## General Information

## Foreword by the **MINISTER**

Mrs. A.T Didiza, MP

Minister: Department of Agriculture, Land Reform and Rural Development

Communal Property Associations (CPAs) have been very topical in the land reform debate. This is mainly due to governance challenges experienced in the relations within the committees of the CPAs and with the general membership of the CPAs. In the past year, I had consultative meetings with the executives of some of these CPAs with an intent to understand the governance dynamics at play. With the meetings held to date, one has experienced mixed levels of accountability of these executives, with some CPAs recording excellent performance while others performed poorly. In some areas, there are tensions between the executives of the CPA and the traditional leadership. In addressing these issues, the Department is finalising a report that will capture proposals on sustainable solutions towards resolving the identified challenges of the CPAs. These solutions will also include the lessons learnt and best practices of best performing CPAs. Land occupied by CPAs is strategic to achieve amongst others the objectives of the National Development Plan.

The current geo-political tensions present both challenges and opportunities. The disruptions in supply chains have led to some countries being unable to source their inputs from their traditional suppliers due to restrictions while some exporters have experienced difficulties getting their products to their traditional markets. While these two sets of facts look like a hindrance, they also open opportunities for both buyers and sellers of goods to develop new supply chains and explore markets that have been abandoned by the traditional suppliers.

Land reform beneficiaries (CPAs) and clients who previously had challenges with the uptake of their products have new opportunities. There is an export market that present opportunities and they can take advantage of the abandoned markets to establish a foothold in the opening international markets.

We need to work towards helping our projects (CPAs) to forge common markets both locally and internationally. Our farmers who can produce on a large scale need to take advantage of the opening opportunities in the Eurasia and Asia. The paramount task that lies ahead for us is to address the challenges that hamper the achievement of the objectives that our (CPAs) projects need to meet.

We expect our successful farmers to explore not only opportunities within our borders but beyond our borders and within multilateral institutions as well. We are seeing the expansion of BRICS as an avenue for the growth of our products in the export market. For our economy to grow, we need to expand our share of the export market.

## Statement by the **DEPUTY MINISTER**

Mr. Mcebisi Skwatsha

Deputy Minister: Department of Agriculture, Land Reform and Rural Development

As part of fulfilling our constitutional obligation of providing secure tenure to persons whose tenure is insecure or did not have any rights to the land, we have found ourselves predominantly dealing with two types of entities that hold land on behalf of beneficiaries, namely, Communal Property Associations and Trusts. In most instances, beneficiaries have opted for the Communal property Association (CPA) as their legal entity of choice.

Through Communal Property Associations we have managed to give our people access to land. Our interactions with these entities have shown us that not all of them have insurmountable challenges. We have gained valuable insight into the internal workings and dynamics of these entities. What came out of different engagements with the CPAs in various parts of the country is that despite the challenges like internal disputes and differences some CPAs are doing an excellent job by creating jobs opportunities for their members while others are economically uplifting their members.

We always strive to mediate any disputes and disagreements that may affect the harmonious and efficient operations of CPAs. Some of the disputes have been resolved internally through efforts of our officials while some were resolved through the Land Rights Management Facility. In some instances, some of these matters have been reported to my office or the Minister's office. These matters are prioritised and attended during our outreach programme.

It gives me pleasure to see the CPAs that have defied the odds and achieved success in their agricultural and other enterprises. Some of the successes include the high turnover, bursaries allocated to the members or their children, creation of job opportunities for the members or their families and the development of infrastructure to support growth of agricultural production. This is a testament of what can be achieved when the right people are placed in positions of responsibility.

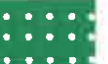

All the endeavours of those that are involved in helping our CPAs to achieve success are appreciated. We have stakeholders who have partnered with CPAs and the Department in supporting the various enterprises and commodities that CPAs venture into. The imparting of knowledge and skills makes the work of the CPAs and the Department easy. It is such intervention and support that makes the difference between success and failure in our projects. We will continue to collaborate with all partners to change the negative perceptions about CPAs.

## Overview by the **ACCOUNTING OFFICER**

**Mr. Mooketsa Ramasodi**

Director-General: Department of Agriculture, Land Reform and Rural Development

The Department has over the years given CPAs opportunities to enter the agricultural sector by assisting them to gain access to land through different programs. While some have taken advantage of the opportunities created to establish a footing in this important sector of our economy, others are still grappling with finding blueprints of success. Without neglecting CPAs that have successfully established themselves in the sector, it is incumbent upon us to expend our energies towards CPAs that are currently experiencing challenges.

The focus on assisting CPAs was on addressing the governance challenges, mostly emanating from the Constitutions of the CPAs and the understanding of these constitutions by not only the members of the committee of the CPAs but by the general members of the CPAs. The other area of focus was on building strong leadership and business skills of the CPAs to be able to manage the complexities of the enterprises ceded or created for the CPAs. In the past year, we have been capacitating the committees that manage the affairs of these entities and facilitating the sharing of knowledge between different CPAs.

We have also conducted community engagement sessions to give a platform to CPAs members to share their challenges, concerns and assist them to find sustainable solutions. Noting that some of the instabilities in the CPA environment are due to rich resource endowments leading to jostling for positions of leadership in the committees, attention has been accorded to introducing sustainable business models and sound governance mechanisms empowering CPAs to take advantage of these endowments for the benefit of communities.

The number of CPAs which are non-compliant in terms of the Communal Property Associations Act, 1996 (Act 28 1996) points us to enormous work that still awaits us as the Department to instil sound governance and accountability in the running of the CPAs. This will ensure that CPAs play a meaningful role in creation of gainful employment, economic growth and livelihoods of communities.

## National Executive Summary

# INTRODUCTION

The Communal Property Associations Act, 1996 (Act No. 28 of 1996) was promulgated to enable communities for juristic persons, to be known as Communal Property Associations in order to acquire, hold and manage property on a basis agreed to by members of a community in terms of a written constitution.

The Act apply to a community:

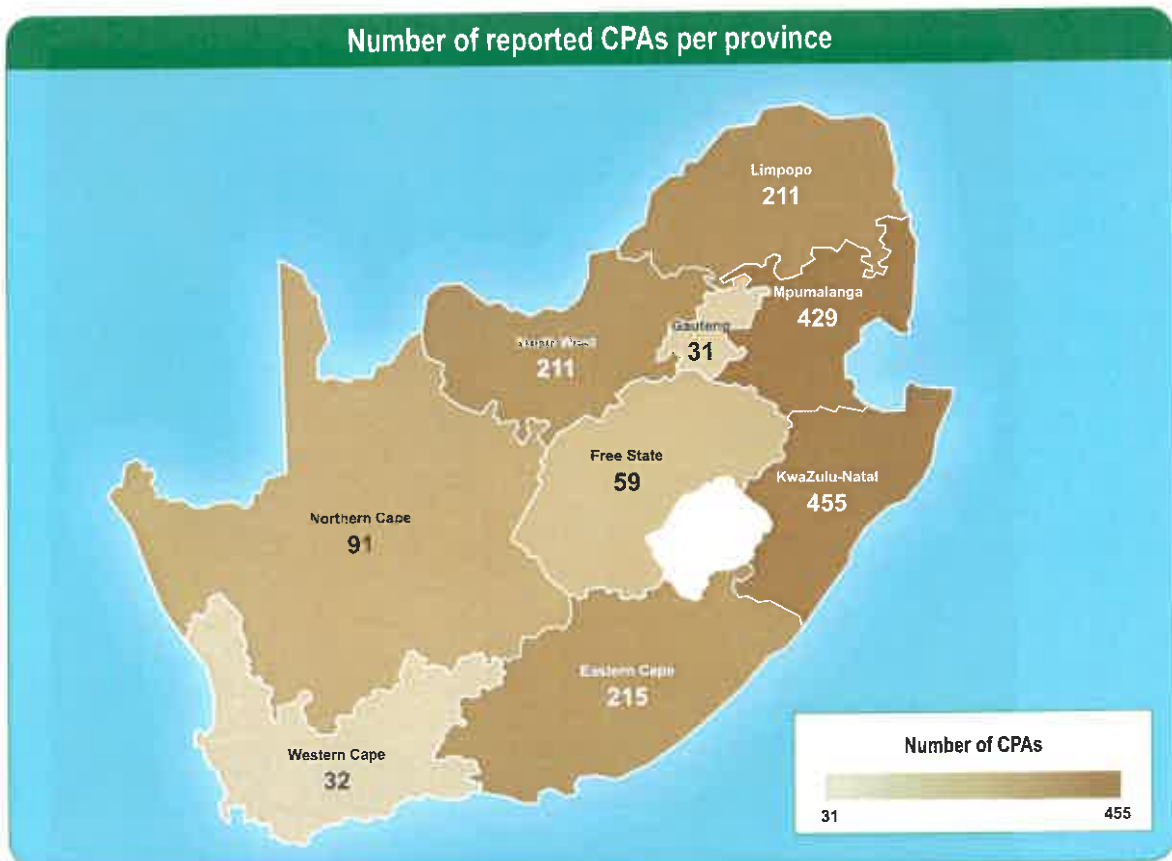

- which by order of the Land Claims Court is entitled to restitution under the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994), where that Court has ordered restitution on condition that an association be formed in accordance with the provisions of this Act;
- entitled to or receiving property or other assistance from the State in terms of an agreement or in terms of any law, on condition that an association be formed in accordance with the provisions of this Act;
- approved by the Minister in terms of subsection (2), and to which any property has been donated, sold or otherwise disposed of by any other person on condition that an association be formed in accordance with the provisions of this Act;

- approved by the Minister in terms of subsection (2), and which is a group acquiring land or acquiring rights to land and which wishes to form an association in accordance with the provisions of this Act.

