WSP	Workplace Skills Plan
WTTC	World Travel and Tourism Council

Executive Authority Statement

I am honoured to join the Department of Tourism and to present its 2023/24 Annual Performance Plan

Besides focusing on achieving the seven key priorities of government, the Department will be focusing on the key overarching interventions as identified in the Economic Reconstruction and Recovery Plan (ERRP) and Tourism Sector Recovery Plan (TSRP), to facilitate amongst others, the creation of jobs, greater diversification of the supply side of the tourism market, increased quantum and focused investment into infrastructure in the tourism sector.

Although the tourism sector was severely impacted by the Covid-19 pandemic the sector is back on a growth path where foreign tourist arrivals and domestic business and leisure travel are gradually increasing, signalling that the sector is well on its way to recovery.

Together with stakeholders within the value chain, the Department will continue to implement the Tourism Sector Recovery Plan (TSRP) in terms of focusing on the following seven strategic interventions, to support the revival of the sector:

1. Implement norms and standards for safe operation across the tourism value chain to enable safe travel and rebuild traveller confidence;
2. Stimulate domestic demand through targeted initiatives and campaigns;
3. Strengthen the supply-side through resource mobilisation and investment facilitation;
4. Support for the protection of core tourism infrastructure and assets;
5. Execute a global marketing programme to reignite international demand;
6. Tourism regional integration; and
7. Review tourism policy to provide enhanced support for sector growth and development.

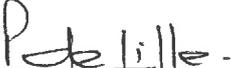

In strengthening regional cooperation, the Department continues to sign Memoranda of Understanding (MoUs) with the countries that provide markets for increasing the tourist arrivals to South Africa. In its work to establish strategic partnerships the Department has planned to continue to host Sharing of Best Practices Workshop 2024 targeted at African countries with whom South Africa has signed tourism agreements. This also helps to implement signed agreements and to engage countries that we are negotiating MoUs with.

Participation in multilateral bodies for, including the United Nations World Tourism Organisation (UNWTO), the Group of 20: Intergovernmental Forum comprising 19 countries and the European Union (G20), the Brazil, Russia, India, China and South Africa multi-lateral body (BRICS), the Southern African Development Community (SADC), the Indian Ocean Rim Association (IORA) and the African Union (AU), provides South Africa not only with the opportunity to learn and share experiences in key tourism areas, but to advance South Africa's tourism interests at the regional, continental and global level. These fora are important from the perspective of attracting foreign investment into our country but also to attract tourists that will in turn stimulate and grow the tourism sector and create more jobs. The participation in these fora will therefore not only continue but will also be prioritised.

I am looking forward to working with the Tourism Department's Administration and with our sister government departments.

I appreciate continued commitment of the Deputy Minister, Mr Fish Mahlalela, MP, and the Director General, Mr Victor Tharage, and am looking forward to working together with them in leading and directing efforts to fulfil the Department's mandate effectively.

I hereby present the Department of Tourism's 2023/24 Annual Performance Plan.

Ms Patricia De Lille, MP

Minister of Tourism

Deputy Minister Statement

The tourism sector is gradually maintaining a resilient positive trajectory as it emerges from the brink of a catastrophic pandemic and is bouncing back with a renewed focus and this provide South Africa's domestic tourism market with an appetite for diversified offerings that will live past any future threat or disaster.

The optimal rejuvenation of tourism will require an inclusive and transformative approach that ensures that all, in particular the youth and women, enjoy the benefits of the success of the sector.

The sector's ability to generate demand and production across various sectors of the economy has affirmed its contribution in the implementation of South Africa's Economic Reconstruction and Recovery Plan.

The tourism sector provides young and old with multiple employment and entrepreneurial opportunities to transform their lives and communities. As the world's fastest growing employment sector, tourism continues to adapt to new trends positioning it as a significant economic driver.

Undoubtedly, it is quite clear that travel and tourism is one of the most significant contributors to the world economy and to the individual economies of many nations. According to statistics from the World Travel and Tourism Council (WTTC), they indicate that prior to the onset of the Covid-19 pandemic travel and tourism, including its direct, indirect and induced impacts, accounted for 10,3% of global GDP, amounting to some US\$9,6 trillion.

According to UNTWO there is dire need to 'Rethink tourism" especially after the aftermath of the pandemic, to rethink the sector and its contribution to the people and planet and to build back better towards a more sustainable, inclusive and resilient tourism sector that ensures the benefits of tourism are enjoyed widely and fairly.

According to the UNTWO, this theme has made tourism's relevance so clearer. The time is now to seize this opportunity to rethink how we do tourism.

To many of us rethinking tourism also means re-strategizing to make tourism more meaningful to those whose livelihoods depend on it. It's about taking bold decisions to truly make tourism a cornerstone for economic transformation.

Women and those among us living with disabilities must be given a greater recognition as they make up quite a sizeable proportion of the work force in tourism, moreover that should be part of the rethinking agenda.

Moreover, tourism undoubtedly promote cultural understanding and respect for diversity by encouraging interactions between people from different backgrounds and geographies.

Of further importance, and in line with the inclusion and sustainability element, the local tourism sector has a significant population of small businesses.

Our government has placed particular emphasis on the stimulation and promotion of small and medium-sized businesses, particularly among the historically disadvantaged sections of our society, as a means to address historical apartheid-induced economic exclusion, creating jobs, ensuring equitable wealth distribution, and generally making the South African economy more globally competitive and dynamic.

It is for these reasons that travel and tourism features prominently in various South African government policies, strategies and pronouncements including the National Development Plan 2030, the Tourism White Paper, the National Tourism Sector Strategy, the Tourism Sector Recovery Plan, the Economic Reconstruction and Recovery Plan, and the President's State of the Nation Addresses, to mention just some. A common thread running through all these frameworks and pronouncements is a clear recognition of the travel and tourism sector's critical contribution towards the attainment of critical socio-economic development outcomes including:

- providing employment to individuals of varying skills levels, women and rural communities
- ensuring the geographic spread of economic benefits
- growing the country's foreign exchange earnings
- impacting the wider economy through forward and backward linkages with other sectors.

Accordingly, there is a need to accelerate serious efforts to promote domestic tourism and to reignite demand from the African continent and the rest of key international source markets by addressing existing travel barriers which are critical for sector recovery, and in this regard, to engage our partners in the public and private sectors for the removal of such barriers.

Although we will continue to encourage our citizens to take a *Shot' Left* in our beautiful country we are equally excited to welcome our international guest back to South Africa after the COVID-19 pandemic closed almost all borders.

We will be implementing four domestic tourism campaigns which are meant to support sustained revitalization of affordable and accessible domestic travel and tourism. While the revitalisation of domestic tourism will focus on the growth and development of less visited areas in South Africa.

Our investment in infrastructure contributes to creating and enhancing tourism products for inclusive tourism growth mainly in rural areas across all nine Provinces. This will include the development of community owned tourism facilities and maintenance of state-owned tourism assets and 30 community owned tourism products across the country to ensure that they remain in pristine condition and appealing to tourists.

Meanwhile as part of the destination enhancement and route development, projects to diversify tourism offerings and enhance visitor experience in identified priority areas will be implemented. We will also support and monitor implementation of twenty-nine community-based tourism projects across all provinces which are meant for enhancement of visitor's experience within rural communities, grow domestic tourism, Job creation and SMME development.

For South Africa to continue to maintain its position as the number one business events destination in Africa and the Middle East, is to be truly competitive on the international stage and enhanced its focus on business development support.

On Quality Assurance, the Tourism Grading Support Programme (TGSP) is contributing immensely to the growing vibrant, inclusive and sustainable tourism economy through job creation and poverty alleviation. Its main aim is to facilitate and increase the number of quality assured accommodation and meeting facilities, through encouraging wider participation in the tourism grading system.

It seeks to ensure uniform and consistent quality standards in facilities and services, to reduce the cost burden on small and medium enterprises and to enhance the overall visitor experience and improve destination competitiveness.

As part of the Presidential Employment Stimulus Package, the beautification programme for Provincial State-Owned Attractions to benefit local communities and SMMEs surrounding State-Owned Attractions will be implemented. While also the implementation of Infrastructure Maintenance Programme which is aimed at improving and ensuring proper maintenance of National Park Assets for destination enhancement, job creation and SMMEs is being monitored.

Our youth skills development programme nationwide, is leaving a dent on the scourge of unemployment and consequential social strife. The various training programmes being offered focus on interventions to improve visitor experience, and are based on industry demand for these skills. These various training programmes are implemented in partnership with private sector.

