REPLY:

The Minister of Public Works and Infrastructure

1. (a) I have been informed by the Department that the damages incurred at the police station as a result of community protest.

DPWI assessed the damages and the work was to be done through a quotation, estimated below R500 000.00. The scope of work for the repairs was developed by DPWI and the service provider appointed. When the service provider and the Project Manager went to the site for handover 12 December 2018, they found that the entire

building was vandalised further, beyond the initial damages that resulted from the community protest.

It was discovered that SAPS vacated the building without notifying DPWI. SAPS was requested to confirm the funding for the rebuilding of the Police Station. A reminder letter was sent to Provincial office of SAPS on 4 December 2020, following numerous correspondence, to confirm if it is still in need of the service and for the confirmation of funding.

(b) The SAPS is yet to confirm funding. Upon confirmation of funding DPWI will commence with planning and design processes including the development of timelines for the rebuilding of the Police Station.

2. The relevant details of rebuilding will be communicated as soon as the budget is confirmed by SAPS.
