- (b) allocating beneficiaries to various age categories;
- (c) allocating beneficiaries to various risk equalisation factors; and
- (d) auditing the correctness of information supplied by the medical scheme. 35

(2) Information collected in terms of subsection (1) shall include, in respect of every beneficiary of a medical scheme—

- (a) personal information that identifies a person is subject to confidentiality;
- (b) health status data and personal information that identifies a person are submitted separately by a medical scheme in terms of section (1) and are stored and maintained in a manner that prevents simultaneous access to health status and personal information that identifies a person.
- (4) A request for access to information submitted in terms of this section shall be dealt with in terms of the Promotion of Access to Information Act, 2000 (Act No. 2 of 2000).

- (b) An auditor must inform the principal officer of a medical scheme of any information referred to in paragraph (a), provided to the Registrar.
- (c) The furnishing in good faith by an auditor of information in terms of paragraph (a) may not be held to constitute a contravention of any provision or breach of any provision of a code of professional conduct to which such auditor may be subject.

Part 4

Risk equalisation methodology

Formula for risk equalisation

- 19J.** (1) The Minister shall, in consultation with the Minister of Finance, prescribe the formula for the determination of the quantum of financial transfers.
- (2) The formula prescribed in terms of subsection (1) shall—
- (a) provide for a method of determining the expected cost per beneficiary in a medical scheme of providing the risk-equalised benefits, taking into consideration—
- (i) the weighted values assigned to these risk factors as published in terms of section 19L(1)(a); and
- (ii) the prevalence of risk equalisation factors amongst the beneficiaries, identified in accordance with the criteria published in terms of 19L(1)(b)
- (b) provide for a method of determining the expected cost per beneficiary among all medical schemes of providing the risk-equalised benefits taking into consideration the factors in paragraph (a)(i) and (ii);

- (c) as far as reasonably possible, result in the expected cost to a medical scheme, per beneficiary, of providing the risk-equalised benefits, being equivalent to the average expected cost per beneficiary among all medical schemes.

Risk equalisation factors

5

19K. (1) The Minister shall from time to time prescribe the risk factors to be used in the calculation of financial transfers, which shall be demographic variables, health status indicators and other factors capable of predicting the cost to medical schemes of risk-equalised benefits.

(2) When prescribing the risk equalisation factors, in order to discourage the selection by a medical scheme of beneficiaries with only preferred risks, the Minister must ensure that the factors contemplated in subsection (1) are—

10

- (a) objective and auditable;
- (b) measurable using data that are readily available to medical schemes; and
- (c) not readily susceptible to manipulation.

15

Publication of information related to risk equalisation factors

19L. (1) The Council shall from time to time, after consultation with the Minister—

20

- (a) assign and publish weighted values to each of the risk equalisation factors based upon their importance in predicting costs of risk-equalised benefits; and
- (b) publish criteria to identify and verify the existence of a risk equalisation factor in a beneficiary, taking into account the need, as far as possible, to—
 - (i) accurately identify beneficiaries with one or more of the risk equalisation factors; and
 - (ii) prevent opportunities for misrepresentation and manipulation of the risk equalisation system.

25

30

Determination of amount of financial transfers

19M. (1) The Registrar shall evaluate and assess the information submitted to him or her in terms of this Chapter and, applying the formula prescribed in terms of section 19J, determine the amount of financial transfers payable by a medical scheme to the Fund or by the Fund to a medical scheme, as the case may be.

35

(2) The Registrar may adjust the amount of a financial transfer calculated in terms of this section to—

- (a) correct an error;
- (b) give effect to the outcome of an appeal;
- (c) provide for an adjustment in the number of beneficiaries and prevalence of risk factors within a medical scheme; or
- (d) distribute interest accrued on monies standing to the credit of the Fund or administrative penalties which have been paid into the Fund proportionate to the value of financial transfers payable in respect of medical schemes.

40

45

(3) If a medical scheme fails to submit the information it is required to submit to the Registrar in terms of section 19(I)(1), the Registrar may make a determination of the amount of a financial transfer to be paid in respect of that medical scheme, taking into consideration one or more of the following factors:

50

- (i) The most recent previously uncontested data submission of the medical scheme;
- (ii) the industry average of the relevant data;
- (iii) the age profile of the medical scheme; and
- (iv) any other factor the Registrar may reasonably consider relevant for the determination.

55

- (4) Notwithstanding the provisions of this section—
- (a) the liability of the Council in relation to financial transfers payable to medical schemes shall not under any circumstances exceed the amount standing to the credit of the Fund at the time that such financial transfers are paid; and
 - (b) if, due to bad debt from medical schemes or for any other reason, the amount standing to the credit of the Fund is insufficient to pay a medical scheme the full quantum of a financial transfer calculated in terms of this section—
 - (i) the amount of a financial transfer payable from the Fund to the medical scheme will be adjusted downwards proportionately to the amount that would otherwise have been paid to it; and
 - (ii) to the extent that the monies owed to the Fund are subsequently partially or fully recovered, such monies will at that stage be paid to the medical scheme proportionately to the amount that would otherwise have been due in terms of this section.