The programmes include the following, amongst others:

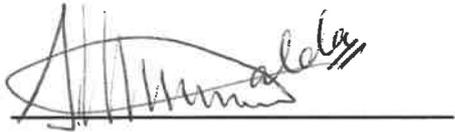

- Targeting 50 Chefs to undergo a Recognition of Prior Learning process to obtain professional designations or qualification. The Programme targets employees who have acquired experience and skills over the years, but never got a chance to access formal education and training, therefore have no formal qualification to show.
- Training of 250 SMMEs and 1500 unemployed youth on norms and standards for safe tourism operations in all nine provinces. The project is meant to facilitate a consensus on minimum universal practices which the sector abides by. It is further meant to train SMMEs on the norms and standards for the safe operation of the tourism sector. The norms and standards further provide assurance to potential visitors and stakeholders of the safety of South Africa's tourism products and services.
- Training of 1500 unemployed youth on identified skills development programmes. This programme is implemented to develop the skill sets of unemployed South African Youth between the age of 18-35 years through Expanded Public Works Programme (EPWP) by creating temporary jobs for the unemployed youth.
- Hosting of the National Tourism Careers Expo. The Department implements this project to promote tourism as a career, profession and business of choice whilst inversely presenting a platform for industry to sell itself as an employer of choice. The NTCE is meant to attract young people's interest in tourism education and training so as to keep the future skills supply pipeline and flowing with quality human capital.

South Africa will continue to enhance ease of access for tourism priority markets. An analysis of SA Tourism priority markets in 24 markets shows that the prioritised tourism markets enjoy a relatively liberal visa regime. Thus, more work is required for market development such as in Eastern Europe, Asia and the African Continent. We will continue to work with our partners and the Private Sector to monitor and support the implementation of the E-visa system and the requirements for tourist to visit South Africa and for the re-establishment of South Africa's airlift capacity to ensure adequate capacity for tourism markets.

Lastly, these details outlined herein will bind our consciousness to work relentlessly and sparing no effort in ensuring timeous delivery of quality and humane services to our people in our quest to leave no one behind.

My admiration goes to the Director-General and all officials who work tirelessly, to protect the public resources that they are custodians of.

Moreover, let me also express my warm welcome to the new Minister Patricia De Lille, I have full confidence in her capabilities that she will steer this ship in the right direction, with the support of everyone including all our social partners.

A handwritten signature in black ink, appearing to read 'Fish Mahlalela', is written over a solid horizontal line.

Mr. Fish Mahlalela

Deputy-Minister of Tourism

Accounting Officer Statement

Growth of tourism to and within South Africa requires of the Department to provide an enabling environment in order to realise improvements in the tourism offering, visitor experience, and access to the destination, while deliberately ensuring that the tourism sector transformation levels improve significantly. To this end, the Department's Plans are purposefully designed to realise progress in the following areas, amongst others:

- improvement of tourism assets and infrastructure to make South Africa a diverse and unique tourism destination;
- offering of excellent service and creating memorable experiences, which meet and exceed the expectations of tourists (including tourists' safety);
- development of a culture of travel amongst South Africans supported by a diverse and responsive product range to fully benefit from the domestic market; and,
- ensuring sustainability of Working for Tourism capital projects to ensure that communities benefit from tourism development.

Offering of excellent service and creating memorable experiences that meet and exceed the expectations of tourists remains an important element of our Plan. It includes addressing safety and security concerns of visitors, both of which are vital to providing a quality tourism experience. More than any other economic activity, the success or failure of a tourism destination depends on its ability to provide a safe and secure environment for visitors. Safety concerns of visitors are addressed through our collaboration with South African Police Service to implement elements of the National Tourism Safety Strategy. The Strategy advocates for the implementation of a multidisciplinary Integrated Tourist Safety Action Plan. The Action Plan include plans for the establishment of a Tourism Reserve Police capacity.

Visitor experience is a critical factor for our ability to attract visitors to our shores and within South Africa. In this regard, we implement the Service Excellence Standard (SANS: 1197) with a focus on Small Towns and Tourism Product support. The project is meant to assist to create a culture of Service Excellence at a town level, through empowerment and participation of communities, organisations and the tourism value chain. Collaboration with partners across government and in the private sector is therefore central to our efforts to address all facets of visitor experience in South Africa.

The Department has planned to conduct tourist safety campaigns. The objective is to enhance tourism safety awareness at key tourism attractions and within the destination. These campaigns will be conducted jointly with provinces and other stakeholders with interest in tourism safety and security, including SAPS, South African Tourism, Tourism Business Council of South Africa, provinces and municipalities. The initiative is in line with the Tourism Safety Plan which is derived from the Safety Strategy.

Programmes which support the most vulnerable in society, including unemployed youth, as well as SMMEs in rural villages and towns will continue to be implemented. These are targeted nationally through our Working for Tourism Programme, the incentive programme as well as the skills development programme. Our Enterprise Development and Transformation Programme enables us to implement projects that provide various support packages to SMMEs, drive transformation and ensure the development of emerging operators. These projects include implementation of Business Support and Development Incubation Programme through the Tourism Technology and Innovation Incubator, Food Service Incubator and the Community-based Tourism Enterprises Incubator. For the 2023/23 financial year, we have planned to establish two new business incubators, namely, Business Advisory Services focusing on Women in Tourism in Limpopo, and the Business Advisory Services focusing on Homestay Pilot.

The Tourism Incentive Programme (TIP) which we implement, supports greater destination competitiveness, transformation and accelerated tourism and enterprise growth. Through the TIP, we will continue to implement in 2023/24 financial year, amongst others, the Green Tourism Incentive Programme (GTIP). The GTIP provides financial support to encourage and assist privately-owned tourism enterprises to adopt responsible tourism practices through installing solutions for the sustainable management and usage of electricity and water resources. It is anticipated that the project will not only help reduce pressure on the national electricity grid and scarce water resources, but will also facilitate a reduction in operational costs for enterprises over the long-term.

We will continue to participate in the District Development Model (DDM) process. Through our continued participation in this process, we will facilitate the implementation of developed tourism concepts through the DDM *One Plans* for OR Tambo District, eThekweni Metro, Pixley Ka Seme District, and Namakwa District. The project is meant to develop memorable visitor experiences, through implementation of tourism district plans by developing tourism concepts of prioritised initiatives. The project benefits provinces, districts and municipalities, previously disadvantaged people, surrounding communities, tourism businesses and infrastructure.

The Department is already implementing multiyear spatial planning and infrastructure projects that support rural and township economies including infrastructure maintenance in SANParks properties. These provide support for community-based tourism projects and community museums, It is anticipated that the Programme will continue to contribute to tourism development in Villages and Small Towns to ensure that tourism benefits accrue to these communities, especially those around key attractions and sites such as villages surrounding national parks.

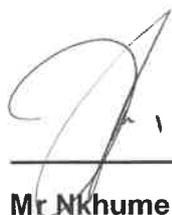

The Tourism Sector Recovery Plan (TSRP), approved by Cabinet on 21 March 2021, was initiated as a response to COVID-19 pandemic, and to facilitate the recovery of the sector. It contains 10 strategic interventions which are currently being implemented to protect and rejuvenate supply, re-ignite demand and strengthen enabling capability for long-term sustainability. To further drive this recovery, a key component of the TSRP which we will continue to focus on is the implementation of the Norms and Standards for safe operations of the tourism sector. These provide uniformity in view of the sector's approach to safety post the declaration of the national state of disaster. The objective is to rebuild traveller confidence on safety of Destination South Africa.

The Department and its entity SA Tourism are working to ensure that international and local tourists have the best experience and get value for what they are spending. Tourists need to feel safe and have ease of movement which also talks to road and rail infrastructure. This requires a whole of government approach in order that the tourism recovery plan can work.

None of all these, and many other initiatives would be possible without a partnerships and collaboration with all of our stakeholders in the tourism sector. We appreciate the role and contribution of all of our stakeholders in the implementation of our plans.

The roles played by the Minister and Deputy Minister, the Portfolio and Select Committees with regard to oversight on our operations, is greatly appreciated.

Appreciation also goes to the officials at our Department who play their roles to ensure that our commitments made through plans such as this Annual Performance Plan translate into reality.

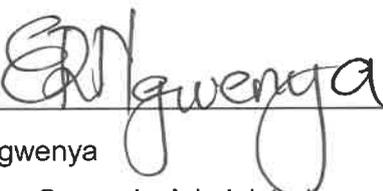

Mr Nkhumeleni Victor Tharage

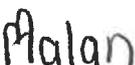

Accounting Officer

Official Sign-Off

It is hereby certified that this Annual Performance Plan:

- Was developed by the management of the Department of Tourism under the guidance of the Minister;
- Takes into account all the relevant policies, legislation and other mandates for which the Department of Tourism is responsible;
- Accurately reflects the Outcomes and Outputs which the Department of Tourism will endeavour to achieve over the period 2023/2024.

Executive Authority

PART A: OUR MANDATE

1. Updates to the relevant legislative and policy mandates

1.1 Legislative mandate

Tourism Act, 2014 (Act No.3 of 2014) aims to promote the practise of responsible tourism for the benefit of the Republic and for the enjoyment of all its residents and foreign visitors; provides for the effective domestic and international marketing of South Africa as a tourist destination; promotes quality tourism products and services; promotes growth in and development of the tourism sector, and enhances cooperation and coordination between all spheres of government in developing and managing tourism.

