report that the organisation has been able to ensure that human rights are protected. Policing in South Africa is critical and the strength of IPID is reflected in ensuring that those who transgress are accountable for their actions and lessons are also learnt in the process.

The most impactful achievement was in developing alternative strategies to reduce the high case backlog as well as the prosecution of cases. This institution has also made great strides in making itself visible countrywide. This is attributed in an increase in the reporting of transgressions by members of law enforcement.

Despite the overall positive performance of IPID, there are some areas that need to be strengthened. They include the continuous expansion of the footprint to improve on service delivery initiatives to the public. South Africa has more than 60 million citizens and IPID needs to serve them without fail.

The amendment of the IPID Bill which resumed in the financial year under review is underway. We would like

to see it concluded before the end of the term of this current administration. This 2022-2023 Annual Report will help us reflect on a year of profound change in the Directorate's investigations work.

I am pleased to have provided political leadership to IPID and would further like to thank the Executive Director and her management team for the sterling work that they continue to perform. I would like to thank the IPID staff who worked tirelessly to ensure that we are able to respond to the needs of our citizenry. It is through their hard work that the department received a clean audit from the office of the Auditor General of South Africa (AGSA).

Lastly, I wish to express my gratitude to everyone who has made a contribution towards the compilation of this report.

General Bheki Cele

Minister of the Police (MP)

Date: 29 August 2023

4. DEPUTY MINISTER STATEMENT

Mr C Mathale

**Deputy Minister of Police
(MP)**

The year under review was an intense one in terms of Independent Police Investigative Directorate's (IPID's) operational performance. Impactful strides were made and greater emphasis was placed on ensuring that the public is aware of IPID and its services. The institution continued to work jointly with its stakeholders in law enforcement to protect the most vulnerable in society. It is thus critical for communities to play their part by keeping each other safe through reporting crimes and issues of concern to the IPID.

Although the work of IPID comes after the effect, the institution always looks at sharing knowledge and best practise with various stakeholders and the very officers that they investigate through training interventions and engagements on recommendation from the department. I am pleased that South African Police Service (SAPS) and the Municipal Police Service (MPS) have actually embraced these engagements.

IPID continues to focus on being an efficient and effective institution and the results reflect the work of our staff. I would like to thank all the staff

and management of IPID for their commitment during the last year. Our thanks also goes to all the stakeholders who have played a pivotal role in the successful implementation of the IPID Act and mandate.

As the police Ministry, we look forward to continuing to work with all our stakeholders and the wider community to ensure that public confidence in policing is further strengthened.

5. REPORT OF THE ACCOUNTIN OFFICER

Ms DJ Ntlatseng

Accounting Officer

**Independent Police
Investigative Directorate**

Overview of the operations of the Department

This Annual Report sets out on how IPID has supported policing to meet the challenges in our country. Throughout the year, we considered the complexities of the environment in which we operate and the strategic context guiding our overall performance. The strategic context includes:

- the ability to deliver an independent oversight function that is committed to promoting the respect for the rule of law and human dignity;
- governance arrangements, including performance and risk; and
- financial challenges that have become apparent through the Integrated review of our budgets.

The Department obtained its first clean audit opinion for the period under review. This is a remarkable achievement, and it is attributed to the continuous efforts by management and IPID officials to strengthen internal controls, improve performance and compliance levels.

Taking a lead on our baseline over the past years, more emphasis was made in finding alternative strategies in addressing our high case backlog. Our impactful successes were more on investing in our workforce as our case intake continued to grow. We have reprioritised some of our vacant positions from other programmes to investigator positions which is the core of IPID.

As the police watchdog, it is very important to measure how effective we are and whether the outcomes from our work make a difference in policing practice. Therefore, we also re-looked at improving the quality of our case dockets and recommendations reports. The Department appointed Quality Assurers to oversee this role. This initiative will be further developed in the new financial year, and it will help improve public confidence in the investigation work of IPID.

Our strategy has also made us agile and continues to put us in a better position to achieve our mandate and brand while widening access to people from all socio - economic backgrounds. We have increased our footprint in various provinces and ensured that services are taken to the people.

The Department has also been able to market itself countrywide to ensure that citizens are aware of its services and recourse if they experienced any police brutality. This was done through various platforms which included amongst others, the three months Radio Campaign where IPID was featured in various media or radio stations including the public broadcaster which has a larger footprint in the country. Continuous engagements on other media

platforms was also one of our success as well as the physical contact sessions with various communities.

