VISION

An empowered society that recognises and upholds the rights of women, children and persons with disabilities.

MISSION

To mainstream the rights and empowerment of women, children and persons with disabilities through advocacy, institutional support and capacity development, monitoring, evaluation and reporting.

VALUES

Commitment:

To serve and promote the well-being of all women, children and persons with disabilities.

Collectivism:

To promote a culture of social cohesion and advocate collective effort in all our activities.

Equity:

To exercise fair discrimination or impartiality at all times.

Accountability:

To account for all our actions in delivering on our mandate.

The Department derives its mandate from the Constitution of South Africa and the Presidential Proclamation made in May and July 2009 establishing the Ministry and the Department. The President further reiterated the mandate in his State of the Nation address in February 2010.

Based on these sources, the mandate of the Department is as follows:

- Ensure equity and access to development opportunities for women, children and persons with disabilities in our society.
- Monitor other government Departments to ensure the mainstreaming of gender, children's rights and disability considerations into all programmes of Government and other sectors.
- Monitor the extent to which the social and economic circumstances of women, children and persons with disabilities are significantly improved.

Regional, Continental and International Agreements, Protocols and Conventions

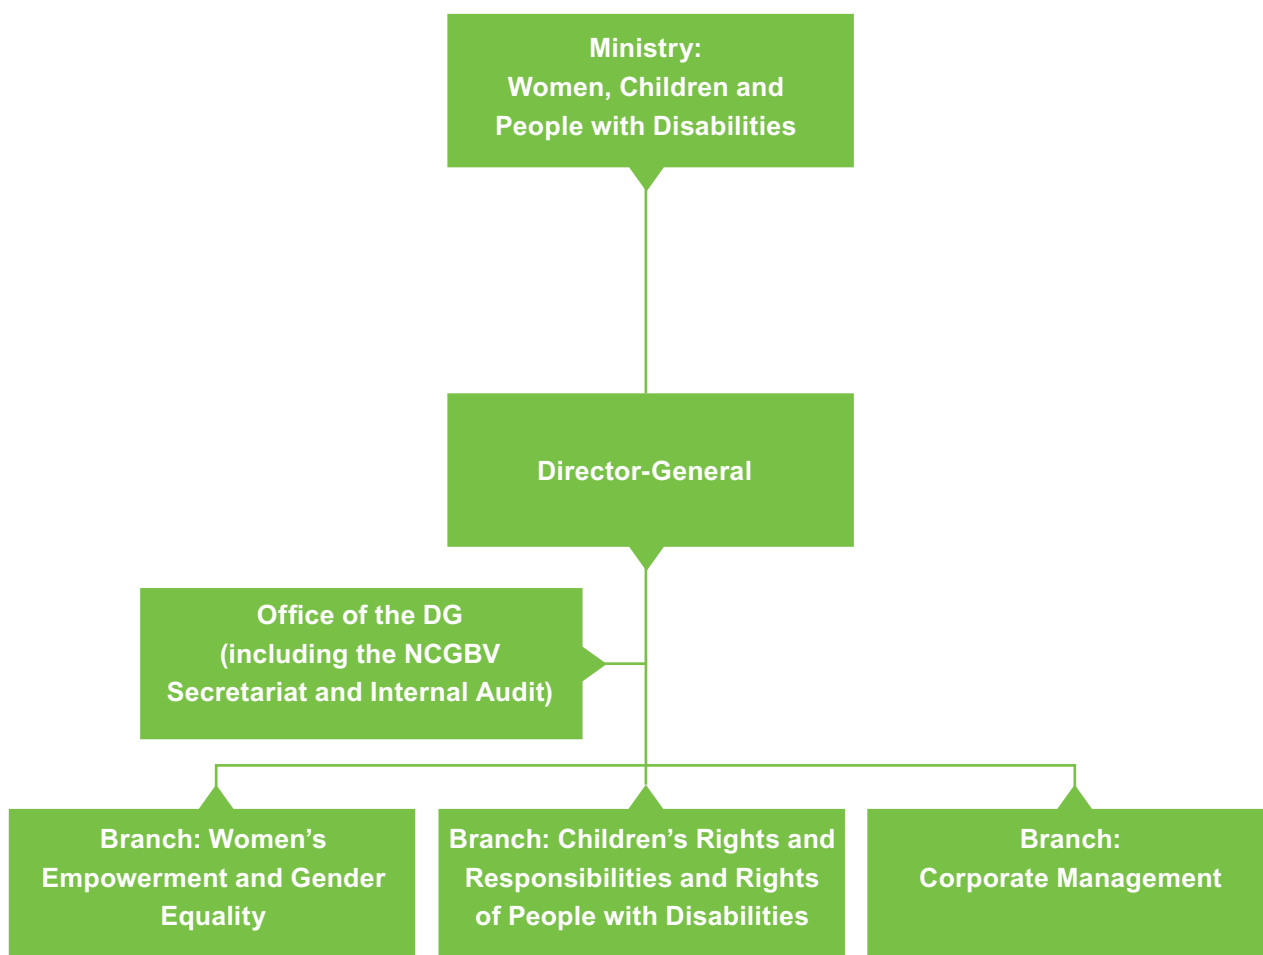

South Africa is signatory to a number of sub-regional, continental and international instruments and agreements on the promotion, protection and advancement of women, children and people with disabilities. These include, among others, the following:

At Regional and Continental Levels

- AU Heads of States Solemn Declaration on Gender Equality in Africa, 2004;
- SADC Protocol on Gender and Development, 2008;
- AU Decade for African Women 2010-2020;
- AU Charter for the Rights and Welfare of the Child;
- AU Plan of Action for Children;
- AU Member States Participation Protocols; and
- African Decade of Persons with Disabilities, extended until 2019.

At International Levels

- Beijing Declaration and its Platform of Action, 1995;
- Millennium Development Goals, 2000;
- ILO Conventions, especially C100 on Equal Remuneration for Work of Equal Value;
- ILO Convention on Domestic Workers;
- International Conference on Population Development (ICPD);
- UN Convention for the Elimination of all forms of Discrimination against Women (CEDAW);
- UN Convention on the Rights of the Child and related protocols;
- UN Convention on the Rights of Persons with Disabilities; and
- UN Member States' Participation Protocols.

1.6 ENTITIES REPORTING TO THE MINISTER

None

Ms Susan Shabangu
Minister in The Presidency
responsible for Women

The establishment of the Department of Women, Children and People with Disabilities (DWCPD) in 2009 set in motion the upward trajectory to promote, facilitate and coordinate programmes aimed at the realisation of the rights, empowerment and equality of women, children and persons with disabilities.

It gives me pleasure to submit to Parliament and the people of South Africa this Annual Report which marks the end of term of the fourth administration.

The adoption and subsequent roll out of the Department's Turn-Around Strategy led to a notable improvement in the overall organisational performance as governance, financial and performance management systems were strengthened. This was further attested to by the reports from the Auditor-General which shows tremendous improvement on various corporate governance indicators.

Some of the milestones of this term of office include the following:

South Africa is a signatory to a number of regional and international treaties and protocols on the rights of women, children and persons with disabilities and has to account on the progress made in implementing these instruments. DWCPD was able to address the reporting backlogs in this regard and ensured that the country is now on track to report periodically.

The recent approval of the Women Empowerment and Gender Equality Bill by the National Assembly and National Council of Provinces will facilitate the achievement of women's economic empowerment, women's human rights and restoration of their dignity as well as promote women's empowerment towards gender equality.

Efforts in the fight against gender-based violence were given a boost by the establishment of the National Council against Gender-Based Violence in 2012 and the setting up of the Chief Executive Officer's office. This will ensure a sustained focus at a multi-sectoral level as we work toward the realisation of a society free of gender-based violence.

A five year National Plan of Action for Children (NPAC) was approved by Cabinet in 2013 as a blue print plan to mainstream children's rights into Government's programmes. It looks at the broad areas where collectively as a country we work to ensure that our children are safe, healthy, happy, educated and developed and are able to participate in matters affecting them.

The strategy for monitoring children's rights and wellbeing was approved and will guide the monitoring of children across the board. This led to the development of an electronic monitoring system (Ulwazi Ngabantwana Database) in consultation with stakeholders. Once launched in the next financial year this will positively contribute to the overall monitoring of development progress in South Africa, and demonstrate how the wellbeing of children affects and is affected by wider socio-economic development.

We now have a Draft National Disability Rights Policy following a review of the existing policy. Once finalised, the new policy will accelerate disability-responsive planning, budgeting, implementation and reporting across government. The policy is central in the domestication of the UN Convention on the Rights of Persons with Disabilities, ratified by South Africa in 2007.