1.2 Policy mandate

- The White Paper on the Development and Promotion of Tourism in South Africa, 1996, provides a framework and guidelines for tourism development and promotion in South.
- The National Development Plan (NDP) is the 2030 vision for the country. It envisions rising employment, productivity and incomes as a way to ensure a long-term solution to achieve a reduction in inequality, an improvement in living standards and ensuring a dignified existence for all South Africans. The NDP recognises tourism as one of the main drivers of employment and economic growth.
- The Re-imagined Industrial Strategy identifies tourism as one of the seven national priority sectors.
- The National Tourism Sector Strategy (NTSS) guides the strategic development and growth on the tourism sector in pursuit of NDP targets.
- The Tourism Sector Recovery Plan (TSRP) sets out interventions to ignite the recovery of the tourism sector, and to place it on path to long-term sustainability whilst contributing to the implementation of the Economic Reconstruction and Recovery Plan (ERRP).

2. Updates to Institutional Policies and Strategies

The following policies and strategies are due for review within this medium term:

- The National Tourism Sector Strategy (NTSS), 2016.
- Tourism Act, 2014.
- National Grading System.

3. Updates to Relevant Court Rulings

- The Tourism Equity Fund (TEF): Applicants brought an application in the High Court against the Minister of Tourism and Others. The application consisted of two parts: Part A and Part B. In Part A, the Applicants sought an interdict against the Minister and SEFA from processing TEF applications and making payments to identified TEF beneficiaries pending the hearing of Part B of the application.
- In Part B, the Applicants sought an order for the review and setting aside of the TEF for being unconstitutional. The High Court ruled in favour of the Applicants and interdicted and set aside

the processing of any TEF applications and/or payments pending the determination and finalisation of Part B of the application. TEF remains interdicted, pending finalisation of Part B.

- Tourism Relieve Fund (TRF): The Supreme Court of Appeal (SCA) declared that the application of the B-BBEE levels as part of the criteria for selection to receive such funds during a State of Disaster is illegal. The Constitutional Court did not decide this issue and therefore the SCA's judgement remains binding authority on it.

PART B: OUR STRATEGIC FOCUS

4. Updated Situation Analysis

4.1 External Environment Analysis

Significance of Tourism

Tourism is a driver of economic growth and a demand stimulator. It is well positioned to link under-developed regions with the developed ones as it transcends spatial and geographic boundaries. Tourism ensures that people have access to socio-economic services, opportunities and choices. It creates jobs, generates incomes and creates viable communities. According to the UNWTO, Tourism is also the main bridge for building understanding. It has a unique ability to promote peace between and among peoples everywhere.

Growth in tourism promises accessible employment opportunities, geographic diversification of opportunities and increased foreign currency receipts. The tourism sector is therefore a strategic development priority. The National Treasury's policy document *titled Economic transformation, inclusive growth and competitiveness: towards an Economic Strategy for South Africa*, released in September 2019, regard tourism as one of the sectors that can drive labour intensive growth and help to combat South Africa's high level of unemployment. The policy document considers tourism to be an important economic driver of rural economies and mechanism to create sustainable employment opportunities outside urban and industrial areas.

Economic Contribution of Tourism

Impact on the Global Economy

International tourism recovered 63% of pre-pandemic levels in 2022, with Europe and the Middle East in the lead. Over 900 million tourists travelled internationally in 2022, double those in 2021 though still 37% fewer than in 2019:

- International tourism saw stronger than expected results in 2022, backed by large pent-up demand and the lifting or relaxation of travel restrictions in a large number of countries.
- Over 900 million tourists travelled internationally in 2022, double those in 2021 though still 37% fewer than in 2019.
- Europe, the world's largest destination region, recorded 585 million arrivals in 2022 to reach nearly 80% of pre-pandemic levels (-21% over 2019). The Middle East enjoyed the strongest relative increase across regions in 2022 with arrivals climbing to 83% of pre-pandemic numbers (-17% versus 2019).
- Africa and the Americas both recovered about 65% of its pre-pandemic visitors, while Asia and the Pacific reached only 23%, due to stronger pandemic-related restrictions.
- By sub-regions, Western Europe (87%) and the Caribbean (84%) came closest to their pre-pandemic levels.
- The WTTC (2022) reports that before the COVID-19 pandemic, Travel & Tourism (including its direct, indirect, and induced impacts) was one of the world's largest sectors. It accounted for 1 in 4 of all new jobs created in the world, about 10.3% of all jobs (333 million), and 10.3% of global GDP (USD 9.6 trillion).
- Looking ahead, international tourism is set to consolidate its recovery in 2023, backed by pent-up demand, particularly from Asia and the Pacific as destinations and markets open up.

- The UNWTO Panel of Experts survey indicates that 72% of respondents expect better performance in 2023. However, most experts (65%) also believe international tourism will not return to 2019 levels until 2024 or later.
- Based on UNWTO's scenarios for 2023, international tourist arrivals could reach 80% to 95% of pre-pandemic levels this year, with Europe and the Middle East expected to reach those levels. However, important risks remain ahead, especially economic and geopolitical.
- Tourists are expected to increasingly seek value for money and travel close to home in response to the challenging economic environment.

Impact on the South African Economy

After two years of stunted tourism performance due to COVID-19 containment measures globally, 2022 began with positive signs of tourism recovery. According to the WTTC estimates (2022), the total contribution of the travel and tourism sector to employment reached about 1 081 500 jobs, an increase of 1,9% in 2021 compared to 2020. The travel and tourism sector's total direct contribution to employment increased by 6,8% to reach 543 900 during this period of 2021. Total tourist arrivals went up by 152,6% for the period January-December 2022 compared to the period January-December 2021. This was a growth from a total of 2 255 699 tourist arrivals recorded during January-December 2021 to 5 698 062 during the period January-December 2022. While these figures show clear signs of recovery, the 2019 levels are still not reached. There is a need to accelerate towards full recovery.

Status of the Tourism Sector Recovery Plan (TSRP)

The TSRP was initiated as a response to COVID-19 pandemic, and to facilitate the recovery of the sector. The TSRP as approved by Cabinet on 21 March 2021 is a product of a collaborative effort with key stakeholders from government, the sector and other social partners. Tourism is also one of the eight pillars of the ERRP. It is therefore closely aligned to the country's ERRP and will also contribute to economic growth and job creation. There are 10 strategic interventions currently being implemented to protect and rejuvenate supply, re-ignite demand and strengthen enabling capability for long-term sustainability. The Department and its entity SA Tourism are working to ensure international and local tourists have the best experience and get value for what they are spending. Tourists need to feel safe and have ease of movement which also talks to road and rail infrastructure.

Tourist Safety

The threat posed to the tourism industry by crime is addressed through the National Tourism Safety Forum (NTSF), which is a public/private sector forum responsible for the coordination and integration of the Tourism Safety Programme and the implementation of a multidisciplinary Integrated Tourist Safety Action Plan. These efforts are led by the SAPS. As part of the MoU signed, there is an agreement that tourism should be a part of the NATJOINTS sub-committee on Crime and Migration. Being a part of this sub-committee ensures that tourism related matters are included in the agenda and where necessary, intelligence can be conducted to ascertain certain crimes committed against tourist.

The National Tourism Safety Strategy sets out the short, medium and long-term tourism safety priorities, roles and responsibilities of each sphere of government and other relevant stakeholders in the coordination of tourism safety programmes and ensure mutual support and cooperation between all stakeholders. It also identifies effective joint preventative approaches aimed at reducing opportunities for crime on tourist facilities and operations and the establishment of Tourism Victim Support and After Care Programmes including to facilitate integrated implementation and support of safety programme.

Travel Facilitation

Visa

South Africa continues to enhance ease of access for tourism priority markets. The visa regime has been improving for the past few years. The improvement included the addition into the visa waiver regime of travelers from countries such as Qatar; Saudi Arabia; United Arab Emirates, New Zealand, Tunisia, Ghana, Cuba, and Principe and Sao Tome in 2019.

In December 2022, Kenya and South Africa agreed that Kenyan travelers would qualify for visa free entry for a period of 90 days at the beginning of 2023. Prior to that the Department of Home Affairs had implemented the e-visa regime for 15 countries to enable access to those market not qualifying for visa waiver. Kenya was part of the e-visa regime.

Where e-visa regime had been implemented, there had been indication that its improvements were required (for example, outstanding documents were still being submitted in person in Nigeria, instead of being uploaded onto the existing application). This signaled efficiency as the challenge that needed to be addressed.

An analysis conducted by SA Tourism on 24 priority markets across several regions (African, American, European markets; Asia, Australasia and the Middle East markets) indicated that the prioritised tourism markets enjoyed a relatively liberal visa regime. This suggested that more work needed to be focused into market development (e.g. Eastern Europe, Asia and the African Continent).

