REPORT TO PORTFOLIO **COMMITTEE ON** COMMUNICATIONS PRESENTED BY: SABC TASK TEAM ON AG FINDINGS

BACKGROUND

- In September 2009, The Auditor General South Africa (AGSA) submitted a report to the then SABC Board, detailing the state of governance at the Organisation.
- The AG investigation took place over a 6 (six week) period, starting 21 July 2009, upon issuing of the report the SABC Management was only given 5 (five days) to respond to the allegations contained in the report.
- The Acting COO, on 24 November 2011, put together a task team of internal staff members to review the entire report and provide an update and required follow up actions.
- The activities of the Task Team are guided by the Terms of Reference as approved by the SABC Board.

KEY FINDINGS & OBSERVATIONS

- Inconsistencies across all investigations and or status reports previously submitted,
- A number of action/implementation plans on the AG findings were developed but not yet embedded into the operations, due to the high turnover of Executives mandated to implement the AG findings,
- Varied interpretations of the AGSA Findings by SABC Executives and Management;
- The SIU commenced its investigation in April 2010, and had their first interaction/feedback reporting session with Board's Audit Committee in May 2011 (1 year later)

KEY FINDINGS & OBSERVATIONS

- Despite the critical findings and recommendations of the AGSA Report dated
 September 2009, there was little or no implementation of the recommendations, as
 at 30 November 2011, this was as a result that most of the executives who were
 charged with these responsibilities have since left the organisation.
- The root causes of the findings are still prevalent.
- In order for the operational and internal control environment of the SABC to be improved, the following key areas are being addressed by the newly appointed Executive Leadership (see slide 12):-
 - Leadership
 - Corporate Governance
 - Policies

- Effective Management
- Contract Management

KEY FINDINGS & OBSERVATIONS (cont.)

- It is our view that most of the investigations conducted by the SIU were not brought to conclusion as many cases have been referred back to the SABC for further investigation.
- The AGSA conceded that not all information was verified, due to the limited time given by the PCC to conduct the state of affairs at the SABC. The task team had requested all source documents that informed the AG's findings and recommendations.
- On 17 February 2012 the task team received from the AG source documents that informed the AG's findings and recommendations
- The Task Teams findings to date on the source documents provided by the AG,
 mostly relates to irregular appointment of consultants by the former CFO,
 deviation to tender processes by the former Head of Procurement and the former
 Acting CTO.

SPECIAL INVESTIGATION UNIT

- On 20 January 2012, The Task team met with a SIU consultant, during the discussion with the team, the following information was shared:
- On 6 September 2010, The SABC Board signed an SLA with the SIU to undertake further investigations on the AGSA Findings. The SLA was signed for the period 1 April 2010 to 31 March 2011 (Phase 1). This means the SABC and the SIU did not have a formally engagement letter, prior to the commencement of work.
- A further SLA was then signed for the period 01 April 2011 to 31 March 2012 (Phase 2), the LOE was signed on the 21 June 2011. The following upfront payments were made to the SIU by the SABC, phase 1 R8.6 m and for phase 2 R10.9 m.

SPECIAL INVESTIGATION UNIT

- The Presidential Proclamation was granted on 29 October 2010, and the SIU mandate extended to matters relating from the period of January 2005 to October 2010.
- According to the SIU, they have a direct reporting obligation to the President of the Republic and as a courtesy, to the SABC Board. On 26 September 2011, 8 copies of all reports issued by the SIU were handed over to the SABC's Chief Audit Executive, on the instruction of the Board.
- The SIU indicated that the President will only have sight of the full and final report once all the investigations have been concluded.
- The SIU informed the Task Team that thus far that they have delivered 8 copies of reports and have since made two presentations to the Board; in May 2011 to the Audit Committee and thereafter during Oct/Nov 2011 to the full Board.

SPECIAL INVESTIGATION UNIT

- To date only R23 000 for abuse of petrol cards, and R180,000 for Beijing Olympics has been recovered by the SIU.
- At the time of appointing the SIU the SABC's Group Internal Audit unit, had 11 forensic investigators, however this was deemed insufficient.
- It has become apparent that most of the work the SIU has reported on, was
 previously done by other parties. i.e KPMG, Cliff Dekker, AGSA, and Group Internal
 Audit. Since the initial engagement, most investigations are still in progress or at
 quality control stage.
- The SIU expects to conclude same by 31 March 2012.