The DWCPD successfully facilitated the inclusion of the National Disability Rights Awareness Month and the National Day of Persons with Disabilities in the national calendar of important days to be observed by the country.

We take pride in the fact that South Africa, through the Department, was chosen as one of the first participants in the United Nations Partnership to Promote the Rights of Persons with Disabilities Multi-Party Fund, as well as supporting the UN DESA, in partnership with Zambia, Ethiopia and Kenya to develop the African Toolkit on the Rights of Persons with Disabilities.

This term of office saw the development of an Integrated Mainstreaming Framework that provides a road map to strengthen coordination of mainstreaming the national agenda for the three sectors across all institutions, policies, programmes and projects of Government. This framework will ensure less fragmentation, foster equitable resource utilisation and the seamless approach realised by the Department in working with its core stakeholders.

I have no doubt that our joint efforts have led to the building of a solid foundation upon which the advancement of the rights, empowerment and equality for women, children and persons with disabilities will be fast tracked in the new term of office.

Ms Susan Shabangu
Minister in The Presidency responsible for Women

Ms Veliswa Baduza
Accounting Officer

1. FUTURE PLANS AND ACTIONS OF THE DEPARTMENT

The Department intends continuing with its commitment towards transformation of society, institutions, practices and processes to empower, as well as promote and protect the rights of women, children and persons with disabilities. We envisage that this will be done through the strengthening of implementation of national, regional and international human rights instruments enabled by cross-cutting human rights policy, legislation, programmes and plans, and by introducing monitoring and evaluation mechanisms to track progress. We will also persist in our endeavours to promote and support women and persons with disabilities to increasingly take up leadership and decision making positions, and foster the participation and voices of children through various platforms.

Like the rest of the country, we are committed to facilitating the empowerment of the three sectors to overcome the challenges of poverty, unemployment and inequality, as appropriate to the sectors, and in alignment with the National Development Plan. The Women Empowerment and Gender Equality Bill, once enacted by Parliament, will facilitate the work of the Department in promoting women's economic empowerment, women's human rights and restoration of their dignity and set the country on a trajectory towards gender equality.

In collaboration, partnership and coordination with other government departments, agencies, the private sector and civil society, we will seek to attain our mandate by undertaking actions that promote the 50/50 gender parity imperative across political, public and private sectors. We will furthermore make an effort to increase the representation and participation of persons with disabilities and the mainstreaming of gender, disability and children's rights considerations across public and private sectors through developing guidelines, norms and standards, a code of good practice and a responsive budgeting framework; strengthening national machineries within the relevant sectors.

This will include the monitoring, evaluation, reporting and undertaking of research on the three sectors; the escalation of participation of women and persons with disabilities to productive resources and in economic activities and opportunities; and the strengthening of mobilisation of society against the scourge of discrimination, marginalisation and gender-based violence.

2. GENERAL REVIEW OF THE DEPARTMENT

2.1 Important policy decisions and strategic issues facing the Department

As soon as it is passed into law, the Department will be responsible for implementing the Women's Empowerment and Gender Equality Bill. This will require that we put processes and procedures in place and develop regulations, guidelines and measures for compliance and non-compliance. The finalisation of both the National Policy for Women's Empowerment and Gender Equality and the National Policy on the Rights of Persons with Disabilities is envisaged for the next fiscal year.

These legislative and policy decisions will be critical towards institutionalising mainstreaming of gender, disability and children's rights considerations across both the public and private sectors, as well as the enforcement of compliance on issues pertaining to empowerment, rights and equality.

Currently we are challenged by limitations in effectively coordinating and facilitating the implementation of the Plan of Action on Children's Rights by other government departments. We also face challenges with respect to strategically driving our mandate across other government departments at national and provincial levels, especially in supporting the departments to effectively mainstream gender, disability and children's rights. This is due to the lack of uniformity in institutional arrangements such as focal points to provide the necessary linkages between departments, as well as the lack of the necessary know-how, capacity and strategies to mainstream gender, disability and children's rights across the day to day work of Government.

2.2 Results and challenges for the year

One of the major results for us is that we managed to create significant awareness and advocacy around gender-based violence and women's economic empowerment initiatives. We also increased our activism within Government policy processes and were able to finalise the Women Empowerment and Gender Equality Bill, consulting widely on the proposed Bill, prior to its submission for Parliamentary processes. The Bill was endorsed and supported by the National Assembly as well as eight out of nine provinces during the National Council of Provinces (NCOP) process.

The Department successfully mobilised representative organisations of persons with disabilities to participate in policy development processes on policies which impact on the lives of persons with disabilities, including the Minimum Norms and Standards for School Infrastructure, the national Curriculum Statements for Early Childhood Development and the White Paper on Post-School Education and Training.

The Department worked hard in ensuring that South Africa catches up with its international and regional reporting backlogs to the various United Nations and African Union treaty bodies. These include all outstanding periodic reports to the UN Convention on the Rights of the Child, the Baseline Country Report on the Convention on the Rights of Persons with Disabilities and the Report on the AU African Charter on the Rights of People in Africa on the Optional Protocol on the Rights of Women in Africa (Women's Protocol). Significant progress was made in contributing to the social cohesion agenda through departmentally driven campaigns, with a specific focus on gender-based violence, the rights of persons with disabilities and child protection.

Another highlight was the pilot of the Responsive Gender-based Budgeting model in selected government departments and provinces. A Gender Responsive Budgeting Framework will be developed to inform and guide the rollout of the model across the public sector. One of the main challenges faced by the Department is the differing expectations of the community on our role across the three sectors, especially in terms of services provided, while our mandate remains that of influencing policy, conducting research and monitoring progress in improvement on the lives of these sectors. Given the lack of resources, both human and financial, the outreach to millions of women, children and persons with disabilities is a highly encumbered process and currently hugely challenged. In addition, the increasing scourge of violations of human rights and human dignity of the three sectors places an additional burden on us in the execution of our mandate to promote equality, empowerment, protection and rights. Increasingly women, children and persons with disabilities are also the chief victims of poverty, unemployment and inequalities in the country.

2.3 Comment on significant events that have taken place during the year

We are proud to report that the Department championed the establishment of the National Council Against Gender-based Violence. This is a multi-sectoral, high level structure aimed at providing strategic guidance and coherence of strategies across sectors to address gender-based violence in the country. While the Council is not established through a statute decree, Cabinet approved its establishment and it was officially launched by the Deputy President

of the Republic on 10 December 2012. Since then the Chief Executive Officer has been appointed and is currently supported by the Department, pending the full establishment and resourcing of the Council.

We successfully commemorated international and national days pertaining to women, children and persons with disabilities throughout the fiscal period. These include the marking of National Women's Day on 9 August 2013 at the Thulamahashe Stadium in Bushbuckridge, Mpumalanga Province that was presided over by the President of the Republic. Cabinet approved the formalisation of 3 November to 3 December as the National Disability Rights Awareness Month and officially declared 3 December as the National Day of Persons with Disabilities. We also co-hosted the first ever National Conference for Persons with Albinism with the Albinism Society of South Africa in 2013, with a parallel conference of children with albinism hosted. The Conference concluded with the adoption of the Ekurhuleni Declaration on the Rights of Persons with Albinism.

The National Disability Rights Machinery was convened in June 2013 and again in March 2014. Rights holders were able to engage with duty bearers on progress made in the implementation of the UN Convention on the Rights of Persons with Disabilities. They were also able to contribute towards the National Disability Rights Monitoring and Evaluation (M&E) Policy and Framework.

Child Protection Week took place from 27 May to 2 June 2013 and the National Children's Day was commemorated on 2 November 2013 at Ugu District, KZN Province to highlight progress made towards the realisation and promotion of children's rights.

The International Rural Women's Day was convened on 15 October 2013 at Port St Johns, Eastern Cape Province. The Minister handed over the Caguba Project of women cooperatives involved in bricklaying to the Port St Johns Municipality so that they can take over the construction of a Hall of Remembrance and multi-purpose centre for the women in Caguba.

We coordinated the 16 Days of Activism on No Violence against Women and Children campaign in the country and the main event was hosted in Mafikeng, North West Province on 25 November 2013. We also initiated the Orange Day Campaign, in partnership with the United Nations, across several provinces in the country, viz. KZN, Gauteng, Western Cape, Free State and Limpopo. This day was marked on the 25th of each month to raise awareness on the atrocities of violence perpetrated against women and children.

2.4 Major projects undertaken during the year

The Department undertook to finalise the Women Empowerment and Gender Equality Bill, consult widely on it and obtain Cabinet's approval for submission of the Bill for Parliamentary processes, as well as support both the Parliamentary process and NCOP hearings on the Bill across the nine provinces.