While South African visa free markets extend beyond prioritised tourism markets, ensuring that the e-visa system is effective at implementation stage will unlock significant tourism volumes in those markets. Currently, there are more than 83 countries that qualify for visa free status in South Africa.

Airlift

Following the easing of COVID-19 related travel restrictions in the majority of countries globally and in South Africa, there has been significant resumption of airlift capacity. Airports Company South Africa (ACSA) reported that significant capacity from domestic and international airlines has returned to South African Airports. According to ACSA the breakdown of the number of international and domestic airlines servicing destination South Africa that have returned by September 2022 in the three ACSA's International Airports were as follows: Johannesburg (40), Cape Town (17) and Durban (6).

Despite the return of significant capacity, there are challenges confronting international airlift. The exit of South African Airways from long-haul routes has led to some markets exhausting the frequency allocated. Codeshares are useful in maintaining market presence for South Africa however, the resultant effect must be that there are additional seats to South Africa. To that extent, there is a need to ensure that the consideration of strategic partnership for South African Airways is given effect to.

The Department of Tourism will continue to work with its partners in Government and the Private Sector to monitor and support the implementation of the e-visa system and the requirements for tourist to visit South Africa and for the re-establishment of South Africa's airlift capacity to ensure adequate airlift capacity for tourism markets.

Domestic Travel

The collapse of various domestic airlines has affected domestic airlift. This has had a significant impact on ticket prices and has the potential to further constrain the domestic market. Some recovery has been observed in the domestic market with South Africans taking more *shot'left* holidays following the COVID-19 restrictions. There is a need to ensure that tourism supply responds to the needs of the domestic market with bespoke products and services.

International Relations

South Africa is a full member of the United Nations World Tourism Organisation (UNWTO). Having been nominated by UNWTO Commission for Africa (CAF) in 2021 and approved by the 24th UNWTO General Assembly, South Africa was elected to the UNWTO Executive Council for the period: 2022-2025. South Africa's membership on the Executive Council of the UNWTO presents her with the opportunity to lift the interests of the Southern Africa region and the African continent. Under the CAF umbrella, South Africa will continue to collaborate with the SADC region as well as the rest of Africa to promote the continent's interests in tourism development.

4.2 Internal Environment Analysis

Internal Environment Analysis

Department develops and implements Audit Action Plan to address the audit findings and to strengthen controls further. In design, these controls enable management to fulfil its responsibilities of maintaining an adequate internal control system to provide assurance that the organisational business and operations are conducted in an orderly and efficient manner; that policies are adhered to, that assets are safeguarded against loss and unauthorised use, and that transactions are executed in the interest of the public. Where the inherent risks in administration materialise, the Department continues to ensure implementation of corrective measures.

Furthermore, the Department has structures in place for control, institutionalised mechanisms and the necessary capacity to promote good governance and ethical conduct in doing its business. These include preventive, detective and corrective internal control mechanisms, combined with assurance procedures, promoting good ethical conduct necessary to combat and prevent fraud and corruption, implementing risk management, proper delegation of authority, proper management of information, communication, technology and other mechanisms required to entrench good governance.

Within the Department good governance and accountability remain top priorities even in 2023/2024 through the implementation of comprehensive Risk Management Strategy and the Combined Assurance Model for both financial and performance information.

The Department remains resolute in its attitude towards clean governance. As custodians of South Africa's aspiration for a growing tourism sector that benefits all South Africans, the Department is poignantly aware of the importance and weight of its responsibility in this regard. The Department is, therefore, quite deliberate in how it directs its capabilities and the resources it has been allocated. The Department will continue to emphasise the need to embrace good governance as well as the culture of accountability within itself and with all of its partners and agents.

PART C: MEASURING OUR PERFORMANCE

5. Institutional Programme Performance Information

Programme 1: Administration

Purpose: To provide strategic leadership, management and support services to the Department.

Sub-Programmes and Purpose:

- **Strategy and Systems:** To manage and coordinate strategy and systems as well as provide public entity oversight.
- **Human Resource Management and Development:** To manage the provision of human resource management and development.
- **Communications:** To manage the coordination and provision of communications support to the department.
- **Legal Services:** To manage the provision of legal support services.
- **Financial Management:** To manage and facilitate the provision of financial management services.
- **Internal Audit:** To manage the provision of internal audit services.

5.1 Outcomes, Outputs, Performance Indicators and Targets

Table 1: Outcomes, Outputs, Output Indicators and Targets

Output Indicator	Annual Target				
	Audited/Actual Performance	Estimated Performance	MTEF Period	MTEF Period	
	2019/20	2020/21	2021/22	2022/23	
Outcome: Achieve good corporate and cooperative governance					
Sub-programme: Financial Management					
Output: Unqualified annual audit on financial and non-financial performance.					
1. Audit outcome on financial statements and performance information.	Unqualified audit on financial statements and performance information was achieved.	Unqualified audit on financial statements and performance information was achieved.	Unqualified audit on financial statements and performance information was achieved.	Unqualified audit on financial statements and performance information.	Unqualified audit on financial statements and performance information.
Output: Departmental expenditure to contribute to the Government's economic transformation agenda.					
2. Percentage of procurement of goods and services from SMMES.	59.52% expenditure on procurement of goods and services from SMMES was achieved.	61.79% expenditure on procurement of goods and services from SMMES was achieved.	61.08% expenditure on procurement of goods and services from SMMES was achieved.	Minimum expenditure on procurement of goods and services from SMMES.	40% expenditure on procurement of goods and services from SMMES.
3. Percentage of compliant invoices paid within prescribed timeframes.	-	Payment was made of all compliant invoices within 30 days, including SOEs and municipalities.	95.5% Payments of all compliant invoices within 30 days including State-owned.	100% Payment of all compliant invoices within 30 days.	100% Payment of all compliant invoices within 30 days.
				40% expenditure on procurement of goods and services from SMMES.	40% expenditure on procurement of goods and services from SMMES.
				100% Payment of all compliant invoices within 30 days.	100% Payment of all compliant invoices within 30 days.

5.3 Explanation of planned performance over the medium-term period

Programme 1: Administration remains committed to creating a capable Department and strengthening institutional capability to deliver on departmental outputs. The focus is on the development of requisite human capabilities, improving institutional systems and automated business processes. To achieve efficiency and effectiveness, the primary focus is on enhancing integrated planning and strengthening management of performance information. The Branch is committed to promoting good governance, adequate systems of internal control through oversight over SA Tourism.

The programme will accelerate the implementation of apex priorities on mainstreaming gender, empowerment of youth and persons with disabilities for the Department. The Department is amongst the top performing institution on the employment of employees with disabilities and the departmental target for 2023/2024 remains above national target.

The programme will also widen its footprint to support initiatives aimed at tourism sector recovery and the value chain. In pursuit of efficiency, the programme will improve the agility of procurement systems through various strategic interventions to directly support the implementation of the TSRP. Priority will be given to strategic interventions geared towards ensuring that the Departmental expenditure adequately contribute to Government's Economic Transformation agenda.

The implementation of the Departmental Communication Strategy will ensure effective communication between the Department and citizens, facilitate awareness drives, profile the departmental programmes and services, and mobilising community and stakeholder participation. The Department emphasises Domestic Tourism to strengthen Tourism Sector Recovery efforts and to enhance confidence and promote public interest.

Enterprise-wide risk management system will be strengthened to support good governance and foster a strong ethical culture. Information Communication Technology remains a critical enabler towards creating a modern and digitised environment and deploying technological platforms to achieve efficiencies in our business processes.

5.4.1 Narrative: explanation of the resources allocation to achieve the outputs

Included in Programme 1: Administration, is the Ministry, Management, Corporate Management, Financial Management and Office Accommodation. Corporate Management includes the Deputy Director-General: Corporate Management, Human Resources, Communication, Legal Services, Strategy and Systems, Information and Communication Technology, and Internal Audits. This programme budget is 13 per cent of the total departmental budget for the 2023/24 financial year. An amount of R324.9 million has been allocated for this programme of which R169.1 million (52 per cent) is for Compensation of Employees.

The amount allocated for Office Accommodation for the 2023/24 financial year is R38.8 million. This is for the payment of the Head Office building of Tourism to the Department of Public Works towards the lease agreement. Goods and services budget allocation includes our contractual commitments for computer services as well as our audit payments to the Office of the Auditor-General South Africa.

Programme 2: Tourism Research, Policy and International Relations

Purpose: Enhance the strategic policy environment, monitor the tourism sector's performance and enable stakeholder relations.

Sub-Programmes and Purpose:

- **Research and Knowledge Management** oversees tourism research, knowledge management and impact evaluation of the sector.
- **Policy Planning and Strategy** oversees and guides policy and strategy development for the tourism sector, and ensures the efficient and effective management of stakeholder relations.
- **International Relations and Cooperation** drives South Africa's interests through international relations and cooperation.

