MATTER FOR ORAL PRESENTATION

1. We have noted that the ill-treatment and brutal assaults of certain freedom fighters by certain Tribal Chief who supported apartheid has been overlooked. Some of these victims would qualify for special pension.
2. We feel there is a dire need for a well defined machinery to monitor, investigate and scrutinize the processing of the special pensions application.
3. We would plead with the Minister in connection with the annual increase of pension not less than 7% -8%.