We furthermore provided leadership on the engendering of, and mainstreaming of gender into the Common African Position for the Post 2015 Development Agenda. This was done through chairing the UNECA Committee for Women Development at regional level in November 2013, and through active participation in the 58th Session of the UN Commission on the Status of Women in New York in March 2014.

The Department successfully applied to participate in the first round of the UN Partnership to Promote the Rights of Persons with Disabilities Multi-Party Fund, and is supporting UN DESA in developing a Toolkit on the Rights of Persons with Disabilities in Africa.

Support was also given to a number of community-based organisations and government institutions to accelerate the mainstreaming of persons with disabilities by mobilising public and private sector technical and financial support. The Higher Education Road Show to all twenty three institutions of higher education was concluded, and these institutions are in the process of submitting improvement and infrastructure plans to the Department of Higher Education and Training to strengthen disability mainstreaming on campuses.

The Corporate Social Investment Road show yielded private sector support to, among others, the Phokeng in Education Centre in the North West; Optima College for the Blind, Forest Town Special School, St Vincent School for Deaf Learners, Prinshof School for Visually Impaired Learners in Gauteng; and the University of Limpopo and Pontsho Disability Centre in Limpopo. This opened the doors of learning and training for many children and students with disabilities through access to ICT and the creation of environments that are more conducive to learning.

3. GENERAL REVIEW OF THE STATE OF FINANCIAL AFFAIRS

The Department received an appropriation of R198.3 million for the 2013/2014 financial year. The appropriation included a transfer amount of R63.0 million for the Commission for Gender Equality (CGE).

A net saving of R10.9 million was recorded on our budget for the 2013/14 financial year as can be seen in the table below. The net saving is mainly on employee compensation.

3.1 The spending trends in 2013/14

Programme	Final Appropriation R'000	Actual Expenditure R'000	Savings/ (Excess) R'000	Expenditure % to the Vote
Administration	89 970	82 599	7 371	92%
Women Empowerment and Gender Equality (WEGE)	85 285	84 472	813	99%
Children's Rights and Responsibilities (CRR)	9 363	9 230	133	99%
Rights of People with Disabilities (RPD)	13 694	11 148	2 546	81%
TOTAL	198 312	187 449	10 863	95%

The reason for under-spending was mainly because of vacant employee posts. The majority of the vacant posts were in Programme 1; most of which have since been filled during the last quarter of 2013/14.

3.2 Impact of donor funding on programmes and service delivery

We received donor funds in kind to the value of R5 153 million from various donors for different projects. The donor funding received in the financial year 2013/14, was mainly for implementation of programmes for gender-based violence, and supporting the Department in driving its women's economic empowerment programme especially for women's cooperatives, female smallholding farmers and women skills development projects. The support also extended to enabling us to participate in international and regional processes toward promoting gender equality and women's empowerment.

The impact of these donor funds enabled the Department to obtain technical skills to undertake research on violence against women, review the 365 Days National Action Plan, conduct and publish a gender responsive budgeting analysis study at four national departments and to enable women in rural areas to obtain brick-making and construction skills. Women have been able to use these skills to create employment and to make themselves available for job opportunities, markets and trade opportunities. This in turn contributed to alleviating poverty among women and families.

There was also financial support from the UN Partnership to Promote the Rights of Persons with Disabilities Multi-Party Fund, administered by the UNDP, Unicef and OHCHR. This made it possible for us to conclude the disability disaggregation of the National Development Plan, make significant progress towards finalising the National Disability Rights Monitoring and Evaluation Framework and complete the National Disability Rights Policy.

3.3 Outlook/plans for the future to address financial challenges

The financial challenges we had because of inadequate funding made it necessary for us to find alternative ways to implement our annual performance plan and projects. To this end, we initiated various partnerships with other institutions and non-governmental organisations.

We also received financial aid amounting to R6.8 million from the National Treasury through the General Budget Support. This will serve to execute campaigns to prevent and eradicate gender-based violence in the country over the next three years, starting from the 2014/15 financial year.

3.4 Revenue

Revenue is generated from commission for collecting of garnishee orders on behalf of third parties.

3.5 Virements/Rollovers

A virement was implemented during the 2013/2014 financial year, as part of reprioritisation of our funds to cover budget shortfalls in some programmes or economic classifications. This reallocation of funds was disbursed to cover the following budget shortfalls:

Virement from			Virement to		
Programme	Economic Classification	Amount R' 000	Programme	Economic Classification	Amount R' 000
Administration	Compensation of employees	(1 236)	Administration	Goods & Services	1 236
Administration	Compensation of employees	(3 300)	WEGE	Goods & Services	3 300
Women's Empowerment and Gender Equality (WEGE)	Compensation of employees	(310)	CRR	Compensation of employees	310
Women's Empowerment and Gender Equality (WEGE)	Goods & Services	(348)	Administration	Goods & Services	348

Virement from			Virement to		
Programme	Economic Classification	Amount R' 000	Programme	Economic Classification	Amount R' 000
Children's Rights and Responsibilities (CRR)	Goods & Services	(330)	Administration	Goods & Services	330
Rights of People with Disabilities (RPD)	Goods & Services	(81)	Administration	Goods & Services	81

We did not request any rollover funds from the National Treasury in the year under review.

3.6 Unauthorised, fruitless and wasteful and irregular expenditure

No unauthorised expenditure was incurred for the year under review. However, the Department incurred irregular and fruitless and wasteful expenditure amounting to R3 872 million and R15 000 respectively.

The irregular expenditure was mainly as a result of partial compliance with Supply Chain Management processes which is carried over from previous financial years. The fruitless and wasteful expenditure was due to penalties charged on cancellations of flights and hotel accommodation.

There was a significant improvement in ensuring compliance with Supply Chain Management processes on other transactions. The number of new transactions that resulted in irregular expenditure has reduced in the year under review, due to improved control measures that were put in place to curb recurrence of irregular expenditure. The transactions that were reported on irregular, fruitless and wasteful expenditure will be investigated and remedial action will be taken.

4. CAPACITY CONSTRAINTS

The Department operates under severe financial and human capacity constraints to carry out its mandate and meet the expectations from the public and stakeholders broadly. Our planned activities for the 2013/14 financial year were carried out parallel to the process of implementing a turn-around strategy. Despite annual increases in the budget through the Medium Term Expenditure (MTEF) cycle, the departmental baseline allocation is wholly inadequate and therefore still requires considerable reconsideration.

5. PUBLIC PRIVATE PARTNERSHIPS

We continued with existing, collaborative partnerships in the year under review, and formed new ones as follows:

- Memorandum of Understanding (MOU) with the Nelson Mandela Children's Fund;
- MOU with UWESO Consulting on the Techno-Girl Project;
- MOU with IMVULA Trust; and
- Signed and approved Work Plans on the Safer South Africa Programme with the United Nations Fund for Population Activities (UNFPA), the United Nations International Children's Emergency Fund (UNICEF) and the Department for International Development (DFID).

6. DISCONTINUED ACTIVITIES/ACTIVITIES TO BE DISCONTINUED

There were no major changes in the Department's activities and no activities were discontinued during the reporting period of 1 April 2013 to 31 March 2014.

7 NEW OR PROPOSED ACTIVITIES

7.1 New/proposed activities

A number of activities were proposed for taking us forward. These include increased advocacy and awareness-raising on women's human rights, empowerment and equality; as well as the production, generation and wide circulation of information, educational and communication (IEC) material on advocacy issues and the Women's Empowerment and Gender Equality Bill. We will continue our facilitation and oversight role in the process of mainstreaming gender considerations into departments with a particular focus on departments in the Economic Sector, at provincial and national levels. We will also develop guidelines, norms and standards and a code of good practice on gender mainstreaming to implement the Bill, once it is enacted. The Department will ensure that it meets its reporting obligations during the 2014/15 fiscal year through the development of the 5th Periodic Report for the country on its implementation of the UN Convention for the Elimination of all forms of Discrimination against Women (CEDAW). We will also produce a report on the progress made in implementing the Beijing Platform for Action in the Country (B+20 report).

7.2 Reasons for new activities

Until such time that women are fully aware of their rights, are empowered to take their rightful place in society, the family and in the community, and living a life of freedom, safety and better quality, the Department will be required to undertake advocacy and awareness raising, empowerment and preventative measures to this end. This requires that technical support is provided to various institutions and that the necessary capacity is developed to achieve an empowered society that upholds the rights of women.