5.5 Outcomes, Outputs, Performance Indicators and Targets

5. Sharing of Best Practices Workshop hosted.	Sharing of Best Practices Workshop 2024 targeted at African countries with whom SA signed tourism agreements hosted.	Concept document for the Best Practices Workshop 2024 drafted.	Stakeholder consultation on the concept document Conducted for the Best Practices Workshop 2024 conducted.	Concept document for the Best Practices Workshop 2024 finalised.	Sharing of Best Practices Workshop 2024 targeted at African countries with whom SA signed tourism agreements hosted.
6. Number of outreach programmes with the diplomatic community implemented.	Two outreach programmes with the diplomatic community in prioritised countries implemented.	Stakeholder consultation on the outreach programmes with the diplomatic community in prioritised countries conducted.	Concept Note on outreach programmes to the prioritised countries developed.	One outreach programme with prioritised country hosted.	One outreach programme with prioritised country hosted.

5.7 Explanation of planned performance over the medium-term

In order to enhance the strategic policy environment, monitor the tourism sector's performance and enable stakeholder relations, Programme 2: Tourism Research, Policy and International Relations, provides support to the Department and the tourism sector through the provision of the following services: Research; Statistics; Knowledge Management; Monitoring and Evaluation; Policy and Strategy Development; International Relations; and Strategic Sector Partnerships.

During the medium-term, Programme 2's response will be aligned to the following strategic interventions in the TSRP:

Strategic Intervention 1: *Stimulate domestic demand through targeted initiatives and campaigns.* Measuring the impact of current affairs on the tourism sector will be undertaken, which, together with a number of research studies in this area, will contribute to the formation of appropriate initiatives and campaigns to stimulate domestic demand. Quarterly and annual reports on the status of the tourism sector will be developed, which will assist to provide a sense with regard to the effectiveness of the interventions.

Strategic Intervention 2: *Execute a global marketing programme to reignite international demand.* Quarterly and annual reports on the status of the tourism sector will be developed, which assist to provide a sense with regard to the effectiveness of the interventions.

Strategic Intervention 3: *Tourism Regional Integration.* This will be done, amongst others, through the contribution of the implementation of the Tourism Sector Plan for SADC.

Strategic Intervention 4: *Review the tourism policy to deliver efficient, effective and purpose-led support for sector growth and development.* The review of the overarching policy framework guiding tourism in the country (i.e., White Paper on the Development and Promotion of Tourism in South Africa, 1996) is important to ensure that recent developments are taken into consideration.

These objectives contribute directly to the Tourism Sector's response to the ERRP, and indirectly contribute to the ERRP.

5.8.1 Narrative: explanation of the resources allocation to achieve the outputs

Tourism Research, Policy and International Relations Programme (**Programme 2**) has a budget allocation of **R1.435 billion for 2023/24 of which R1.345 billion is transferred to SA Tourism**. This represents 94 per cent of the Branch's budget allocation. The remaining allocation available for this Programme is R90.6 million of which R60.8 million is allocated to Compensation of Employees for the branch. South Africa's membership fee for the United Nation World Tourism Organisation (UNWTO) is under the "foreign governments and international organisations" line item, within the Branch's budget.

Programme 3: Destination Development

Purpose: Facilitate and coordinate tourism destination development.

Sub-Programmes and purpose:

- **Destination Planning and Investment Coordination** ensures that tourism infrastructure supports the current and future growth of the sector.
- **Tourism Enhancement** increases the competitiveness of South Africa's tourism industry.
- **Working for Tourism** facilitates the development of tourism infrastructure projects under the Expanded Public Works Programme through labour-intensive methods targeted at youth, women, unemployed and disabled people, and small, medium and micro enterprises.

5.11 Planned performance over the medium-term period

Programme 3 - Destination Development, responds to tourism demand (i.e. the needs of tourists) by ensuring that supply side measures are put in place for tourism places and physical spaces. This is achieved through the provision of coherent destination planning, investment promotion, tourism product and infrastructure enhancement and development, experience development and job creation.

During the medium-term, the Programme's response will align with the following areas in the TSRP:

Strategic Intervention 2: Stimulate domestic demand through targeted initiatives and campaigns:

- The correct product-pricing mix is key to addressing domestic demand. This would include the costs and availability of the transport enabler that allows tourists to get to and move within destinations. While South Africa has no shortage of tourism products, both public and private sector owners will have to consider how these products are packaged and priced for the domestic and regional consumer. The **pilot on the budget resort concept and brand** is an initiative to meet the anticipated changes in domestic and regional demand. The key risks related to this initiative pertain to the lack of stakeholder buy-in, resourcing and institutional arrangements. If these risks are addressed, they inevitably become key enablers for the budget resort concept and brand piloting process.
- Aligned with this initiative is the incorporation of prioritised initiatives from tourism masterplans into **DDM One Plans for various districts**.

Strategic Intervention 3: Launch an investment and resource mobilisation programme:

- Resource and investment mobilisation efforts to support supply requirements will continue. This support will be provided through **investment promotion efforts for both existing (Brownfield) and new (Greenfield) projects**. Project packaging is a key enabler for successful investment mobilization efforts. The key risk at present is that there is high global demand for investors and this may hamper resource and investment mobilization efforts.

Strategic Intervention 4: Support for the protection of core tourism infrastructure and assets.

- A critical element of the recovery effort is to ensure that, the supply side of the sector is protected and rejuvenated. **Tourism infrastructure development and maintenance works of products and attractions** will create jobs and SMME opportunities, in compliance with the PFMA. There is substantial scope for labour intensive work through construction projects that will focus on 29 community-based tourism projects and maintenance contracts in five (5) provinces under the Infrastructure Maintenance and Beautification Programme. The aim of the Department is to promote SMME development, B-BBEE, involvement of women and youth, and local employment, coupled with appropriate enterprise development. The programmes in Strategic Intervention 4 measure the quality of product offerings, to enhance the visitor experience that will be implemented in the medium-term to improve destination competitiveness.

- A key intervention in this area of work is the investment in the **development of community-owned tourism assets** to support inclusive economic growth, product diversification and geographic spread. The key risks for this infrastructure programme relate to third party reliance and operational models. Effective stakeholder compacts, contract management that detail clear deliverables and targets, which are linked to budgetary allocations and early operator involvement in mobilising operational expertise and funding are, however, key enablers to mitigate these risks. These interventions are to be implemented by the Department in the 2023/24 financial year going forward, starting with a Service Level Agreement with the Department's implementing agent and with its entity.
- These objectives contribute directly to the Tourism Sector's response to the ERRP in respect of the following areas: Growing the productive economy; Mass public employment interventions; Infrastructure investment; Green economy interventions; Gender equality and the inclusion of women and youth; and support for tourism recovery and growth.

TSRP Pillar: Strengthening enabling capability.

- In respect of local (municipal, districts and provinces) destination development, the Department has manuals and methodologies as arms-length resources and has conducted training on these. The Department also work cooperatively with Cogta regarding building capacity, guidance etc. Areas covered include: -
 - Destination Planning
 - Precinct Planning
 - Niche planning.
- The methodologies and manuals are applicable to township and rural development / planning, as well as district level planning.

5.12 Programme Resource Consideration: Programme 3

5.12.1 Narrative: explanation of the resources allocation to achieve the outputs

Destination Development (**Programme 3**) has a budget allocation of R401.1 million for 2023/24 of which R334.8 million is allocated to the Working for Tourism sub-programme which represents 83 per cent of the budget of the total programme. Working for Tourism includes the Expanded Public Work Programme (EPWP) and Expanded Public Work Incentive Programme. R61.1 million is allocated to Compensation of Employees for the Branch, which represents 15 per cent of the total budget for the financial year.

Programme 4: Tourism Sector Support Services

Purpose: Enhance transformation, increase skill levels and support the development of the sector to ensure that South Africa is a competitive tourism destination.

Sub-Programmes and Purpose:

- **Tourism Human Resource Development** facilitates the efficient management and implementation of human resource development initiatives for the tourism sector.
- **Enterprise Development and Transformation** facilitates inclusive participation and sustainability in the tourism sector.
- **Tourism Visitor Services** ensures the integrity of information and facilitates accurate tourism information.
- **Tourism Incentive Programme** manages the establishment of capital and non-capital tourism incentives to promote and encourage the development and growth of the tourism sector.

5.15 Explanation of planned performance over the medium-term period

The Tourism Sector Support Services ensures that the tourism sector is transformed, and supported through the Skills Development and Enterprise Development Programmes. The outputs and outcomes identified will not only assist in empowering retrenched women, youth and people with disabilities to enjoy and participate in the tourism space, but will ensure that interventions are set and implemented for tourism across the value chain to enable safe tourism operation and rebuild consumer confidence.