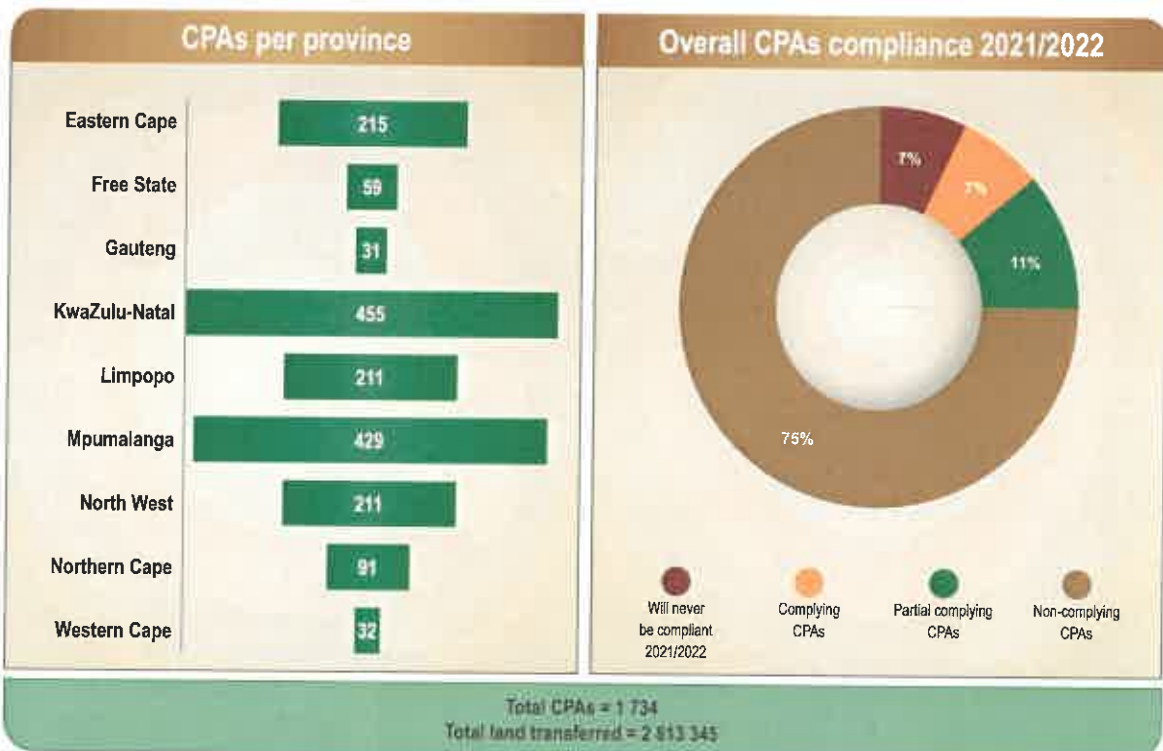

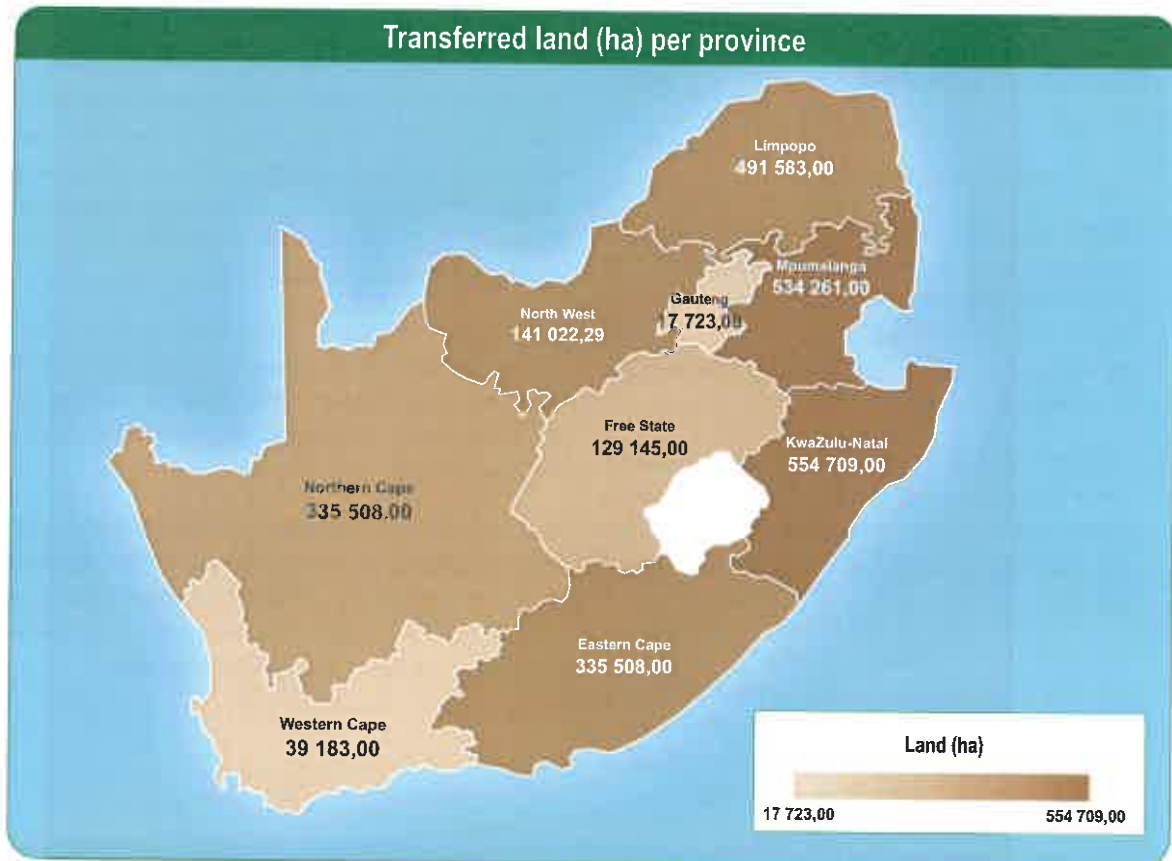

Section 17 of the Communal Property Associations Act requires the Director General to submit a report concerning associations and provisional associations and the extent to which the objects of the Act are being achieved, to the Minister and the Minister is required to table such report in Parliament.

The Department has a responsibility to both support and oversee the performance of Communal Property Associations and the extent to which they comply with the Act and their reporting obligations to members and the Department.

In the reporting period from April 2022 to March 2023 financial year, there were 18 new CPAs registered bringing the total to 1734 CPAs in the country. CPAs are the main vehicle relevant to holding and administering the land on behalf of claimant communities.

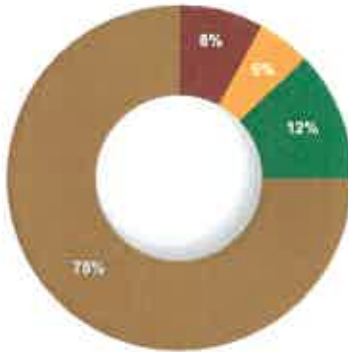

The map above depicts the total number CPAs and hectares, as reported by the provinces, for each CPA. The Department realises that it is imperative, that individual CPAs' spatial information be verified to ensure that the information contained in the DALRRD CPA file corresponds to the actual farm names, portions and sizes of the physical land parcel location as supplied by the LAW system and reflected on the relevant title deed. Through the CPA module in the LAW system, provinces will be able to verify and update the accuracy of the spatial data.

# POTENTIAL OF CPA

*For the past twenty-nine years, the Department has acquired and transferred land, to various groups of beneficiaries. Most of this land is very fertile, highly developed, with appropriate infrastructure and viable agricultural activities.*

*Effective and efficiently managed CPAs are a catalyst for development and economic upliftment for their members. They help to fight hunger and food insecurity in small projects and they have the potential to create jobs and financial returns in big projects. The high rate of unemployment can be tackled by increasing productivity in the agricultural sector which can create more jobs when other sectors are struggling. The positive spinoffs of well managed CPAs are reflected in the success stories.*

## Limpopo Province

### Moletele CPA

This CPA through its various established enterprises contributed significantly to the Citrus export market. On average they export over 2.3 million cartons of a Citrus fruit to international markets like Canada, UK, Russia, Bangladesh, China and the Middle East. The CPA has also through one of its subsidiaries JV Dinaledi managed to establish a state-of-the-art Citrus Packhouse facility, named Moletele Packhouse at the cost of R51.60 million. The expenditure for its establishment was funded through the proceeds from their farming operations. The Moletele Packhouse enterprise is currently processing 40 000 tons of citrus per annum. CPA also has a lime project which was established with one of its Strategic partners, wherein the CPA is a 51% shareholder of the 60 hectares lime fruit farming operation.

The Moletele Packhouse has managed to contribute to the employment of 900 people during packing period. The success of Moletele as mentioned above is due to a myriad of factors. Amongst others, the factors include:

- adherence to good governance at both CPA and business level, separation of land ownership and business management,
- stakeholders mobilisation as part of inter-governmental relation, sound relationship between the CPA Committee and the Traditional Authority,
- participation of CPA members in CPA affairs at all levels,
- investor mobilisation as part of strategic role players mobilization, involvement of private sector,
- adaption to the dynamic socio-economic environment by the CPA and its subsidiaries, and
- lastly the continued enabling support of Government, in particular the Department interventions in support of the CPAs.

## Limpopo Province

### Ravele CPA

Ravele CPA is one of the best managed farms in the country. Their success is based on separating land ownership and business. There are currently 164 permanent workers and 15 seasonal workers employed by the CPA. Some of their permanent workers stay in state-of-the-art workers' quarters that got recently built by the CPA. They have a students' bursary programme. They produce bananas, avocados and macadamia. They export subtropical fruit fruits including avocados and macadamia to various markets across the world.

### Bela Bela CPA

Bela Bela CPA provides grocery packages to their membership every month. They have a good student training programme in partnership with the University of Venda; agriculture students come to the CPA for their practical studies. This CPA is also mentoring other CPAs within the Waterberg District and beyond. They also share dividends annually to their members at their AGMs. Bela Bela CPA is one of the best even nationally. They produce 100 000 eggs a day, they keep 4 ankole bulls which they use to crossbreed with 30 Nguni cows, they operate Bonwa Phala Game reserve on 5000ha of land. They market and sell their products and services nationally. They have offtake agreements with big retailers. They also operate a game farm, Bonwa Phala Lodge, which hosts international guests.

### Selwane CPA

The CPA has a long-term lease agreement with Siabix (PTY) LTD for the management of the property and high value game breeding business. Their facilities are normally booked by hunters from overseas. To expand their cattle production they are constructing an abattoir and a feedlot on the farm.

## Droogfontein CPA

This CPA has established two solar parks. They derive their income from the two green energy lessees. The lease contracts match the 20 years power-purchase-agreements that they have entered into with Eskom. This has resulted in creation of job opportunities for members of the CPA. They also hold 300 hectares of water rights. They have entered into partnerships with livestock feed producers, growers of maize and a range of other commodities that are being produced under irrigation.

## Barokologadi CPA

Barokologadi CPA has undertaken a Project called Barokologadi Madikwe Tourism Lodge Development which they partnered with Elephant/Rhino/People ERP (EPI-use lab). The CPA has invested R140 million on 21 850 hectares of land creating 230 job opportunities. Cattle to the value of R1 million were provided for the Barokologadi CPA (BCPA) to expand on their commercial cattle project enterprise.