Once the Bill is enacted, its full and effective implementation rests on sound mainstreaming principles. To hold all our stakeholders and role players responsible and accountable for it, we will have to develop the necessary regulations, strategies and policies for the implementation of the Bill.

7.3 Effect on the operations of the Department

A major part of the budget has to be diverted towards advocacy processes and the publication of material for these processes. This will entail increased engagements with stakeholders and role players, which in turn will result in an increase in printing, travel and dialogue-logistics costs to the Department. There will also be a need for us to get additional technical skills on board for the development of the regulations and necessary strategies and mechanisms for the full implementation of the Bill.

7.4 Financial implications of each new activity

A percentage of the MTEF 2014/15 allocation budget to Sub-programme: Advocacy and Mainstreaming and Sub-programme: Monitoring and Evaluation in Programme 2: WEGE, will be diverted towards the publication of information

material for advocacy purposes as well as the CEDAW and B+20 reporting processes. At least R3 million is required for these purposes, which exclude travel and venues for advocacy, institutional support and capacity development purposes.

The implementation of the WEGE Bill will require an additional estimated R50 million immediately after its promulgation.

8. SUPPLY CHAIN MANAGEMENT

There were no concluded, unsolicited bid proposals for the year under review. Systems of internal control to regulate supply chain management processes were developed and implemented to prevent risks of occurrence of irregular expenditure.

There are systems in place to make sure that any transactions that resulted in irregular expenditure are reported. The systems are currently working as intended. Proof of this is the fact that there was a significant reduction in the number of new transactions reported as irregular expenditure in the year under review.

9. EXEMPTIONS AND DEVIATIONS RECEIVED FROM NATIONAL TREASURY

There were no deviations from the reporting requirements of the Public Finance Management Act (PFMA) or Treasury Regulations. The National Treasury did not grant any exemptions to the Department from the PFMA or Treasury Regulations in the year under review, or in prior years.

10. EVENTS AFTER REPORTING DATE

On 25 May 2014 the DWCPD was pronounced as the Ministry in The Presidency responsible for Women. The pronouncement included the transfer of Programmes 3: Children's Rights and Responsibilities; and 4: Rights of Persons with Disabilities, with their functions, from the DWCPD to the Department of Social Development.

Programme 2: Women Empowerment and Gender Equality and Programme 1: Administration; remained with the Department.

The newly announced Ministry of Women is positioned to ensure that the process and programmes for women's empowerment and development are appropriately aligned and embedded in all structures, institutions, policies, procedures, practices and programmes of government, its entities, civil society and the private sector.

The Ministry will continue to promote and support women to increasingly take up leadership and decision making positions, fight the feminisation of poverty and escalate participation of women in productive resources and in economic activities and opportunities. In addition, the Ministry will continue to strengthen the mobilisation of society against the scourge of discrimination, marginalisation and gender-based violence.

11. OTHER

There was an incident of burglary in the Department that occurred immediately after the reporting date of 31 March 2014. There was a loss of assets in the burglary incident of 21 April 2014 which was included in the value of assets reported in the annual financial statements and asset register as at 31 March 2014.

The value of stolen assets is estimated at R106 000 and is included in the value of assets of R12 074 reported on page 46 of the annual financial statement.

12. ACKNOWLEDGEMENT/S OR APPRECIATION

The Department would like to acknowledge the broader government support and cooperation that we received from other government departments, through participation at the quarterly machineries for women, children and disability. We would also like to acknowledge the support of the United Nations family of agencies in the respective sectors. Through these partnerships we were able to raise awareness on gender based violence and finalise critical research on children and women. The faith based sector also deserves our acknowledgement for allowing us to take the struggle on gender equality to a higher level. As a result, we were able to reach believers in their respective places of worship and initiate conversation on gender based violence.

I would like to thank the Minister and Deputy Minister for their unwavering support during the year under review. Their leadership enabled us to improve tremendously in achieving most of the set targets for the Department. I would also like to thank the Department's staff for the hard work they put in driving delivery on our programmes.

13. CONCLUSION

As the report demonstrates, significant progress was made in many areas of our work. We continued to improve the number of targets achieved and we managed to reach the minimum requirement of 80% in the year under review. We are also confident that we will maintain this in the coming years.

With regard to the resource constraints under which we are operating, we shall continue to engage the National Treasury for an improved allocation of resources. For us to effectively discharge our advocacy, mainstreaming and monitoring and evaluation mandates requires vast resources. However, we are determined to ensure that, where possible, we adapt and try to do more with less.

As part of our determination to build internal capacity, we will ensure that all vacant and funded posts are filled timeously so that we have the capacity and capability to fulfil our mandate.

14. APPROVAL AND SIGN OFF

The annual financial statements set out on pages 102 to 147 were approved by the Accounting Officer.

1.9 STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF ACCURACY FOR THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

All information and amounts disclosed in the annual report is consistent with the annual financial statements audited by the Auditor-General.

The annual report is complete, accurate and is free from any omissions.

The annual report was prepared in accordance with the guidelines on the annual report as issued by National Treasury.

The annual financial statements (Part E) were prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by National Treasury.

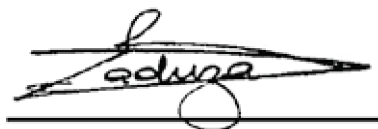

The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing, and implementing a system of internal control that is designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.

The external auditors are engaged to express an independent opinion on the annual financial statements.

In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the Department for the financial year ending 31 March 2014.

Yours faithfully

PART B: PERFORMANCE INFORMATION

THE AUDITOR-GENERAL'S REPORT TO PARLIAMENT ON THE PREDETERMINED OBJECTIVES OF VOTE NO. 8: THE DEPARTMENT OF WOMEN, CHILDREN AND PEOPLE WITH DISABILITIES

For the report of the Auditor-General of South Africa on the performance information or predetermined objectives refer to page 98 to 101 under the heading REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS paragraph 12 to 18.

2.2.1 Service delivery environment for 2013/14

During the period under review, the Department continued to implement the turnaround plan and this yielded positive results towards capacity and improving organisational performance. The Department made strides in building critical capacity by filling key posts such as at the Director General, Chief Director: Communication, Chief Financial Officer, Director: Risk Management, Director: Human Resources, Director: Strategic Management. For the first time since its establishment, the Department developed a Performance Management Development System (PMDS) and was able to meet and exceed the required minimum 80% on achieved performance targets. While we have management to reduce the vacancy rate, staff turnover remains a challenge for the organisation. A staff satisfaction survey conducted during the period under review, highlighted unacceptable levels of dissatisfaction among staff members, especially those below the senior management service (SMS) level. Areas of concern raised included non-conducive working conditions and lack of resources. To this end the Department introduces certain measures to improve working conditions within the Department. This however still remains a challenge, as the current location of the Department poses limited options for improvement. The Department is in continuous discussions with the department of Public Works for alternative accommodation.

The Department also faced challenges of increasing incidents of violence against women and children. In this regard the Department intensified its advocacy initiatives and formed partnerships with civil society including the religious sector. Through this partnership the department was able to reach a diversity of communities and initiate discussion on issues that are otherwise regarded as sacred. Through these partnerships the Department was able to increase; levels of awareness on violence against women and children and this saw a number of media houses running campaigns against gender based violence.

2.2.2 Service delivery improvement plan

The Department reviewed a service delivery improvement plan. The table below highlights the service delivery plan and the achievements to date.

2.2.3 Organisational environment for 2013/14

In the period under review, the Department increased its capacity by filling the critical vacancies such as Director-General, Chief Financial Officer, Director : Risk Management, Chief Director : Communication and Chief Director: Legal Services. The Department further filled the post of Chief Executive Officer for the National Council Against Gender-Based Violence. A number of other Senior Management posts were filled and this saw the Department continue to improve on the total number of targets achieved. While significant progress has been made in reducing the vacancy rate, staff retention still remains one of the major challenges in the Department.

As a highlight, the Department, for the first time since its establishment, fully implemented the performance management process with all assessments being subjected to a moderation process.

2.2.4 Strategic outcome orientated goals

Based on the revised approach in the year under review, the following strategic outcome orientated goals were identified-

Strategic Outcome Orientated Goal 1	The rights of women, children and people with disabilities realised.
Goal statement	The rights of women, children and people with disabilities fully integrated in legislation and national policies. Progress on trends in the status of women, children and people with disabilities monitored and reported on periodically as per national, regional, continental and international requirements, through the progressive development and maintenance of a Monitoring and Evaluation Framework. Continental and international commitments integrated into national planning and service delivery initiatives through coordination of strategic and catalytic cross-cutting projects.