Enterprise Development and Transformation

Transformation is one of the key pillars of the NDP, and the main driver for inclusive economic growth and job creation. Following the amendment of the Generic Codes for B-BBEE by the DTIC, the Tourism Transformation Council of South Africa developed the new transformation Code for the tourism sector in consultation with tourism stakeholders to de-racialised and advance economic transformation in the sector. The performance is to deliver needs-based enterprise development support programmes that will strengthen the sustainability of rural based tourism enterprises, including community owned tourism establishments. The outputs and outcomes identified will seek to increase the participation of women and youth in tourism. Events and Festivals can be critical stimulators of tourism with the longer-term goal as catalysts for economic development, attract inbound and domestic tourists, improve destination, encourage municipal development, attract investment, and brand improvement and positioning. In 2023/24, the Department will pilot the use of events and festivals to expand township and rural tourism to support the sustained revitalization of affordable and accessible domestic travel and tourism. Responsible Tourism is defined as a tourism management strategy in which the tourism sector and tourists take responsibility to protect and conserve the natural environment, respect and conserve local cultures and ways of life, and contribute to stronger local economies and a better quality of life for local people. The Department developed the Tourism Environmental Implementation Plan, the Framework for Community Participation in Tourism and the Universal Accessibility Programme. The performance is to create capacity among youth in the country who would be upskilled on the promotion of energy efficiency, water-use efficiency and proper waste management in the tourism sector.

Visitor Support Services

Visitor services are key to domestic and international travel as they seek to ensure information integrity and facilitates accurate information for planning travel to the country. They may take the form of the provision of tourism information (including all travel information channels, through digital, brochures, Visitor Information Centres). When travellers visit a country, it is important for them to be assured of safety when travelling through a destination to experience a variety of a country's attractions. The outputs and outcomes identified will not only promote visible safety monitoring but will ensure that the norms and standards set to promote safe tourism operations are well promoted and monitored at different attractions across the country.

Tourism Sector Human Resource Development

Great advances have been made in the introduction of tourism and hospitality to the formerly disadvantaged schools that are mostly found in rural areas and townships. Tourism is a new learning area; it was also one of those subjects that were construed as a new strategy to advance job opportunities in South Africa. Teaching of tourism in South Africa takes place in public and private high schools and universities especially since 1996. It is envisioned that our programmes would benefit mostly learners from the previously disadvantaged communities, including exciting them to take up careers in travel and hospitality.

Tourism Incentive Programme

Recent process improvements and streamlining of the application process have resulted in improved turnaround times and an increase in the number of applications submitted for adjudication in the Green Tourism Incentive Programme (GTIP). The programme is now well established and a growing number of beneficiaries have completed installations and are starting to reap the benefits of more efficient energy and water systems. The success of the programme to date has supported the recent extension and recapitalisation of the programme. The Tourism Equity Fund (TEF) unfortunately remains suspended following a High Court interdict, but the Department remains confident that once the ongoing legal process has been finalised and concluded, the fund will be reintroduced to stimulate increased transformation of the tourism sector.

5.16.1 Narrative: explanation of the resources allocation to achieve the outputs

Tourism Sector Support Services (Programme 4) has a budget allocation of R363 million for 2023/24 which includes Compensation of Employees amounting to R83.4 million and Tourism Incentive Programme (TIP) with a budget of R243 million. Projects within the TIP include tourism transformation through the Tourism Equity Fund (TEF), and Green Tourism Incentive Programme (GTIP) projects. The Compensation of Employees represents 23 per cent of the branch's total allocation amounting to R83 million for the financial year.

6. UPDATED KEY RISKS AND MITIGATION FROM THE STRATEGIC PLAN

Table 9: Updated Key Risks

OUTCOMES	RISK NO.	KEY RISKS	RISK MITIGATIONS
<p>Increase the tourism sector's contribution to inclusive economic growth.</p>	<p>SR 1</p>	<p>Inability to meet the Tourism B-BBEE Sector Code targets to facilitate radical economic transformation within the tourism sector.</p>	<ul style="list-style-type: none"> • Enhance awareness campaigns on Tourism B-BBEE Scorecard and programmes offered by the Department. • Consultation with stakeholders on the Tourism Transformation Strategy. • Establish mechanism for monitoring and reporting of sector transformation targets indicated in the Tourism B-BBEE Sector Codes. • Support the Tourism Transformation Council of South Africa to be independent from the Department of Tourism. • To engage NEF and DBSA to include the B-BBEE targets for those appointed through their programmes. • Facilitate the review of the Executive Development Programme for Black women. <p>Implementation of the following incubation programmes:</p> <ul style="list-style-type: none"> • Tour Operators, Tourism Tech Innovation, Food Services and Community Based Tourism Incubator, Homestay Incubator Support Programme. • Implement Business Development Support for Women in Tourism - Limpopo Pilot. • Tourism Incentive Programme: Implement Tourism Market Access Support programme, Tourism Grading Support Programme and Facilitate Implementation of the Tourism Equity Fund.
	<p>SR 2</p>	<p>Inadequate infrastructure planning and implementation.</p>	<ul style="list-style-type: none"> • Utilise the revised infrastructure contract, planning, implementation and monitoring templates and processes (applicable for all new projects). • Project site visits, project steering committees and regular engagements with the DBSA team to review project progress. • Service Level Agreement (SLA) between the Department and DBSA to be performance oriented with related tranche payments. • Commence with the development of a new web-based project management system.

OUTCOMES	RISK NO.	KEY RISKS	RISK MITIGATIONS
			<ul style="list-style-type: none"> Implement the National Treasury Standard for Infrastructure Procurement Delivery Mechanism governing the infrastructure life cycle.
	SR 3	Inability to create an enabling legislative and regulatory environment for tourism development and growth.	Review the National Tourism Sector Strategy (NTSS), 2016 and, if required, the Tourism Act 2014
	SR 4	Key markets access to South Africa constrained due to limited aviation and visa capacity especially following COVID-19 Pandemic (not within their control).	<ul style="list-style-type: none"> Facilitate a national approach to air access initiatives in collaboration with the Department of Transport and key partners. Actively participate in the National Air Access Committee to stimulate Air Services. Support the Department of Home Affairs in the development of the e-visa programme where needed.
	SR 5	Poor brand reputation and potential visitors' perceptions about safety of Destination South Africa.	<ul style="list-style-type: none"> Implementation of the Tourism Monitor Programme. Participation at the Justice, Crime Prevention and Security Cluster (JCSP). Provide reports on the implementation of the Tourism Safety Strategy and Action Plan (fast-tracking of cases related to tourist attacks and the implementation of Virtual Courts for cases related to international tourists).
	SR 6	Negative effect of public health emergencies due to global outbreaks, extreme weather events, national disasters and climate change.	<ul style="list-style-type: none"> Implementation of Tourism Monitors programme to incorporate norms and standards for safe tourism operation. Skills Development Programmes Training implemented with training on norms and standards integrated. Service Excellence Standards implemented with norms and standards for safe tourism operations. Training of SMMEs on Norms and Standards. Capacity building programmes to integrate training on norms & standards. Create awareness about the vulnerability of Destination South Africa and necessary mitigations.

OUTCOMES	RISK NO.	KEY RISKS	RISK MITIGATIONS
	SR 7	Decline in supply side products and services following the COVID - 19 pandemic.	<ul style="list-style-type: none"> Support Tourism Infrastructure Maintenance in State-Owned Attractions and Assets. Collect secondary data by using other platforms or alternative methods/issue a call for information to bridge the information gap that exists
	SR 8	Delays in the implementation of the Tourism Transformation Fund.	<ul style="list-style-type: none"> Monitoring of the implementation of the Tourism Transformation Fund (TTF). Appointment of senior departmental officials on the NEF's 3rd party funds committee to assist in the adjudication of recommended TTF applications. Contract management (effect provisions of the MoA). Appointment of departmental officials on the Project Steering Committee of the TTF. Review of quarterly TTF implementation reports received from National Empowerment Fund (NEF). Conduct business case on the use of business partners e.g. Banks. Investigate alternative delivery mechanism/s for TTF.
	SR 9	Ineffective contract management.	<ul style="list-style-type: none"> Facilitate oversight on Contract Management through the Operations Committee (representation from Branches, Legal Services, SCM, Finance, Risk). Review Risk Identification and Mitigation Plan for all departmental contracts. Top Management and MANCO oversight on Contract Management. Awareness on quality contracts, vetting processes, guarantees, warranties and retention fee administration. Review the current Contract Management Policy. Facilitate development and approval of Standard Operating Procedures on Contract Management. Establish a centralised and credible Contract Management Register. Implement Internal Control measures (e.g. compliance checklist) Contract Management.

