Dear Friends of E-tolling

It will be a big mistake to implement e-tolls. The social costs will be huge. Already people in Cape Town who have been law-abiding citizens and church-goers their whole lives, are figuring out ways and means of cheating or avoiding paying for e-tolls should they come here.

We all have a deep duty to prevent any escalation of lawlessness and crime. Many more graves will be dug because of E-tolling.

With many thanks for your understanding

Katie Stuurman

Athlone, Cape Town