Vumelana appointed a team (DB Consulting, Webber Wentzel Attorneys) to support the Barokologadi Communal Property Association in facilitating an investor mobilisation and deal structuring process.

Through this project education and training support was provided including high school Maths and Science, and SETA-accredited learnerships. High schools Mathematics and Science learning support materials were provided with a value of R538 885. The Basebo Training Institute Centre and Accreditation renovation at a cost of R450 000 and R600 000 was provided for capacity building. 80 learners were provided with learnerships for SETA-accredited media, information and communication technology (MICT) training at a cost of R3.97 million.

Several community projects were developed including, Support for community initiatives worth R391 405, ERP BIKES worth R995 122, BCPA Community Surveys worth R61 020, Beekeeping Business establishment worth R371 292, Food and nutritional support for orphans, vulnerable children, and the elderly worth R26 153 and Emergency Food relief parcels - R1.34 million.

A fully fledged nature reserve has now been established. The development of the tourism lodges is at the capital raising phase. However, even in the project development phase and despite long delays a relationship has been built between ERP and the community and significant benefits have resulted.

## Mpumalanga

### Giba CPA

Giba Ginger and Macadamia project is a project done between Giba CPA in partnership with W van R Schmidt (Pty) Ltd. The project was established in 2018 with an investment worth R26 million on 127 hectares of land creating 65 job opportunities.

The CPA approached Vumelana to assist with identifying a commercial partner and a transaction advisory team was appointed in October 2018. Following a competitive bidding process, the Giba CPA entered into two lease agreements with W van R Schmidt. The one lease is for 24 hectares of land for the development of a ginger farm over a 10-year period, with the option to renew at the sole discretion of the CPA. The second lease is for 103 hectares for the development of a macadamia farm over a 22-year period.

This project has brought economic benefits to the community. Through the project Market stalls were established for 63 vendors selling fruits and vegetables earning an average income of R4 500 per month, tillage support to community members at no cost during working hours and community members only paid the driver if tillage was done over the weekend when the driver was off duty, repairs to equipment and implements was done for free.

One of the community members was assisted to grow ginger on two hectares of land, an irrigation system was installed for them, links were established with input supplies, mentorship was provided, support was given for spraying and chemicals and support was given for packing and marketing.

Internships were also organised for community members with one fully funded Agricultural Intern on the farm earning a stipend of R4 300 per month and two interns hosted and funded by the Department of Agriculture.

## Matsamo CPA

Matsamo CPA is situated in Nkomazi Municipality, in the Mpumalanga Province. It has successfully claimed 13 000 hectares of land and has about 2 000 beneficiaries. As part of their compliance monitoring strategy, the CPA issues all members with membership cards. In 2019 Matsamo CPA stopped the lease agreements it had with former farm owners and started to be directly involved in the operations of the farms. In this business model Matsamo CPA revamped the litchi trees (80 hectares) and it is selling litchis mostly to the overseas markets, making more than R10 million from the foreign markets. The CPA is also replanting banana and sugarcane at the said farms utilizing the funds it generated from the Joint Venture rentals and has so far replanted Banana on a 35 hectares piece of land and sugarcane on a 30 hectares field.

The CPA has created more than 2000 employment opportunities, with a total of 177 permanent workers and still offering other employment opportunities through joint ventures established with different stakeholders. Since 2013 Matsamo CPA has distributed dividends to its members without fail, paying a dividend of between R5 million and R6 million per year annum. To date R30 Million has been paid to its members since 2013.

Matsamo CPA has entered into a Joint Venture with Tomahawk, in this JV a packhouse of R53 Million is being erected to pack Citrus; Mango; Litchis; Banana. The JV is not only paying rentals but also paying annual dividend to Matsamo CPA.

Matsamo CPA has a bursary scheme and has since establishment supported 81 children of members and beneficiaries to complete their studies at various institutions. The bursary scheme covers fees for registration, tuition, accommodation, books and meals.

Matsamo CPA is also involved in Community Social Investments through which it donates 50 patient chairs to Ritchershoek Clinic, carpools to Shongwe Hospital and Water Tanks to Tonga Hospital. Together with its JV partners the CPA donated sanitary cloths and full school uniforms to indigent children to the following schools (Bongokuhle Primary, Ndlela High School and Sisini Primary).

The CPA is currently working with the Department to prepare for an Elective AGM where a new Committee will be elected.

# DEPARTMENTAL EVENTS FOR CPAs

## Minister and Deputy-Minister's oversight visits to CPAs in the North West and Mpumalanga Provinces

### North West visit

The Hon Minister Thoko Didiza accompanied by the Deputy Minister Skwatsha, Director-General of the Department, Chief Land Claims Commissioner, and officials of the DALRRD visited the North West Province to engage with the North West House of Traditional Leaders, various Communal Property Associations and other stakeholders regarding land related matters. During the visit, the Minister engaged with a total of 22 CPAs.

### Mpumalanga visit

The Deputy Minister (DM) visited Mpumalanga CPAs. During the visit DM managed to meet and engage **42 CPAs**. On those engagements, several challenges were identified, and resolutions were taken on how to address the challenges.

In both the North West and Mpumalanga visits, the main CPAs challenges were: non-compliance with the Act, in most of these CPAs, expiry of the term of office, old committee members not willing to handover the leadership, financial mismanagement, no Annual General Meetings, non-submission of annual reports which includes the financial statements, dispute on verified membership lists, infighting for the resources of the CPAs, illegal sale of CPA assets for members' own benefit rather than the general membership or the CPA, sub-leasing the CPA land without approval by CPA member's approval and general membership not benefiting from CPA revenue but only CPA committee members.

## Proposed strategies in addressing the challenges faced by CPAs in the North West and Mpumalanga Province

### Proposed way forward from the North West Province on the oversight visit

The North West Shared Service Centre decided to convene a North West Provincial CPA Indaba for the next financial year. The objective of the Indaba is to facilitate structured engagement with a broad base of CPA stakeholders to identify, consolidate and agree on the root causes of the challenges that undermine the effective management, functionality, and sustainability of CPAs in the NW Province, as well as collectively identify solutions to these challenges.

### Propose way forward from Mpumalanga on the oversight visits

The DALRRD in Mpumalanga Province is currently working on the establishment of a Provincial panel to complement the Land Rights Management Facility panel, which is Nationally based, to assist in dealing with challenges facing the CPAs.

The DALRRD is also in the process of reviewing the present structure on officials working on CPAs.

## CPA STUDY

The first draft of the study has been received by the Department. The final study will be received in the new financial year to include information from the extended scope. The study was limited to CPA members, their committees and the Departmental officials who work with CPAs in provinces.

The initial scope for the study excluded universities, traditional leaders who have CPAs established within their tribal areas and who at times have disputes with these CPAs. NGOs that interface with the CPAs from time to time in trying to assist CPAs were also not included in the study.

These exclusions were picked up in the studies as some subjects of the study touched on the role of traditional leaders in their CPA disputes. The study also recommended that a legal expert be commissioned to test the legal implications of the recommendations.

# LAND ADMINISTRATION WEB (LAW)

In order to adhere to the requirements of the Communal Property Associations Act, 1996 (Act No. 28 of 1996), the Department has developed a CPA module as part of an already existing in house web-based system called Land Administration Web.

