Dear Sir Tax administration Bill (Bill 2011)

I here by write this letter because I want to comment that we taxpayers we need a tax ombudsman who will monitor that the tax revenue does comply to the tax laws. e.g. as a tax payer, I am paying Vat tax rate from Municipality Electricity and water and public transport from work to my home. I am being denied to claim all these expenses from my income?

If you stay at the ~~hostel~~ hostel and pay rent from your income. Your home is in Limpopo province as the code 4015 says if you pay travel fee from your income when you travel from home lipopo to Sasol Secunda,

you must claim the travel fee under code 4015. The people from the revenue deprived me my right to claim my expenses.

We want to be protected from employers not to exceed their limits e.g. code 3810 medical expenses by paid by employer on my behalf R31 770. e.g. Sasol paid R31 770 to Sasol medical aid. I as an employee I did not received R31 770. Why I have to pay tax from the money I did not ~~get~~ received? We want to be protected from this act?

South Africans school teachers are traveling by their cars from home to schools by their cars, there are not aware about their rights to claim traveling expenses under the code 4015 or fill travel log book.

We will be very glad if the Revenue can be open and transparent and disclose all our right and respond to our letters of appeal.

Yours faithfully  
William Somelane.