I would like to thank the Ministry of Police for its leadership and the Portfolio Committee of Police and all our stakeholders for the support they continue to provide. Lastly, I would like to commend the IPID staff for their tremendous and consistent performance in ensuring that we achieve our mandate.

The Independent Police Investigative Directorate (IPID) is not a revenue generating institution, the revenue it collects is insignificant. Its core mandate is to ensure effective and independent oversight on the South African Police Service (SAPS) and Municipal Police Service (MPS). The policy mandate of the IPID is purely on investigation which is a free government service. The amount of revenue reported reflects mainly the recovered debts, sale of write-off and old vehicles, as well as sales of tender documents.

Programme Expenditure

Total	353 778	347 908	5 870	363 529	359 010	4 519

As at 31 March 2023, the Department reported a cumulative expenditure of R359 010 000 against the adjusted budget of R363 529 000. The reported actual expenditure translates to 98.76% against the target of 100.00% which resulted in 1.24% or R4 519 000 below the spending target. The main contributing factor for the recorded underspending was the delay in filling of the funded vacant positions mainly due to non-responsive in some of the contract posts adverts.

Programme 1: Administration

The Programme reported actual expenditure overall of R107 701 000 against the adjusted appropriation of R111 033 000 which translates to 97.00% against the straight-line target of 100.00% as at the end of 31 March 2023. This resulted in a deviation of 3.00% which translates to R3 333 000 under-spending, however the reported spending was higher when compared to the same period in the previous financial year.

The expenditure was higher than all other previous months due to new appointments and high volume of payments made, however the overall underspending results mainly from Compensation of employees. Most of the contractual obligations were up to date and paid up to March 2023.

Programme 2: Investigation and Information Management

The Programme reported actual expenditure overall of R230 701 000 against the final appropriation of R231 296 000 which translated to 99.74% against the straight-line target of 100.00% as at the end of March 2023 with R595 000 underspending, however the spending was slightly lower if compared to the same period in the previous financial year. In the year under review the tools of trade for investigators such as investigative vehicles were prioritised.

The investigators were also provided with the hepatitis vaccine to prevent any form of virus that may be contacted during the execution of their work. Amongst the spending items which recorded high expenditure as compared to the previous financial year are communication, computer services, fleet services, travel and subsistence and machinery and equipment.

Programme 3: Legal and Investigation Advisory Services

The Programme reported a cumulated expenditure of R5 577 000 against the allocated final appropriated budget of R6 168 000, which translated to 90.42% against the straight-line target of 100.00% as at the end

of March 2023. This resulted in a deviation of 9.58% or R591 000 under the straight-line spending target. The underspending was mainly under compensation of employees following the resignation and the delays in filling the position of the Chief-Director: Legal Services.

Goods and services improved significantly in the financial year under review, with most of the expenditure on communication for the manager's cell phone and travel & subsistence for the legal workshops and Khaedu project. However, the Programme did not record any expenditure under training & development spending item unlike in the previous year.

Programme 4: Compliance Monitoring and Stakeholder Management

The Programme reported actual expenditure overall of R15 032 000 or 100.00% against the final appropriation of R15 032 000, this was against the straight-line target of 100.00% as at the end of March 2023. Goods and services improved in the financial year under review with most of the expenditure incurred in advertising, marketing and promotional materials. There was also recorded expenditure incurred on travel & subsistence for the Senior Management Services (SMS) Khaedu project.

Virements

Section 43 of the Public Financial Management Act (PFMA) was implemented for virements to mainly the projected shortfall in consultants: business and advisory services, computer services, minor assets, Information Communication and Technology (ICT) equipment and alignment of budget with organisational structure.

- An amount of R8 389 000 was moved from Programme 2: Investigation and Information Management` Compensation of employees to Programme 1: Administration within various economic classifications.
- An amount of R500 000 was moved from Programme 4. Compliance Monitoring and Stakeholders Management` compensation of

employees to Programme 1: Administration within the same economic classification.

- An amount of R1 000 000 was moved from Programme 3: Legal and Investigation Advisory Services` compensation of employees to Programme 1: Administration in machinery and equipment.
- An amount of R1 000 000 was moved from Programme 2: Investigation and Information Management` compensation of employees to Programme 4: Compliance Monitoring and Stakeholders Management` goods and services.