Strategic Outcome Orientated Goal 2	Empowerment of women, children and people with disabilities, facilitated for equitable access to public and private sector programmes and services.
Goal statement	All women, children and people with disabilities reach their full potential and have equal and universal access to social, training, economic and political opportunities by removing attitudinal, physical and communication barriers preventing full participation and beneficiation.

Strategic Outcome Orientated Goal 3	An effective and efficient Department.
Goal statement	Internal processes and procedures, implemented to maintain an unqualified audit.

Strategic Outcome Orientated Goal 4	Reported incidents of gender-based violence reduced.
Goal statement	Violence against women and children is prevented, reported and reduced.

Highlights of significant achievements

- The Department invited community members of Diepsloot to partake and observe the 25th March 2014 in the spirit of fighting the scourge of gender based violence meted out to women, children and people with disabilities including vulnerable. But also to celebrate the day in the context of Orange Day, which is a day declared and launched by the Secretary General of the United Nations, Mr Ban ki Moon, as a UNiTE Campaign, which takes place on the 25th of every month to raise awareness and “Say No To Violence Against Women and Girls” in our communities. As a consequence the Department also facilitated programmes/projects such as for instance, Early Childhood Development (ECD) and responsible parenting, including applications for births certificate and identity documents to DHA as demonstrated on the same day in Diepsloot.
- The current trend in SA is that boys outperform girls in Maths and Science. Techno Girl is one of the South African government’s responses to these challenges. To this end the department through the Techno Girl programme has included a more systematic and sustainable approach to the initiative by introducing the Techno Girl Alumni which allows for support to be provided to the girls to enter tertiary institutions and supported to continue their studies in the STEM fields with the aim of assisting them with job placements thus ensuring as sustainable initiative.
- On 2nd November 2013, the Department in partnership with various provinces, hosted the National Children’s Day at UGU District led by the Office of the Premier and the District Municipality. The main objectives was to enable children to celebrate their childhood by, among other things: learning as they presented their project, educating each other, meeting and networking with their colleagues from other Provinces, appreciating the talents of all of them and enjoying the benefits from Children’s Rights and Responsibilities Programme. On the other hand this process also promoted the need for children to be sensitised to continuously speak out in public places, and also to guard against abuse, especially during holiday.
- The Department in association with the Airports Company of South Africa and Wheelchair Tennis South Africa held a media conference to welcome back the South African US OPEN QUAD champion, Lucas Sithole, who won his maiden grand slam title over American David Wagner, at the International Tennis Federation major event in New York on 08th September 2013. The press conference was held shortly after Sithole’s arrival at the OR Tambo International Airport.

- The Department formed a partnership with Primedia, and arranged and conducted a media briefing on national activities during the National Disability Rights Awareness Month, on the 31st October 2013 at Primedia House in Sandton. This is one relationship that has continued beyond the National Disability Rights Awareness Month and to educate media people around disability rights agenda.
- The South African Government, led by the Department of Women Children and People with Disabilities (DWCPD), in partnership with the Albinism Society of South Africa (ASSA), hosted the first ever conference on albinism to focus on the rights of persons with albinism. This National Conference was held in October 2013. The conference, among others, engaged on the development of positive language associated with albinism in all official languages, and also took forward the recommendations contained in the Report published by the Office of the High Commissioner on Human Rights on the Promotion of the Rights of Persons with Albinism.
- The Department in partnership with MTN Foundation SA handed over accessible computer (ICT) centre to Bartimea School for the Blind and Deaf. The event was held on Wednesday, 09th April 2014, at Bartimea School, Thaba-Nchu near Bloemfontein. Department together with MTN SA Foundation have formed a partnership to establish accessible computer laboratories and other specialised equipment that is responsive to the special needs of blind and partially sighted learners.

PART C: GOVERNANCE

1. INTRODUCTION

Commitment by the Department to maintain the highest standards of governance is fundamental to the management of public finances and resources. Users want assurance that the Department has good governance structures in place to effectively, efficiently and economically utilise the state resources, which is funded by the tax payer.

2. RISK MANAGEMENT

2.1. Risk governance and Committees

- The Department developed and approved a Risk Management Policy and Strategy;
- The Risk Management Committee met quarterly to monitor the implementation of Risk Management initiatives and activities in the Department. This Committee is formally appointed by the Accounting Officer in writing and it is regulated by the Risk Management Committee Charter/ Terms of Reference. The Committee is chaired by an external person who also serves as an Audit Committee member of the Department;
- Risk management is a standing item on EXCO, MANCO and Branch meetings' Agenda;
- The Chairperson of the Risk Management Committee reports to the Audit Committee on a quarterly basis on how the system of risk management is being implemented in the Department; and
- The Audit Committee provides its independent advice to Management on the effectiveness of the system of risk management in the Department.

2.2. Risk management function

- The Department's risk management function was strengthened by the appointment of a Director of Risk Management who assumed duties with effect from 26 August 2013.

2.3. Risk assessments

In line with the Treasury Regulations, Management met on 19 July 2013 to identify and assess the strategic risks facing the Department. A formal Strategic Risk Register was developed based on top Management's assessment of identified strategic risks and the mitigation measures needed. Strategic risk register is kept by the Department.

Following a strategic risk workshop, various business units performed an operational risk assessment to identify risks that posed a threat to the successful execution of the Department's operational plans. These included various types of risks such as IT risks, fraud and corruption risks, Occupational Health and Safety risks and performance information risks.

The MANCO, Risk Management Committee and the Audit Committee were kept apprised of the progress in relation to the risk management initiatives and activities.

Standardised reports were produced and included progress on implementation of the approved strategic risk mitigation strategies.

3. FRAUD AND CORRUPTION

During the year under review, a Fraud Risk Assessment was conducted. The fraud prevention strategy and plan was revised and updated with the results of the Fraud Risk Assessment.

The Department adopted the Public Service Anti-Corruption Strategy and ensured that the procurement policy, procedures and practices address fraud prevention. Internal awareness workshops on fraud prevention were also held with various levels of staff in the Department to promote ethical behaviour.

Currently the Department utilises the National Anti-Corruption Hotline that is administered by the Public Service Commission to report incidents of Fraud and Corruption. Cases get referred to the Department, the Department then takes a decision on whether to investigate the matter internally or the matter gets referred to external investigative bodies such as HAWKS, SIU and the SAPS Commercial Crime Unit.

4. MINIMISING CONFLICT OF INTEREST

All members of the Senior Management Service (SMS) were required to submit Financial Disclosure Forms to Human Resources Management by the due date of 30 April 2013. These forms, as well as the Gift Register, were scrutinised for actual or potential conflicts of interest.

All employees in the Department are furthermore required to request permission from the Director-General before they may perform any remunerative work outside the Public Service.

Members of different committees responsible for supply chain management (SCM) had to declare and sign declarations of interest during their committee meetings. They also undertook to adhere to the requirements of the code of conduct for bid adjudication committees. SCM Practitioners were issued with a code of conduct for SCM Practitioners and are required to sign the code of conduct form for SCM Practitioners.

5. CODE OF CONDUCT

The Department adhered to the Code of Conduct through workshops that were held in collaboration with the Department of Public Service and Administration (DPSA) during the 2013/14 financial year. There were two anti-corruption workshops held. Where breaches have taken place, some staff members have been subjected to disciplinary hearings and either given warnings and some subsequently dismissed for serious offences. The Department continues to ensure that it popularise its policies and also puts them on the intranet for the broader staff to note. Workshops will be held on new policies from time to time.

5.1. Purpose

The Code of Conduct is a set of guidelines established to ensure good governance and ethical conduct of public servants in terms of respect for human rights, the rule of law, accountability, transparency in Government and service delivery to the public, personal conduct and private interests. It is mandatory for public servants to acquaint themselves with the code to achieve a culture of zero tolerance towards corruption.

5.2. Introduction

The Public Servants need to be informed about their relationship with the legislature, political and executive office bearers, other employees and the public in terms of the spirit in which they need to perform their duties, avoiding conflict of interests, personal conduct in public and in private.

In the Department of Women, Children and People with Disabilities, the employees should be seen as public servants who uphold the rights of women, children and people with disabilities even in their private lives.

5.3. Responsibilities

- The Executing Authority and Public Service Managers at all levels should be role models in creating an appropriate environment in which values are established and set for all employees; and
- Section 195(1)(a) of the Constitution requires that a high standard of professional ethics must be promoted and maintained in public service administration generally. According to the Public Service Co-ordinating Bargaining Council (PSCBC) Resolution 2 of 1999 all employees in the Public Service have the responsibility to comply with the Code of Conduct. It should therefore be made known to all employees.