OUTCOMES	RISK NO.	KEY RISKS	RISK MITIGATIONS
			<ul style="list-style-type: none"> • Facilitate training on specification development and Bid Evaluation for all employees. • Facilitate training on Contract Management to relevant functionaries. • Facilitate Project Management Training for relevant functionaries. • Facilitate suitable KRA and Targets for all sub-programmes responsible for Contract Management.
Achieve good corporate and cooperative governance.	SR 10	Monopoly and collusive practices by suppliers.	<ul style="list-style-type: none"> • Vetting of service providers and departmental employees. • Confidential and or secrecy forms signed by all departmental employees. • Declaration of conflict of interest by all employees involved in procurement processes • Blacklist service providers involved in bid rigging with National Treasury register of defaulters.
	SR 11	Inadequate Project Management.	<ul style="list-style-type: none"> • Strengthen project management, monitoring and reporting capacity of project managers, through the DBSA skills transfer process. • Continue to implement a system for monitoring progress of projects. The system is already in place and needs continual implementation and improvement. • Projects or programme concept / design and implementation plan to be developed. • Approved concept/design to be made available to procurement committees and to form the basis for the development of Terms of References.
	SR 12	Inadequate alignment between the Department's strategic priorities and South African Tourism (SA Tourism).	<ul style="list-style-type: none"> • Facilitate MTEF integrated Planning between the Department and SA Tourism. • Strengthen oversight on SA Tourism through the following instruments: <ul style="list-style-type: none"> ○ Service Level Agreement (SLA) between SAT and the Department linking deliverables to tranche payments ○ Public Entity Oversight Framework ○ Revised Governance Protocol ○ Quarterly Entity Oversight Reports

7. PUBLIC ENTITY

Table 10: Public Entities

Name of Public Entity	Mandate	Outcomes
<p>South African Tourism (SA Tourism).</p>	<p>Chapter 3 of the Tourism Act, 2014 stipulates the following as the functions of the SA Tourism Board:</p> <ul style="list-style-type: none"> • Market South Africa as a domestic and international tourist destination. • Market SA Tourism products and facilities internationally and domestically. • Develop and implement a marketing strategy for tourism that promotes the objectives of the Act and the NTSS. • Advise the Minister on any other matter relating to tourism marketing. • With the approval of the Minister, establish a National Conventions Bureau to market South Africa as a business tourism destination by: <ul style="list-style-type: none"> ○ Coordinating bidding for international conventions; ○ Liaising with other organs of state and suitable bodies to promote South Africa as a destination for business events; and ○ Reporting to the Minister on the work performance of the National Conventions Bureau. <p>Additionally, the Minister assigned, in terms of section 44 of the Tourism Act, 2014, the implementation and management of the National Grading System for Tourism to the Board.</p>	<ul style="list-style-type: none"> • Increase the tourism sector's contribution to inclusive economic growth. • Achieve good corporate and cooperative governance.

8. INFRASTRUCTURE PROJECTS

Table 11: Infrastructure Projects

No.	Project name	Programme	Project description	Outputs	Project start date	Project completion date	Total estimated cost	Current year expenditure
1	Twenty-Nine Community-based Tourism Projects implemented in various parts of the country ⁷ .	Destination Enhancement and Working for Tourism	Support the Implementation of Thirty Community-based Tourism Projects.	Implementation of Thirty Community-Based Tourism Projects supported and monitored.	November 2020	Each project has estimated completion date	R 573 460 000	R 84 417 428.88 (Note: As these are multi-year projects, both the funding and the implementation will be managed over multiple financial years).

⁷ Community Based Projects: LP Va Tsonga, LP Matsila Lodge, LP Phiphidi Waterfall, LP Oaks Lodge, LP Ngove, LP Tisane, FS QwaQwa Guest House, FS Vredefort Dome, FS Monotsha, NW Manyane Lodge, NW Lotlamoeng Dam, NC Platfontein Lodge, NC Kamiesburg, KZN Muzi Pan, NW Lehututhse Bird and Trophy Hunting; NC McGregor Museum; KZN; Isibhubhu ; EC Mthonsi Lodge, EC Qatywa Lodge, EC Nyandeni Chalets, EC Western Thebuland, Numbi Gate(Nkambeni), Numbi Gate(Mdluli), Nandoni Dam, Tshathogwe Game Farm, Mpate Recreational Social Tourism Facility, Mfrititi Game Farm, Royal Khalanga Lodge.

Table 12: Breakdown of the 29 Community-Based Tourism Projects

No.	Project Name	Location (Province)	Project Description and Phase	Project Construction Start Date	Project Estimated End Date	Total Estimated Project Cost	2023-2024 Projected Expenditure
1.	Vha Tsonga	Limpopo	<ul style="list-style-type: none"> Construction of the cultural village. Design development stage. 	2023-07-04	2024-05-04	TBD	R14 145 825.00

9. PUBLIC PRIVATE PARTNERSHIP

None.

PART D: TECHNICAL INDICATOR DESCRIPTION (TID)

PROGRAMME 1: ADMINISTRATION

1. Sub-Programme: Financial Management

Indicator Title	1. Audit outcome on financial statements and performance information
Definition	Measures and test the reliability and usefulness of financial and non-financial performance information.
Source of data	Auditor-General's Report.
Method of Calculation / Assessment	Application of audit procedures by the AGSA on financial and non-financial performance information.
Means of verification	Final Management Report issued by the AGSA.
Assumptions	Effective audit procedures by AGSA on conducting audit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Non-cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Corporate Management and Chief Financial Officer.

Indicator Title	2. Percentage procurement of goods and services from SMMEs
Definition	Measures percentage expenditure from compliant SMMEs.
Source of data	LOGIS and BAS system and Central Supplier Database (CSD).
Method of Calculation / Assessment	Expenditure on procurement from compliant SMMEs as a proportion of total Departmental expenditure.
Means of verification	Reports from CFO with evidence.
Assumptions	Procurement from government institutions, public entity and transversal contracts is excluded.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Non-cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	Chief Financial Officer.

Indicator Title	3. Percentage of compliant invoices paid within prescribed timeframes
Definition	Measures percentage of compliant invoices paid within 30 days to suppliers of goods and services
Source of data	BAS.
Method of Calculation / Assessment	Invoices: Number of days taken to process payment for valid invoices received. Mandatory Payment: payments made to relevant bodies in line with prescripts.
Means of verification	Reports from OCFO with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Non-Cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	Chief Financial Officer.

Indicator Title	4. Percentage of procurement spend from women-owned businesses
Definition	Measures percentage procurement from women-owned businesses
Source of data	Logis System, BAS System and Central Supplier Database
Method of Calculation / Assessment	Percentage procurement from women-owned businesses as a proportion of total Departmental procurement
Means of verification	Reports from OCFO with relevant evidence
Assumptions	Exclusion of Procurement from Government institutions, Entities and Transversal Contracts (e.g. SITA, NT).
Disaggregation of Beneficiaries (where applicable)	Disaggregated information for women
Spatial Transformation (where applicable)	Not Applicable
Calculation Type	Non-Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is acceptable
Indicator Responsibility	Chief Financial Officer.

2. Sub-Programme: Strategy and Systems

Indicator Title	5. Number of public entity oversight Instruments developed
Definition	Measures the number of instruments developed to promote good governance and oversight of SA Tourism
Source of data	Inputs from other programmes.
Method of Calculation / Assessment	Simple count - number of instruments developed and submitted against planned target.
Means of verification	Instruments developed and inputs from other programmes
Assumptions	Reliability of reports from the relevant units.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Corporate Management.

3. Sub-Programme: Human Recourse Management and Development

Indicator Title	6. Percentage of Vacancy rate.
Definition	Measures percentage of vacant posts as a proportion of funded posts.
Source of data	PERSAL System.
Method of Calculation / Assessment	Percentage of vacant posts as a proportion of funded posts (Number of funded vacant posts / total funded establishment = vacancy rate).
Means of verification	Vacancy rate report from PERSAL system.
Assumptions	Reliability and availability of PERSAL reports.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly.
Desired performance	Vacancy rate below specified percentage.
Indicator Responsibility	DDG: Corporate Management.

Indicator Title	7. Percentage of compliance with Departmental Employment Equity Targets.
Definition	Measures: <ul style="list-style-type: none"> Percentage women representation in the Senior Management Service; Percentage representation of persons with disabilities as a proportion of the filled posts;
Source of data	PERSAL System.
Method of Calculation / Assessment	Proportional representation of prioritised categories against funded posts
Means of verification	EE Report with evidence.
Assumptions	Reliability and availability of PERSAL reports.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Non-cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Corporate Management.

Indicator Title	8. Percentage of Workplace Skills Plan (WSP) implemented.
Definition	Measures the percentage implementation of interventions on the WSP
Source of data	Progress report form HRD Unit.
Method of Calculation / Assessment	Percentage of interventions implemented against the total planned for the year.
Means of verification	Quarterly Training report with evidence.
Assumptions	Reliability of reports
Disaggregation of Beneficiaries (where applicable)	<ul style="list-style-type: none"> Target for women: 50%. Target for youth: 5% of the establishment (internship programme).
Spatial Transformation (where applicable)	Not Applicable.
Calculation Type	Non-cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance lower than stated targets is not acceptable.
Indicator Responsibility	DDG: Corporate Management.