Roll Overs

The Department did not apply for roll over in the financial year under review.

Unauthorised Expenditure

The Department did not incur unauthorised expenditure in the previous financial year (2022/23). The balance in our financial statements is made of prior year's over expenditure in Programme 2 and 3 in the financial year 2008/09 and 2005/06 respectively. The submission with the required supporting documents to request an authorisation was submitted to Standing Committee on Public Accounts (SCOPA) through National Treasury for the Committee consideration. However, by the reporting date (31 March 2023), the approval for authorisation was not yet granted despite numerous follow-ups. The last follow up was done by the Department and responded to by National Treasury on the letter dated 16 January 2023.

Irregular Expenditure

During the period under review, the Department did not incur or register any irregular expenditure in the register.

Fruitless and Wasteful Expenditure

The Department has in the financial year under review incurred a total amount of R9 632.91 on various transactions consist of interest on overdue

Telkom account and traffic fines on the rented vehicles by officials. All identified transactions/cases were recorded in the Department` fruitless & wasteful expenditure register which was forwarded to the Financial Misconduct Committee (FMC) for assessment and recommendation on the appropriate action against the implicated officials.

Public Private Partnerships

The Department did not enter into any Public Private Partnership (PPP) transactions before and during the period under review (2022/2023).

Discontinued Key Activities / Activities to be Discontinued

The Department operates within its IPID Act No 1 of 2011 mandate and did not discontinue any of its functions as outlined in the Act during the year under review.

New or Proposed Key Activities

The Department did not implement any new or proposed activities in the year under review.

Supply Chain Management (SCM)

During the period under review, the Department did not receive any unsolicited bid proposal.

The Department appointed three bid committees (specifications, evaluation and adjudication) to facilitate the procurement of goods and services and also to provide advice on measures to prevent any possible irregular expenditure prior to the procurement. The developed and implemented payment checklist has also assisted the End Users to identify non-compliances with the applicable prescripts prior to processing of payment. Regular Budget Control Committee, workshops conducted on National Treasury directives and the implementation thereof, assisted in strengthening of internal controls. SCM team continued to encourage managers in various management meetings and other official platforms to report any suspected irregular expenditure transaction immediately to the relevant existing structures.

Challenges experienced in SCM and how they were resolved:

The functions in the SCM Unit were not aligned with National Treasury. The DPSA recommended SCM generic structure due to the capacity constraints and this has resulted in lack of segregations due to the same officials used for multi functions. The process to align and reorganise the SCM functions has started with the recruitment of Senior Manager within the Unit who assumed duties from the beginning of March 2023 to provide the strategic direction.

The majority of SCM practitioners have been provided with training on SCM procurement processes and other technical aspects of SCM that were previously identified as some of the challenges within the Unit.

Gifts and Donations received in kind from non-related parties

The Department received gifts and donation to the value of R42 000.00 from the African Policing Civilian Oversight Forum (APCOF), Sanlam and Consulate General of the Federal Republic of Nigeria.

Exemptions and Deviations Received from the National Treasury

The Department did not request or receive an exemption from National Treasury for the period under review.

Events after the Reporting Date

The position of National Head of Investigations was filled effective 01 July 2023.

Other

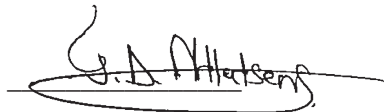

None.

Acknowledgement/s or Appreciation

Let me take this opportunity to thank our political principals including the oversight Committees for their support, leadership and oversight role. I also appreciate the continuous commitment made by IPID management, Staff and all our stakeholders.

Conclusion

The IPID continues to play a meaningful role in the promotion of a police service that is trusted by the community and operates in line with the spirit of the Constitution. The effective and efficient realization of this strategic objective is mainly dependent on the IPID's ability to be more proactive, innovative and responsive.

PART B: PERFORMANCE INFORMATION

The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being

Refer to page 158 of the Report of the Auditor General, published as Part F: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1 Service Delivery Environment

In the 2022/2023 financial year, the Department continued to play a significant role in contributing towards building safer communities as envisioned in the National Development Plan (NDP). The department's workload continues to increase due to inadequate human resources. There are 189 investigators across all provinces who are expected to investigate all registered complaints on alleged misconduct of police officers.