The Department has identified other functions it wishes to incorporate in the system such as notification of all CPAs due for elections and allocation of unique numbers to CPA members for ease of identification. These are still in the planning phase and will be incorporated as soon as all CPA information is uploaded.

Once properties have been registered at the Deeds

office against a registered CPA, these properties are added to LAW using the Immovable Asset Register (IAR) Module on LAW and it is automatically linked to the relevant CPAs.

The Department has completed the process of scanning and uploading of CPA information for seven provinces and is currently working on finalising the process for Mpumalanga and North West provinces. The Departmental officials were shown how the system operates; however, a thorough training is required to enable them to operate the system.

# CPA STATUS CATEGORIES

## Table explaining the different categories we have for CPAs

In the provincial breakdown Part: A: Categorised CPAs that have unique attributes as reported in any of the table below.

CATEGORY	EXPLANATION
Table. 1 CPAs Registered in 2022/23.	Indicates CPAs that were registered in the financial year 2022/2023.
Table. 2 List of CPAs that will never be compliant in their nature 2022/23.	This are CPAs that are almost impossible to change the non-compliant status and CPAs that have been identified to be de-registered due to their nature and situation which includes CPAs that were established purely for security of tenure. e.g. CPA that have lost/sold land, no economic activities,
Table. 3 CPAs under Judicial Administration or involved in litigation.	CPAs that are plagued by maladministration of the association's assets and finances which negatively impacted on the status of the CPA were seemingly approaching the Court as the only way to resolve the disputes in the CPA.
Table. 4 List of CPAs assisted through LRMF 2022/23.	Intervention made by the Department in assisting the CPAs towards compliance with the Act by evoking provisions of section 10 of the Act through Land Rights Management and Facilities (LRMF) for regularization.
Table. 5 List of CPAs trained in 2022/23 financial year in accordance to APP targets.	Indicate the CPAs that were capacitated with training on Governance and Compliance facilitated by the Department and external stakeholders such as IEFSA in achieving the APP target.
Table. 6 List of CPAs were Trained 2022/23 after reaching the APP targets.	In capacitating the CPAs, some provinces excessively trained CPA and exceeded the APP targeted.

In the provincial breakdown Part B: All CPAs must be reported on one of the following compliance status indicators below.

CATEGORY	EXPLANATION
Compliant CPAs	The CPA is compliant with the requirements of Regulation(s) 8 of the CPA Act.
Partial Compliant	The CPAs that are compliant with any three of the five compliance indicators.  Annual Financial Statements  Annual General Meetings  EXCO list with a valid term of office  Membership List  Land Transactions  <i>Note: A CPA can be compliant even if there is no land transaction but is compliant with the other 4 indicators. Land transactions are not compulsory.</i>
Non-compliant	CPA do not comply with its constitution and regulation(s) 8 of the Act.

# CHALLENGES

Lack of cooperation from CPA members

Traditional authorities vs CPAs

## Challenges

Factors contributing to the levels of non-compliance in the provinces include:

### Lack of cooperation from CPA members

It has been challenging to turnaround the situation in non-compliant CPAs. Some CPAs are not willing to adhere to the provisions of their constitutions. Some panellists that were appointed to mediate disputes and assist CPAs to comply with their constitutions failed in their efforts because of the unwillingness of the members of CPAs to participate fully in the mediation process. Members loose interest in participating in the affairs of the CPAs due to internal conflicts. This makes it difficult to update their membership after many years of the members not coming together. The committee struggle to call meetings that form quorums because some members may be deceased or relocated over the years without the committee updating their records. This leads to some members not benefiting from their CPAs because of their non-participation in the activities of the CPAs. The inability to hold meetings that quorate often lead to paralysis within CPAs which create opportunity for outsiders to invade CPA land.

Membership disputes is one of the major challenges in CPAs. It has the potential to disrupt CPA activities. Some CPA constitutions do not have clauses that cater for instances where consecutive meetings of the CPA do not quorate. Some CPAs are left with only a few active members after failing to update membership list over the years. It is difficult for the Department to assist such CPAs with amending their current Constitutions because it would require a specific

number of members present when adopting such amendments. CPA members/Committee members tend to be too dependent on the Department for their decision-making. They end up not attending meetings called by the CPA without the involvement of the Department. Some CPA members and Committee members lack knowledge on how to interpret and correctly apply the provisions of the CPA Act and their constitution. CPAs that are supposed to acquire land in terms of TRANCRAA face a major challenge in the prolonged transfer of land to the CPAs. This results in some committees becoming inactive and ineffective due their inactivity, credibility questioned by members and external stakeholders and CPAs failing to adhere to proper processes when electing new committee members to fill vacancies caused by resignations or absences. Moreover, there is a lack of cooperation from local municipalities with regards to fast tracking the transfer of land to the CPA.

### Traditional authorities vs CPAs

Most of the restitution claims that were lodged by traditional authorities on behalf of their communities were settled through the restitution of land to CPAs formed by the communities. This is perceived by the traditional authorities as being contrary to their expectations that land will be transferred to them. Establishment of CPAs within the traditional communities is perceived as creating two competing institutions both responsible for land administration and allocation. The existence of two centres of power has created a permanent power struggle. It is unfortunate that most CPA Constitutions do not have clauses that provide for this eventuality.

Lack of management and administrative skills

Economic challenges in CPAs

Conflict amongst CPA members

Mismanagement

### **Lack of management and administrative skills**

Some CPA committee members lack appropriate administrative skills to manage the affairs of their CPAs. This is a major contributing factor to most CPAs not complying. Committee members are generally elected because of popularity as opposed to competency. In some CPAs elderly persons prefer to elect their fellow elders and are reluctant to elect young people. This is based on the perceived penchant of the youth to be rowdy and disruptive during meetings. The exclusion of the youth deprives CPAs the benefit of using the skills, education and knowledge of the youth to improve their administration and governance. Members sometimes enter into legal agreements with third parties without a proper understanding and knowledge of legal implications of their decisions. This exposes CPAs to the risk of losing their assets when third parties enforce their rights.

### **Economic challenges in CPAs**

Some CPAs use their farms for subsistence farming and settlement purposes. Compliance with the provisions of CPA Act and Regulation 8 is a burden to them. This category of CPAs includes family claims that have been settled through land acquisition and land that has been acquired for farm dwellers and labour tenants. Most CPAs lack operating capital to engage into their chosen agricultural activities. They also require business and legal support to enter into partnerships with potential investors and partners.

### **Conflict amongst CPA members**

Generally, there exist conflict between members and committee members in those CPAs that do not account to those members. Some of these CPAs that have committees that have overstayed their term of office. In those instances where the committees do not want to call for elections, the Department has been intervening through the issuing of letters requiring the committees to call for such elections. Family based CPAs experience challenges when it comes to compliance. In some instances, these challenges emanate from member's inability to hold head of the family responsible for the way in which he manages the affairs of the CPA. In certain cases, this is exacerbated by the dispute that occur within the polygamous family structures. Where committee members take decisions without consulting the community, the members tend to question the decisions taken which leads to conflict between members and their committees. There have been instances of members of CPAs having a dispute as a result of some members of the CPAs allowing outsiders to bury their deceased family members on CPA land without the permission of the CPA.