5.4. Guidelines on the provisions of the Code

Relationship with the legislature and the executive

- An employee is expected to be faithful to the Republic, to honour the Constitution and abide thereby in the execution of his or her daily tasks;
- Public Servants shall be loyal and faithful to their country, the Constitution and Democratic order. Any policies that are developed by Public Servants should not be in conflict with any stipulation of the Constitution of the country;
- All administrative actions and decisions should be able to stand the test of transparency; and

- Shall not abuse alcohol;
- Shall not accept gifts or monetary value in excess of R350 during performance of duties as this may be construed as a bribe;
- Does not use or disclose any official information for personal gain or gain of others; and
- Does not undertake any remunerative work outside his/her duties or use of office equipment for such without approval.

6. HEALTH, SAFTY AND ENVIRONMENTAL ISSUES

The Department has an Occupational Health and Safety (OHS) Policy in place. The Department believes that a safe and hazard-free working environment is one of the most important factors in promoting the commitment and performance of employees.

The Department has an Occupational Health and Safety Committee that looks into matters of safety and health in the workplace. There are efforts to improve the standards with respect to the building that is being leased from the Department of Public Works as some aspects do not meet the OHS requirements. An OHS implementation plan is ongoing and improvements have been made with respect to cleanliness, office accommodation, air conditioners, general safety, security, etc. Issues of Employee Health and Wellness are being considered and addressed through regular wellness days.

Health and safety issues in the Department have improved although there are still issues that need to be addressed. The following are some of the OHS matters attended to:

- The OHS Committee that deals with OHS matters was established and the committee members were appointed by the Accounting Officer in terms of the OHS Act of 1993;
- OHS Representatives were trained in October 2013;
- Inspections are conducted on a continuous basis and reports generated;
- Cleanliness has improved since the appointment of the cleaners;
- Meetings of the OHS Committee take place as required by the policy;
- Eva-chairs were purchased and emergency exit routes demarcated;
- First Aid kits and loud hailers are in the process of being purchased;
- Signage on non-smoking were erected in the Building; and
- Lighting in the corridors and evacuation routes improved.

7. PORTFOLIO COMMITTEE

Briefing by the DWCPD to the Portfolio Committee on the Budget and Strategic Plan 2013/14

The Department delivered its strategic and annual plan, noting that the vision and plans for 2013 had been tweaked, and that a new plan would be drawn for the next five years, starting from the next year. The main thrust of the work involved investigations into inequality, poverty eradication and health, HIV and Aids, unemployment and Gender Based Violence (GBV).

The Department aimed to empower women, particularly through the new legislation. It sought at least 50% representation of women. One of the main challenges was that its budget, at under R1 billion, was small in comparison to the mandate, particularly when the amounts for the Commission on Gender Equality were subtracted. There was as yet no separate budget for the Council on GBV, although its structure and governance were being reconsidered, but it presently sat under Programme 1.

Members expressed satisfaction that there had been a marked improvement from the previous year's strategic plan, noting the alignment to the key priorities of national Government.

Briefing of the Portfolio Committee by the DWCPD on the Fluxmans Report

The Committee firstly heard from the Minister of Women, Children and People with Disabilities that the Fluxmans' Report on the investigation into the Department of Women, Children and People with Disabilities (the Department) was completed. Matters at the Department were investigated as a result, partially, of irregularities in salaries, extra remuneration and other issues uncovered during an audit. A number of employees were implicated and disciplinary action was taken.

All those brought to disciplinary hearings were found guilty and all of them were subsequently dismissed, at different times from October 2012. The Minister also reported that there had been an investigation into how the DWCPD was run, and new systems had been implemented that would ensure that this negligence would not recur.

Briefing to the Select Committee on the Commission for Gender Equality (CGE) Bill.

The bill was presented and it was thoroughly explained that some of the sections were based on the interim Constitution and had to be aligned to the 1996 Constitution. The Committee adopted the proposed amendments.

The WEGE Bill was:

- First discussed at the Portfolio Committee on 14 November 2013;
- Deliberated upon through public hearings on 29 and 30 January 2014 and 6 February 2014;
- Adopted by the Portfolio Committee on 26 February 2014 and thereafter tabled at the National Assembly through a Parliamentary debate;
- Referred to the NCOP and provincial mandates that took place from 6 – 13 March 2014; and
- The NCOP final mandates meeting and amendments by the Select Committee took place on 25 March 2014.

The Bill will have to be re-tabled in 2014 so that it can be deliberated upon at the Portfolio Committee in view of amendments by the NCOP, then to the National Assembly and then final adoption by the NCOP for it to be an Act of Parliament.

8. SCOPA Resolution

The Department did not appear before the SCOPA during the year under review.

10. INTERNAL CONTROLS

The Department maintains internal controls and systems designed to provide reasonable assurance as to the integrity and reliability of the financial statements and to safeguard, verify and maintain accountability for its assets.

On an annual basis the Department identify and assesses the risks facing the Department and determines the impact and likelihood of such risks through the development of a Risk Register. Once the Risk Register is approved by the Management, monitoring of the implementation of mitigation measures and internal controls takes place at least quarterly to ensure that all risks are effectively managed.

No event or item has come to the attention of Management that indicates any material breakdowns in the functioning of the key internal controls and systems during the year under review.

11. INTERNAL AUDIT AND AUDIT COMMITTEE

Internal Audit scope of work

Internal Audit conducts independent and objective reviews and advisory services to provide reasonable assurance to the Department's Management, Audit Committee and Risk Management Committee that the Department's financial and operational controls are designed to manage the Department's risks and achieve the Department's objectives, are operating in an efficient, effective and ethical manner.

Internal Audit Risk-Based Audit Plan

During this period, Internal Audit developed and implemented risk-based plans informed by the Department's Strategic Risk Register. The Annual Internal Audit Plan 2013/14 was approved by the Audit Committee with the following Audit Projects:

- Review of the processes of Advocacy, Monitoring and Evaluation to confirm its adequacy /Review of the process undertaken to acquire information from different stakeholders;
- Review of processes to ensure compliance to laws, regional and international obligations;
- Supply Chain Management;
- Expenditure Management;
- Computer (IT) Audit (General and Applications Controls Review);
- Occupational Health and Safety Compliance Review;
- Human Resource Management;
- Review of the Communication Strategy to assess its adequacy /Review of the Partnership guidelines in place/ Marketing Strategy/ Review of the Outcomes of the Machineries;
- Performance Management Information (Quarterly Reviews);
- Compliance to required reporting requirements/ Assessment for Readiness on MPAT Review/ Internal Policy Register Verification;
- Follow-up on the Auditor-General's Report; and
- Consulting (Advisory) Services.

Audit Committee scope of work

The Audit Committee acts as an independent and non-executive advisor to the Minister and the Director-General and assists them in securing transparency and accountability as well as the sound management of the Department's revenue, expenditure, assets and liabilities. The Audit Committee controls and directs the Department's Internal Audit activity.

Audit Committee membership and attendance

The Audit Committee consists of the members listed below, who are independent members. In accordance with its approved terms of reference, the Committee is required to meet at least four (4) times in a financial year.

During the period under review, the Committee met more than four times and the meetings held and attendance are indicated below:

12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the Department of Women Children and People with Disabilities for the financial year ending 31 March 2014.

Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 38 (1) (a) (ii) of the Public Finance Management Act and Treasury Regulation 3.1.13. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this Charter and has discharged all its responsibilities as contained therein.

Independence of the Audit Committee

The Audit Committee is independent of Management in the execution of its duties. All the members of the Audit Committee were appointed from outside the public service pursuant to section 77 (a) (i) of the PFMA. The qualifications of the members and details of their attendance at meetings are included in the governance section of the Annual Report above.

As reported in the Governance section, Mr R Mnisi and Ms P Singh resigned as members during the year. The members remain committed to providing oversight and advice of a high standard.

The effectiveness of internal control

In line with the provisions of the PFMA and King Report III on Corporate Governance, Internal Audit provided the Audit Committee and Management with assurance whether the system of internal controls is adequate and effective.

Our review of the findings of the internal audit work, which was based on the risk assessments conducted in the Department revealed certain weaknesses, which were then raised with the Department.

The following internal audit work was completed during the year under review:

- Quarterly performance information;
- Review of interim financial statements;
- Supply Chain Management;
- Human Resource Management;
- Occupational Health and Safety compliance review;
- Information Technology general and application controls; and
- Follow-up Internal Audit and External Auditors Reported Audit Findings.

