Dear Sirs

**RSA PATENT APPLICATION NO. 2010/07585  
CONTAINER SEAL**

We have pleasure in attaching the official filing receipt for the above patent application which has been numbered 2010/07585 and dated 25 October 2010.

Our Advice to Applicants is enclosed and we ask you to read it and call us if you have any queries or require any advice whatsoever.

Should you decide to make any alterations, modifications or additions to your invention in the future, we urge you to discuss these with us prior to disclosing the new product. This will enable us to advise whether the improvements fall within the scope of the patent specification or whether an amendment is required or perhaps even a new application.

Please note that the specification submitted has been drafted without the benefit of a reliable and therefore expensive novelty search in South Africa or abroad, and we have relied on our own knowledge of the information supplied by you, the applicant. We cannot therefore accept responsibility should the invention be found to lack novelty for any reason.

Further progress will be reported to you in due course.

Yours faithfully

Morrison Forster Inc.

Encl.