The Independent Police Investigative Directorate (IPID) has not met the number of personnel, both in core and support services, required to can effectively and efficiently execute its legislative mandate. This puts considerable pressure on the few human resources who have to deal with the heavy workload. The total establishment is 397 nationally. During the inception of IPID Act of 2011, a study was conducted in conjunction with the Department of Public Service and Administration (DPSA) and the outcome suggested a minimum of five hundred and thirty-five (535) posts in various function areas.

The limited resources make it difficult for IPID to reach all complainants and scenes of alleged police criminality which includes responding swiftly to crime scenes and investigations. In some provinces, it is near impossible to preserve the integrity of crime scenes due to the long distances travelled by IPID investigators to reach those crime scenes; one such example was the Northern Cape. As a result, investigators spend most of their time travelling rather than investigating. This situation affects the effectiveness of investigations.

In the period under review, nationally there were 17 988 active cases which includes 12 714 backlog and 5 274 newly registered cases with assault related complaints contributing 66%. Four provinces with high case workload were identified as hotspot provinces; Western Cape, Gauteng, KwaZulu-Natal and Eastern Cape. The total active cases for these four offices contribute 76% (13 659) to the total workload. By end of the reporting period, six (06) contract positions of investigators were created to assist with the increasing workload. The recruitment process is in progress.

In an effort to expand footprint and improve effective investigation of cases the department has established 12 new offices in Gauteng, KwaZulu-Natal and Northern Cape. This was achieved through collaboration with the provincial department of Community Safety.

2.2 Service Delivery Improvement Plan

For the period under review, the department didn't have an approved Service Delivery Improvement Plan (SDIP). The development of a new Service Delivery Improvement Plan is still in progress under the direction of the Department of Public Service Administration (DPSA). The department participated in a series of consultations conducted by the DPSA on anticipated amendments to the SDIP directive and guidelines. At the time of reporting, the directive had not yet been approved for implementation. However, the department has commenced with the review of service delivery model and service delivery charter.

2.3 Organisational Environment

The Chief Director Investigation and Information Management position became vacant from 01 December 2022 after being permanently transferred to the National Prosecuting Authority under the Investigating Directorate (ID). The recruitment and selection process to fill the position was still in progress by end the financial year.

2.4 Key Policy Developments and Legislative Changes

The amendment of the IPID Bill commenced in 2020/2021. The amendment is meant to ensure that the IPID would be operationally and structurally independent as set out in Judge Boshielo's watershed Constitutional Court judgement. The process of collating public comments was finalised before the end of the financial year.

3. PROGRESS TOWARDS ACHIEVEMENT OF INSTITUTIONAL IMPACTS AND OUTCOMES

As per the Strategic Plan 2020-2025, the Department has four outcomes for each Programme with five-year targets, that are aligned to the outcome indicators. The cumulative progress towards achievement of the five-year targets is outlined below:

Effective and efficient administrative support

The Department obtained a clean audit opinion for the 2022/2023 financial year and will continue to implement the auditor's recommendations to improve service delivery efficiencies to ensure impact is realised.

The Department had targeted to fill 90% of position within six months of become vacant. During the period under review the progress that was made towards attainment of the targets is 13% (6/46). The recruitment process for 2022/23 commenced late in the year due to late approval of the organisational structure, the advertisement of posts that were re-prioritised started in July 2022. A Standard Operating Procedure for Recruitment of Selection processes and an Executive Director (ED) Directive were developed and circulated to panel members to enhance the recruitment and selection procedures.

Reduced level of police criminality and misconduct

The Department received responses on 3 139 cases where the National Prosecuting Authority (NPA) has made a decision on the case. The five-year

target of 2 500 is exceeded by 639. A total of 1 329 disciplinary recommendations were initiated by the police service against a five-year target of 2 500. The shortfall is 1 171 to achieve the five-year target. There's a need to strengthen monitoring processes to ensure that the recommendations are initiated within stipulated timeframes. The disciplinary actions that were finalised by end of the period under review is 1 663. The shortfall is 337 to achieve the five-year target of 2 000. Performance is on track towards the achievement of the five-year target.

Department's legal interests protected

During the period under review, legal advice that resulted in resolved investigation challenges is at 96.8% (31/32). The reduction of legal claims against the department is at 36% (R18 178 000.00/49 853 000). The five-year target of 10% is exceeded by 26%. The significant reduction was as a result of matters that were dormant for over three years. Such matters were removed from the contingent liability list in line with the approved Contingent Liabilities Policy.