### **Mismanagement**

Where there are business activities there is generally a challenge with accountability, misuse, mismanagement and breach of fiduciary duty by the committees who generally want to serve their personal interest in the expense of the general members, issues of accountability, theft and members being isolated from benefiting from the proceeds of entities profits. In these instances, the chairperson usually overthrows the CPA and acts as if he/she is the sole proprietor of the CPAs business operations.

## Interventions

The Department ensured that CPA members are given the necessary knowledge and skill to run the affairs. This is done through the provision of workshops and training that capacitate members to adhere to the provisions of the CPA Act and their Constitutions. In these workshops and training sessions, members are made aware of the benefits and available opportunities of compliance. After the provision of such training, some CPAs would begin to compile the necessary reports and account to their members. The Department assists CPAs with the mediation of their internal disputes, facilitate the update of their

membership list, facilitate the amendment of their constitutions, facilitate their elections and Annual General Meetings.

In instances where departmental mediation fails, the matter gets referred to the Land Rights Management Facility (LRMF) for specialist mediation in terms of Section 10 of the CPA Act. Mediations done through LRMF panellist has mainly achieved the desired results. In the North West Province, the Department established a panel of competent service providers in a form of election agencies who assist CPAs to run elections in a professional manner.

## CPA Strategy

The CPA Implementation strategy looked at key intervention questions, such as:

- The key questions, used as the basis, reflect on the areas of concern, the problem statement and what the proposed solutions. The following are key concerns that should be addressed in the CPA strategy:

### Strategic overview: problems and solutions

Area of Concern	Problem Statement	Proposed Solution and progress
<b>CPA Model as a landholding entity for land reform</b>	<ul style="list-style-type: none"> <li>• The creation of CPAs has resulted in communities with no relationship or joint history being bound together under this form of landholding structure.</li> <li>• CPA Model and constitutions creates conflict amongst members – neglect security of tenure for members or households especially the descendants.</li> </ul>	<ul style="list-style-type: none"> <li>• The Department is conducting a study on the CPA model that seeks to assist in closing the gaps in the CPA model or provide an alternative model that will achieve the intended objectives.</li> </ul>
<b>Registration of family CPA</b>	<ul style="list-style-type: none"> <li>• Section 2 of the CPA Act states that the Act applies to a community however the Department has been influx with many requests to register CPAs for families on the bases that the Act does not adequately define a community.</li> <li>• The legislation that was used to restored land has identified these individuals as families, but they still requested to be registered as a CPA.</li> <li>• These CPAs in the many of these circumstances are not able to comply with the provisions of the Act as it becomes burdensome to adhere to them. These CPAs are just for security of Tenure (Farm Occupiers, Labour Tenants) and they have no intention of functioning like a CPA.</li> </ul>	<ul style="list-style-type: none"> <li>• The first qualification criteria is that, the group for which the CPA is intended must be a Community as defined in Section 1 of the CPA Act or approved as a Community by the Minister.</li> <li>• The Department is engaging with Legal Services to get a legal opinion on the possibility of prohibiting the registration of Family CPA if they are approved as a family CPAs at the point of Land transfer. The intention is also to find a solution on how land can be transferred to them without creating burden to them with the registration of a CPA.</li> </ul>

Area of Concern	Problem Statement	Proposed Solution and progress
<b>Governance and compliance with legislation and dispute and conflict management system</b>	<ul style="list-style-type: none"> <li>• Continuous Conflict and Disputes amongst CPA members where there are economic benefits e.g. mining, tourism and other.</li> <li>• CPA Committee expired terms of Office and reluctant by CPA committee members to convene Elective AGMs.</li> <li>• Mismanagement of CPA resources by committees.</li> </ul>	<ul style="list-style-type: none"> <li>• The Department has embarked on process to Identify and develop Standard Operating Procedures for all the Provisions of the Act that was not adequately utilized.</li> <li>• The regulations, delegation and SOPs are in place to evoke these section. Terms of reference for subpoena have been developed. The Provinces have begun the process of submission in terms of section 11.</li> <li>• CPAs are referred to LRMF for Regularisation and mediation support and CPA constitutions are also amended if required. Panellist appointed through LRMF will be strictly managed by the Department.</li> <li>• The Department conducts quarterly reviews to check progress of the projects with LRMF and assists if there are challenges</li> </ul>
<b>Training and capacity building</b>	<ul style="list-style-type: none"> <li>• The feedback from the training that took place indicated that most CPAs require extensive training on the operations of the CPA e.g., Farm Management, Tourism, Mining, Bookkeeping, Report Writing, Conflict Management amongst others.</li> </ul>	<ul style="list-style-type: none"> <li>• A database of experts in the fields that CPAs needs training on should be created and every time a training need is identified, an expert is appointed to provide the necessary training and mentoring to CPAs.</li> <li>• Newly established/registered and newly elected CPAs are trained on governance.</li> </ul>
<b>DALRRD management capacity for CPAs</b>	<ul style="list-style-type: none"> <li>• The Department is operating under constrained personnel capacity dedicated in administration of CPAs and the Department is not allocated sufficient budget to monitor and assist CPAs as required by the Act. As a result the Department operates on reactive basis instead of being proactive in the monitoring of all 1734 registered CPAs</li> </ul>	<ul style="list-style-type: none"> <li>• The Department is in the process of determining a structure that will meet the demands of the Department in terms of Staff compliment.</li> </ul>
<b>CPA information management</b>	<ul style="list-style-type: none"> <li>• No electronic system that has CPA data.</li> <li>• Lack of information or no access to CPA records to general members.</li> </ul>	<ul style="list-style-type: none"> <li>• The LAW system was developed to meet the requirement.</li> </ul>

## Institutional Arrangements

CPAs require support from other government departments besides DALRRD to ensure that they are functional. Some CPAs have good governance however there are no economic activities happening on the farm because they lack operating capital. The Department endeavours to link them up with possible investors, donors and funders to assist them. Some of the partners assisting CPAs are:

### University of Venda

The University of Venda provided governance training to 16 CPAs in Vhembe District. This training was aimed at improving governance within CPAs and day to day management of the CPA affairs.

The University of Venda, situated in Thohoyandou in the scenic Vhembe district of the Limpopo Province, is a higher institution of learning established in 1982. The University aligns its vision and mission to the needs of the community at local, regional, national, continental and international levels.

### Limpopo Department of Economic Development, Environment and Tourism (LEDET)

**Limpopo Economic Development,  
Environment & Tourism**  
**Department:**  
**LEDET**  
**Republic of South Africa**

The Limpopo Department of Economic Development, Environment and Tourism through its Directorate: Protected Areas Management has entered into co-management agreements with some CPAs own game farms. The department also pays rental for the lease of CPA properties that it uses as nature reserves.

LEDET was established in 2004 as a result of its separation from the former Department of Finance and Economic Development by an Executive Council decision. Its strategic mandate is to help promote economic development and growth in the province.

