

Appendix 1

Sea concession authorisations

- The Northern Cape Region has been divided into 10 concessions.
- There are (a), (b), (c) and (d) concessions. An (a) concession starts at 31,49m below low water stretching sea wards.
- The (b), (c) and (d) concessions are deeper sea wards.
- Currently, 5(d), 6 (d), 7(c) & (d), 8(c) & (d), 9(c) & (d), and 10 (b), (c) & (d) are vacant

PR refers to Prospecting Right and MR to Mining Right

555MR	Namagroen Prospecting Investments Ltd (Pty)	8(a)	13/12/2012– 11/12/2013	Diamond	R30 000	The date of validity to these is based on the fact that when companies converted the old mining Rights; they were granted for a period of 30 years. However legal services advised Mineral Law Administration to grant for a period of one year. The company appealed the decision and the appeal has not been finalised. The old mining Rights were infinite in terms of dates. This actually means the mining Right validity is infinite since the appeal is not finalised. Section 11 to transfer to Trans Hex was submitted and granted.