Strengthened Stakeholder Relations

The implementation of Communications and Stakeholder Management Strategy is at 39% (27/69). A significant progress has been made towards achievement of the target of 60% by 2024/2025. The 3 months long Radio Campaign on various languages reached about 12 million South Africans, three one-hour slots through the Government Communication

and Information System (GCIS) Community Radio Network livestreamed on 18 Community Radio Stations countrywide. Media engagements through interviews on various platforms to promote IPID, (e.g.) eNCA has a viewership of 3 million. 167 formal engagements were conducted countrywide.

Linking performance with budgets

The Programme reported actual expenditure overall of R107 701 000 against the adjusted appropriation of R111 033 000 which translates to 97.00% against the straight line target of 100.00% as at the end of 31 March 2023. This resulted in a deviation of 3.00% which translates to R3 332 000 underspending, however the spending was higher if compared to the same period in the previous financial year.

The expenditure was higher than all other previous months due to new appointments and high volume of payments made, however the overall underspending results mainly from Compensation of Employees. Most of the contractual obligations were up to date and paid up to March 2023.

9.3.7 Intake As Per Section 28(1)(h) – Other Criminal Matters and Misconduct

Other criminal matters and misconduct are matters that were referred to IPID by the Minister, MEC or Civilian Secretary for Police. They include matters where the Executive Director decides to investigate or by exercising his/her decision to investigate after being requested to do so by the SAPS or any other person having regard to the seriousness of the offence or misconduct.

Misconduct cases were investigated after IPID was satisfied that SAPS intervention at Provincial or National level did not satisfy the complainant and there were grounds to intervene in the interest of justice.

It is important to note that while Section 206(6) of the Constitution enjoins the IPID to investigate cases of misconduct and criminal offences, Section 28(1)(h) of the IPID Act enables the IPID to investigate all criminal matters and misconduct cases not provided for in Section 28(1)(a)-(g).

9.12.3 Criminal Convictions

The IPID is dedicated to investigating acts of criminality allegedly perpetrated by members of the SAPS/MPS and bring these members to justice. Once the investigation is completed and recommendations are forwarded to the NPA, the court procedures take over where the role of IPID is to provide the court with enough evidence to make an appropriate ruling on the case at hand. Sometimes the case does result in a conviction. **Table 27 (a)** shows the total number of criminal convictions that have been reported by the respective provinces during the period under review. A total of 56 criminal convictions were reported.

PART C: GOVERNANCE

1. INTRODUCTION

The IPID is committed to ensuring that principles of good corporate governance are practiced and upheld, as supported by the Public Finance Management Act, 1999 (Act 1 of 1999) and as amended by King Code on Corporate Governance (King IV) and other related leading practices.

2. RISK MANAGEMENT

2.1 Risk Management

The Department has a Risk Management Policy and Risk Management Strategy guiding the functions implemented within Corporate Governance component.

The Risk Management function becomes a critical role to ensure that the department is managing their risk. Risk assessments were conducted at a strategic and operational level for the year under review in all offices, to identify applicable risks that may be material and have an impact in achieving IPID's objectives.

A total of eight (08) risks were identified at a strategic level for 2022/23. The department was able to mitigate and address most of the strategic risks with mitigation strategies that some were fully implemented and other partially implemented. All Programmes were involved in the risk assessment process.

In 2022/23 financial year, a total of 115 operational risks were identified for both National Office and all Provincial Offices.

PART D: HUMAN RESOURCE MANAGEMENT

1. INTRODUCTION

The information contained in this part of the annual report has been prescribed by the Minister for the Public Service and Administration for all departments in the public service.

2. OVERVIEW OF HUMAN RESOURCES

Status of human resources in the Department:

The Department had a total of three hundred and sixty (360) filled positions in its employ as at 31 March 2023. The Department continued with the exercise of re-structuring and regrouping the functions. This is part of the review of the organisational structure to ensure that the distribution of resources considers the promotion of efficient, economic and effective use of resources, responsiveness to people's needs and good human resources management. IPID like other law enforcement agencies is a labour intensive organization which requires more investigators to investigate the continuous increase number of reported cases.

A total number of five investigator posts (5) were reprioritized and allocated to the core function to have more investigators to investigate the continuous increase number of reported cases. Three (3) Quality Assurers were appointed and have started with their work to strengthen quality of investigations. In responding to the implementation of the Gender-Based Violence Femicide (GBVF) pandemic, an additional resource has been recruited to facilitate and implementing gender based violence prevention and mitigating strategies.