### Western Cape Provincial Department of Agriculture and Cape Agency for Sustainable Integrated Development in Rural Areas (CASIDRA)

Cape Agency for Sustainable Integrated Development in Rural Areas (CASIDRA) has assisted some CPAs in the drafting of business plans and continuously provided advisory services to CPAs in the province.

The organisation, which is a provincial Government Enterprise of the Western Cape Government, renders project management service to departments within the Western Cape Government (WCG), local authorities, businesses, non-governmental organisations (NGO's) community-based organisations (CBO's), academic institutions, other governmental agencies and international assistance institutions. It aims to effectively provide planning support to farmers, businesses, municipalities and land owners to structure land reform deals for agricultural transformation within the context of the National Development Plan.

### SAPPI (South African Pulp and Paper Industries)

**SAPPI** assisted some CPAs with the maintenance of their forest plantations. Founded

in 1936 and headquartered in Johannesburg, the company produces and sells commodity paper products, pulp, dissolving pulp, and forest and timber products across the world, but predominantly in Southern Africa.

## Tongaat Hullets

**TongaatHullett**

**Tongaat Hullets** has entered into agreements with some KZN-based CPAs that are involved in the sugarcane production. The company provides training on management of sugarcane farms.

**Tongaat Hullett** is an agriculture and agri-processing business, focusing on the complementary feedstocks of sugarcane and maize. The company was a diversified industrial business with interests in aluminium, building materials, consumer foods, cotton, edible oils, industrial and commercial catering, mushrooms, sugar and agricultural land development, starch and glucose, textiles and transport. Since the early 1990s the Group has systematically divested from a number of these businesses and refocused its operations, leveraging the synergies that exist between its agri-processing operations and prime agricultural land holdings.

## AgriSETA

Agriculture Sector Education and Training Authority (AgriSETA) has provided 8 months of horticulture training and learnerships on rural development to some CPAs in the Eastern Cape. AgriSETA is one of 23 Sector Education and Training Authorities (SETAs) set up in accordance with the National Skills Development Strategy set up with the objective of quality assurance and delivery of training. In collaboration with various stakeholders, AgriSETA creates and promotes opportunities for social, economic and employment growth for agri-enterprises through relevant, quality and accessible education, training and development in both primary and secondary agriculture.

## Eastern Cape Department of Rural Development and Agrarian Reform (DRDAR)

**rural development & agrarian reform**

Department:  
Rural Development & Agrarian Reform  
PROVINCE OF THE EASTERN CAPE

The Eastern Cape Department of Rural Development and Agrarian Reform (DRDAR) has provided continuous support on livestock medication, dipping and feed for CPAs in the Eastern Cape. The Department's strives to create vibrant, equitable, sustainable rural communities and food security for all.

## Eastern Cape Parks and Tourism Agency (ECPTA)

*Eastern Cape*  
PARKS & TOURISM AGENCY

The Eastern Cape Parks and Tourism Agency (ECPTA) has entered into agreements with some CPAs that allows the organisation to assist CPAs to manage their game reserve. This co-management agreements are intended to make communities game reserves fully functional.

The Department contributes to building the Eastern Cape into a province where responsible tourism and conservation underpin sustainable development. ECPTA's dual mandate is to develop and manage protected areas and promote and facilitate the development of tourism in the province. The agency supports emerging tourism products to become marketable, and emerging game farmers to become commercially viable.

## Border Training Centre

The land reform programme transfers assets to the poor and this ought to provide a pathway out of poverty for communities involved. However, to do that the transferred land must retain or enhance its productivity and the community institutions that are formed to administer the land must do so effectively and in the interest of the rest of the community. These community institutions must be provided with organizational development and capacity-building support to succeed.

Some CPAs were trained on Tractor maintenance and mechanical training by Border Training Centre. Over the past 30 years Border Training Centre has provided cutting edge training for the people of Eastern Cape. Along with its committed management team and dedicated facilitators, the trust has triumphed over a difficult restructuring path, and today, its courses and facilities are regarded as being among the best in the region. Border Training Centre is a section 21 company with a board of trustees.

## Vumelana Advisory Fund (Vumelana)

Vumelana Advisory Fund is a non-profit, public-benefit organisation that was established in 2012 to support beneficiaries of South African's land reform

programme to put their land to productive use. Vumelana does this by providing transaction advisory services to communities to:

- mobilise private investment for land reform and structure commercially viable partnerships between these communities and commercial investors that create jobs, income, and skills;
- improve and strengthen governance, organisational, and management structures of the land- holding entities (collectively referred to as Communal Property Institutions) for the benefit of its members. This includes capacity-building interventions and organisational development in a number of areas.

Vumelana Advisory Fund (Vumelana) is assisting the CPAs in development of well-governed and properly managed Communal Property Associations. In this context The Fund has been providing organisational development and capacity-building interventions in parallel with its transaction advisory support programme.

This special intervention is currently being implemented focusing on improving governance and financial management amongst specific CPA in the 2 provinces. Mpumalanga and Limpopo were chosen as the pilot sites due to the high number of CPAs in the area as well as high-value land with vast economic potential. Vumelana in consultation with the Department on CPA implementing a Pilot project in Limpopo and Mpumalanga. In Limpopo, Vumelana is working with Batlhabine CPA, Rakwadu CPA, Mamahlola CPA, Marobala O Itsose, Moletele CPA, Bohwa nja rena CPA, Masakona CPA. In Mpumalanga, it is working with Giba CPA and Mswati CPA.

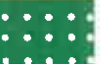

Vumelana has worked closely with the Department and had an MoU setting out collaboration between the parties. The parties are currently finalizing a renewed MoU which will go a long way to strengthen the relationship for the benefit of land reform beneficiaries especially CPAs.

Izagila Zophuthu	07 /1015/A	Redistribution	30	202.3468	There is no economic activity and the farm operate as a full settlement.	Dissolution of a CPA, there are conflicts among beneficiaries. Farm purely for settlement.
Felokwakhe Hlatshwayo	02/0447/A	Redistribution	9	50	The CPA is family most family members are residing on the farm Mr Zondile Hlatshwayo is the one who is operating on the farm, they had a resolution to buy out the other CPA members. Mr. Zondile Hlatshwayo has bought out the other family members however they always come back to request for more money whereas they are not effective members on the farm.	Deregister the CPA as it will never comply with the CPA Act. The Ladysmith Regional Office has intervened severally on this matter however as the farm now is very productive the other family members demand to benefit on what they have not worked for. The recommendation is to dissolve and transfer directly to Mr. Zondile Hlatshwayo who is solely utilizing and residing on the farm.

CPA Name	Reg no.	Programme	Members/ Beneficiaries	Extend of land	Reason why CPA will not Comply	Interventions/Recommendation
Buyafuthi	00/0262/A	Restitution	361	12	No economic activity and farm are purely for grazing and settlement. The CPA operate as a full settlement, other members on the beneficiary list are no longer living on the farm whereas there are members not on the list who are not on the beneficiary list which resulted in so many disputes amongst the CPA members.	Deregister the CPA as it will never comply with the CPA Act. The Ladysmith Regional office had numerous meetings with the beneficiaries but failed to resolve dispute amongst beneficiary members. The beneficiaries are scattered all over the farm which makes it difficult to conduct proper farming activity on the farm. Training for compliance was provided however there was a lack of attendance due to that the farm has become a full settlement.