4. Sub-Programme: Internal Audit

Indicator Title	9. Percentage implementation of the Annual Internal Audit Plan
Definition	Measures percentage implementation of internal audit activities against the approved Internal Audit Plan.
Source of data	Progress report form Internal Audit Unit.
Method of Calculation / Assessment	Number of issued reports as per the approved internal audit plan.
Means of verification	<ul style="list-style-type: none"> Finalised internal audit reports issued to the Accounting Officer. Progress Report against the internal audit plan presented to Audit Committee quarterly meetings.
Assumptions	Provision of reasonable assurance on the accuracy, completeness and reliability of the reported Performance information based on credible data sources.
Disaggregation of Beneficiaries (where applicable)	Not Applicable.
Spatial Transformation (where applicable)	Not Applicable.
Calculation Type	Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance lower than stated targets is not acceptable.
Indicator Responsibility	Director: Internal Audit.

5. Sub-Programme: Communication services

Indicator Title	10. Percentage implementation of the Communication plan
Definition	Measures percentage compliance with quarterly targets of the Communications Implementation Plan
Source of data	Reports from the Communications Unit.
Method of Calculation / Assessment	Number of initiatives undertaken as a proportion of the quarterly targets indicated in the Communications Implementation Plan.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Non-Cumulative.
Reporting Cycle	Quarterly and Annually.
Desired performance	Performance lower than target is not acceptable.
Indicator Responsibility	DDG: Corporate Management.

PROGRAMME 2: TOURISM RESEARCH, POLICY AND INTERNATIONAL RELATIONS

1. Sub-Programme: Research and Knowledge Management

Indicator Title	1. Number of monitoring and evaluation reports on tourism initiatives developed
Definition	Measures the number of monitoring and evaluation reports produced to inform planning and decision-making.
Source of data	Reports from the M&E unit
Method of Calculation / Assessment	Simple count.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the sources of data.
Disaggregation of Beneficiaries (where applicable)	<ul style="list-style-type: none"> • Women • Youth • People with disability • Other groups
Spatial Transformation (where applicable)	<ul style="list-style-type: none"> • Disaggregation by province. • Impact evaluation by province-where relevant.
Calculation Type	Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is desirable.
Indicator Responsibility	DDG: Tourism Research, Policy and International Relations.

Indicator Title	2. Number of instruments developed for improving tourism statistics
Definition	Measures the number of instruments developed for improving tourism statistics.
Source of data	Reports from the Statistical Analysis unit
Method of Calculation / Assessment	Simple count - number of instruments developed for improving tourism statistics.
Means of verification	Reports from the unit with evidence.
Assumptions	Buy-in and support from key stakeholders identified
Disaggregation of Beneficiaries (where applicable)	Key National, Provincial and local key stakeholders responsible for the development of key tourism statistics.
Spatial Transformation (where applicable)	Not applicable
Calculation Type	Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is desirable.
Indicator Responsibility	DDG: Tourism Research, Policy and International Relations.

Indicator Title	3. Number of Information and Knowledge Systems implemented
Definition	Measures the number of information and knowledge systems developed for tourism.
Source of data	Reports from the Knowledge Management Unit.
Method of Calculation / Assessment	Simple count - number of information and knowledge systems developed for tourism.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is desirable.
Indicator Responsibility	DDG: Tourism Research, Policy and International Relations.

2. Sub-Programme: International Relations and Cooperation

Indicator Title	4. Number of fora prioritised to advance South Africa's tourism interests at regional, continental and global level through multilateral and other groupings
Definition	Measures the number of fora prioritised to advance South Africa's tourism interests at regional, continental and global level through multilateral other groupings
Source of data	Reports from the Unit.
Method of Calculation / Assessment	Simple count - number of fora prioritised to advance South Africa's tourism interests.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Not applicable.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is desirable.
Indicator Responsibility	DDG: Tourism Research, Policy and International Relations.

Indicator Title	5. Sharing of Best Practices Workshop hosted.
Definition	Assesses whether the Sharing of Best Practices workshop is hosted.
Source of data	Reports from the IRC unit.
Method of Calculation / Assessment	Qualitative
Means of verification	Reports from the unit with evidence
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (where applicable)	Not applicable
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is desirable
Indicator Responsibility	DDG: Tourism Research, Policy and International Relations.

Indicator Title	6. Number of outreach programmes with the diplomatic community implemented.
Definition	Measures the number of outreach programmes to the diplomatic community implemented.
Source of data	Reports from the IRC unit.
Method of Calculation / Assessment	Simple count - number of outreach programmes implemented.
Means of verification	Reports from the unit with evidence
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (where applicable)	Not applicable
Calculation Type	Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is desirable
Indicator Responsibility	DDG: Tourism Research, Policy and International Relations.

PROGRAMME 3: DESTINATION DEVELOPMENT

1. Sub-Programme: Tourism Enhancement

Indicator Title	1. Number of destination planning and investment coordination initiatives undertaken.
Definition	Measures the number of destination planning and investment coordination initiatives implemented.
Source of data	Reports from the Unit.
Method of Calculation / Assessment	Simple count - number of destination planning and investment coordination initiatives undertaken.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Destination Development

2. Sub-Programme: Destination Planning and Investment Coordination

Indicator Title	2. Number of destination enhancement initiatives supported
Definition	Measures number of destination enhancement initiatives implemented in the medium term.
Source of data	Reports from the Unit.
Method of Calculation / Assessment	Simple count - number of destination enhancement initiatives supported.
Means of verification	Reports from the unit with supporting evidence.
Assumptions	Reliability of reports with supporting evidence from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Destination Development

3. Sub-Programme: Working for Tourism

Indicator Title	3. Number of work opportunities created through Working for Tourism projects.
Definition	Measures the number of jobs created through the Department's Working for Tourism Programme.
Source of data	Reports from the Unit.
Method of Calculation / Assessment	The calculation of work opportunities and FTEs is in accordance with a formula supplied by the Department of Public Works and Infrastructure.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Provide disaggregated data for youth, gender and PWDs.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Destination Development

PROGRAMME 4: TOURISM SECTOR SUPPORT SERVICES

1. Sub-Programme: Tourism Incentive Programme

Indicator Title	1. Number of incentive programmes implemented.
Definition	Measures the number of specific incentives implemented as part of the overall Tourism Incentive Programme.
Source of data	Reports from the unit
Method of Calculation / Assessment	Simple count - number of incentive programmes implemented.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit
Disaggregation of Beneficiaries (where applicable)	Yes, in terms of gender, ownership and transformation status.
Spatial Transformation (where applicable)	Yes, in terms of geographic spread of beneficiaries.
Calculation Type	Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance lower than target is not acceptable
Indicator Responsibility	DDG: Tourism Sector Support Services.

2. Sub-Programme: Enterprise Development and Transformation

Indicator Title	2. Number of Domestic Tourism Awareness Programmes implemented.
Definition	Measures the number of programmes implemented to stimulate domestic tourism.
Source of data	Reports from Domestic Tourism Facilitation unit
Method of Calculation / Assessment	Simple count - number of Domestic Tourism Awareness Programmes implemented.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Tourism Sector Support Services

3. Sub-Programme: Tourism Visitor Services

Indicator Title	3. Number of initiatives implemented to support tourism SMMEs.
Definition	Measures the number of initiatives implemented to support SMMEs in the tourism sector.
Source of data	Reports from the Enterprise Development unit
Method of Calculation / Assessment	Simple count - number of initiatives implemented to support tourism SMMEs.
Means of verification	Reports from the unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Yes, in terms of gender, ownership and transformation status.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects:
Calculation Type	Cumulative.
Reporting Cycle	Quarterly
Desired performance	Performance higher than target is acceptable.
Indicator Responsibility	DDG: Tourism Sector Support Services

Indicator Title	4. Number of programmes implemented to enhance visitor service and experiences.
Definition	Measures the number of programmes implemented in order to enhance visitor service and experience.
Source of data	Reports from the Tourism Visitor Services unit
Method of Calculation / Assessment	Simple count - number of programmes implemented to enhance visitor service and experiences.
Means of verification	Reports from the Tourism Visitor Services Unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Not applicable.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects.
Calculation Type	Cumulative.
Reporting Cycle	Quarterly.
Desired performance	Performance higher than planned is desirable.
Indicator Responsibility	DDG: Tourism Sector Support Services

Indicator Title	5. Number of capacity building programmes implemented.
Definition	Measures the number of capacity-building programmes implemented.
Source of data	Reports from the Tourism Sector Human Resource Development unit.
Method of Calculation / Assessment	Simple count - number of capacity building programmes implemented.
Means of verification	Reports from the CD TSHRD Unit with evidence.
Assumptions	Reliability of reports from the unit.
Disaggregation of Beneficiaries (where applicable)	Yes, in terms of gender, ownership and transformation status.
Spatial Transformation (where applicable)	Spatial distribution can be provided for specific projects.
Calculation Type	Cumulative
Reporting Cycle	Quarterly
Desired performance	Performance higher than planned is desirable.
Indicator Responsibility	DDG: Tourism Sector Support Services