The Department has also started with the tender procurement process to appoint a service provider to conduct a skills audit. A skills audit will assist to identify the existing skills within the current workforce, as well as aids in identifying skills gaps within the Department and also to be aware of the competencies that are available internally and making informed decisions about organizational structure changes and growth/expansion.

The report will further enable the Department to determine whether it can meet its strategic goals,

identify areas for improvement, refine and define the recruitment and selection process and implement training and skills development interventions. It is also an opportunity to determine whether employees possess the competencies and actual skills required, to enable them to fulfil their workplace roles effectively.

The Department has started with the tender procurement process to identify a service provider and enter into a contract to provide an Employee Assistance Programme (EAP) to address issues of employee health and wellness in the workplace with the focus to promote employee wellness and improve productivity.

While the above process is still underway, the Department has in an interim secured the services of a private health care provider that is administering a vaccination of Hepatitis B for the investigators. Furthermore, interventions that were implemented to promote the employee health and wellness programme were the coordination of the health screening, workplace physical wellness day, financial wellness, blood donor event, 16 Days of Activism against abuse of Women and Children event, the Nelson Mandela international Day, World Aids Day, Team building session in promoting team spirit within the Department and to boost staff morale.

The implementation of the Youth Development Programme was affected by the COVID-19 regulations that the Departments were expected to implement a Hybrid Model. The Hybrid Model resulted in work rotation schedules which meant that the recruited youth could only spend 2-3 working days per week. This resulted in youth not getting enough workplace exposure. For this reason, the intern's contracts were extended by 12 months to ensure that the

youth accumulates enough workplace exposure to compete in the labour market which was funded by the Department.

During this period, the Recruitment and Selection Policy was reviewed which resulted in internal advertisement of level 1 to 12 vacant posts which

will assist in improving the percentage of youth representation and retention of staff.

A total number of one hundred and forty-four (144) employees were trained in the administration and core function in the Department for the development of staff members in the Department.

PART F: FINANCIAL INFORMATION

1. REPORT OF THE AUDITOR GENERAL

Report of the auditor-general to Parliament on vote no. 24: Independent Police Investigative Directorate

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Independent Police Investigative Directorate (IPID) set out on pages 168 to 220, which comprise the appropriation statement, statement of financial position as at 31 March 2023, statement of financial performance, statement of changes in net assets, and cash flow statement for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Independent Police Investigative Directorate as at 31 March 2023, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standards (MCS) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the department in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matter

6. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

7. The supplementary information set out on pages 221 to 232 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

National Treasury Instruction Note No. 4 of 2022-23: PFMA Compliance and Reporting Framework

8. On 23 December 2022, the National Treasury issued Instruction Note 4 of 2022-23, which came into effect on 3 January 2023, in terms of section 76(1)(b), (e) and (f), 2(e) and (4)(a) and (c) of the PFMA. The instruction note deals with the PFMA compliance and reporting framework and addresses, amongst others, the disclosure of unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure. Irregular expenditure and fruitless and wasteful expenditure incurred in prior financial years and not yet addressed no longer need to be disclosed in the disclosure notes to the annual financial statements. Only the current year and prior year figures are disclosed in note 21 to the financial statements of IPID. Movements in respect of irregular expenditure and fruitless and wasteful expenditure also no longer need to be disclosed in the notes to the annual financial statements. The disclosure of these movements (e.g. condoned, recoverable, removed, written off, under assessment, under determination and under investigation) is now included as part of

the other information in the annual report of the auditees.

9. I do not express an opinion on the disclosure of irregular expenditure and fruitless and wasteful expenditure in the annual report.

Responsibilities of the accounting officer for the financial statements

10. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS and the requirements of the PFMA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
11. In preparing the financial statements, the accounting officer is responsible for assessing the department's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

12. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error;

and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

13. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

14. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for selected programmes presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
15. I selected the following programmes presented in the annual performance report for the year ended 31 March 2023 for auditing. I selected programmes that measure the department's performance on its primary mandated functions and that are of significant national, community or public interest.