CPA NAME	Reg no.	Programme	Duration of administration	Start Date	End Date	What lead to Administration / Reason for litigation?
Vukuzenzele	08/1081/A	Litigation	April 2022	July 2022	The committee was refusing to go to AGM and for the election of the new committee.	The old committee is disputing the beneficiary list thus the CPA needs to update the beneficiary prior to the election of a new committee.
Thuthukani	00/0226/A	Litigation	13/08/2022	Pending	The CPA did not allow Mr. Mndebele to bury his son on the farm which he continued to do illegally. The CPA wants Mr. Mndebele to exhume his late son and bury him somewhere else.	The matter is currently before the court.

## Conclusion

# CONCLUSION

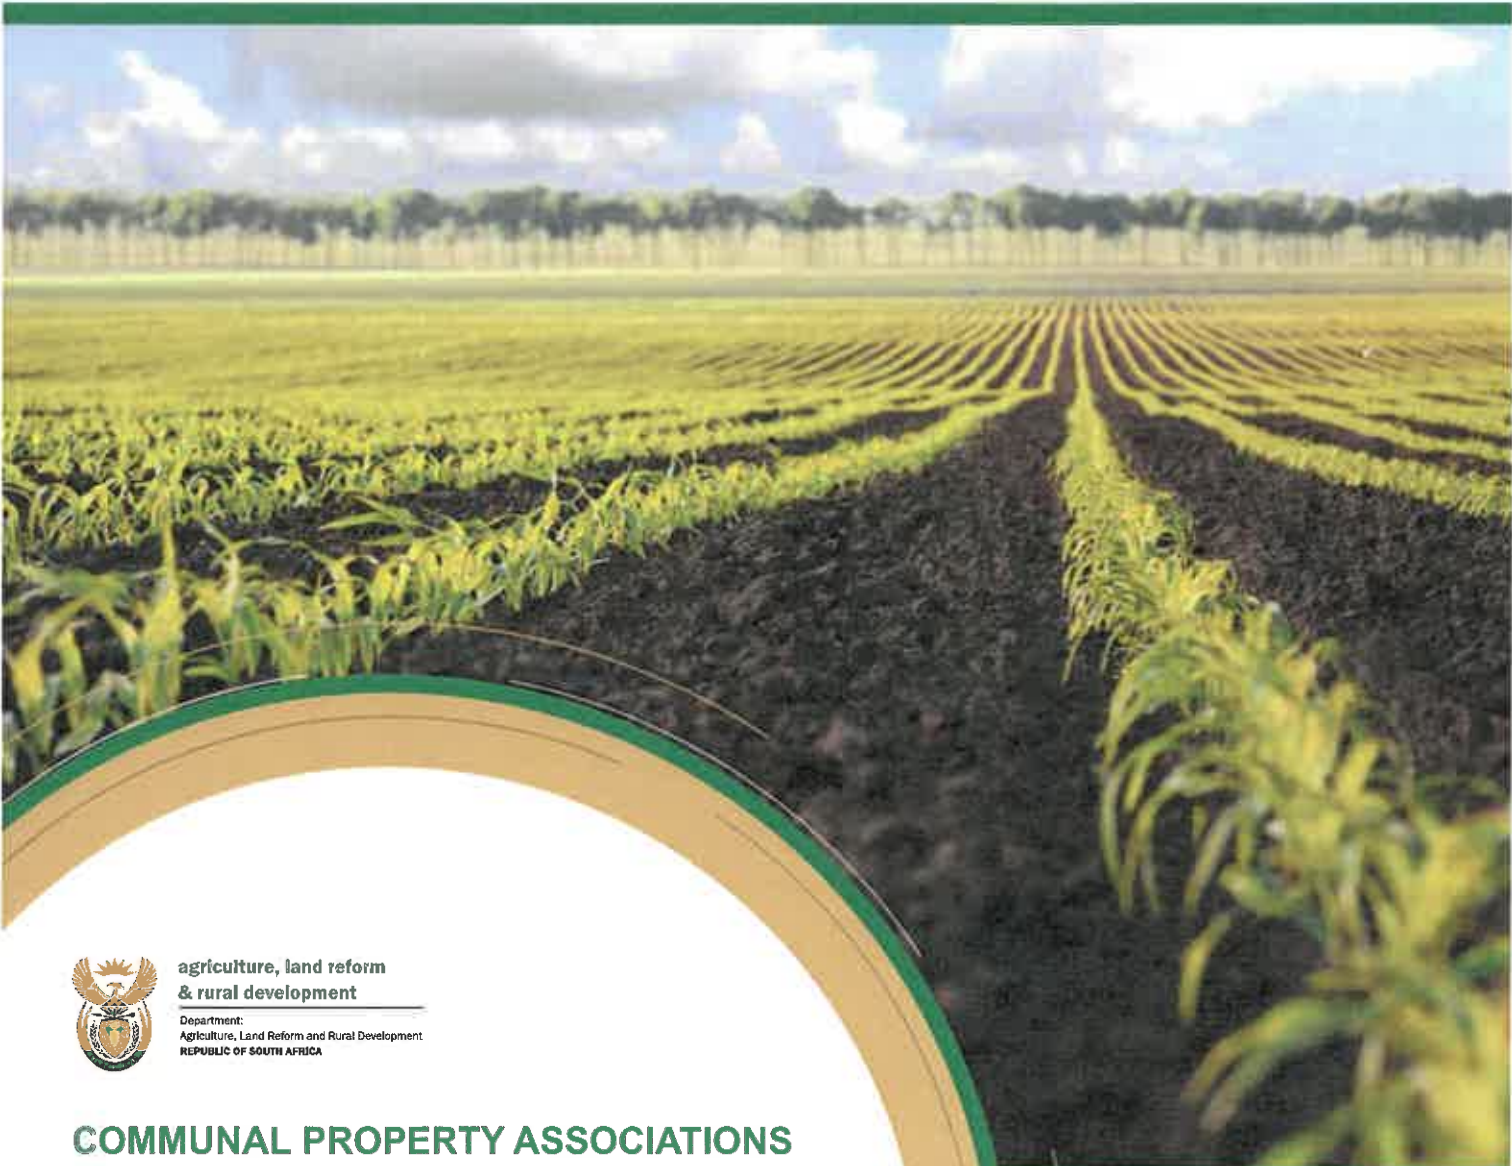

While the CPA Act gives communities security of tenure, the biggest obstacle is putting its provisions into practice. The Department has the requisite authority to monitor the affairs of CPAs and to intervene in the event of problems arising. The CPA Act gives discretion to CPAs to allocate the necessary powers and functions to CPA committees to effectively manage the affairs of their CPAs. Misuse of such powers can lead to paralysis in CPAs because infighting can happen which hampers decision-making. CPAs are juristic persons that operate independently from government, they are still subject to oversight and intervention powers that the Act gives the Department; we will continue to give training to CPA in order to capacitate them in the execution of their mandate.