The following were areas of concern:

- Performance indicators which do not meet the SMART principles;
- Slow progress in implementation of agreed management corrective action plans to address identified control weaknesses; and
- Slow progress with implementation of Phase 1 of the Corporate Governance of Information and Communication Technology Policy Framework in the South African Public Service (CGICTPF) developed by the National Department of Public Service and Administration as evidenced by the following:
 - Ineffective Information Technology Steering Committee
 - Inadequate communication of Information Systems Security Policy within the Department
 - IT Disaster Recovery and Business Continuity Plan not formally implemented.

In-year management and quarterly report

We reviewed the quarterly reports prepared and issued by the Department to the National Treasury as is required by the PFMA. We are satisfied with the content and quality thereof.

Evaluation of financial statements

We reviewed the draft and unaudited annual financial statements prepared by the Department. In this regard, the Audit Committee has:

- Reviewed and discussed the unaudited annual financial statements to be included in the annual report, with the Accounting Officer and Management;
- Reviewed whether there are any changes in accounting policies and practices;
- Reviewed the Department's compliance with legal and regulatory provisions;
- Reviewed the information on predetermined objectives to be included in the annual report;
- Reviewed the quality and timeliness of the financial information availed to the Audit Committee for oversight purposes during the year such as interim financial statements;
- Reviewed the adjustments resulting from the audit; and
- Reviewed the Auditor-General's management report and Management's response thereto.

**Internal audit**

The Audit Committee is satisfied that the internal audit activity is operating reasonably effectively and that it has addressed the risks pertinent to the Department in its audits. However, the Audit Committee is of the view that the vacant positions (Director and Deputy Director) in the Internal Audit Unit have to be filled as a matter of urgency.

Risk management

The Audit Committee is satisfied that the Risk Management in the Department is effective and that the Strategic Risk Register compiled from the risk assessment workshops held during the year is being monitored and managed effectively.

External audit

Most issues raised by the Auditor-General during the previous financial years were addressed by the Department. The committee continues to monitor the action plan to ensure the remainder of matters not yet addressed gets resolved.

Conclusion

The Audit Committee concurs and accepts the conclusions of the Auditor-General on the annual financial statements and is of the opinion that the audited annual financial statements be accepted and read together with the report of the Auditor-General.

Advocate William Huma
Chairperson of the Audit Committee
Department of Women Children and People with Disabilities

PART D: HUMAN RESOURCE MANAGEMENT

1. Introduction

This report represents the status of human resources in the Department for the period 1 April 2013 to 31 March 2014.

As at 31 March 2014, the Department had a funded establishment of 151 approved posts, of which 133 posts were filled (excluding the Minister, Deputy Minister and temporary contract workers), 18 posts were vacant and in various phases of recruitment. This translated to a vacancy rate of 11.9% of funded posts, which was a reduction from the 19.3% at the beginning of the financial year. However, a further 61 posts remained unfunded due to budgetary constraints and are dependent on the allocation of additional funding before they can be filled to alleviate the critical shortage of capacity in the Department.

In the course of the year a number of internal transfers were implemented to enhance operational effectiveness and skills in the Department, and to correct the misalignment of the placements of a number of employees. In this manner the utilisation of employees was optimised to ensure that the limited available capacity was made available where the greatest need existed. This shall be an ongoing process and together with an audit of prevailing skills, it shall be ensured that competent personnel are employed on the basis of strategic and organisational priorities.

In the year under review the service delivery model of the Department will be revised in support of the 2015/20 Strategic Plan, the human resource requirements shall be reviewed in support of the strategic priorities and the anomalies in terms of the allocation of posts shall receive attention. The expansion of the establishment shall, however, be directly dependent on additional allocations being made for the appointment of additional staff.

The Department was able to facilitate training opportunities to employees in support of individual and organisational needs, and training shall continue to be provided in terms of the workplace skills plan. The implementation of the performance management and development system had initial challenges in terms of collective responsibilities, but these were addressed through orientation and awareness processes. The management of the performance management and development system shall be prioritised in the following financial year to ensure compliance with respective processes by all employees.

Due to a lack of funding, a dedicated employee health and wellness capacity has not yet been established to provide the full spectrum of required services. In the interim, a health and wellness coordinator was appointed to organise quarterly events to promote a healthy and active lifestyle and to promote voluntary testing for HIV and TB.

The Department shall continue to strive to promote the effective management of its human resources within the limited available resources to ensure a productive, healthy and motivated workforce.

2. Human resource oversight statistics

This report outlines the following key information on the human resources of the Department for the 2013/14 financial year.

2.2 Employment and Vacancies

The tables in this section summarise the position with regard to employment and vacancies. Note that the number of filled posts is in relation to the actual number at the end of the reporting period, and do not refer to movements that occurred within the period of reporting.

The following tables summarise the number of posts in the establishment, the number of employees, the vacancy rate, and whether there are any staff that are additional to the establishment. This information is presented in terms of three key variables:

- Programme;
- Salary band; and
- Critical occupations.

Table 2.2.1 Employment and vacancies by programme as at 31 March 2014

Notes:

1. Vacancy rate calculated against all funded vacancies but excludes the Minister and Deputy Minister, employees additional to the establishment and temporary contract workers.
2. The Department has not yet identified specific occupations as being critical - accordingly an indication is rather provided of respective occupational groups.

2.3 Filling of SMS Posts

The tables in this section provide information on employment and vacancies as it relates to members of the Senior Management Service (SMS) by salary level. It also provides information on advertising and filling of SMS posts, reasons for not complying with prescribed timeframes and disciplinary steps taken.

Table 2.3.1 SMS post information as at 31 March 2014

Table 2.3.4 Reasons for not having complied with the filling of funded vacant SMS posts - Advertised within 6 months and filled within 12 months after becoming vacant for the period 1 April 2013 to 31 March 2014

Reasons for vacancies not advertised within six months
Due to a previous over-expenditure on compensation, a moratorium was placed on the advertisement and filling of posts until additional funding was allocated 12 months later.
The reprioritisation of available resources led to the lateral transfer of incumbents. The resultant vacancies could only be advertised once a reprioritisation of the compensation budget was undertaken.
The post in the Ministry was filled at the discretion of the Executive Authority.
The post in the Office of the Director-General was only advertised subsequent to the appointment of the designated DG.
Reasons for vacancies not filled within twelve months
The filling of vacant posts was dependent on the finalisation of disciplinary cases with related to such vacancies.
Preferred candidates declining offers of appointment necessitating the re-advertisement of vacancies.

2.7 Signing of Performance Agreements by SMS Members

All members of the SMS must conclude and sign performance agreements within specific timeframes. Information regarding the signing of performance agreements by SMS members, the reasons for not complying within the prescribed timeframes and disciplinary steps taken is presented here.

Table 2.7.1. Signing of performance agreements by SMS members as at 31 May 2013

Note: excludes DG and CFO who were not obliged to submit their performance agreements due to their being appointed within 3 months of the specified timeframe.

Table 2.7.2 Reasons for not having concluded performance agreements for all SMS members as at 31 May 2013

Reasons
Orientation had to be given on the required template to be used to ensure consistency in the implementation of the system.
Due to capacity constraints and competing priorities, challenges were experienced between supervisors and supervisees to discuss and agree to the contracted performance.
A culture of performance management and development needs to be institutionalised in the Department.

Table 2.7.3 Disciplinary steps taken against SMS members for not having concluded performance agreements as at 31 May 2013

Reasons
None. Due to the developmental nature of the implementation of the system, orientation was provided through MANCO to senior managers. SMS members will be held accountable in the 2014/15 cycle.

2.8 Performance Rewards

To encourage good performance, the Department has granted the following performance rewards during the year under review. The information is presented in terms of race, gender, disability, salary bands and critical occupations.

PART E: FINANCIAL INFORMATION

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the financial statements of the Department of Women, Children and People with Disabilities set out on pages 102 to 147, which comprise the appropriation statement, the statement of financial position as at 31 March 2014, the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with the Modified Cash Standard prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the general notice issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Women Children and People with Disabilities as at 31 March 2014 and its financial performance and cash flows for the year then ended, in accordance with the Modified Cash Standard prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA).

Emphasis of matter

7. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Material underspending of the budget

8. As disclosed in the appropriation statement, the Department has materially underspent the budget on Administration and Rights of people with Disabilities to the amount of R10 984 000.