Programme	Page numbers	Purpose
Investigation and Information Management	27-34	Coordinate and facilitate the Directorate's investigation processes through the development of policy and strategic frameworks that guide and report on investigations.
Compliance Monitoring and Stakeholder Management	38-41	Monitor and evaluate the relevance and appropriateness of recommendations made to the South African Police Service and Municipal Police Services in terms of the Independent Police Investigative Directorate Act, 2011.

16. I evaluated the reported performance information for the selected programmes against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the department's planning and delivery on its mandate and objectives.

17. I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the department's mandate and the achievement of its planned objectives
- the indicators are well defined and verifiable to ensure that they are easy to understand and apply consistently and that I can confirm the methods and processes to be used for measuring achievements
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
- the indicators and targets reported on in the annual performance report are the same as what was committed to in the approved initial or revised planning documents
- the reported performance information is presented in the annual performance report in the prescribed manner
- there are adequate supporting evidence for the achievements reported and for the reasons provided for any over- or underachievement of targets.

18. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion.

19. I did not identify any material findings on the reported performance information for the selected programmes.

Other matter

20. I draw attention to the matter below.

Achievement of planned targets

21. The annual performance report includes information on reported achievements against planned targets and provides explanations for over- and under-achievements. This information should be considered in the context of the material findings on the reported performance information.

Report on compliance with legislation

22. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the department's compliance with legislation.

23. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.

24. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the department, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

25. I did not identify any material non-compliance with the selected legislative requirements.

Other information in the annual report

26. The accounting officer is responsible for the other information included in the annual report, which includes the audit committee's report. The other information referred to does not include

the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported on in this auditor's report.

27. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation, do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
28. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
29. If, based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Internal control deficiencies

30. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
31. I did not identify any significant deficiencies in internal control.

Auditor - General

Pretoria

26 July 2023

**AUDITOR - GENERAL
SOUTH AFRICA**

Auditing to build public confidence

Annexures to the auditor's report

The annexure includes the following:

- the auditor-general responsibility for the audit
- the selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the department's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the department to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a department to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

As at 31 March 2023, the Department reported a cumulative expenditure of R359 003 000 against the adjusted budget of R363 529 000. The reported actual expenditure translates to 98.75% against the target of 100.00% which resulted in 1.25% or R4 526 000 below the spending target.

The main contributing factor for the recorded underspending was the delay in filling of the funded vacant positions mainly due to non-responsive in some of the contract posts adverts, internal promotions as well as screening of candidates' process.

In terms of Goods and Services, spending for the reporting period under review was lower than anticipated mainly under Programmes 1 and 3. There were some of the projects that led to the underspending included amongst others the procurement of case management system, security upgrade, network upgrade and training and development due to various reasons including lack of technical experts to draw the specification and the review and communication for implementation of preferential procurement policy by National Treasury. However, there are other activities that were reprioritised such as procurement of additional vehicles for investigation purpose, media and marketing campaign on IPID services.

With regards to Transfers & subsidies, the expenditure was within the projections with the bulk in skills development levy, leave gratuity for officials who have since resigned, vehicles licences' renewals and claims against the state.

Under Machinery and Equipment, the Department recorded an access of R5 million mainly due to the required tools of trade for Investigators such as ICT equipment and crime scene vehicles. The initial budget allocation under this item was not sufficient due to the overall budget constraints.

- Contingent liability disclosed relates to litigation against the Department through summons. It is uncertain when the amounts will be settled due to the fact that cases are still at various stages in courts.
- For the year under review eight cases were removed from the register in line with the policy on contingent liability.
- The labour court has ordered the department to quantify the amounts due in respect of the employee's medical aid contributions since 2012 and provide a payment plan on when the payment will be made to the affected employees. The department has since made an application to review the order and the outcome will confirm if the department will be obligated to pay the backdated medical aid contributions or not.
- The current Mafoko Security service` legal matter was still ongoing by the reporting date.
The matter was previously taken to the High Court on urgent basis to interdict IPID from cancelling the contract and the application was dismissed.
The matter is now going for Arbitration under Arbitration Foundation of South Africa (AFSA). The cost of the claim is not readily determinable and as such cannot be disclosed.

All cases disclosed above are claims against the Department, therefore reimbursement is not expected.

Due to the nature of IPID business, the Department experienced a high number of litigation cases which comes with summons. Full description of each case is provided in the annexure 3B of the Financial Statements. However it is impractical to provide an indication of the uncertainties relating to the amount or timing of any outflow in all disclosed cases.