Effecting of financial transfers

- 19N.** (1) Financial transfers shall be effected on a quarterly basis, based upon the cumulative assessments of the three months in that quarter, or if the Registrar provides 12 months' written notice to medical schemes, financial transfers shall take place on a monthly basis.
- (2) Every medical scheme must pay the financial transfers determined by the Registrar to the Fund on notice by the Registrar in writing of the amount of the financial transfer, within the period and in the manner as prescribed.
- (3) The Registrar shall, within such period as may be prescribed following the date on which financial transfers to the Fund are due in terms of subsection (1), make the required financial transfers to those medical schemes to which payments are due.
- (4) Interest at the rate determined by the Minister of Finance under the Public Finance Management Act, 1999 (Act No. 1 of 1999), is due and payable on any late payments by a medical scheme of a financial transfer.
- (5) If a medical scheme fails to pay a financial transfer or pay it within the specified period, the Registrar may, by way of civil action in a competent court, recover the amount owed by the medical scheme.

Progressive implementation of financial transfers

19O. The Council may recommend to the Minister a schedule for the progressive implementation of financial transfers, taking into account the potential impact of the financial transfers on the financial soundness and viability of medical schemes in general.

Projections on financial transfers

19P. The Registrar must annually, four months before the start of a calendar year, inform each medical scheme of the projections on financial transfers relating to that medical scheme for that calendar year.

Part 5

Appeals and penalties

Appeals

19Q. Notwithstanding the provisions of this Act or any other law, if an appeal is lodged against a decision made in terms of the provisions of this Chapter, such appeal shall not suspend any obligation to pay a financial transfer determined in terms of section 19N pending the outcome of an appeal.

Administrative penalty

- 19R.** (1) Any medical scheme that provides incorrect calculations of financial transfers to the Registrar, is liable to a penalty equivalent to 5% of the difference between the incorrect amount of the financial transfer and the correct amount of the financial transfer that ought to have been paid, if it is determined that the incorrect calculation of the amount of the financial transfer was as a result of—
- (a) the non-submission by that medical scheme of information required in terms of section 19H; or
 - (b) the submission by that medical scheme of incomplete or incorrect information required in terms of section 19H.
- (2) Before imposing a penalty the Council must in writing—
- (a) inform the medical scheme of its intention to impose a penalty;
 - (b) specify the particulars of the alleged contravention or non-compliance;
 - (c) provide reasons for the penalty intended to be imposed;
 - (d) specify the amount of the penalty intended to be imposed;
 - (e) invite interested persons to make representations within a period specified by the Council.
- (3) If the Council imposes an administrative penalty contemplated in subsection (1), no prosecution may be instituted against the medical scheme in terms of section 66 in respect of the same set of facts.
- (4) An administrative penalty imposed or payable under this section must be paid within the period specified by the Council.
- (5) If a medical scheme fails to pay an administrative penalty within the specified period, the Registrar may, by way of civil action in a competent court, recover the amount of the administrative penalty from the medical scheme.
- (6) The Council shall pay any penalties received in terms of this section into the Fund.”.

MEMORANDUM ON THE OBJECTS OF THE MEDICAL SCHEMES AMENDMENT BILL, 2008

1. BACKGROUND

The Medical Schemes Amendment Bill provides for risk equalisation amongst medical schemes. It seeks to achieve this by the establishment of a Fund called the Risk Equalisation Fund (REF). The REF is part of the broader process of removing unfairness as it relates to the demographic and risk profile found in medical schemes. The demographic profile of a scheme has significant implications for its costs (and of its options) and its resulting contributions.

Therefore, the purpose of the REF is to ensure that contributions towards prescribed Minimum Benefits (PMB) are based on an industry community rate rather than a scheme-specific community rate. Changes to the benefit design within medical schemes also facilitate greater community rating and cross-subsidisation within medical schemes.

The strengthening of the governance model and processes within medical schemes is also an important strategic focus to protect the interests of medical schemes and to provide increased fiduciary oversight to member funds.

Therefore, the Bill seeks to amend the Medical Schemes Act, 1998 (Act No.131 of 1998) (“the principal Act”), to provide for—

- (a) the establishment of a risk equalisation fund, and for the implementation of risk equalisation among medical schemes;
- (b) a benefit structure within medical schemes that reduces complexity and facilitates greater cross-subsidisation across the membership of the medical scheme;
- (c) revisions to the governance framework within medical schemes to promote improved corporate governance;