Additional matter

9. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary information

10. The supplementary information set out on pages 148 to 156 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

11. In accordance with the PAA and the general notice issued in terms thereof, I report the following findings on the reported performance information against predetermined objectives for selected programmes presented in the annual performance report, non-compliance with legislation as well as internal control. The objective of my tests was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

12. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected programmes presented in the annual performance report of the Department for the year that ended 31 March 2014:
 - Programme two: Women Empowerment and Gender Equality on page 38 to 41;
 - Programme three: Children's Rights and Responsibility on page 42 to 46; and
 - Programme four: Rights of People with Disabilities on page 47 to 50.
13. I evaluated the reported performance information against the overall criteria of usefulness and reliability.
14. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned programmes. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's *Framework for managing programme performance information (FMPP)*.
15. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
16. I did not identify any material findings on the usefulness and reliability of the reported performance information for the selected programmes.

Additional matter

17. Although I raised no material findings on the usefulness and reliability of the reported performance information for the selected programmes, I draw attention to the following matter:

Achievement of planned targets

18. Refer to the annual performance report on pages 33 to 50 for information on the achievement of the planned targets for the year.

Compliance with legislation

19. I performed procedures to obtain evidence that the department had complied with applicable legislation regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA, are as follows:

Annual financial statements, performance and annual reports

20. The financial statements submitted for auditing were not prepared in accordance with the prescribed financial reporting framework as required by section 40(1) (b) of the Public Finance Management Act. Material misstatements of accruals and unauthorised expenditure identified by the auditors in the submitted financial statement were subsequently corrected resulting in the financial statements receiving an unqualified audit opinion.

Human resource management and compensation

21. Funded vacant posts were not filled within 12 months as required by Public Service Regulation 1/VII/C.1A.2.

Internal audit

22. The internal audit function did not submit a report, detailing the performance against the annual internal audit plan, to the audit committee every quarter, as required by Treasury Regulation 3.2.7(d).

Procurement and contract management

23. Contracts and quotations were awarded to bidders based on points given for criteria that differed from those stipulated in the original invitation for bidding and quotations, in contravention of Treasury Regulations 16A6.3 (a) and the Preferential Procurement Regulations.

Internal control

24. I considered internal control relevant to my audit of the financial statements, performance report and compliance with legislation. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on non-compliance with legislation included in this report.

Financial and performance management

25. The management of the department did not implement effective controls to ensure accurate and complete financial statements.
26. Although management had established controls to ensure compliance with applicable legislation, these were not always effectively implemented, resulting in the reported instances of non-compliance.

Governance

- 27. The internal audit function did not make sufficient progress against the annual internal audit plan and thus did not report progress to the audit committee as required. This was due to internal audit not being sufficiently capacitated.

Rights of People with Disabilities (RPD)	13 694	11 148	2 546	18,6%

Narration to the Appropriation Statement

The variances of 8.3% in Administration and 18.6% in Programme 4 (RPD) are mainly as a result of underspending on Compensation of Employees due to vacant posts which were filled towards the end of 2013/14 financial year.

In the financial year under review the Department improved on the APP, despite the fact that it was not fully capacitated. This was done by implementing programmes and projects more effectively and efficiently with limited resources by enforcing controls and compliance.

Narration to the Appropriation Statement

Compensation of Employees: The under-spending of 13.1% is as a result of vacant posts which were filled towards the end of the 2013/14 financial year. The filling of the posts will have a positive effect on the 2014/15 budget and will decrease any under-spending.

In the financial year under review the Department improved on the APP, despite the fact that it was not fully capacitated. This was done by implementing programmes and projects more effectively and efficiently with limited resources by enforcing controls and compliance.

The underspending on Machinery and Equipment of 31.1% is as a result of delays in the delivery of Machinery and Equipment acquired by 31 March 2014. The procurement of capital assets going forward is linked to the operational plans of the branches.

ACCOUNTING POLICIES for the year ended 31 March 2014

Summary of significant accounting policies

The financial statements were prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated.

The historical cost convention was used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation.

Where appropriate and meaningful, additional information was disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1	<p>Basis of preparation The financial statements were prepared in accordance with the Modified Cash Standard. Under this basis, the effects of transactions and other events are recognised in the financial records when the resulting cash is received or paid. The “modification” results from the recognition of certain near-cash balances in the financial statements as well as the revaluation of foreign investments and loans and the recognition of resulting revaluation gains and losses.</p> <p>In addition, supplementary information is provided in the disclosure notes to the financial statements where it is deemed to be useful to the users of the financial statements.</p>
2	<p>Going concern The financial statements were prepared on a going concern basis.</p>
3	<p>Presentation currency Amounts were presented in the currency of the South African Rand (R) which is also the functional currency of the Department.</p>
4	<p>Rounding Unless otherwise stated financial figures were rounded off to the nearest one thousand Rand (R'000).</p>
5	<p>Foreign currency translation Cash flows arising from foreign currency transactions are translated into South African Rands using the exchange rates prevailing at the date of payment / receipt.</p>
6	<p>Current year comparison with budget A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.</p>
7	<p>Revenue</p>
7.1	<p>Appropriated funds Appropriated funds comprise Departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation).</p> <p>Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective.</p> <p>The net amount of any appropriated funds due to / from the relevant revenue fund at the reporting date is recognised as a payable / receivable in the statement of financial position.</p>
7.2	<p>Departmental revenue Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise.</p> <p>Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.</p>

8	Expenditure
8.1	Compensation of employees
8.1.1	<p>Salaries and wages Salaries and wages are recognised in the statement of financial performance on the date of payment.</p>
8.1.2	<p>Social contributions Social contributions made by the Department in respect of current employees are recognised in the statement of financial performance on the date of payment.</p> <p>Social contributions made by the Department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.</p>
8.2	<p>Other expenditure Other expenditure (such as goods and services, transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.</p>
8.3	<p>Accrued expenditure payable Accrued expenditure payable is recorded in the notes to the financial statements when the goods are received or, in the case of services, when they are rendered to the Department.</p> <p>Accrued expenditure payable is measured at cost.</p>
8.4	Leases
8.4.1	<p>Operating leases Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment.</p> <p>The operating lease commitments are recorded in the notes to the financial statements.</p>
8.4.2	<p>Finance leases Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment.</p> <p>The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions.</p> <p>Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:</p> <ul style="list-style-type: none"> • Cost, being the fair value of the asset; or • The sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.
9	Aid Assistance
9.1	<p>Aid assistance received Aid assistance received in cash is recognised in the statement of financial performance when received. In-kind aid assistance is recorded in the notes to the financial statements on the date of receipt and is measured at fair value.</p> <p>Aid assistance not spent for the intended purpose and any unutilised funds from aid assistance that are required to be refunded to the donor are recognised as a payable in the statement of financial position.</p>
10	<p>Cash and cash equivalents Cash and cash equivalents are stated at cost in the statement of financial position. Bank overdrafts are shown separately on the face of the statement of financial position. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.</p>
11	<p>Loans and receivables Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.</p>
12	<p>Payables Payables are recognised in the statement of financial position at cost.</p>

13	Capital Assets
13.1	<p>Movable capital assets Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.</p> <p>Where the cost of movable capital assets cannot be determined accurately, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1.</p> <p>All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) are recorded at R1.</p> <p>Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the movable asset is recorded by another Department/entity in which case the completed project costs are transferred to that Department.</p>
14	Provisions and Contingents
14.1	<p>Contingent liabilities Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.</p>
14.2	<p>Contingent Assets Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, the existence of which will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Department.</p>
14.3	<p>Commitments Commitments are recorded at cost in the notes to the financial statements when there is a contractual arrangement or an approval by Management in a manner that raises a valid expectation that the Department will discharge its responsibilities thereby incurring future expenditure that will result in the outflow of cash.</p>
15	<p>Unauthorised expenditure Unauthorised expenditure is recognised in the statement of financial position until such time as the expenditure is either:</p> <ul style="list-style-type: none"> • Approved by Parliament or the Provincial Legislature with funding and the related funds are received; • Approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or • Transferred to receivables for recovery. <p>Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.</p>
16	<p>Fruitless and wasteful expenditure Fruitless and wasteful expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the total value of the fruitless and or wasteful expenditure incurred.</p> <p>Fruitless and wasteful expenditure is removed from the notes to the financial statements when it is resolved or transferred to receivables for recovery.</p> <p>Fruitless and wasteful expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.</p>

17	<p>Irregular expenditure Irregular expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the total value of the irregularity unless it is impracticable to determine, in which case reasons therefore are provided in the note.</p> <p>Irregular expenditure is removed from the note when it is either condoned by the relevant authority or transferred to receivables for recovery.</p> <p>Irregular expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.</p>
18	<p>Non-adjusting events after the reporting date There was an incident of burglary in the Department that occurred on the 21st of April 2014. Assets to the value R106 000 were lost and are reported in note 25 of the Annual Financial Statements.</p>
